SKYWORTH
Lead the future

W82整机形态的设计理念来源于宇宙行星中的月球，屏幕曲直可变的理念正犹如月亮阴晴圆缺的变化，当屏幕从平直状态缓缓弯曲时，这正如新月到上弦月的过程，每一次弯曲，都是一次柔美与力量的破界新生，伟大神秘又具备极强的未来科技感。

W82曲直可变的OLED屏幕，曲直随心，多人观看时为平面电视，单人观看时秒变曲面电视，可通过语音控制或遥控器专属按键一键直达观影模式，屏幕可立即变形弯曲至2000R最佳观影曲率，图像不失真，观看不疲劳，用户时刻处于声音与图像的皇帝位，大景深画面呈现出更强的立体感，给您带来沉浸的观影体验。

得益于创维变形OBM技术，SKYWORTH W82采用4K OLED柔性玻璃及高张力、高屈服强度背板材料，使屏体柔而不软，通过机器人全自动贴合技术，完美解决了玻璃与背板曲率变化时位移的粘贴工艺及背板结构设计工艺。核心的价值点在于W82可曲可直，呈现出两种不同视角的画面。

Inspired by the curves of the moon, the screen transforms its shape with ease, moving from a flatscreen TV and flexing to a curved screen depending on your viewing mode, creating an all-new TV experience for everyone to enjoy.

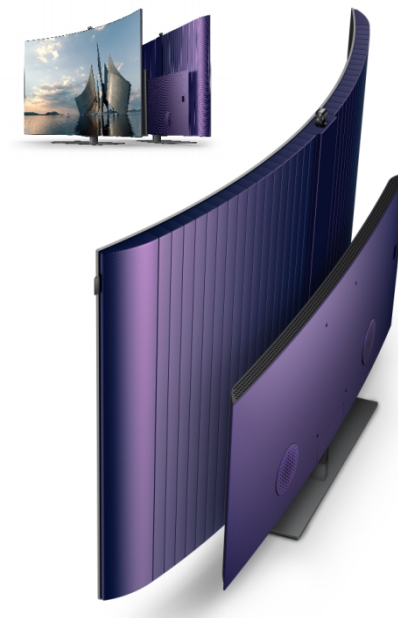

Follow your heart and flex the W82 transformable OLED screen as you like. Acting as a flat-screen TV when there are multiple viewers, the TV can be easily transformed into a curved-screen TV when there is just one audience. When users switch to the viewing mode with just a click on the remote control, the TV will simultaneously be transformed to the best viewing curvature of 2000R, while preventing the picture from getting distorted. Users will not get tired easily as they are always watching at the best position, whilst the deep depth of field creates an immersive experience.

Thanks to the SKYWORTH OBM Transform technology, SKYWORTH W82 is made of a 4K OLED flexible glass, high-tension and high-yield-strength backplane materials, which enables the flexibility of the screen without sacrificing its solid foundation. The fully automated lamination technology eliminates displacement issues of the glass and the backplane as the screen transforms its shape.

一次性全降解马铃薯全薯+淀粉+亚麻纤维超市用净蔬托盘所用原材料来源广泛、成本价格低廉，且长期稳定。在原料的选用中始终秉承绿色环保无公害原则。采用短期生长且种植广泛的马铃薯（弃薯）、淀粉为主要原料，再配以亚麻类植物长纤维，使产品更具有韧性。

本产品主要采用 α 热糊化发泡定型技术及精密微孔透气技术，经过高温高压精密的热定型模具压制而成，同时还有效杀灭原材料中残留的有害因素。采用独特的高温发泡技术使产品在壁层中形成无数个泡状球形而具有较好的保温、隔热性能，充分的利用了淀粉本身较好的吸水性能及在高温糊化后形成的淀粉变性特征，其可快速的吸附周围环境中的水份，若周围环境变的干燥时，可通过自身保持的水份对包装内的鲜果提供适量的湿度，从而使鲜果保持更为长久的新鲜。

适用范围：超市用果蔬包装底衬托盘、高铁、飞机等短期食品包装及其他可适用环境等。

专业团队历时10年的潜心研发，近百种天然原料的筛选，上千次配方的试验以及工艺优化与生产设备的升级，再次突破行业水平，使成本较同行减少5%-7%。产品可以在适宜的自然环境下，30-180天可全自然降解；大量使用后的产品可通过自然堆肥措施，在合适的环境中转化为有益的有机肥，不产生任何垃圾残留及污染物，对环境不造成二次污染。

The fully degradable containers for vegetables and fruit are mostly made of discarded potatoes and starches together with long flax fiber. Such raw materials are adequate and stable in supply, cost-efficient, eco-friendly and pollution-free, making the containers more resilient.

With gelatinization, foaming and precise microporous venting at high temperature and pressure, the molded products are free from harmful factors in the raw materials. The high-temperature foaming results in countless bubble-like pores inside the finished product, ensuring good heat insulation. The starch gets even better at absorbing moisture due to gelatinization-based denaturation, capable of keeping vegetables and fruit fresh for a more extended period by providing an appropriate humidity in a humid or dry environment.

Usage scenarios: The containers can be used in various places, including supermarkets, high-speed trains and airplanes, where short-term packaged food is sold and served.

Over ten years, the R&D members have screened nearly 100 natural raw materials, tested more than 1,000 formulas and optimized production processes and equipment for making the best product. Thanks to their devotion, they have made another industrial record by reducing the cost by 5%-7% compared with peers. Our product can be completely degraded in 30-180 days in a suitable natural setting or converted into organic fertilizer through natural composting, emitting no waste residue and primary or secondary pollutants to the environment.

AIH-36A3是包含了下嵌式烟机和四头电磁炉二合为一的烟灶一体机。打开油烟机, 油烟迅速被吸走从下部排出, 减少其跑走的机会, 油烟不再轻易的飘到用户脸上身上, 也极少跑到外界, 烹饪后既不会满身油烟, 厨房也不会油腻, 降低厨房清洁的难度。设计简单容易清洁, 高效简约, 安装简易。烟机就藏于炉具的中间, 设计新颖, 不占用多余的厨房空间。内置油网和活性炭, 吸油除味, 可内排可外排, 营造新的生活方式。

用户可以在当地购买下部排气管。排气位置灵活多变。不占用橱柜空间。

高端黑晶玻璃面, 容易清洁, 一抹即净。电磁炉防干烧、带童锁功能, 安全烹饪。可承受骤冷骤热, 抗温度冲击, 热效率高, 无火环保, 外形美观, 寿命长久。

AIH-36A3 is an all-in-one machine that combines down-draft cooker hood and 4 cooktops induction hob. When the induction cooktop runs, you can open the cooker hood so that lampblack is quickly sucked away and discharged from the lower part, greatly reducing the chance of smoke running away. The lampblack is no longer easily inhaled by the user. After cooking, the user will not be covered with lampblack and the kitchen will not be greasy, greatly reducing the difficulty of cleaning the kitchen. The design is simple and easy to clean, efficient, luxurious, and comfortable, and it's easy to install. The cooker hood is hidden in the middle of the hob, the design is novel and does not take up redundant kitchen space. The built-in oil mesh and charcoal filter can adsorb the oil and remove odor by discharging it inside or out to create a new way of life.

The lower exhaust pipe can be purchased locally. The exhaust position is flexible and changeable. It doesn't take up cabinet space.

The high-end black crystal glass surface is easy to clean. The induction hob design with anti-dry cook and child lock is safe for cooking. It can withstand shock cooling or shock heating, with high thermal efficiency, beautiful appearance, and long life.

HD除湿机是集合除湿、净化、干衣于一体的多功能产品,一机多用,节省空间,打造健康生活环境。该产品搭载智能AI模块,可智能监测室内空气湿度和空气质量,帮助室内自动除湿控温、同时保持空气清新。

与传统除湿机相比,该产品搭载超大的触摸操作屏,操作更便捷、更舒适。保持大功率运行的同时,噪音低至36dB,超大幅度地降低对用户作息造成的影响。产品背面配置电源线自动收纳器,最大限度地减少电源线外露给老人和小孩所带来的潜在危险。产品保持了简洁且精致的设计。搭载可拆卸的万向轮,移动方便。精细磨砂触感,精致细腻,更符合现代家居的环境。

该设计为一款性价比极高的产品。外形简洁,结构紧凑,性能高,成本低,装柜量大,精巧的设计提高了15%的生产效率,帮助公司带来更高的经济效益。

The HD dehumidifier is a multi-functional product that is integrated with dehumidification, purification, and clothes-drying. One machine with multi-functions can save space, and build a healthy living environment. This product is equipped with intelligent AI modules that intelligently monitors interior air humidity and air quality, helping indoors to automatically remove moisture control, while maintaining air quality.

Compared with traditional dehumidifiers, the product is equipped with a large touch operation screen, which is more convenient and comfortable. Maintaining high power operation though, the noise is as low as 36dB, which reduces the impact on the user's work. The back of the product is equipped with a power cord auto storage, which reduces the potential danger of the extension of the power cord to the elderly and children. The products have maintained a simple and exquisite design. Equipped with detachable universal wheels, it's easy to move. The fine matte touch with exquisite and delicate features make the product more in line with the modern home environment.

This design is a very high cost-effective product. The shape is simple, compact, high-performance, low cost, with large amount of installation. The ingenious design has increased production efficiency by 15%, helping the company to bring more economic benefits.

面对所有褶皱与坎坷,抚平它们成为了一种幸福的能力。有型有颜有力的它,干净而不失简约气质。适合家居、旅行、商务,小巧便携。平挂双熨模式,即熨即穿,重塑线条利落感。一键控速,按键离手,快速控汽,告别褶皱烦恼。

该款蒸汽刷利用了新的创新智能感应补水技术,红外感应实时探测水量放置即15秒的快速自动补水,告别频繁加水,子母双水箱设计,灵活切换旅/居模式。70毫升的可移动水箱,紧凑的结构,易于保存和旅行,具有最佳的人体工程学设计,同时兼顾更高性能与更大水箱。流动的线条与环形的扳机设计,将用户引导到最舒适的手部位置,并具有最佳的重量分布以防止疲劳。

手柄的设计充分考虑了用户的人体工程学,在操作的过程中,左右手操作,互不干扰。借鉴手枪扳机的设计,有效防止脱落和防滑。水箱的设计充分解决了上下加水不便的烦恼,在实际的

操作体验中,支持单手操作,随时加水,不需移动水箱。智能感应补水系统使得操作更简单,即插即自动补水,释放双手。子母水箱的设计,解决居家及旅行两用不便的烦恼。

When you face all the wrinkles and bumps on clothes, smoothing them becomes a kind of happiness. This small and portable machine is stylish, powerful, clean, and simple, which is suitable for home, travel, business. The flat hanging double ironing mode and one-button speed control enable you to control the steam and say goodbye to wrinkles.

This machine uses an infrared sensor system to detect moisture in real-time and automatically replenish within 15 seconds. Therefore, you don't need to frequently replenish water. There are two tanks, very suitable for travel and family use. The 70ML removable tank is compact, easy to store and travel, The Ergonomic design is optimal with improved performance and larger tanks. The smooth line and ring trigger design can guide the user to the most comfortable grip position and have the best weight distribution to prevent fatigue.

The design of the handle fully shows the consideration of ergonomics for the user, during the operation you can operate with the left or right hand without disturbing each other. Draw lessons from the design of trigger of the pistol, effectively prevent falling off and skid. The design of the water tank fully solves the inconvenience of filling water up and down. In the actual usage, support one-hand operation. You can fill water at any time without moving the water tank. Intelligent sensing water-replenishing system is simple to operate and replenish water automatically to free your hands. The design of two water tanks can satisfy both home and travel.

造型上,产品采用简单几何化设计,将更多的焦点聚集于产品功能本身,简单、易用。材料上,整体采用ABS塑料注塑成型,局部按键采用铝件冲压,一方面,方便产品销售和颜色搭配,另一方面,尽可能地降低产品的成本又不失产品的品质感。颜色上,采用网络上流行的网红配色,符合大众消费心理。

通过按压顶部按钮,释放气瓶中的食用级二氧化碳,将其注入水瓶当中,即可畅饮气泡水。

居家便携两用,瓶口连接模块化组件可拆卸,机体上部设置便携式组件仓,可将仓内便携式配件安装至瓶体上便携使用。该产品可适用于糖水、茶饮、鸡尾酒及各种饮料,可拆卸子机设计,清洗方便。出气喷嘴防回流出气喷嘴末端增加单向阀,防止液体回流。

In terms of shape, the product uses a simple geometry design, and more focus is gathered on the product function itself which is simple and easy to use. In terms of material, the overall product uses ABS plastic injection molding, and the local buttons are stamped. On the one hand, it facilitates product sales and color matching. On the other hand, it minimizes the cost of the product and the quality of the product. In terms of color, it uses red color which is popular on the network, and it is in line with the psychology of mass consumption.

By pressing the top button, it releases the amount of carbon dioxide in the gas cylinder which then is injected it into the water bottle, and the water is ready for drink.

It can be used at home and on portable travel. The bottle port is connected to modular components which are detachable, and the upper part of the body is set up, and the portable accessories within the bun are portable to the bottle. The machine can be detachable cleaning water, sugar water, tea, cocktails and various drinks, Removable machine design, convenient cleaning. Exhaust nozzle prevents the air flowing back and the one-way valve prevents liquid reflow.

此机型在传统T型机基础上重新定义了导风板及进风口的方式。引用鸟类“展翅”时形状设计,由中间不锈钢导油板和左右两侧玻璃导风板组成,箱体内部设有电动推杆可同时驱动左右两侧的导风板进行开合,外加长条形大油杯。整体设计新颖实用。

此产品为家用式吸油烟机,可将炉灶燃烧的废物和烹饪过程中产生的对人体有害的油烟迅速抽走,排出室外,同时将油烟冷凝收集,减少污染,净化空气,并有防毒、防爆的安全保障作用。

此产品的创新点:展翅式导风板设计,设计新颖。4处进风口设计,防止油烟外逸。触摸手势开关设计,解放双手。3挡可调色灯光设计,给消费者更多的选择体验。4档位无刷电机加持,静谧无声,低档位换气功能等。

Based on traditional T-type cooker hood, the designer redesigns air inlet guider and the way of air inlet. It's enlightened by the spreading wings of bird and combined with SS oil guider in the middle and glass air guider on the both sides. There is an electric lift in the body, which can drive the air inlet guider on the both sides to open and close at the same time, and a large strip-shaped oil cup is added. The overall design is novel and practical.

This product is a household cooker hood, which can quickly remove the waste from the stove and the harmful smoke generating during the cooking process, and discharge it outside. At the same time, it will condense and collect the smoke and oil to reduce pollution and purify the air, playing a safety role of anti-gas and blast-proof.

The innovation of this product: The outstretched wings design of the air inlet guider is novel. 4 air inlets are designed to prevent smoke from escaping. This model is fitted with motion controls to free the consumer's hand. The 3-levels color adjustable lighting design can offer more choices to consumers. The 4-speed brushless motor will create a quiet environment and low gear position ventilation function.

产品整体外观富有科技时尚感, 颜色有经典白, 时尚墨绿, 高贵香槟; 底部设计稳固脚和防滑胶, 起到双重防滑稳固效果; 垂直风道设计, 静音效果更佳; 顶部网格状出风口搭配炫酷灯光效果, 富有科技时尚感。

高效复合型滤网, 结合预过滤网、HEPA12滤网, 双层活性炭滤网, 过滤效果加倍。区别于市面上普通的纯滤网或者滤网+负离子净化器, 本产品增加了紫外线杀菌消毒功能, 杀菌率达99.9%, 在很大一定程度上增强了净化效率。同时800万负离子释放, 时刻清新您身边空气。

本产品专注于风风格栅的设计, 在格栅本体方面, 改变格栅条的迎风面, 使其呈中部凸起、两侧部逐渐下沉状, 宽度不做限制; 风风格栅包括内定位件和外定位框, 能够快速方便地实现格栅本体的安装; 这样的设计, 使得产品能够在有效地阻挡杂物和保证自身结构强度的前提下, 降低出风阻力, 提高出风效率, 降低出风噪音。

The overall appearance of the product is full of scientific and fashionable sense, and the colors are classic white, fashionable dark green, and noble champagne. The bottom is designed with stable feet and anti-slip glue, which can achieve anti-skid and stability. The vertical air duct design has a better mute effect. The air outlet is matched with cool lighting effects, which is full of technology and fashion sense.

High-efficiency composite filter is combined with pre-filter, HEPA12 filter and double-layer activated carbon filter to achieve the filtering effect. Different from the ordinary pure filter or filter with negative ion purifier on the market, it has added ultraviolet sterilization and disinfection function, and the sterilization rate is 99.9%. To a large extent, the purification efficiency is enhanced. At the same time, 8 million negative ions are released to refresh the air around you at all times.

This product focuses on the design of the air outlet grille. In terms of the grille body, the windward side of the grille bar is changed to make it convex in the middle and gradually sinks on both sides. The width of the air outlet grille is not limited. The air outlet grille includes the inner positioning piece and the outer positioning frame, which can quickly and conveniently realize the installation of the grille body. This design enables the product to effectively block debris and ensure its own structure under the premise of strength. It reduces the wind resistance, improves the wind efficiency, and reduces the wind noise.

可升降厨师机为烹饪美味佳肴而生,释放双手制作美食。设计灵感来源于流线型发动机美学,经典美学设计,成就一款艺术品厨师机。根据不同硬度,不同分量的食材,调节搅拌碗的高度,模拟专业制作师的技术,让食材间的距离达到最佳状态,均匀融合,达到理想的处理效果。

机构改良:灵感源于发动机美学,设计流线型造型,涡轮式内腔设计,增强循环立体散热,更稳定的工作效率,减少厨房噪音,让用户在低噪音的环境下创造经典美食。

功能改进:根据需要安装不同配件,可配榨汁杯、研磨杯、绞肉器、切菜机等使用;增加离合结构,防止同时操作不同配件,确保使用安全,延长使用寿命。

The kitchen machine can create a delicious meal, freeing both hands to make food. The design is inspired by the streamlined engine aesthetics. The kitchen machine can process ingredients completely. Based on different hardness and components of the food, the machine can adjust the height of the mixing bowl, which simulates a professional chef to mix the ingredients perfectly and achieve the desired processing effect.

Mechanism improvement: Inspired by engine aesthetics, the product has a streamlined shape and interior turbine to enhance cyclical heat dissipation, offering more stable work efficiency and reducing kitchen noise. It enables you to create classic cuisine in a low-noise environment.

Function improvements: According to your need, the machine can be coupled with different accessories, such as blending jar, grinding cup, meat grinder, vegetable cutter, etc. The clutch structure is added to prevent different accessories from being operated at the same time to ensure safety use and prolong service life.

产品采用了行业独创的周向360°送风技术,创新式的环绕出风重新定义了循环新体验,送风范围更广,覆盖更多人,沁凉柔肤,焕然清新;通风换气效率更高,有效加快空气流动速度,让鲜活空气循环满室;一体式触摸显示界面,玲珑小物,户外可用,轻松便携。

高速聚流低噪涡轮风叶设计使得送风更静音更舒适;滑轨提手一体化设计,用户携带移动更便利;多种左右角度(60°、120°、180°)自动摇头配合90°俯仰调节实现广角送风,广域送凉,清凉满屋;整机前网、风道易拆洗设计,让清洗更方便。

多人同时享凉更适宜,更多吹风选择,体验舒适,四季适用;直流变频电机、降噪增压风道设计让风感更加柔和细腻;免插座设计,特设TYPE-C接口可户外搭配充电宝使用,提升了兼容性及便利性。

The product uses the industry's original shaft 360° air supply technology. The innovative surrounding wind has redefined the new circulation experience, and the air supply range is wider which covers more people with cool and refreshing feeling. The ventilation emission efficiency is higher which effectively accelerates the air flow speed, and lets

the fresh air circulation room. The integrated touch display interface is exquisite for indoor and outdoor use, and it's easy and portable.

High-speed polyfluid low-noise turbine wind blade design makes it more comfortable to blow the air, and the sliding rail handle integrated design enables user carry it more convenient. A variety of left and right angles (60°, 120°, 180°) can be automatically shook with 90° pitch adjustment to achieve wide-angle air supply with wide-area sewer to cool the house. The design of machine's front net and wind hole is easy to remove and clean.

It is more suitable for many people to enjoy the coolness at the same time and experience the comfort and it's applicable in four seasons. DC frequency conversion motor and noise reduction boost airway design make the style softer and more delicate. Plug-free design with a Type-C interface can be used outdoors with a charge bank, improving compatibility and convenience.

该冰箱颜色灵感来源于蓝宝石,蓝宝石也叫“海洋之星”,具有极其罕见的深蓝色,象征着忠诚和坚贞,给人一种高贵又冷静的视觉感受。采用宝石质感般的玻璃面板结合精工雕琢抗磨损的现代工艺美学,并充分汲取原创新纺织专利的布纹之美感,做出有“温度”的冰箱,再加以高贵冷静的色彩设计与家居环境恰当融合,诠释新时代表家居美学。

该冰箱核心技术覆盖面广,是保鲜技术的集大成者。精细化分储设计,每处空间都有物品放置的建议。打破固有保鲜界限,360°全方位守护食材,为所有食材提供安全、健康、长久的储存空间。

该冰箱具有众多创新点,从各个角度为用户带来优质的储鲜体验。分别为拥有“细胞微休眠水润焕鲜科技”的轻氧果蔬舱、拥有“-5°C细胞级凝鲜科技”的魔法凝鲜区、拥有“-33°C深冻保鲜技术”的冷冻空间、母婴模式4°C恒温场、PLASMA全空间除菌净味系统、以及隐藏流线型把手等创新点。

The inspiration of the refrigerator color comes from sapphire, which is called as “The Star of Ocean”. It's extremely rare dark blue symbolizes loyalty and firmness, giving a noble and calm feeling. The glass panel with gemstone sense is combined with the modern technology of elaborate carving, and fully extracts the beauty of the original textile patent, creating a textural quality. Moreover, with noble and calm color design, it is appropriate for household environment and illustrates the new era of home aesthetics.

This refrigerator owns multiple core technologies in the field of fresh preservation. Refined storage design and each space has a suggestion for item placement. It breaks the traditional fresh keeping concept to achieve all-round food keeping, and provides a safe, healthy, long-lasting storage space for all ingredients.

The refrigerator has many innovations, which brings excellent experience to users from all angles. It has fruit and vegetable zone with “cells micro-dormancy refreshing technology”, magic zone with “-5°C cell-level fresh keeping technology”, freezing zone with “-33°C deep freezing technology”, 4°C constant temperature field for infant and mother, PLASMA full space sterilization system, and concealed streamline handles and other innovations.

我们这款陶瓷发泡产品源材料85%以上是固废废弃物, 5%是生产循环固废, 剩余的是建筑余泥(工地废土)。采用精控发泡技术, 经1200°C高温焙烧后形成的一种高气孔率低密度闭孔瓷化无机建筑材料。

产品主要运用于商用普通分隔墙。隔声增强板, 雕刻类产品。

该产品为用户提供整体解决方案, 系统解决分户楼板采暖隔热及隔声问题。还能作为艺术天花, 屏风, 雕刻类产品的原料。(本图是装饰外墙应用效果图)

More than 85% of the source material of our ceramic foam product is solid waste. 5% of it is made of recycled solid waste, and the remainder is construction sludge (construction site waste). It is a kind of high-porosity, low-density, closed-cell porcelain inorganic building material formed by adopting precise control foaming technology and calcined at 1200°C.

KITO's ceramic foam insulation products can be used for the construction and decoration of buildings, villas, museums, hotels, subway stations, hospitals, art scenes, and other places.

This product provides users with an overall solution, and the system solves the problems of household floor heating, heat insulation, and sound insulation. It can be used to make artistic ceilings, screens, and carving products (This image shows: KITO foam ceramic deep carving exterior decor wall)

净水、自来水二合一厨房龙头,独立双水路互不干涉,用水更安全;柔光雅黑表面采用先进电泳工艺,配合陶瓷嵌件手柄更显优雅。

净水器采用美国3M四层滤芯,层层过滤,安全无忧;设计进水耐压装置,进水耐压可达1.0MPa,解决传统净水器进水压力一般不能超过0.4MPa的问题;原材料采用无铅铜设计,符合美国UPC认证要求。

厨房龙头可兼容其他品牌的净水设备,提供更灵活和多样化的净水方案。

The 2-in-1 kitchen faucet has filtered water and running water in two separate waterways, providing a safer and cleaner drinking water solution. The matt black finish uses advanced electrophoresis, matching well with the white ceramic-embedded handle.

With the American 3M 4-layer filter cartridge, the kitchen mixer is able to provide high quality and safe water. Working pressure for filter has been enhanced to 10 bar, which is much higher than the pressure limit for regular filter system (4 bar). Featuring American UPC certified lead-free raw materials.

This kitchen faucet is designed to be compatible with filter equipments of other brands, offering flexible and various filtering solutions.

我们研发设计了一款通过纯物理结构形式, 不含化学药剂, 能够有效防止水垢形成, 效率高达76%的产品。并且其中添加银离子具有抗菌抑菌的作用, 不会对水质有任何影响和改变。我们采用与积水管道相同的PPR材质, 重量更轻, 成本更低。PPR塑料外壳上的凹凸渐变纹理, 除了增加产品表面摩擦力便于组装, 还具有指引指示作用, 表明进水口和出水口的位置方向, 便于安装。

水流流经内部螺旋金属结构产生物理反应离子极化从而改变水中的钙镁离子结构形态但并没有破坏钙镁离子, 从而达到降低了水垢的目的。在金属连接部件的扭曲纹理易于部件组装的同时, 在形式上也表达水流从此处流进后的一种内部流动形式。

在PPR管道系统当中会有不同的色彩方案, 以满足不同的客户需求, 所以在形式设计上我们必须能够驾驭多种颜色以适应不同的管道系统方案。

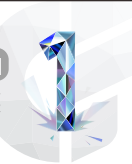

We developed and designed a purely physical structure that does not contain chemical agents, which can effectively prevent the formation of scale, and the efficiency is as high as 76%. And the addition of silver ions has antibacterial and antibacterial effects, and will not have any influence or change on water quality. We use the same PPR material as the water supply pipe, which is lighter in weight and lower in cost. The concave-

convex gradual texture on the PPR plastic shell not only increases the surface friction of the product to facilitate assembly, but also has a guiding and indicating function, indicating the position and direction of the water inlet and outlet, which is convenient for installation.

The water flowing through the internal spiral metal structure produces physical reaction ion polarization to change the structure of calcium and magnesium ions in the water but does not destroy the calcium and magnesium ion, achieving the purpose of reducing scale. While the twisted texture of the metal connecting parts facilitates the assembly of the parts, the form also expresses a form of internal flow after the water flows in from here.

There will be different color schemes to meet the needs of different customers in PPR pipeline system. In the form of design, we must be able to use a variety of colors to adapt to different pipeline system schemes.

一款能戴在手指上的无线条码扫码器, 指环般大小的形态, 配有微型的扫码摄像头, 扫描出的数据通过蓝牙传输到终端, 适用于经常扫描条码的移动工作人员, 解放双手的同时更加快速、安全的执行条码扫描任务。

条码扫描: 支持CODE 128、QR CODE、PDF417等各种尺寸条形码的扫描, 解码识别速度经自研智能算法处理后可达到毫秒级别。无线方案: 指环式扫描器采用无线连接方案, 在解放双手的同时不受数据线干扰, 极大提升了扫描效率和扫描能力。分体式底座: 指环式扫描器和底座分体设计, 底座可作充电及数据传输作用, 体积小不占用空间, 充电快速且续航时间可达5小时。智能补光。

指环式佩戴: 摒弃传统扫描枪需要手持的模式, 指环式扫描器仅需戴在一根手指上即可进行扫描工作, 在扫描之余不影响正常的双手操作, 可大大提升工作效率, 减少手持的不变。智能感应扫描: 传统扫描与人工智能的技术结合, 使得指环扫描器可在有条码在前方时自动触发扫描状态, 而平时则自动休眠减少功耗。持续扫描: 开启持续扫描模式后则不再需要每次扫描都按下扫描键, 指环扫描器自动处于常扫描状态, 进一步解放双手操作。

A wireless barcode scanner that can be worn on your finger has a constant shape and a micro scan code camera. The scanned data is transferred to the terminal via Bluetooth, and it is suitable for mobile staff who often scans the barcode. It liberates both hands at the same time, and the barcode scan task is faster and safe.

Barcode scan: Supports scanning of various size barcodes such as Code 128, QR Code, PDF417, and decoding identification speeds can reach milliseconds after the self-developing intelligent algorithm is processed. Wireless solution: The ring-type scanner uses a wireless connection scheme, which is not subject to data cable while liberation, which greatly enhances scanning efficiency and scanning capabilities. Splitted base: Referring to a chain scanner and base split design, and the base can be charged and used as data transmission. The size is small, but the charging is fast and the battery life is 5 hours. Intelligent fill: In the case of insufficient light, the finger-type scanner automatically induces ambient light state.

The pole-style wearing abandoned the traditional scanner that requires a handheld mode, and the finger ring scanner can only be scanned on a finger. If the scan does not affect the normal two-handed operation, it can greatly improve work efficiency and reduce handheld constant. Intelligent induction scan traditional scanning and artificial intelligence technology, so that the ring scanner can automatically trigger a scan status when there is a bar code, and it usually sleeps to reduce power consumption. After the continuous scan mode is turned on, you will no longer need to press the scan key each time, and the ring scanner is automatically in the normal scanning state, and further liberates both hands.

铝塑管安装过程中需要将管拉直以方便铺设, 现在都是用手进行弯折拉直, 效率低, 并且管道表面不顺滑容易增加后期铺设难度。我们通过简单的结构设计, 可以轻松拉直铝塑管提高效率, 并且表面更加顺滑。在保证人机工程学的基础上, 简洁的形式和颜色的选择上与品牌建立联系, 便于操作并且节省力气, 方便携带。

铝塑管有两种大小规格16mm和20mm, 为了降低生产中的模具成本, 我们只需要改变轮子的尺寸, 而不需要改变尼龙塑料手柄部分, 就可以用机器来制作2种适合不同规格的产品, 包括16毫米和20毫米。

Traditionally, during the installation of aluminum-plastic pipes, the pipes needed to be straightened to facilitate laying. They were bent and straightened by hand, which is inefficient, and the unsmooth surface of the pipes would increase the difficulty of later laying. Now, through a simple structural design, we can easily straighten the aluminum-plastic tube to improve efficiency, and the surface is smoother.

On the basis of ensuring ergonomics, the concise form and color selection show our brand, the tool's rollers spiral along the tube to straighten and strengthen the tube.

There are two sizes of aluminum-plastic pipes, 16mm and 20mm. In order to reduce the cost of molds in production, we only need to change the size of the wheel, without changing the nylon plastic handle, and we can use the machine to make two products suitable for different specifications, including 16 mm and 20 mm.

乐调安装系统, 是一种配合美丽板安装的系统。该系统集调平龙骨和安装龙骨于一体的新型安装系统, 通过精密扣件连接调平层和安装龙骨, 整体模块化安装, 优化工序, 节约空间, 提高效率和精度。相对于传统安装系统, 该系统融入结构美学, 在提升材料强度的同时提升结构的工艺美感与品质形象。使用哑光表面处理产品表面, 更能烘托主体复合板材料。

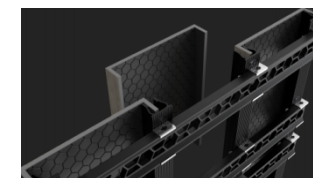

美丽板及乐调安装系统, 运用于写字楼、医院、商业空间、机场地铁等大型公共建筑中。美丽板板面具备A级防火要求, 比传统木材更经久耐用, 同时又不失木材的温馨、自然、健康, 给人带来全新体验。安装系统具有多样性, 可采用无缝拼接、离缝拼接或二者结合方式, 可适用多种建筑场景。该安装系统可以使装饰板板面平整、整体性强, 极大提升墙面感官体验。

与常见的木饰面材料相比, 该系统具有完成面间距小, 节约空间30%, 增大使用空间。模块化程度更高, 通过扣件固定龙骨, 轻松便利, 比传统安装方式相比耐用性提高5年。安装效率更高, 可提高约17%, 节约人工, 减少施工时间。

LETIAO INSTALLATION SYSTEM is a new type of installation system for DECOBOND product. The system puts the leveling keel and carrier together through precision connection parts to make modular installation possible and thus saves space while improving installation efficiency and precision. The new system presents artistic structural charm and quality. The matt color finish is used on the system surface to serve the Decobond product.

The DECOBOND and LETIAO Installation System is widely applied to different types of buildings such as office buildings, hospitals, commercial spaces, airports, metro stations, etc. DECOBOND product meets the fire rating requirements of A Grade and is more durable than timber product while retaining the natural color and pattern of timber. There are different types of installation systems for option such as open-gap or air-tight for different requirements of specific projects. This type of installation system presents very flat wall surface after finishing, it can improve how people feel about a wall.

Compared with the common wood surface product, this installation system requires smaller interval between two sections and save space for around 30%. The carrier is fixed by fastener and the durability is 5 years longer. The whole system improves installation efficiency for 17% and reduces installation time.

打火机采用超薄设计,最薄处仅有2.83mm,可轻松放入钱包、口袋或烟盒中。这是一款优秀的促销产品,具有超大的广告面积,为商标和视觉效果的呈现提供更多选择。

横向按压设计,可以有效避免携带时误操作带来的风险。配有多功能打火机保护壳,可以更好的保护打火机,保障安全。同时亦可用作手机支架,解放双手。

打火机身由POM(聚甲醛)制成,这是一种工业上用于生产要求高刚性、低摩擦和出色尺寸稳定性的精密零件的热塑性塑料。打火机可耐受高达75°C的温度,气体含量高达1.56克,并采用恒流阀技术,火焰高度恒定且使用次数增加30%。

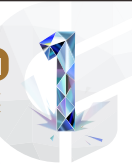

The thinnest lighter ever! With the ultra-thin design, the thinnest part is only 2.83 mm, easy to put into your wallet, pocket, or cigarette box. It is a perfect promotional product, with a large advertising area, offering more options for presentation of logos and visuals.

The horizontal pressing design can effectively avoid the risk of misoperation in carrying. The multifunctional case design can better protect the lighter and ensure safety. At the same time, it can also be used as a mobile phone holder to free your hands.

The lighter body is made of POM (Polyoxymethylene), a thermoplastic used in the industry to produce precision parts requiring high rigidity, low friction, and excellent dimensional stability. The lighter is resistant to the temperatures up to 75 °C, filled with up to 1.56 g of gas. The fixed flame valve technology enables a fixed flame height and 30% more ignition times.

指静脉智能门锁一触即开,关门就走。握住门把手的同时,手指位置正好触碰指静脉识别器,隐藏式指静脉识别头让你只需一个动作便能达到识别解锁和开门两个目的。因为指静脉门锁不受体表因素影响,即使手指在湿水、起茧、脏污的情况下也不影响指静脉识别。机身尾部设计适用于儿童身高,儿童同样适用。虚位密码开锁防窥视更安全,可在输入真实密码前后,任意填入乱码,只需要保证真实密码完整连续出现。

其适用性远超指纹识别,稳定应用于各种生活情境中。该产品有七大安全科技保障,除了主打的指静脉解锁功能还有虚位密码、APP智能管理、C级铜质锁芯、芯片系统、多重报警器、防电磁干扰等六大保障。指静脉解锁科技,血管即密码,钥匙藏在血管中,通过红外扫描手指内部流动的血液。其设计符合人体工学,斜面操作区域,让用户在自然情况下无需弯腰低头。

在智能家居联动方面,通过蓝牙连接“格力+”APP,可以实现10米内蓝牙一键解锁。创新设计双芯片系统双重开锁保障,当其中一个开锁系统无法正常运行时,可以使用其它系统运载开锁方式,双重保障开门无忧。

Touch the door lock to open the door and leave it after closing. While holding the door handle, the finger position is just touching the vein identifier. One action to complete the recognition and unlock and open the door due to the hidden finger vein recognition. The door lock does not affected by the physical surface factors, and the finger does not affect the intravenous recognition in wet water or dirt. Children are equally applicable, and the end of the fuselage is designed for children's height. Virtual bit password: The virtual bit password can prevent peeping. You can add garbled before and after entering the real password, just to ensure that the true password is completely continuous.

Applicability far super fingerprint identification with stable application in a variety of living situations.

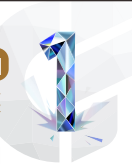

There are seven security technology guarantees, in addition to the main intravenous unlocking function, it also has a short code, APP intelligent management, C-class copper lock core chip system, multiple alarm, anti-electromagnetic interference, etc.

Refers to intravenous unlocking technology, blood vessels password, key hidden in the blood vessel. By infrared scanning of blood flowing inside the finger, it forms a vein pattern as a unlocking password.

Ergonomic design in inclined operation area, so that users do not need to bend down.

As for the linkage of smart home, the "Gree +" APP can be connected through Bluetooth, which can not only unlock the phone within 10 meters with one button of Bluetooth.

Innovative design of double chip system and double unlock guarantee.

巧设计变大容量,诺鲁克水槽与拉篮的完美配对。将传统下水器的外观与位置做改变,让水槽严丝合缝,整体性强,槽体下的下水管占用的位置往后移,腾出最大的橱柜收纳空间,杜绝凌乱,保持界面整洁。

诺鲁克后置水槽,集三大优势于一身。后置下水、台控排水、三重滤渣。个性下水位后置,多出一柜收纳空间。下水位后移330mm,收纳空间提高83.5%,改变下水位,让下水管不再成为水槽柜收纳的阻碍,留下更宽裕的收纳空间,相当于厨房多于1立方。

具有创造性的专利后置下水器,个性出众,尽显原创魅力。不锈钢方形盖板,实现隐藏式排水。滤渣提笼,防止下水堵塞。2°倾斜设计,导流顺畅无积水。

The ingenious design increases cabinet capacity and shows a perfect combination of Norraker Sink and pull-out basket. It changes the appearance and location of the traditional drainer. To make the sink connect seamlessly with strong integrity, the sewer pipe under the sink is moved backward, which spares maximum storage space in the cabinet to avoid mess and keep the place clean.

Norraker Sink with Back Drainer has three advantages in one, which is the backward drainer, countertop control for drainage, and triple residue filtration. The personalized backward drainage makes more room for storage. The drainage place is 330mm backward, making the storage space increase by 83.5%. The drainage place is changed, making the drainage pipe no longer an obstacle for cabinet storage. More capacious storage space left means that the kitchen is 1 cubic meter enlarged.

The creative and patented backward drainer shows outstanding personality and the charm of originality. The stainless steel square cover plate makes sure of concealed drainage. The residue basket can avoid drain blockage and the 2° inclined design is for smooth draining.

前置过滤器是供水管网二次污染的克星,使入户水质恢复到自来水出厂标准,是一种可靠的杂质过滤装置,您家中的第一道净水门卫。

主要是过滤自来水中的泥沙,铁锈,大颗粒物质。防止城市及小区供水管网中产生的大量沉淀杂质对人体造成伤害,并且对暗敷管道、水龙头、水暖、热水器、锅炉、洗衣机、洗碗机、咖啡机及其他水家电(净水机、纯水机、软水机)等起到积极的预保护作用。

去除管道中可见固体物杂质,主要有铁锈、泥沙、藻类、胶体等等,对地暖管道、家用水龙头、电器等起到积极的保护作用。

The pre-filter is the nemesis of the secondary pollution of the water supply pipe network. It restores the water quality of the household to the factory standard of

tap water. It is a reliable impurity filtering device and the first water purification guard in your home.

It is mainly to filter the sediment, rust, and large particles in the tap water to prevent the large number of precipitated impurities produced in the water supply pipe network of cities and communities from causing harm to the human body, and also damage the hidden pipes, faucets, plumbing, water heaters, boilers, washing machines, dishwashers, coffee machines and other water appliances (water purifiers, pure water machine, water softener), etc. It plays a positive role in pre-protection.

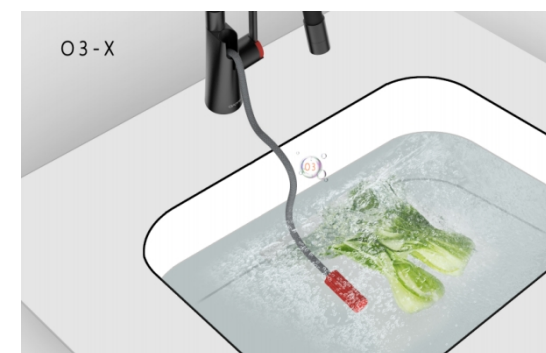

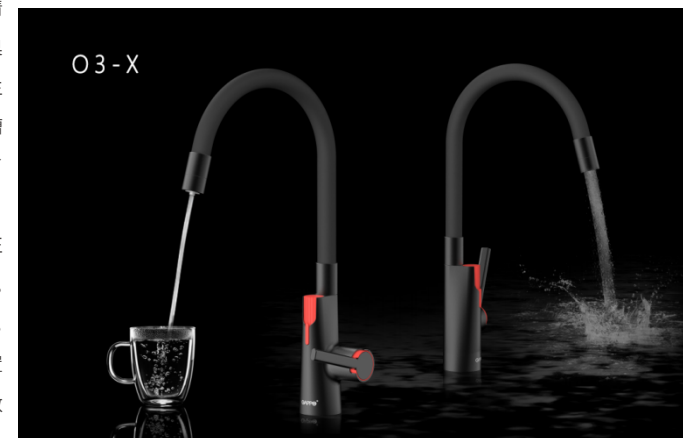

The key function of the product is to remove visible solid impurities in the pipeline, mainly including rust, sand, algae, colloids, etc. It plays an active role in protecting floor heating pipes, household faucets, electrical appliances, and so forth.

YOGA杯在造型上极简和纯粹,像印度瑜伽一样,达到一种自然的和谐和平衡。顶部的透明环,即是提手,在外观上又表达了一种清澈和纯净。

首先,杯身采用双层真空保温结构,304不锈钢,保温可达12小时,保冷24小时。更重要的是,这还是一款UV杀菌杯,深紫外杀菌转化率达93%,灭菌率高达99.99%。随着全球城市化进程的不断发展,带来了越来越多的污染,这些污染不断威胁着人们的健康。尤其是随着水污染越来越严重,人们对水安全的关注也越来越大。紫外线、深紫外线杀菌使细菌无处可逃。

Yoga bottle, made of 2-wall stainless steel with a minimalism design, just like India's Yoga, pursue a natural and harmonious balance. The top is made of transparent Tritan material, it's a handle. It expresses clarity and purity.

First of all, the cup body adopts a double-layer vacuum heat preservation structure, it is made of 304 stainless steel. Its heat preservation is up to 12 hours, and cold preservation can stay for 24 hours. More importantly, this is also a UV sterilization cup, with a deep ultraviolet sterilization conversion rate of 93% and a sterilization rate of 99.99%. With the continuous development of global urbanization process, more and more pollution appeared. People's health is constantly threatened by these pollution. Water pollution is more and more serious, people's concerns about water security are growing. UV and deep UV sterilization make bacteria have nowhere to hide.

这款Max双按式压力锅在充分安全的技术基础上,采用全新的外观设计方案,跨越各个年龄段,对不同的厨房空间和审美风格都极具兼容性,打破人们对于压力锅不安全、难控制、笨重的固有认知,带给消费者耳目一新的感觉,适用于单人或小户型家庭。

通过物理蒸汽阀控制锅内压力,压力锅能加快炖煮食物效率,省时省耗。双按式压力锅的开合装置通过两处按钮进行开关,传动轴为机械卡扣结构,一指开合,轻松便捷。多档位压力调节阀可根据所烹饪食材的种类和数量,灵活调节所需压力等级。

Max双按式压力锅是一款创新外观设计的高压锅,盖耳和电木配件造型别致、元素呼应,隔热防烫,圆弧倒角手感舒适,细节处精心考虑握手凹位和防滑条。不锈钢锅身呈现力量与安全之美,锅底增加复合打底,灵活适配任何使用场景。防护细节清晰告知使用者按照指定位置操作,排气提示符合简洁、形象,整体展现设计语言。

This Max pressure cooker adopts a new appearance design on the basis of safe technical standard. It connects to all ages, and is highly compatible with different sizes of kitchen and aesthetic styles, breaking the inherent perception that pressure cookers are unsafe and bulky and bringing consumers a refreshing feeling. This pressure cooker is suitable for single or small family.

It controls the pressure in the pot through the physical steam valve, which can speed up the efficiency of stew food and save time and consumption. The opening and closing device is switched by two buttons, and the transmission track is mechanical buckle structure. It's easy to open and close with one finger. Multi-tap pressure regulating valve can flexibly adjust the required pressure level according to the type and quantity of cooking ingredients.

Max pressure cooker innovates its appearance design. Bakelite accessories have chic modelling, which insulates heat and prevents burns. The circular chamfer makes people feel comfortable, and the details are carefully considered with concave hand-holding and anti-slip strip. Stainless steel pot body presents the beauty of strength and safety. The bottom of the pot is added with a composite base, which can be used flexibly in any scene. The protection details clearly inform the user to operate in accordance with the specified position, and the exhaust prompt is concise and vivid, showing the design language vividly.

这是一款为美国与欧洲市场而设计的不锈钢双分类金属垃圾桶,该垃圾桶产品传达了干净,简约,温馨这三条设计理念,覆盖了垃圾桶必要和有目的的功能性,以及耐用和可回收的材料制作。

合理化节省空间的小型置物篮功能;上盖易于更换的活性炭过滤系统,消除异味;同时打开盖子是由一个大型不锈钢条的脚踏板引导;另外一个简单的锁定开关,可以使上盖在需要时保持开启状态。

这款产品的设计创新点在于他的几何曲线,每一条曲线的构成都是完美的平衡以及互相的不干扰勾画而出,利用圆形的弧线相互重合平行,且不影响使用中的冲突;能与家庭中各种样式的家具契合的弧度才是一个房间里最不可或缺的家用品之一。

This is a stainless steel double classification metal trash can designed for the American and European markets. The trash conveys the three design concepts of clean, simplicity and warmth, covering the necessary and purposeful functionality of the trash can, as well as durability and recyclable materials.

Reasonable space-saving small storage basket function; easy-to-replace activated carbon filter system to eliminate peculiar smell; at the same time, the opening of the lid is guided by a large stainless steel foot pedal; another simple lock switch can make the upper lid keep open when needed.

The design innovation of this product lies in its geometric curves. The composition of each curve is drawn out of perfect balance and mutual interference. The circular arcs are used to overlap each other in parallel, and do not affect the conflict in use; The arc that can fit various styles of furniture in the home is one of the most indispensable household items in a room.

旋乐倒水锅是一款全新设计的隔渣倒水锅,通过侧耳旋转结构实现旋转压盖、防烫、隔渣导流三大功能,实现食物和液体的有效分离。主打年轻群体的功能厨具,具有多种配色可供选择,独特的压盖倒水设计,易用易清洗。

倒水锅是以轻易将锅内的液态与固体食材分离开为目的的一种结构较简单的厨具。旋乐倒水锅只需要旋转侧耳手柄就能够实现旋转压盖、防烫、倒水三大功能。这款产品巧妙地设计了锅身和侧耳之间的空间,当烹饪状态时,锅盖可以立放在侧耳上和桌面上,卫生实用。当烹饪结束时,旋转手柄的设计具有收纳性,手柄自然垂落可以有效减少存放空间,同时在生产和运输上节省包装成本,绿色环保。

可旋转的侧耳是一大特色,提起即可锁盖。用户的双手向锅的方向轻压,压片卡住锅盖,轻轻一侧就能轻松倒水。侧耳采用防烫设计,根据人体工学设计,防止用户在压盖时拇指压到锅体而烫伤。侧耳上的挖空结构能够给手指更好的握持感。旋乐倒水锅提供两种锅盖立盖方式,锅盖的设计不光可以立在桌面上,同时在烹饪时还可以稳固地立在锅上,让烹饪更加卫生、便捷。不同尺寸的厨具配件共用同一规格的侧耳和盖耳,生产上节省能源,减少排放。

Joy Pouring Pot is a new design of a pouring pot. It realizes the three functions of rotating and compacting the lid, anti-scalding, and slag-separation, to ensure the effective separation of food and liquid. This is a functional pot for the young, with a variety of colors to choose from. It has a unique pouring design, which is easy to use and easy to clean.

A pouring pot is simple cookware with the purpose of easily separating the liquid and solid ingredients in the pot. For using the Joy Pouring Pot, you only need to rotate the handle of the side ear to realize the three functions of rotating and compacting the lid, anti-scalding, and slag-separation. There's a space between the pot body and the side ear. When it's in the cooking state, the pot lid can stand on the side ear and the tabletop, which is hygienic and practical. When cooking is finished, the rotating handle is designed for storage, and the handle drops naturally to reduce storage space. At the same time, packaging cost is saved in production and transportation, which is environmentally friendly.

The rotatable side ear is a major feature, which can be lifted to lock the lid. The user can pour water by gently pressing his hands toward the pot and pressing the pad against the lid. The anti-hot design of the side ears is in accordance with the principle of ergonomics to prevent the user's thumb from scald when he presses the lid. The hollowed-out structure on the side ears gives the fingers a better grip. The Joy Pouring Pot provides two ways to stand the lid. The pot lid can not only be put on the table but also firmly stand on the pot when cooking, making cooking more sanitary and convenient. Different sizes of pot fittings share the same specifications of side ears and lid ears to reduce mold investment in production, which saves energy and reduces emissions.

这是一款重力收车的超轻便婴儿推车,可单手一秒完成收车,方便爸爸妈妈出门溜娃。这款车主打炫酷色彩,一共有六种颜色,分别是:渐变紫/小香风/雾霾蓝/葡萄紫/尾草绿,时尚吸睛,与众不同。车轮还可定制3种颜色(紫绿蓝)。除此之外,遮阳棚可3档调节、具有防水、专业级别防晒UV50+和Oeko-Tex标准认证。

这是一款具备四轮避震的婴儿推车,可推行在公园、商场、马路等各种室内外场景。是宝宝的交通工具,也是

宝宝的一个安乐窝。在推行过程中,不仅有能防风挡雨的遮阳篷,宝宝也能舒心安然地睡在里面。

该产品的设计创新点有三。第一,它可一键重力收车。使用者即便单手抱着娃站着,另一只手也能一秒轻松完成收车;第二,采用了机械靠背。使用者只需要站着即可轻松调节靠背档位,比起传统蹲下调节靠背的方式更加省事省力;第三,采用了五点式安全带磁吸卡扣,一吸即可轻松扣上安全带,而且更加牢固,不易被宝宝挣脱。

This is a super lightweight baby stroller with gravity folding, which can be completed with one hand in one second, so that it is convenient for parents to walk out and take their children away. This stroller has six colors: gradual purple/small fragrance wind/haze blue/grape purple/tail grass green. They are fashionable, unique and eye-catching. The wheels can also be customized in 3 colors (purple, green and blue). In addition, the canopy can be adjustable with three positions, and the fabric is waterproof, professional grade reaches UV50+ and Oeko-Tex certified.

This four-wheeled shock absorber stroller can be used in parks, shopping malls, roads and other indoor and outdoor scenes. It is the baby's vehicle, and also a baby's nest. During travelling, the canopy can prevent wind and rain awning, and the baby can also sleep comfortably inside.

There are three special points on the innovation design of this stroller. Firstly, it can restore the car with one key. Even if the user is standing with the baby in one hand, the other hand can easily fold the stroller in a second. Secondly, it used mechanical backrest. Users only need to stand up to easily adjust the position of the backrest, which is more labor-saving than the traditional way of squatting down to adjust the backrest. Thirdly, the use of five-point magnetic belt buckle can easily buckle the safety belt. It is firmer, and not easy to be broken free by the baby.

SEKAS锅周边料理工具主要搭配锅具使用, 共4件产品, 可分别应用于炒、炸、煮等多种烹饪方式。系列产品主体部分均采用食品级硅胶材质, 安全无毒。

防溅盖: 使用者将该盖展开后放置在锅具上, 绝大多数油溅的油脂会被防溅盖阻挡, 避免油溅的油脂烫伤使用者。盖子和手柄均可折叠, 节省收纳空间; 烹饪中可打开其中一个面板, 往锅内添加调料或进行操作。防溢盖: 可在烹饪时防止沸腾的液体溢出锅具, 当液体沸腾时中部的盖子会自动打开, 降低锅内温度,

防止沸腾的液体溢出。盖子两侧带有挂环, 便于收纳。煮菜篮: 可用于煮制和沥干面食、蒸煮食物, 或用作滤篮清洗水果和蔬菜。可折叠, 节省收纳空间。边沿带有凸条, 可卡在20cm和22cm口径的锅边上。煮面器: 产品使用时可挂于锅边等待水煮, 待食物煮熟后轻易沥干水分。主体可压缩折叠, 把手可旋转收起, 并带有挂环, 便于收纳。

The SEKAS pot cooking tools are mainly used with pots and pans. There are 4 products in total, which can be applied to various cooking methods such as sauteing, frying, and boiling. The main part of the series products is made of food-grade silicone, which is safe and non-toxic.

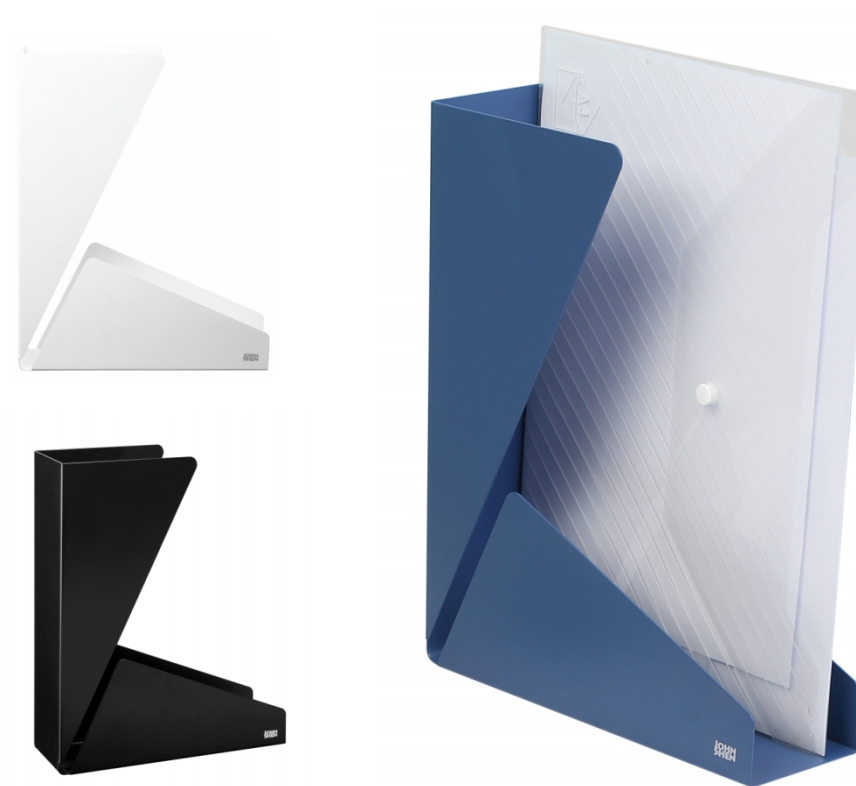

Splatter Screen lid: The main function is to prevent the grease in the pot from splashing during cooking. After the user unfolds the splatter screen lid and places it on the pot, most of the splashed grease will be blocked by the lid to avoid scalding the user. The lid and handle can be folded to save storage space. One of the panels can be opened during cooking to add seasoning or operate the pot. Spill Stopper Lid: The lid can prevent boiling liquid from overflowing the pot during cooking. When the liquid is boiling, the middle lid will automatically open to reduce the temperature in the pot and prevent the boiling liquid from overflowing. There are hanging loops on both sides of the lid for easy storage. Silicone Colander: The colander can be used for cooking and draining pasta, steaming food, or as a filter basket for washing fruits and vegetables. The cooking colander can be folded to save storage space. The edge has a convex strip, which can be stuck on the edge of the pot with 20cm and 22cm caliber. Silicone Noodle Colander: The noodle colander is used to boil noodles and other foods in a pot. When the product is in use, it can be hung on the side of the pot while you're waiting for the water to be boiled. After the food is cooked, you can hold the vertical handle and shake it up and down to drain the water. The main body of the noodle colander can be compressed and folded, the handle can be rotated and put away, and it has a hanging ring for easy storage.

此款产品是由三款不同功能和尺寸的勺子和铲子的组合,产品亮点在于可以单独拆分独立使用,也可以利用独特的卡扣结构,上下扣合叠放一起,省收纳空间,节省包装运输成本。

产品功能:三款产品的使用功能各不一样,大铲是烧菜的铲子,中号是捞勺,可以捞面,符合西方厨房工具功能,小号勺子,可以作为汤勺搅拌。三合一功能亮点涵盖了厨房勺铲的所有基础功能,消费者不需要单独挑选尺寸,我们设计的套装是通过反复测试得出最优尺寸,让消费者更方便购买。

产品价格比起单独购买更加便宜,从产品克重考虑组合的方式,更轻便。细磨砂的表面处理,防滑使用手感更佳,铲子设计考虑人机工程学的弧度设计,使用更舒适。产品材料为尼龙可注塑批量生产,节约成本。

This product is a combination of three spoons and shovels with different functions and sizes. The highlight of the product lies in that it can be separated and used independently. It can also be combined with a unique buckle structure to save storage space as well as packaging and transportation costs.

Product functions: the three products have different functions, the big shovel is the shovel for cooking, the medium is the scoop for scooping noodles, which is in line with the functions of western kitchen tools, the small spoon can be used as a spoon for stirring. The three-in-one feature highlights cover all the basic functions of kitchen spoons and shovels, consumers do not need to choose the size separately, we design the set through repeated tests to get the optimal size, so that consumers will find it more convenient to buy.

The product price is cheaper than the individual purchase, considering the combination of product weight, it is more lightweight. The abrasive surface treatment is finer, making anti-skid use feel better. The shovel design takes into account the ergonomic radian design, making it more comfortable to use. The material of the product, nylon can be massively produced through injection molding, so it can save costs.

UZSPACE®

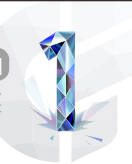

本款产品整体采用力量感设计,线条流畅,块面层次清晰,酷感十足,兼具运动感和力量感。上盖独特的双磁吸固定方式,开盖自动吸附固定,打破了传统的按压勾连式固定方式,将其转化为不可见的磁吸固定方式,让开盖喝水的过程更独特;E型立体内嵌式扣手位设计,表面搭配喷塑磨砂质感,即使在户外复杂环境下,也能牢牢抓住不打滑;人机交互提手设计,符合重力重心同轴设计,保证携带时不晃动。

为提高使用体验,避免喝水过程中杯盖掉落,我们为这款产品设计了能自动吸附固定的杯盖:杯盖后侧引入双磁吸结构,突破了传统的按压卡槽固定方式,打开杯盖能自动吸附不掉落,将不可见的磁力转化为可见的运动过程,解决喝水烦恼的同时具有趣味性。便携的提手,方便外出携带;杯身做了E型立体内嵌式扣手位设计,拿起时轻松抓握不打滑;超大广口杯身设计,方便清洗。

This product is designed with a sense of strength, with smooth lines, clear layers of blocks and surfaces, and a full sense of cool, both a sense of movement and a sense of strength. The unique double magnetic suction fixing method of the upper cover, which automatically absorbs and fixes the lid open, breaks the traditional pressing and connecting fixing method and transforms it into invisible magnetic suction fixing method, making the process of opening the cover to drink water more unique. E-type three-dimensional embedded buckle hand design and the surface with plastic spray texture enable you to firmly hold the slip even in the complex outdoor environment. Human-machine interaction handle design is in line with the coaxial gravity center design to ensure that there is no shaking when carrying.

To improve the use experience, avoid the lid falling off during drinking, we designed an automatic adhesive lid, behind which there are double magnets to fix the lid. It is a breakthrough to the traditional press-slot lid. With the new structure, the lid will not fall down because it is stuck to the cup automatically. Transforming invisible magnetic force to visible movement, it addresses the problem of drinking water and makes it an interesting thing. The body of the cup is designed with an E-shaped three-dimensional built-in clasping position, which can be easily grasped without slipping when picked up, and the super wide-mouth cup body is designed for easy cleaning.

该产品由100%密胺制成，安全健康。超厚边设计，结实耐用，但重量适中，掌握舒适轻便。内外黑白颜色搭配在视觉上避免厚重感和单调感，内部亮面不规则凹凸纹理装饰增加变化美感。

该产品简约百搭，适用于各式餐厅，中餐、西式简餐、火锅、面店、特色餐厅等。根据尺寸的不同，该产品可用作料碟、米饭碗、面碗、汤碗、沙拉碗等。

超厚边设计让简单经典的圆形碗变得与众不同，内黑白配色，避免笨重感，整体显得轻盈有层次感。内部黑色表面以不规则的凹凸纹理做装饰，通过明暗度的不同，增加层次变化美感。另外，厚边设计在掌握时手感既舒适又特别。

The product is made of 100% melamine, which is safe and healthy. Ultra-thick edge design is strong and durable with a moderate weight and it's comfortable and light to hold. The black and white color combination inside and outside avoids the sense of heaviness and monotony visually, and the irregular concave-convex texture decoration on the bright surface inside increases the aesthetic feeling of change.

The product is simple and versatile, and it's suitable for all kinds of restaurants, Chinese food, Western-style simple food, hot pot, noodle shops, specialty restaurants, etc. Depending on the size, the product can be used as a dish, rice bowl, noodle bowl, soup bowl, salad bowl, etc.

The super thick edge design makes the simple and classic round bowl different. The color matching of black inside and white outside can avoid the bulky feeling. The whole bowl is light and layered. The interior black surface is decorated with irregular concave convex texture, which increases the beauty of level change through the difference of light and shade. In addition, the thick edge design is comfortable and special when holding.

软硬芯/粗细头一体彩色铅笔是一款艾美莉亚的专利产品(专利号:CN305775835S)。使用于专业美术和学校用途。产品源于艾美莉亚开发团队,解决不同粗细和硬度铅芯置于同一支铅笔内的技术难题。使一支铅笔多用,既能精准的勾线描边,也能大面积混色和上色,节省成本,方便使用。

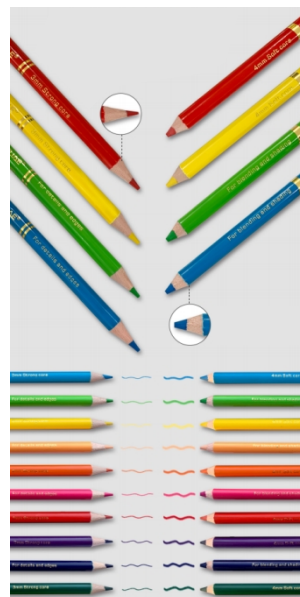

粗铅芯一端预削尖长度比较短和尖比较钝,细铅芯一端预削尖长度比较长和锐度比较尖,适用于各自的使用用途,粗头软芯一侧适用于大面积混色和上色,细头硬芯一侧适用于精准的勾线描边和小面积内涂色。这样避免在绘画过程中频繁的削铅笔或者更换铅笔去适用于不同的使用要求,一笔两用,在绘画过程中更方便画者。

本设计的技术难点在于解决不同直径铅芯如何放置在同一支铅笔内的问题,这对于铅笔的刨槽工艺和胶芯工艺是革命性的改革,粗细和软硬不同,在生产过程中对温度的控制和精度的要求比普通铅笔生产要难很多。

The soft and hard core/thick and thin head integrated colored pencil is a patented product of Amelia (patent number: CN305775835S). It can used for professional art and writing. The product comes from the Amelia development team, which solves the technical problem of placing lead cores of different thickness and hardness in the same pencil. This makes the pencil suitable to be used for different purposes. It can not only accurately draw the line, but also mix colors to color a large area, which saves costs and is convenient to use.

The pre-sharpened length at one end of the thick lead core is relatively short and the tip is relatively blunt, while the pre-sharpened length at one end of the thin lead core is relatively long and sharp. The thick head with soft core is suitable for large area of color blending and shading, the sharp head with hard core is suitable for precise hook stroke and small area of painting. Such a dual use is more convenient for the painter and frequent sharpening or changing of pencils is avoided in the painting process to meet different requirements.

The technical difficulty of this design lies in solving the problem of how to place lead cores with different diameters in the same pencil, which is a creative reform for the grooving process and leads gluing process of pencils. That is because the lead cores are different in thickness and hardness, the requirements for temperature control and precision in the production process are much more difficult than those of ordinary pencils.

“趣妙”蒸锅由锅身、锅盖、蒸格、蒸片、滤水篮组合而成的多功能多用途蒸锅，蒸格、蒸片、滤水篮的多种巧妙组合设计，在满足多种烹饪需求的同时，又增添了现代厨房趣味性。

锅身内喷涂陶瓷涂料，健康，环保，易清洁。底部采用全复底工艺，导热均匀，给与消费者良好的使用体验，并且通用所有加热源。锅盖采用可视透明玻璃盖设计，食物的变化一目了然。蒸片采用优质的不锈钢材质，卫生、健康、耐用。滤水篮采用全篮滤孔设计，细密网孔，小块食材也可轻松蒸煮，提起免打捞，无需倾斜。分离式蒸格设计，搭配滤水篮、蒸片，实现多功能蒸煮。

可轻松蒸煮，提起免打捞，无需倾斜。分离式蒸格设计，搭配滤水篮、蒸片，实现多功能蒸煮。

蒸格和蒸片组合，即可变成常规的单层蒸屉。蒸格、滤水篮和蒸片组合，即可下层隔水炖煮食材，上层蒸煮食材，同时烹饪。分离式蒸格设计，解决传统蒸格在进行碗碟蒸煮时，碗碟难以放入，拿出蒸格的问题。蒸格和滤水篮组合，即可变成意式米筛。反扣蒸格正放滤水篮组装，即可变成滤水器，可快速分离食材和汤汁，无须使用漏勺。

“QU MIAO” Multi-functional Steaming Set includes an aluminum body, a glass lid, a steamer, a trivet and a strainer basket. Different compositions of different parts not only provide different cooking styles, but also make modern kitchen life interesting.

Eco-friendly ceramic interior, which is healthy, environmentally-friendly and easy to clean; fully bonded base for even heating, it is also suitable for all stove tops including induction bottom, it can give users a great experience; tempered glass lid for easy viewing; Superior stainless steel trivet that is healthy and durable. Specific designed strainer basket with tiny holes which allow small pieces of cooking, it makes getting rid of water or oil easily and effortlessly; Steamer with divided bottom allows it to match with the trivet or the strainer basket, making it really multi-functional.

Combination of steamer and trivet can become a conventional single-layer steamer. Combination of steamer, strainer basket water filter basket and trivet can let you cook the ingredients in the lower layer in water, and the upper layer to cook the ingredients at the same time. Separate steaming grid design solves the problem that when the dishes are steamed in traditional steaming grids, the dishes are difficult to put in and take out. Combine the steaming grid and the strainer basket to make it turn into an Italian rice basket. The reverse steaming grid can be assembled with the water filter basket to make it become a water filter, which can quickly separate the ingredients and the soup without using a colander.

通过对生活中细节的观察, 我们发现浴室套装占地方, 功能性单一。我们在对浴室陶瓷产品功能性和造型的探讨下, 发现像足球场的跑马场造型理念符合。托盘也可以一边放液瓶或者口杯, 另一边放皂碟使用。

托盘也可以两边同时用来存放液瓶和口杯。托盘配合口杯的时候, 还可以用来存放化妆品。既时尚又简洁, 独特的造型会给使用者一种不同的体验。

Through observing the details in life, we found that the traditional bathroom sets occupy space and have a single function. After discussing the functionality and shape of bathroom ceramic products, we found that the shape concept of a racetrack like a football field satisfies our needs. Both stylish and concise, the unique shape will give users a different experience.

Ceramic bathroom set with 2 in 1 soap dish. The racetrack pattern can accommodate different shapes of soaps and can be used separately. The soap dish has other functions like putting a soap dispenser or tumbler on one side and the other. The soap dish and the tumbler can also be used as makeup storage.

ONDA系列设计核心在于结构,整个坐垫被镶嵌的铝带环抱,流体形的波浪曲线,突显出整个设计的标志性亮点,铝结构来源于汽车结构原理,进口百特林布料的使用,令坐垫持久耐新。

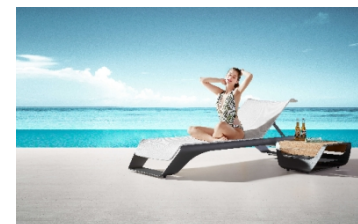

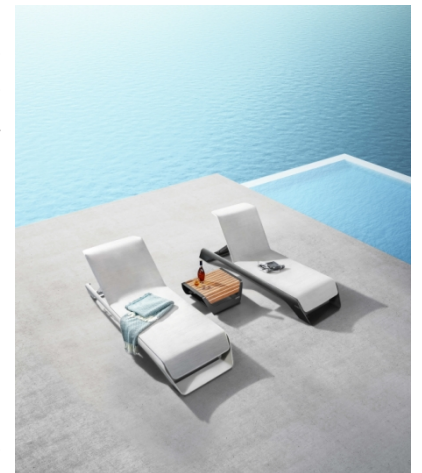

消费者可根据自己的喜好自主选择颜色搭配。法拉利豪车结构原理,坚固铝带结构不仅给使用者安全感,也产生独特的视觉美感。满足了用户身处户外放松的需求,从休息,饮食到娱乐等都可以在这个小小的空间里实现。

顶级环保用材满足全天候的户外条件,如喷漆处理,天然柚木及高端布匹。置换不同的材料搭配时,可以很轻松的在室内外家具里转换角色,也为高端户内外家居提供一整套高解决方案。

The Pininfarina design team took the inspiration from the dynamism, elegance and purity of the ocean waves. The empty space is created when a wave is broken, resulting in to a hollow or tube wave (Onda in Italian). The core of the collection is the structure. An aluminum band sustains the cushions and becomes the iconic element of the whole Collection. The aluminum structure is from the principle of automobile structure, and the use of imported Betterlin fabric makes the cushion durable.

The unique design of Onda allows numerous color set-ups. Inspired by the car sector structure, emphasis and exposure of the internal heavy-duty aluminum structure provide a sense of security to the user. It also creates a distinctive visual aesthetic. The collection can satisfy every outdoor relaxation requirement. The user is fully equipped to enjoy their outdoor living environments to the fullest.

The top environmentally friendly materials meet all-weather outdoor conditions. When replacing different materials, you can easily switch it between indoor and outdoor furniture, which also provides a complete set of high-end solutions.

Polo拥有轻盈、简约的独特优势, 优雅的外形设计有碳灰和白色两种配色, 让产品更显高档大方, 扶手位置以进口柚木做点缀, 灵动中带有自然气息。

产品整体线条感十足, 椅子选用台湾进口特斯林布, 拥有环保、韧性大的特点, 铝管框架采用喷涂处理, 保质耐用, 搭配进口柚木扶手, 同时靠背可以多档调节, 放平后可堆叠存放, 方便且节省空间。适合室内室外多种场合使用。

以喷涂铝管为主要结构, 线条简约大方, 可以层层叠放; 扶手处均为进口柚木材料内嵌铝管处理, 这样不仅不会使扶手变得厚重, 更是一个点睛之处, 提升了该系列产品的整体美感。

Polo has the unique advantages of lightness and simplicity. The elegant appearance design has two colors of dark gray and white, which makes the product more high-end and generous. The handrail position is embellished with imported teak wood, which has a natural atmosphere in its agility.

The product has a strong sense of line, using Taiwan Textilene fabric, which has the characteristics of environmental protection and great toughness. The aluminum tube frame is sprayed to ensure quality and durability. It is matched with imported teak handrails. At the same time, the backrest can be adjusted in multiple levels and can be stacked for storage after being flat and save space. It's suitable for indoor and outdoor use in various occasions.

The main structure is sprayed aluminum tube, and the lines are simple and generous, and it can be layered. The armrest are decorated with plastic wood, which is a finishing touch of the product. This does not make the armrests thick, and enhances the overall beauty of the product.

青岛德荣卫生用品有限公司新研发产品:
100%全降解宠物训练垫,有益于减少垃圾,保护环境,是训练宠物如厕的最佳选择。

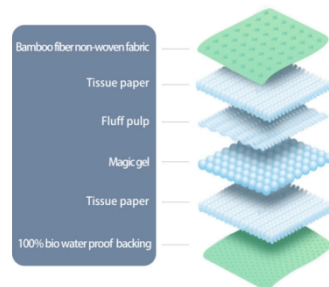

产品6层结构,尺寸齐全,适合各个年龄段狗狗。超大吸水量,遇液体速干的特性让狗狗更加舒适。从此结构图可见,柔软的首层用的是可降解的竹纤维无纺布,吸收层的绒毛浆来自成熟的,持续生长的松树林,底层防水层用的100%生物基材料,以及中间层的卫生纸,同样是可降解的材料。

全降解宠物训练垫经过了生物崩解测试,这个项目是降解测试科目最常见的降解测试,遵循的是ISO16929国际标准,也符合EN13432部分标准要求,并得到了德国DINCERTCO认证机构的认证,检测结果可以在DINCERTCO官网上查询。

We proudly develop this 100% bio-degradable puppy pads to reduce waste and to achieve environment friendly.

6-Layer Quilted Protection. Perfect for puppies and small to medium sized dogs. The ultra-absorbent core turns liquid to gel upon contact. The soft, absorbent top sheet is made from renewable bamboo fiber, the absorbent fluff-pulp is harvested from certified sustainable pine, the leak-proof bottom film is made from 100% bio-degradable plant-based materials, let alone the tissue paper.

Plant-based and certified compostable: Our pads pass the disintegration test, follow the International standard ISO16929 and European Compostable Standard EN 13432.

组合方式: DIY。九个小的猫窝猫隧道,任意的两个及以上都可以自由组合;每个小的部件开口位置和大小对应,随意组合,畅通无阻;10种以上的组合方式,动手送给爱宠一座城堡、一架飞机、一个火箭等。脑力劳动者需要一种释放压力的方式,手工DIY就是比较解压的方式,给自己的爱宠组装猫隧道玩具,不仅赢得爱宠的欢喜,也有利于铲屎官的身心健康,是一段相互陪伴、互动、解压的温馨时光。

连接方式: 插卡配件。配件尺寸统一整齐、使用便捷、不易丢失,有多余的备用插卡;配件使用方式简单,不需要费脑力,一看就会。插卡可以连接任意角度,插口位置及尺寸完全吻合。插卡结构有倒钩,尺寸精确,不会脱落,更加稳固。

密闭可活动空间: 此产品可形成多种结构形式的密闭空间,满足了猫咪的安全感。好奇心: 组合成多种形状的空间,且畅通无阻,满足猫咪的探索好奇心,同时也有小孔设计,满足主人好奇爱宠在哪里在做什么。天生迷恋瓦楞纸: 野生的猫咪常用树皮、草皮等植物练爪。瓦楞纸细密的纹理与爪感,和野生环境下粗糙的树皮如出一辙,而原生纸浆的自然气味更是令猫咪们爱不释爪,迅速沉迷于瓦楞纸的神秘力量。

Combination method: DIY. Nine small cat litter cat tunnels; any two or more can be combined freely; the opening position and size of each small part correspond to each other, and they can be combined at will, unobstructed; more than 10 kinds of combinations, do it yourself and give your pet a castle, an airplane, a rocket, etc.; mental workers need a way to relieve stress. Manual DIY is a relatively decompressive way.

Assemble cat tunnel toys for their pets, which not only wins the pet's joy, but also benefits the physical and mental health of the owner. It is a mutual companionship and a warm period of time of interaction and decompression.

Connection method: card accessories. The accessories are uniform in size; convenient to use; not easy to lose with spare cards; the accessories are easy to use; the card can be connected at any angle, and the position and size of the socket are completely matched. The card structure has barbs, and the size is accurate, and it will not fall off and is more stable.

Confined movable space: This product can form a confined space with a variety of structures, which satisfies the cat's sense of security. Curiosity: The space is combined into a variety of shapes and is unobstructed to satisfy the cat's exploration curiosity. At the same time, it also has a small hole designed to satisfy the owner's curiosity about where and what the pet is doing. Naturally obsessed with corrugated paper: Wild cats often practice their claws with plants such as bark and turf. The fine texture and claws of corrugated paper are exactly the same as the rough bark in the wild, and the natural smell of virgin pulp makes cats love their claws and quickly indulge in the corrugated paper.

L即Leisure, 闲暇安逸的意思, H是HOLD的简称, LH也代表椅子坐板的L型和脚架的H型, 既时尚, 也隐含对休闲生活质量的掌控。

LH没有繁琐多余的结构, 简洁明快, 配色雅致, 全铝框架, 精细的编织工艺的结合让坐椅变得超凡脱俗。LH适合各种室内室外空间不同场景的运用, 如咖啡厅, 卧室, 客厅, 阳台, 庭院等。

LH的设计亮点是它类似于“L”和“H”的形状, 简洁优雅; 编织绳座位, 美观舒适。

“L” means LEISURE, and “H” means HOLD. Just like the L-shaped seat woven and the H-shaped aluminum tripod, it shows the idea of modernity and represents the control of leisure and comfortable quality of life.

LH leaves no redundant structure: It is concise, the color is graceful, and together with its elaborate weaving craft make this product extraordinary. LH adapt easily to any outdoor or indoor space and it is suitable for different conditions like coffee bar, bedroom, living room, balcony, courtyard and so on.

The design highlight of LH is its shape similar to "L" and "H", which is simple and elegant. The elaborate weaving rope seat is beautiful and comfortable.

朋友,可以促膝可以相拥可以倾诉可以聆听,可以体谅可以包容可以安抚可以援手,更可以凝聚可以分享可以懂。在“朋友”的概念里,设计师得出了具象的灵感,巧妙地用产品诠释出“朋友”的内涵:他们聚时同辉散时分享,在一次次相聚中收获一份份的充实和轻松。一款多功能实用型的太阳能野营灯,既有主灯照明,又有蓝牙音响和3个副灯,内置10400毫安可充电锂电池及多重供电模式:太阳能充电,DC 5V 充电和 1号干电池。

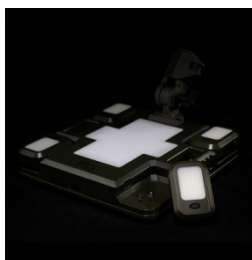

主灯集照明以及充电宝功能,除了太阳能面板充电外,主灯还设计有DC充电接口,用户可使用随机配置的电源适配器充电,或者用车载电源转换线用车载电源对其充电。标配有可移动蓝牙音响,可与手机蓝牙快速链接,尽情享受音乐。副灯和蓝牙音响可单独取下充电,也可在大灯充电时放在主灯槽内吸附充电,设计独特,操作便捷。可用于庭院,户外露营,沙滩BBQ等多种场景。

高性能架杆三维云台设计,可360度全景照明,稳定性好。可伸缩脚架,根据需求自由调节高度(1.2m-2m),适用于斜坡和崎岖地形等多个场景,(需挂上沙袋和钉上地钉)。附带三个可移动副灯,副灯内置1800毫安锂电池,可以单独使用,分有五个照明模式,阅读灯模式低亮,高亮,射灯,爆闪以及驱蚊。副灯自带360度挂钩,背部配有强磁力磁铁,可以满足多种使用需求。

Friends, could hug, talk, listen, console, help, gather, share, and understand. The designer inspired by the meaning of “friend”, gathering is a group of fire, parting is a starry sky. A multi-functional solar camping lamp with a main lamp, a Bluetooth speaker and 3 portable single lamps. It has a embedded 10400mAh rechargeable lithium battery. Multiple power supply modes are available: Solar charging, DC 5V charging and D Battery for emergency use.

The main lamp has integrated lighting and power bank function. Expect solar panel, there is a charging port on main lamp, user could charge the lamp with adaptor or vehicle power supply. Equipped Bluetooth speaker, enjoy music as you need. Detachable single lamps and speaker could be charged individually or attached on main lamp to charge. Special design and convenient operation, which is very suitable for garden, campsite, beach, BBQ, etc.

High performance tripod design, 360° panoramic lighting, great stability. Adjustable tripod, height 1.2~2m, could be applied on slope, rugged places (with sand bag and pegs). Four portable single lamps, 1800mAh lithium battery, five lighting modes (low light, high light, spotlight, flash light, and mosquito repellent light), could be used individually. The single lamp come with a 360° hook and a strong magnet on the back to hook on virtual anything or attach metal piece.

每一个风光无限的猫奴, 背地里都要卑微地承受铲屎的辛酸。铲屎工作本身已经够繁重, 铲完后还要清理猫砂铲必定令人崩溃, 这是铲屎官们的痛点。为了解决用户痛点, 本设计把猫砂铲的收纳, 清理, 和废猫砂的丢弃问题一并解决, 只需要一套工具即可。同时猫砂铲采用可拆分设计, 产品包装体积小巧, 有效降低运输成本和空间。

猫砂铲底座自带垃圾袋储存, 垃圾袋从底部抽出, 直接套在底座上, 铲屎时直接把废猫砂倒入底座的垃圾袋中, 用完垃圾袋封口、撕开、丢弃, 并重新抽出新垃圾袋套上, 把猫砂铲放入套上垃圾袋的底座里; 猫砂铲手柄可拆卸, 拆卸后, 猫砂铲可完全放入猫砂铲底座内, 节省包装运输成本; 猫砂铲手柄内部自带清洁刷。

将垃圾袋放入此盒子中; 把盖板盖好; 找到垃圾袋端头并从此口部抽拉出来; 将垃圾袋打开套在底座口部。

Every cat slave with infinite beauty must bear the bitterness of shoveling shit in a humble manner. The shoveling work itself is already heavy enough, and cleaning up the cat litter after shoveling the shovel is bound to be devastating. This is the pain point of the shit shoveling officers. In order to solve the user's pain points, this design solves the problems of storage, cleaning, and disposal of waste cat litter shovel together, and only a set of tools is needed. At the same time, the cat litter scoop adopts a detachable design, and the product packaging is small in size, which effectively reduces transportation costs and space.

The base of the litter shovel has its own garbage bag for storage. The garbage bag is pulled out from the bottom and directly put on the base. When shovelling is done, the waste litter is directly poured into the garbage bag on the base. After using up, the garbage bag is sealed, torn and discarded. A new garbage bag is pulled out and put on the base, and the litter shovel is put into the base with the garbage bag. The handle of the litter shovel can be disassembled. After disassembly, the litter shovel can be completely put into the base of the litter shovel to save packaging and transportation cost. The handle of cat litter shovel has its own cleaning brush.

Place garbage bags in this box. Put the cover back on. Find the end of the garbage bag and pull it out through the mouth. Open the garbage bag and cover the mouth of the base.

现在养猫人群中94%为50岁以下群体,他们白天经常外出,几乎没有陪伴猫咪的时间,使得猫咪患有分离焦虑。猫咪至少有三分之一的时间需要在家独处。这款机器人小包可以减缓猫咪与主人的分离焦虑,陪伴猫咪和猫咪一起玩耍。室内饲养的猫咪容易出现体重困扰,小包的出现,可以陪伴猫咪玩耍,燃烧猫咪的卡路里,降低发胖概率。

这款猫玩具像是机器人的脑袋,具有智能的科技感。毛茸茸的两只耳朵,让猫咪更有亲近感。黑色的眼部有一颗的红色激光灯,小包看到哪里,猫咪就会追随他的视线,往哪里跑。机器人小包具有独特的旋转结构专利,铲屎官外出时,机器人小包可以陪伴猫咪玩乐,转移注意力,减少分离焦虑。智能声控开启,操作简单,猫咪玩累了,自动停止待机。

这款机器人小包可以陪伴猫咪,减缓与主人的分离焦虑,有利于促进猫咪的心理健康。旋转的红色激光有效吸引猫咪的注意力,让猫咪运动起来,有利于猫咪的身体健康。同时这款机器人小包可以充电,避免干电池对环境的污染。

Nowadays most of cat owners are aged under 50, who often go out during the day and have almost no time to play with their cats. As a result, many cats suffer from separation anxiety and most cats are alone at home at least one third of the time. This robotic cat toy can play with the cat when the owner is not at home and therefore relieve the cat's separation anxiety. Cats raised indoors tend to gain too much weight. With this toy to accompany the cat to play, the cat would exercise more and be less likely to gain weight.

Imitating a robot head, this toy has a futuristic high-tech style. There are two furry ears on the toy, which can make the cat feel more comfortable when playing with it. Its black eyes can emit red lasers, allowing the cat to follow its eye-sight. This robotic cat toy has a unique patented rotating structure.

When the cat owner is out, the toy can accompany and play with the cat, diverting its attention and reducing separation anxiety. It has intelligent voice control functions and can automatically stop and enter standby mode when the cat gets tired.

This robotic cat toy can accompany the cat and relieve separation anxiety, helping to promote the cat's mental health. Its rotating red laser can effectively attract the cat's attention, promoting the cat to move, which is beneficial to its physical health. Furthermore, this toy uses rechargeable battery, which helps avoid environmental pollution from dry batteries.

三防功能窝YF113087

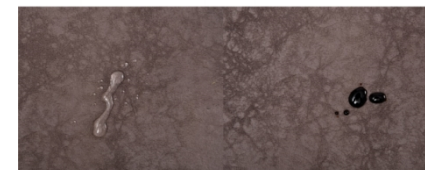

MULTI-PROOF FUNCTION NEST YF113087

设计师 Designer:
王小华 Amy 杨玉松 Sunny

我们公司于2021年1月对养宠痛点和宠物睡眠进行研究,宠物尿渍、口水等成为日常养宠痛点,三防面料很好地缓解了日常主人难清洗的痛点。宠物宝宝天生敏感,时常半梦半醒,很难进入深睡眠状态,首先从内置材质入手,慢回弹记忆海绵,由于质地较软和慢回弹,睡眠躺卧翻滚时有适度的缓冲发挥慢回弹特性,更贴合更舒适不受干扰,零压睡感,舒缓一天的疲劳。

三防功能窝:防水、放油、防污等功能。外部产用三防功能面料;内置内套,方便拆洗;记忆整体模型海绵,“零压”化解压力,更贴体,有效辅助睡眠;防滑滴塑底,地暖不热熔,防滑同时不沾地板。

内置记忆的慢回弹海绵,柔软有力,完全贴合宠物身体曲线,身体得到完全释放,有效辅助睡眠,保温性好、是填充棉中健康最佳选择。

Our company conducted a research on the pain points of pet raising and pet sleep in January 2021. Pet urine stains and saliva have become one of the daily pain points of pet raising. The multi-proof fabrics have well alleviated the pain points of daily owners that are difficult to clean. Baby pets are inherently sensitive, often half-dream and half-awake, and it is difficult to have deep sleep. First of all, start with the built-in material which is slow rebound memory foam, and due to its soft texture and slow rebound, there is a moderate cushioning when sleeping and rolling to present slow rebound characteristics. It is more suitable, more comfortable and undisturbed, the sleep has zero pressure and relieves fatigue of the day.

Multi-proof function nest: Waterproof, oil-draining, anti-fouling and other functions. Multi-proof functional fabric on outside; built-in inner sleeve, which is easy to remove and wash; filled with memory foam which relieves stress, more body-fitting, and effectively assists sleep; anti-slip bottom, floor heating but does not melt, anti-slip and does not stick to the floor.

The slow-rebound sponge with built-in memory is soft and powerful. It fits the curve of the pet's body completely, and the body is fully released, which effectively assists sleep. It has good heat preservation and the material is the best choice for health.

在市场上不难发现这种小扶手椅,但ARM_J最具创新性的地方是它的腿采用了实木橡木,座椅采用了橡木贴面胶合板或者软包布艺,靠背采用了注塑聚丙烯。

ARM_J让我们能够用三种不同材料的不同组合,我们可以从严肃的办公椅,到酒店或餐厅的有趣旋转扶手椅。

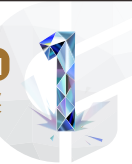

ARM_J是舒适、轻盈、独特……经典概念的全新诠释。表达的是新鲜和独特,极具吸引力,几乎适合在每个空间使用。

It's not very difficult to find this kind of small armchair already in the market but the most innovative thing of ARM_J is the combination of solid oak wood in its legs, oak veneered plywood plate in its seat and injected polypropylene in its backrest.

It allow us to combine three different materials in such different ways that we can make a really serious office chair become a funny swivel armchair for hotels or restaurants.

ARM_J is comfortable, light, unique...a new interpretation of the classic concept. The expression is fresh and different, it is really attractive, it is suitable to be used in almost every space.

鼻插式便携鼻炎仪,产品小巧,便于携带与使用。特殊波长的红光和红外综合作用,用于预防和治疗鼻炎过敏,减轻鼻炎患者的痛苦。

天津九安医疗电子股份有限公司设计研发的新款鼻炎仪,是一种创新和有效的治疗方法,可以缓解过敏性鼻炎相关的刺激性症状,如流泪、流鼻涕和打喷嚏。它安全、快速且容易使用,部分人群只需几次治疗后便得到改善。该产品采用两种不同波长的光疗法。一种波长会产生少量热量,促进血液流动和循环,第二种波长(红光疗法)抑制释放组胺的细胞,减少炎症,从而缓解过敏性鼻炎的刺激症状。

鼻插式便携鼻炎仪,产品设计的初衷就是为患有鼻炎人士提供方便快捷有效的预防和治疗方式。产品设计上做到小巧轻便,通过磁吸方式将主机和鼻插探头分开,方便用户在选择上能够有灵活多样的选择。

The nose-plug type portable rhinitis instrument is compact and easy to carry and use. Special wavelengths of red light and infrared combined effect can be used for the prevention and treatment of rhinitis allergy, relieving the pain of rhinitis patients.

The Andon Medical Rhinitis Reliever is an innovative and effective treatment for the relief of those irritating symptoms associated with allergic rhinitis like watery eyes, runny nose and sneezing. It is safe, quick and easy to use and some people may feel an improvement after just a few treatments. The Andon Medical Rhinitis Reliever works by using phototherapy of two different wavelengths. One wavelength will produce small quantities of heat to promote increased blood flow and circulation; the second wavelength (red light therapy) suppresses the cells that release histamine and reduces inflammation, thereby relieving the irritating symptoms of allergic rhinitis.

The nasal insertion portable rhinitis instrument is designed to provide convenient and effective prevention and treatment for people suffering from rhinitis. The product is designed to be small and light. The main engine and nose plug probe are separated by magnetic suction, so that users can have diverse choices.

在疫情背景下,病菌严重影响人们的身体健康且消毒防护资源严重匮乏。这款产品是一个只需将普通盐水电解即可生成环保无毒无害、无化学残留的次氯酸钠消毒液的电动喷雾器。次氯酸钠溶液有强氧化性,能有效的破坏细菌的细胞壁,从而起到杀菌作用。

此产品只需要普通盐水即可制作消毒液,同时采用我司自主研发行业领先模块化自动喷雾控制系统、电解方式及控制系统,产品更加高效安全。电解电极采用独特的结构设计、防高电流保护设计、有效的泄压系统、等多项独有的核心技术,使电解电极成本降低20%,电路过载机率大大降低,同时提高电解的效率。

一体成型的把手设计,完美贴合手掌,大小、距离、尺寸充分考虑产品的重心与握感的关系,同时增加了中指承托和虎口承托的设计给人舒服的握感。造型上使用圆润有亲和力的设计,握把完美匹配其结构,装配简易,视觉效果上也得到升华;喷壶嘴为喇叭形,让喷雾有更好的扩散效果;操控屏幕在顶部为跑道圆的形状。产品整体呈简洁的几何造型风格,时尚大气,搭配圆润的零部件设计,打破医疗设备的冰冷感,给人以亲和力。

In the context of the epidemic, germs seriously affect people's health, and at the same time, there is a serious shortage of disinfection and protection resources. Therefore, this product only needs to electrolysis ordinary salt water to generate an environmentally friendly, non-toxic and non-chemical residual sodium hypochlorite disinfectant electric spray. Sodium hypochlorite solution has a strong oxidation, and can effectively destroy the cell wall of bacteria, so as to play the role of sterilization.

This product only needs normal saline to make disinfectant, and our company has independently developed the leading modular automatic spray control system, electrolysis and control systems, and products are more efficient and safer. Electrolytic electrode adopts a unique structural design, high-current protection design, effective pressure relief system, and other unique core technologies, and the cost of electrolytic electrode is reduced by 20%, and the circuit overloader is greatly reduced while increasing electrolysis efficiency.

The integrated handle design perfectly fits the palm. The size, distance and size of the handle fully consider the relationship between the center of gravity and the grip feeling of the product. At the same time, the design of middle finger support and tiger mouth support gives people a comfortable grip feeling. The shape adopts mellow affinity design with grip perfectly match its structure and it has a simple assembly, and the visual effect is also sublimated. The nozzle of the can is flared, so that the spray has a better diffusion effect. The control screen at the top is in the shape of the runway circle. The whole product is in simple geometric style, fashionable atmosphere, with round parts design, breaking the cold sense of medical equipment and giving people with affinity.

本产品外观新颖美观, 结构简单可靠, 操作和维修方便, 操控性能好, 上下车方便。分短轴距 (1人或1.5人座) 和长轴距 (2人座, 优先做)。借鉴BRP Outlander塑料件合缝和塑料件匹配为参考, 对优良元素进行保留, 对竞品不足之处进行完善, 对生产组装上的反馈问题予以解决。外观螺栓头不可见, 前后灯具安装塑料件单独可拆。

主要面对的市场消费群体: 欧洲和俄罗斯中产家庭、偏向农业和娱乐的公司和团体休闲/短途代步, 农场巡查和物料运输, 安全巡逻, 家庭娱乐、远途竞赛。

The appearance is novel and beautiful, the structure is simple and reliable, and the operation and the maintenance are convenient, it has a outstanding control performance. It is divided into short wheelbase (1 person or 1.5 people) and long wheelbase (2 people, priority). Drawing on BRP Outlander's plastic parts and matching of plastic parts as a reference, the fine elements are retained, the deficiencies of competing products are modified, and the feedback problems in production and assembly are solved. The bolt head is not visible from the outside, and the plastic parts of the front and rear lamps are separately detachable.

The main target market: Middle class families in Europe and Russia, companies and groups with a preference for agriculture and recreation, leisure/short trips, farm inspections and material transportation, security patrols, family recreation, long-distance competitions.

针对广大公寓住户以及户外旅行爱好者在使用传统高压清洗机时不具备接水接电的痛点, 将锂电清洗机及可拆卸水箱(容量15L)整合, 灵感来自于拉杆箱的经典设计, 摒弃了清洗机传统笨重的设计, 产品设计更加时尚精致, 使用移动也更加便利。解锁机身左右的两个锁扣即可轻松取下水箱, 便捷地在不同水源条件下取水。同时主机支持水管直连, 为用户提供了更多样化的接水使用选择。

两段式伸缩铝合金拉杆, 使得产品整体更加时尚精致, 使用移动也更加便利, 大大缩小了收纳所需空间。机身背部充分考虑了清洗机使用的一些必要附件的收纳, 使得使用和收纳体验更加出色。

得益于创新的模块化设计, 针对更高清洗要求的用户, 提供了锂电主机与更大容量移动水箱的组合, 充分满足细分市场不同用户的需要。

The majority of apartment residents and outdoor travel enthusiasts normally don't have water and electricity supply for using the traditional high-pressure washer, to solve this problem, we designed this li-ion powered high-pressure washer with detachable water tank (15L). Inspired by the classic design of Rimowa cases, we abandoned the traditional trunky block design, the overall design is more fashionable and delicate, and the unit mobility is way more improved. The water tank can be easily removed by releasing the two locks on both sides of the unit, and the water tank can be easily removed for different water sources. Meanwhile, the direct connection of water hose provides users with more diversified water connection options.

The two-stage telescopic aluminum pull rod makes the product more fashionable and delicate, and the unit mobility is way more improved. Also, the space required for storage is greatly reduced. With fully consideration of accessory storage, we designed a space in the back of the unit which can fit in all the necessary accessories, making the using and storage experience even better.

Thanks to the innovative modular design, by combining the unit with larger capacity water tank, we provide users a higher cleaning capacity, which fully meets the needs of users in the market.

整机设计由工整简洁的切面立体线条, 组成颇具冲击力造型的前面板, 赋予产品安全和可靠而又不失力量感。在侧面板设计上镌刻成格栅样式, 提升力学稳定性的同时, 很好地保证了风量力度, 进而提升整机散热性能。配色上采用沉稳的深灰与黑色搭配, 体现整机的专业性。

整机配备4冲程发动机能高效地提供额定3.6KW的输出功率。在容量方面, 内置11L大油箱, 满负载可运行6.5小时。

配有高规格的输出功率以及大油箱可以满足多种使用环境。机身顶部设计有半隐藏式提手, 强调美观的同时, 也能为整机移动提供便利。

The design of the whole machine is composed of neat and concise three-dimensional lines, which make up the front panel with strong impact, giving the product a sense of safety, reliability and strength. The side panel design is engraved with grid style to enhance the mechanical stability and ensure the air volume, so as to improve the heat dissipation performance of the whole machine. Deep gray and black are used to match the color, reflecting the professionalism of the machine.

The whole machine is equipped with 4-stroke engine, which can efficiently provide rated 3.6Kw output power. In terms of capacity, the built-in 11L large oil tank can run for 6.5 hours at full load.

Equipped with high output power and large fuel tank, it can meet a variety of using environment. The top of the machine is designed with a semi-hidden handle, which not only achieves the goal of beauty, but also provides convenience for movement.

太阳能媒体机, 是一个集照明和视频播放于一身的太阳能产品, 在原有的太阳能家庭照明设备上增加7英寸显示屏, 增加视频播放功能。我们研发初衷是为BOP人群改善其夜间照明的同时, 传播一些生活知识和疾病防治方法。将教育送到最后一公里, 提高他们的生活品质。

太阳能媒体机经过潘虎设计的产品包装, 完成了基本的使命之后, 还可以作为衣架、衣柜、置物柜等使用。这样就能将原本要丢弃的包装盒再次利用起来, 循环使用, 变废为宝。

Solar Media is a solar product that integrates lighting and video playback. It adds a 7-inch display screen to the original solar home lighting equipment and adds video playback functions. The original intention of our research and development is to improve the night lighting for BOP people, while promoting some knowledge of life and disease prevention methods to improve their quality of life.

Solar media's product packaging designed by Pan Hu can also be used as clothes hangers, wardrobes, lockers, and so on besides its basic use. In this way, the originally discarded packaging box can be reused, recycled, and can turn waste into treasure.

此款户外便携式多功能折叠婴儿床, 面料采用防泼水230尼龙, 浅粉和深粉色彩过度柔和, 显得温柔时尚, 侧面采用灰色面料实用耐脏, 迎合了当下辣妈市场的流行审美。

温柔时尚的粉色属于浅色系, 拥有时尚休闲的外形, 既有背包功能, 亦有简易婴幼儿床功能, 特别是适合有婴幼儿的家庭外出野餐。在野外不易招蚊子。

17英寸的高度, 前后拉链打开可扩展成遮阳防晒且带蚊帐的空间, 防蚊虫叮咬, 搭配独立内含泡棉的PEVA尿布垫, 防潮防湿, 给婴幼儿在户外提供舒适的睡眠环境。

This multifunctional outdoor crib is portable and foldable. It's made of 230 nylon fabric which is water repellent. The light pink/dark pink color makes this crib more gentle and fashionable. Grey color fabric is used in the side part, which is practical and dirty-resistance, catering to the popular aesthetics of the market for moms.

The light pink color makes this crib more gentle and fashionable. With the fashionable shape, it can be used as a backpack and simple crib, which is suitable for families with infants and children to go out for a picnic and it won't attract mosquitoes outdoors.

With 17 inch height, when the front and back zipper opened, the product can be expanded into a sun-shading space with a mosquito net, preventing mosquito biting. And it's equipped with a diaper pad with inside PEVA foam, which is moisture-proof and damp-proof. This provides a comfortable sleeping environment for the baby outdoor.

这款抗病毒防护户外运动功能棉衣是具有抗菌、抗病的防护户外运动多功能服,在外观设计上,衣服上设计自带便捷拆卸口罩和腰处外层脱卸,当进入密集人群或者雨天时,可以快速戴上衣服上携带的口罩跟腰侧外层保暖层,可以快速防病毒跟冷风侵入。当进入休闲场所时,可以脱卸帽侧纽扣固定的口罩跟腰侧外层保暖层,秒变成双层效果的休闲棉衣,让衣服更加时尚。

该棉衣采用高防水高透湿功能面料,内里整件吹风,防止雨水进入,内层整件棉,保暖又舒适。

整件衣服的所有面辅料及棉内加入抑菌技术,抗菌率高达90%;面辅料里具有黄铜分子聚合物与银质分子,黄铜分子聚合物可用于抵抗病毒,银质的传导性、抗菌性、电磁性屏蔽和防腐作用,使离子纤维和聚合材质可以提供无形的保护作用。在后疫情时代,这件衣服兼舒适体验和强大防护功能于一体,是目前疫情外出的必备科技产品。

This jacket has an anti-bacterial and antiviral protective function. In terms of appearance design, the jacket has a convenient removable mask and waist outer thermal layer. Walking through the dense crowd or on rainy days, you can quickly put on the mask and waist outer thermal layer, which can quickly prevent viruses and cold wind. When you enter the leisure place, you can take off the mask and the waist outer thermal layer, and then it becomes a leisure insulated jacket with a double-layer effect in seconds.

The shell fabric has a high waterproof and breathable function. With seams taped, it can prevent rain. The quilted lining is warm and comfortable.

With the antibacterial technology, The antibacterial rate is up to 90%. There are brass molecular polymer and silver molecular in material and accessories. The brass molecular polymer can be used to resist viruses. Silver molecular has conductive, antibacterial, electromagnetic shielding, and anti-corrosion effects so that ionic fiber and polymer material can provide invisible protection. In the post-pandemic era, this jacket combines the superior comfort experience with a powerful protection function. It is a necessary technology product for the current epidemic situation.

系列产品为秋冬季款,采用废弃牛皮纤维与棉交织的环保创新型牛仔面料,产品柔软且保留了真皮特性。抗菌性:本系列产品具有强大的抗菌性,对金黄色葡萄球菌、大肠杆菌、白色念珠菌的抗菌性达到95%;阻燃性:产品中的牛皮纤维有天然的阻燃功能;防螨:具有防螨性能,减少虫螨对产品的侵蚀。

此款面料非常适宜秋冬穿着,皮纤维与棉交织形成非常有颗粒质感的表面富有特色;洗水过后此夹克将呈现深蓝色调,是牛仔永不落幕的时尚色,也更易

于搭配;胸前的贴袋与分割设计让这个产品变得更有立体感,双排缝线的撞色与古铜色金属工字钮相呼应。左胸口袋的装饰牌设计更上画龙点睛,让产品眼前一亮。

以上所述系列产品都是利用皮革废弃边角料,经回收后以真皮纤维通过再编织的方法使其重组,形成生物基可纺胶原纤维,纺织成牛仔布后,设计成牛仔相关服饰的产品。

This series of products are for autumn and winter. It is the first time to adopt the environmental protection and innovative denim fabric that interweaves waste cow leather fiber and cotton. The products have special texture and retain the characteristics of dermis. Antibacterial property: This series of products have strong antibacterial property, and the antibacterial property against Staphylococcus aureus, Escherichia coli and Candida albicans reaches 95%. Flame retardant: The part of cowhide fiber in the product has natural flame retardant function. Anti mite: Anti-mite performance reduces the erosion of mites on products.

The fabric is very suitable for autumn and winter wear. The leather fiber and cotton are interwoven to form a very granular surface, which is very distinctive; the dark blue tone of this jacket is made by washing water. It is a fashionable color that denim never ends, and it is also easier to match; the patch pocket and split design on the chest make this product more three-dimensional. The contrast color of the double-row stitches echoes the bronze metal I-shaped button. The decorative plate design on the left breast pocket adds the finishing touch to the product.

The above-mentioned series of products are made of waste leather scraps, after recycling, dermis fibers are re-woven to reorganize them to form bio-based spinnable collagen fibers, which are woven into denim and designed into denim-related apparel products.

这是一款多功能三节脱卸户外登山裤,此款裤设计可有长裤、7分裤、5分裤三种穿法,可随着温度的变化自由来调节使用裤子的长度,适合多季节穿着。在首节脱卸脚侧处使用全开拉链的设计,在不用脱鞋情况下就能轻松穿脱。大腿侧还设计了收纳口袋,出行时可以轻松的收纳到小袋子内,方便携带。

面料采用环保植物纤维来进行混合织物合成,在正常的土壤内700天可降解高达95%,大大减轻了地球的负担,是目前可降解度极高的环保植物纤维面料。

该环保面料也具有超防泼水透气功能,当水滴在裤子的表面,可以自行快速拨离,减缓表面浸湿渗透,让穿着者时刻保持干爽舒适,在运动时,可以快速散发体内的热气,告别运动时的闷热,是徒步旅行的首选。

This is a pair of detachable trinodal outdoor hiking pants. Being adjusted by zippers at thigh and knee, it can be used in full length, half-length, and also as cropped trousers as the weather changes. The side of the leg is zippered, so there is no worry to put on and take off the pants even when wearing shoes. There is a storage pocket at the side of the thigh, making the pants packable, which is very convenient for carrying when travelling.

The fabric is made of eco-friendly plant fibers. It can be degraded up to 95% in 700 days in soil, which greatly reduces the burden on the earth.

The fabric is super water-repellent and breathable. Water droplets on the surface of the fabric can be quickly removed, allowing the wearer to stay dry and comfortable at all times. When you exercise, it helps you dissipate the heat of the body quickly. Definitely the best choice for hiking!

户外环保减负登山包作为重装户外登山包,整体颜色偏向于大地色系,通过亮色点缀提升在户外的警示性,橙色的防雨罩设计在雨天中更加显眼。全包采用RPET涤纶蜂巢舞龙布的可回收材料制作,相当于消耗了35个回收的塑料瓶。主面料兼具了防泼水工艺还使用了同净的光催化技术,面料在有污染物的时候可以通过紫外线照射有净化的效果并且具有极强的抑菌、除臭、防霉、防污自洁、净化空气的功能,在户外活动中有着更加强大的保护性。

此款背包还具备了户外重装背包的合理装

载系统、外挂系统;前部可扩容的袋鼠袋口袋,两侧的水壶口袋,顶部的头帽打杆收纳口袋均可分类装置不同的物品;底部U型的大开口可便捷拿取睡袋和其他杂物,增加其用户体验;外部的挂载系统可以外挂2只登山杖,前底部还有头灯挂点。

This eco-friendly outdoor trekking backpack is ideal for managing heavier loads during backpacking or mountaineering, the overall color offers an earthy feel and use bright orange trims to enhance warning in the outdoor. The removable bright orange rain cover could be more visible in rainy days. It is made of recycled RPET material in honeycomb ripstop as exterior fabric, which is equivalent to 35 recycled plastic bottles, and in addition to the water repellant treatment, this fabric also uses the advanced photocatalytic technology, that is, when there are stains on the fabric, it could be purified by ultraviolet radiation, and it also has the functions of antibacterial, deodorant, mildew proof, anti-fouling, self-cleaning, and air cleaning, so that it offers a great protection to the products in outdoor activities.

What's more, this backpack also features reasonable loading designs, front shove pocket with gusset, dual side water bottle pockets. Top zipper pockets are available to put different items. The U-shaped opening at bottom provides a quick access to the main compartment for sleeping bags or other stuff. There are also trekking poles attachment and laser-cut holes at front bottom for head lamp attachment. Dual sides compression straps and bottom compression straps are suitable to hold other stuff.

这是一款兼具美观、高弹性、高强度的智能瘦身瑜伽裤, 在设计上, 外观接缝处采用4针6线工艺和无痕的贴合工艺相结合, 这种工艺更加提升拉力、实现贴身包裹感, 且此款裤子的面料是采用可再生海洋回收环保材料加氨纶混纺织物, 大大减少对海洋环境的影响, 让织造出来的面料更加亲肤、透气, 让穿着者全天穿着舒适, 是一款集环保、舒适、时尚于一身的紧身运动裤。

腰侧桃心电源开关, 与手机APP蓝牙连接实时监测体内燃烧脂肪。服装与电极一体化集成设计, 在臀部植入智能可穿戴银纤维导电面料。

可以使微电流技术, 利用导电介质, 输出电流波形, 模拟人手按摩捶打节奏, 实现按摩舒缓, 增强ATP生命能量, 肌肉在电脉冲的刺激下, 肌肉瞬间被强制收缩以及放松, 可以提升肌肉的应激反应能力, 缓解肌肉疲劳紧绷, 同时也达到燃烧减脂, 修身塑形的效果。是当下缓解上班久坐的最好产品。

The fabric is produced with recycled marine waste and polyurethane fibers blended to reduce pollution and offer an eco-friendly option. It makes the woven fabric more skin-friendly and breathable, allowing the wearer to wear these pants comfortably all day long. The seams are produced under the 4 needle-6 thread overlock process and trackless laminating offers stronger but more comfortable seams, allowing the wearer to be comfortable all time.

It has a power switch sewn into the waistband that can be connected by Bluetooth to your mobile phone to monitor the body performance in real-time. It is made of the integration of clothing and electrodes and smart wearable silver fiber conductive fabric in the hip.

The use of the conductive medium, output current waveform, simulation of hand massage beat rhythm, and massage relief can enhance the life energy of ATP. Muscles are forced to contract and relax in an instant under the stimulation of electrical pulses, which can improve muscle response, relieve fatigue and muscle tension, achieve the effect of burning fat, and cultivate one's body form. It is the best product to relieve muscle tension after sitting at work for a long time!

首先通过面料的织法使面料表面呈现出带有丰富肌理的面料纹理,纹理清晰明了,在触感上拥有肌理感受,再通过热转印工艺将图案印于面料上,肌理与图案的完美结合呈现出手工的感受,但效率与产量远高于手工地毯。纱线选用从塑料制品中提取纤维制成的纱线,可循环再生,透气性强,轻薄易打理,具有可持续高耐用性能,日常污渍只需抹布擦拭清除。

模仿手工编织纹理的宽水平条纹与狭窄的垂直条纹纵横交替出现。具有手工的质感。

外边采用锁边工艺,使毯面更加平整,背布采用无纺点塑布背,更防滑。

First, through the weaving method of the fabric, the surface of the fabric shows rich texture, with clear effect. Then the pattern is printed on the fabric through the heat transfer process. The perfect combination of texture and pattern gives you the feeling of handwork, but the efficiency and output are much higher than that of handmade carpets. The yarn is made of fiber extracted from plastic products, which is recyclable. This product is highly breathable, light-weight and easy to take care of. Daily stains can just be removed by wiping with a rag, high durability performance.

Wide horizontal stripes imitating a hand-woven texture, alternate with narrow vertical stripes, which shows handmade texture.

The overlocked edge makes the carpet more smooth, and gel dots backing is non-slip.

在款式设计上,打破传统的前中拉链式设计,而是采用新颖的套头式设计,两边身侧运用魔术贴进行前后连接,便于脱卸。当马甲穿在中间层,在户外运动途中感觉太热时,这时肩上背着行囊可不用卸下,也不用脱去外套,可将手直接伸向内件马甲,把两边的魔术贴拉开,然后手抓上衣领轻松取出马甲,完成卸装,避免冷风袭击。

随之还将脱下的马甲进行收纳,先把内里下摆收纳袋的拉链拉开,然后将马甲卷起来收纳到袋里,这样就能秒变成一个长条圆形的靠枕,在旅途休息时充当脖子靠枕用,实现一衣两用的功能。

这是一款一衣两用的环保便捷马甲,面料采用石墨烯纱线,可抗菌、抗远红外,内里填充可再生棉,既保暖,又环保。

In terms of style and design, it breaks the traditional front opening and closing and adopts a novel sleeve design. The two sides are connected before and after using Velcro strips which are easy to open and close. When you feel too hot during outdoor exercise as the vest is worn as a middle layer, you can carry your bag on your shoulder and do not need to remove it or take off

your coat. Instead, you can reach directly into the inner vest and pull apart the Velcro on both sides. Then you can easily take off the vest by grasping the collar of the coat to complete the removal and avoid any cold wind.

Then when you take off the vest, you can pack it in its own bag for storage. It can also be used as a long round pillow, so for the rest of the journey, you can use it as a neck pillow. You can use it in two ways.

This is an environmentally friendly and convenient vest that can be used for two purposes. The fabric is made of graphene yarn, which is anti-bacterial and anti-far-infrared. The baffles are filled with recycled polyester, which is both warm and environmentally friendly.
