# 广交会设计创新奖

CANTON FAIR DESIGN AWARD

广交会每年评选一次设计创新奖，以“树立品质标杆，引导设计创新”为宗旨，甄选兼具设计和商业价值的前沿精品，通过广交会平台向国际国内市场充分展现高端品质、扩大品牌传播、促进对接交流，助力贸易高质量发展。

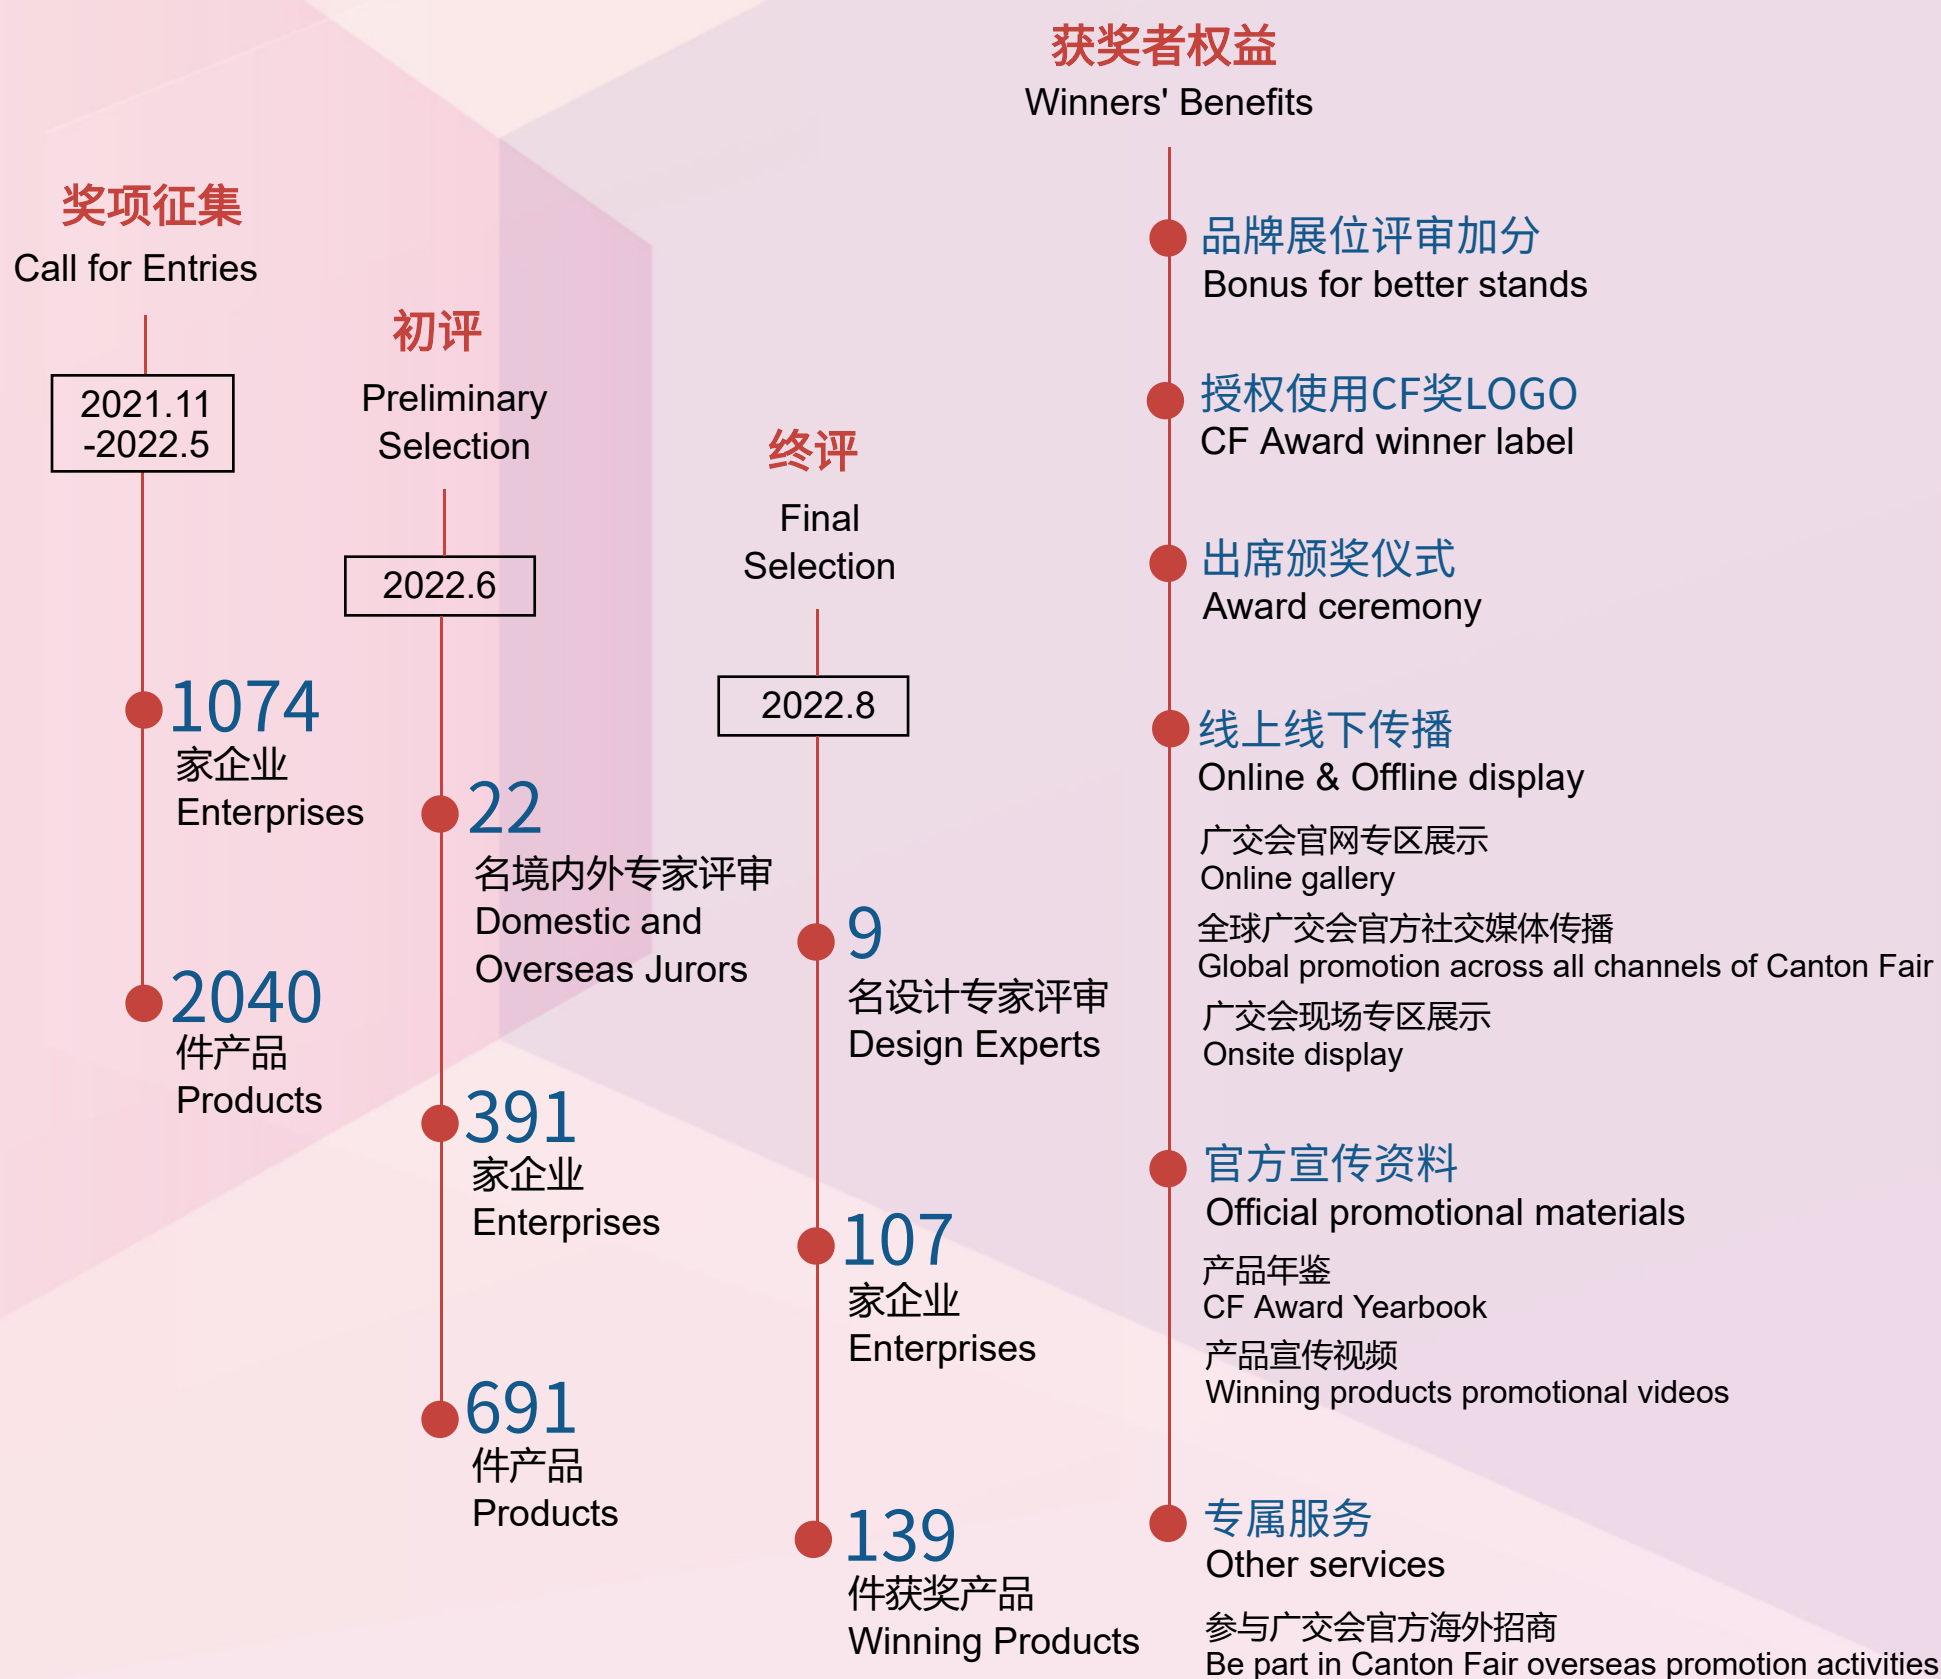

Canton Fair Design Award(CF Award for short) selection is held once a year by Canton Fair, which aims to pick out the cutting-edge products combining both design and business value at home and abroad. By presenting the products through the platform of Canton Fair, enhancing brand communication, and promoting exchanges at the Fair, it helps with the high-quality development of international trade.

乐歌LOCTEK  
智能升降家居领航者

乐歌V6健身办公椅，是一款针对办公环境设计的创新型产品，它是集健身车与座椅的两用产品，提倡和鼓励在办公时兼顾锻炼身体；功能上，可以调节骑行强度（功率）、可调节座椅满足人体工学的需求。

政策上：迎合国家倡导的重要全民健康规划《“健康中国2030”规划纲要》，积极参与人民健康与经济社会协调发展的国家战略，实现全球健康治理的愿景，实行2030年国际可持续发展议程承诺的重大举措；发挥对健康企业的引导作用。

乐歌V6健身办公椅以“轻健身+轻办公”的健康理念设计，将健身车和办公椅完美的集成在一起，是一款专注于“健身”和“办公”两个场景的健身办公椅。普通骑行为日常健身塑形，女性形体更纤美；短时间快速骑行提升男性腿部肌肉耐力，提升雄性激素水平；办公时可利用碎片化时间进行运动，防止久坐不动带来的伤害，预防和降低颈椎腰椎等患职业病的风险；增加运动场景便捷度，为用户提供一种私人健身办公空间及健康管理的综合性解决方案。

乐歌持续关注人体工学设计，20年如一日研究人与工作之间的关系，为身体与工作和谐，不断升级创新。

作为一个负责任的企业，和一款负责任的健康产品，健身椅设计围绕“大健康”理念，超过健身车和办公椅行业标准；材料上充分考虑工艺的可持续发展，合理巧妙的材料应用，在最大限度提升用户产品体验的同时，降低了环境的污染，更好地提倡绿色环保的设计理念；产品设计创新上，创新向前，为传统健身椅和传统办公椅行业做出指引。

LOCTEK V6 fitness office chair, an innovative product designed for the office environment, is a dual-use product combine the exercise bike with chair that advocate and encourage users taking exercise while thay are working in the office. Functionally, the riding intensity (power) is adjustable, and the adjustable seat meets the ergonomic needs.

Policy: Cater to the important national health plan"Health China 2030" that advocated by the state, actively participate in the national strategy for the coordinated development of people's health and the economy society, realize the vision of global health governance, implement the major initiatives committeded in 2030 Agenda for Sustainable Development and play a guiding role in healthy enterprises。

LOCTEK V6 fitness office chairs are designed as the concept of 'Fast Exercise + Fast Office', perfectly integrates the exercise bike and office chair together, which focus on the two scenes: 'fitness'and 'office'. The normal daily riding is for better physical shape, which makes women more beautiful. Rapid riding in a short time benefits the endurance of leg muscle for men, which rises the level of androgen.People can use fragmented time to exercise during the office, to prevent injuries caused by sedentary, reduce the risk of occupational diseases such as lumbar and neck hurt, increase the convenience of exercise scenes, and provide users with a private fitness office space and a comprehensive health management solution.

LOCTEK continues focusing on ergonomic design, 20 years like one day to study the relationship between people and work, constantly upgrade innovation for the harmony between body and work. As a responsible enterprise, and a responsible health products, the design of the fitness chair centres on the "big health" concept, exceeds the standards of the exercise bike and office chair industry. In terms of materials, the sustainable development of the technology is fully considered, and the application of materials is reasonable and ingenious. Maximized the user product experience and reduced the pollution to the environment at the same time, and the design concept of green environmental protection is better promoted. In terms of product design innovation, continuous improvement and guide the traditional fitness chair and traditional office chair industry.

## 智能手冲咖啡机SCM1705 INTELLIGENT POUR-OVER COFFEE MAKER SCM1705

企业名称：广东新宝电器股份有限公司  
Corporate Name: GUANGDONG XINBAO APPLIANCES HOLDINGS CO.,LTD.  
张群 Zhang Qun  
Tel:+86-13246272328  
E-mail:zhangqun@donlim.com

### 设计师 Designer:

陈龙辉 Longhui Chen  
余海秀 Haixiu Yu  
张兴民 Xingmin Zhang

智能手冲咖啡机专为手冲咖啡爱好者设计的定制化产品，具有创新性并融合了行业领先的技术。此设计集成了磨豆机、手冲壶和电子秤为一体的设计。根据所需的杯数，通过电子秤的精准输出，研磨系统工作完成时，控制咖啡壶向右移动，使其位于冲泡系统下方，模拟手冲咖啡的360度旋转动态，使水分子更充分的包裹咖啡粉，更专业的冲泡咖啡。

智能定量出水，精准控温，给用户最合适的咖啡，避免水资源及能源浪费。

咖啡机由两大系统和两大模块组成：磨豆系统+冲泡系统+控制模块组成+电子秤模块。

冲泡系统模拟手冲咖啡的动态，视觉化手冲咖啡的过程。加入新的人机交互体验，增强用户与产品的参与度，提升用户对产品的体验感。

Intelligent pour-over coffee maker is a customized product specially for hand coffee lovers, which has adopted advanced technology of the industry. This design integrates the design of bean grinder, hand coffee pot and electronic scale. According to the required cups of coffee and through the accurate output of the electronic scale, when the grinding system is completed, move the coffee pot to the right and make it located below the brewing system to simulate the 360° rotation of hand brewing coffee, so that the water molecules can more fully wrap the coffee powder and brew coffee more professionally.

Quantitative water control, accurate temperature control, to provide the user the most suitable coffee, avoid water and energy waste.

The coffee maker is consist of two major systems and modules: grinding system+brewing system+control module+electronic scale module. Brewing system simulates the dynamics of hand-made coffee and visualizes the process of hand brewing coffee. It has added a new human-computer interaction experience, enhanced the participation of users and products, and upgraded users' experience of the product.

## 冰箱BCD-510WPSCL REFRIGERATOR BCD-510WPSCL

企业名称：珠海格力电器股份有限公司  
Corporate Name: GREE ELECTRIC APPLIANCES, INC. OF ZHUHAI

### 设计师 Designer:

潘万国 Wanguo Pan      徐康泉 Kangquan Xu  
刘家华 Jiahua Liu      李香谐 Xiangxie Li  
牛玉阁 Yuge Niu      黎宇航 Yuhang Li

全新系列“全域养鲜”冰箱，保鲜技术的集大成者。主推食材保鲜，精细分储，打造科学合理的内饰比例尺寸，提供专业保鲜方案，呵护用户健康，为用户带来优质储鲜体验。搭载众多核心技术，为用户提供更专业的保鲜方案：鱼虾模式-3℃冰点补偿技术、鲜肉模式-5℃细胞凝鲜技术、零度模式0℃冷藏、母婴模式4℃精控恒温技术。

后疫情时代背景下，市面上的冰箱产品对果蔬保鲜方面缺乏足够的重视与技术支持，食材分区不明确，一味强调冷冻保鲜，忽视食材的健康问题，而全域养鲜冰箱针对这一市场空缺进行设计。填补市场健康果蔬保鲜空缺，解决了用户食材的全品类保鲜需求，引领行业保鲜功能变革，产品一经推出受到市场一致好评。

首创鹤羽青彩涂板门体：其表面哑光拉丝机理效果，彰显精致优雅，给用户带来全新的视觉、触觉体验。显示和把手一体化设计：把手盖板为跑道圆弧造型设计，运用注塑半透工艺展现立体纹理细节。把手盖板弧度迎合扣手走向，握感舒适。把手盖板和显示相结合，给用户带来全新的视觉、触觉体验。内饰精细分储：通过大量用户调研、家居食物存储量分析，打造科学合理的内饰比例尺寸。

Refrigerator with all-round freshness preservation adopts multiple kinds of food preservation technologies. It features food freshness preservation and refined food storage, for caring users' health. It adopts plenty of innovation technologies, such as -3 °C freezing point compensation technology of fish and shrimp mode, -5°C cell-level fresh keeping technology of meat mode, 0°C refrigeration mode and 4°C constant temperature technology of baby mode, providing professional food freshness preservation solution for users.

Against the backdrop of post-epidemic, the common refrigerators in the market mainly focus on food refrigeration, rather than the freshness preservation of food and vegetables and refined food storage. The health of food materials are ignored. However, Gree refrigerator with all-round freshness preservation has filled this blank. This refrigerator has lead a transformation of food freshness preservation industry, which has got good recognition in the market.

1.The first-created crane plume green painted door body; its matte wire-drawing effect on the surface highlighted the delicacy and elegance, bring users with new visual and tactile experience.

2.Integrated display and handle design; The cover plate of the handle is designed with the circular shape of the runway, and the semi-permeable injection molding process is used to show the three-dimensional texture details. The arc of the cover plate caters to the direction of the buckle, making it comfortable. The combination of cover plate of handle and display brings users with new visual and tactile experience.

3.Fine interior storage; Through a large number of investigation and household food storage analysis, a scientific and reasonable interior proportion is created.

## 星球空气净化器系列PLANET SERIES AIR PURIFIER PLANET SERIES

企业名称：广东英为拓科技有限公司  
Corporate Name: GUANGDONG INVITOP TECHNOLOGY CO.,LTD.  
梁群爱 Alice  
Tel:+86-13422767585  
E-mail:3411373634@qq.com  
Web:www.invitop.com.cn

### 设计师 Designer:

梁仲铭 Zhongming Liang

ZORO是一款充满互动性和娱乐性的空气净化器。设计从用户体验出发，我们寻求在交互方式上得以突破，给同质化严重的空气净化器行业注入一些新鲜感，同时形式追随功能，我们思考能否将空气净化器的交互赋予更多的情感趣味性，让它兼具功能性、美学性、识别性。

它看起来像一款未来智能科技产品，透明的球形面罩类似宇航员服装头盔里面包裹的纯净氧气，当产品运行时候能持续输送新鲜干净的氧气，带来一个舒适安全对身体没有伤害的生活环境。

手掌轻轻放到透明罩上，触发机器传感探头，环境灯光环绕透明罩边缘亮起，机器开始运行工作。该产品配备了智能模块，可以自动监视室内环境空气质量，快速激活相应功能净化一切对身体有危害的气体。

每一次旋转球体操控产品，都能带来美妙而人性化的操控体验，让用户每时每刻感受到来自宇宙馈赠的纯净空气。整个功能交互区域仿佛悬浮于空中，独特并新颖的球体旋转操作体验，功能指示灯隐藏球体内部，通过球体旋转照射指示不同功能图标显示当前机器运行状态。产品空气质量环境灯光还可以充当床头夜灯使用，并且可以根据需求调节明暗亮度。

ZORO is an interactive and entertaining air purifier. Starting from the design of user experience, we seek to make a breakthrough in the interactive mode, inject some freshness into the air purifier industry with serious homogenization, and at the same time, the form follows the function. We think about whether the interaction of the air purifier can be given more emotional interest, and make it functional, aesthetic and recognizable.

It looks like a future smart technology product, not just an ordinary household product. The transparent spherical mask is similar to the pure oxygen wrapped in the astronaut's clothing helmet. When the product is running, it can continuously deliver fresh and clean oxygen, bringing a comfortable and safe living environment without harm to the body.

Place the palm gently on the transparent cover, the sensor probe of the machine is triggered. The ambient light lights up around the edge of the transparent cover, and the machine starts to work. The product is equipped with intelligent module, which can automatically monitor indoor air quality, quickly activate the corresponding function to purify all harmful particles.

Each time you rotate the top ball on the products can bring a wonderful and humanized control experience, users can feel the pure air from the universe all the time. With a unique and novel operation experience of sphere rotation, the whole function interaction area seems to be suspended in the air. function indicator in the interior of the sphere will point to the function icon when turn on the product and the current operating state of the machine is displayed. The LED air quality light could be worked as night light at the bedside, and the brightness can be adjusted according to the demand.

利用墙角为基点，进行全房间的暖流循环，更节能、更环保。它不显眼和简单的形状自然地与家庭环境相协调。该设计不仅仅是一款电子产品，而是墙角边上的一件艺术品。

其紧凑的尺寸使其可以放置在卧室、餐厅、书房或家中的任何其他地方的墙角，灯光也给墙角营造温暖的氛围。

这款电暖气采用智能恒温技术，监测室内温度，自动调节功率，控制环境温度。多种操作方式，触屏、遥控、手机蓝牙。

With a wall corners as the base point, the product can realize warm current circulation in the whole room in a more energy-saving and environment-friendly way. Its inconspicuous and simple shape naturally coordinates with the home environment. It is not just an electronic product, but a work of art on the corner.

Its compact size allows it to be placed in the corner of the bedroom, dining room, study or any other place at home. The lighting also creates a wonderful atmosphere at the corner.

This electric heater adopts intelligent constant temperature technology to monitor indoor temperature, automatically adjust power and control ambient temperature. It features multiple operation modes, such as touch screen, remote control and mobile phone Bluetooth.

循环加湿冷风扇KSZ-03T60DgZ  
CIRCULAR HUMIDIFICATION AIR COOLER KSZ-03T60DgZ

企业名称：珠海格力电器股份有限公司  
Corporate Name: GREE ELECTRIC APPLIANCES, INC. OF ZHUHAI

设计师 Designer:

许春月 Chunyue Xu  
汪京经 Jingjing Wang  
罗煌 Huang Luo  
秦鸾 Luan Qin  
李莎 Sha Li

这是一款集空气循环、物理降温、蒸发加湿、等离子杀菌为一体的循环加湿冷风扇。夏天降温，冬天加湿，房间空气四季循环，机头顶部操作，人机交互更便捷。80°水平自动摇头、90°仰角自动调节，实现广角远距离送风。水箱与底盘二合一设计，整机稳定性增强，同时方便用户加水。2.5升水容量能满足8小时持续加湿。前网与前壳的错位、凹位设计，减轻机头厚重感。整机60%使用免喷涂注塑材料，降低成本与环保兼得。

加湿时风不吹人。机头转动，但湿帘保持不动，保证稳定加湿不滴水。

It's a circular humidification air cooler integrates with air circulation, physical cooling, evaporation and humidification and plasma sterilization. It decreases temperature in summer and conduct humidification in winter. Air in the room is circular in four seasons, and it's needless for storage. Operate it from the top, the interaction between user and the unit is convenient. Auto oscillation of 80° and auto adjustment from elevation of 90° to achieve air supply from wide angle and long distance. Water tank is integrated with the chassis, so the stability of the unit is enhanced, besides, it's convenient for the user to add water. Water of 2.5L is able to keep humidifying for 8 hours continuously. The design of front grille and front casing has reduced the heavy feeling of the unit. 60% of the unit adopts spray-free plastic materials, which are good looking, low cost and eco-friendly.

When conducting humidification, the wind will not face people directly. The head rotates while the wet curtain keeps fixedly, ensuring that the no water leakage during humidification.

### 设计师 Designer:

黄英贵 H.Ace

作为厨房用品，Titan厨师机旨在追求更高的安全性。无夹缝设计是它最大的特征之一，使得夹手安全风险系数为零。三角形态的稳定性让机器在抬头时不易向后倾倒，同时也能很好的解决了机器在工作时产生的晃动。

Titan核心变速箱采用行星轮减速，纯铜芯电机扭力更强劲。操作的便捷性和易用性决定了它不需要太多操作技巧，适用于各个年龄段的人。外观的新颖性和轻便性使得它在厨师机类目中更具有识别度。

Titan不仅是一款满足性能的厨师机，对于所处的使用环境，人机交互也具有很强的适应性和易用性。重点关注于消费者的使用场景。此外，外观的简约性意味着他同时具有便捷的装配性，不需要过多工序，能大大提高生产效率，促进资源的最大化利用。

As a kitchenware, Titan stand mixer aims to pursue higher safety. The seamless design is one of its biggest features, which makes the safety risk factor of hand gripping zero. The stability of the triangle state makes the machine not easy to fall backward when the head is raised, and it can also solve the shaking of the machine when it is working.

Titan's core gearbox adopts planetary gear to reduce speed, and the torque of pure copper core motor is stronger. The convenience and ease of use determine that it does not require too many operating skills and is suitable for people of all ages. The appearance of novelty and portability make it more recognizable in the category of stand mixer.

Titan is not only a chef's machine that meets performance requirements, but also has strong adaptability and ease of use for human-computer interaction in the operating environment. Focus on consumer usage scenarios. In addition, the simplicity of the appearance means that it also has convenient assembly, does not require too many processes, can greatly improve production efficiency, promote the maximum use of resources.

## 时光绘KFR-35GW(35519)FNhBc-B1(WIFI) ABOUT TIME KFR-35GW(35519)FNhBc-B1(WIFI)

吴欢龙 Huanlong Wu  
马钰芬 Yufen Ma  
方君诚 Junchen Fang  
谭云龙 Yunlong Tan  
余林军 Linjun Yu

设计理念：提出“环保家居化”的创新理念，致力于打造更有“温度”的家电产品，引领家电行业环保家居风潮。

产品定义：“布艺”是人类家居不可或缺的材质，它无处不在的给消费者带来柔软、舒适、亲切的感官体验。它独特的视觉和触觉，也是室内软装中最能直接刺激消费者第一感官元素。布艺元素和家电产品的融合能够让家电更有“温度”，同时提高产品外观的亲合力，为消费者带来不一样的使用体验和品质感受。

可调节空气温度、适度，提高空气质量，使人体舒适。

色彩上设计了文艺灰和经典米两款配色，与家居环境完美契合。浅色系、饱和度较低的文艺灰和经典米两套配色，充满了雅质舒适气息，能够在一定程度上缓解视觉压力。

在纹理塑造上，结合3D纳米纹理技术打造了自然舒适的粗布棉麻质感布纹，清晰自然，层次立体，触感细腻。

工艺实现上采用了环保的免喷涂布艺注塑工艺，通过材料的创新设计，从视觉上还原真实布艺柔软的质感。

Design concept: put forward the innovative concept of "environmental protection home", committed to creating more "warm" home appliances, leading the trend of environmentally friendly homes in the home appliance industry.

Product definition: "Cloth" is an indispensable material for human households. It brings soft, comfortable and intimate sensory experience to consumers everywhere. Its unique visual and tactile elements are also the first sensory elements that can most directly stimulate consumers in interior soft furnishings. The integration of fabric elements and home appliances can make home appliances more "warm", while improving the affinity of product appearance, bringing consumers a different experience and quality experience.

Adjusting the air temperature, humidity, keeping the indoor air comfortable.

In terms of color, two colors of literary gray and classic rice are designed, which perfectly match the home environment. The light-colored, low-saturation literary gray and classic rice color schemes are full of elegant and comfortable atmosphere, which can relieve visual pressure to a certain extent.

In texture shaping, combined with 3D nano-texture technology to create a natural and comfortable coarse cloth with cotton and linen texture, which is clear and natural, with three-dimensional layers and delicate touch.

In the process, an environmentally friendly spray-free cloth injection molding process is adopted. The innovative design visually restores the soft texture of the real fabric.

自发电无线遥控开关,无需布线、轻松双控、无需电池、环保省事。

轻轻一按,即可实现灯具的开关控制,简约时尚,无需维护;可双控/多控同一个灯具;接入米家/天猫精灵/涂鸦后,可实现一键全开全关、场景联动等功能。

内置 linptech 专利技术的微动能发电机,彻底取代电池;采用86型尺寸设计,可贴合86开关盒(可螺丝装入),轻松替换传统开关;可任意粘贴在墙上、玻璃门、床头等光滑表面,可随手放置于您顺手的地方;具有10万次按压寿命。

Self-powered wireless remote control switch; no wires; easy dual control; no battery needed; eco-friendly and easy to use.

With press, you can turn on/off the lamp, which is simple and stylish, and requires no maintenance. It can realize dual control/three control. Connecting to Mi Home/Tmall Genie/Tuya/Huawei, it can realize one-key full-on and full-off, scene linkage and other functions.

The micro-kinetic module with built-in linptech patented technology completely replaces the battery. It adopts 86-type design, which can fit the 86 switch box (can be screwed in), and can easily replace traditional switches. It can be freely pasted on the smooth surfaces of such as walls, glass doors, bedsides, etc. It can also be placed at your convenience! It has a life span of 100,000 presses.

产品上半部分圆润，下半部分为多边形，两者融合协调，加上腰身银色装饰边虽小但精，恰当点缀了产品的精致感；运作中的产品散发海蓝之光，科技感和氛围感再次拉满；面板银边和腰身银边再次呼应。

产品适用于办公桌面、床头、小区域空间，健康营养风柔和输送，打造健康1米圈。

产品采用市场前沿技术，主打杀菌净化、除醛去味。技术1：H13级HEPA滤网，有效滤除颗粒物、PM2.5、粉尘等，紫外灯结合光触媒起到杀菌消毒的作用；技术2：清华大学活性锰除醛，有效去除甲醛、异味，除醛量达98%。

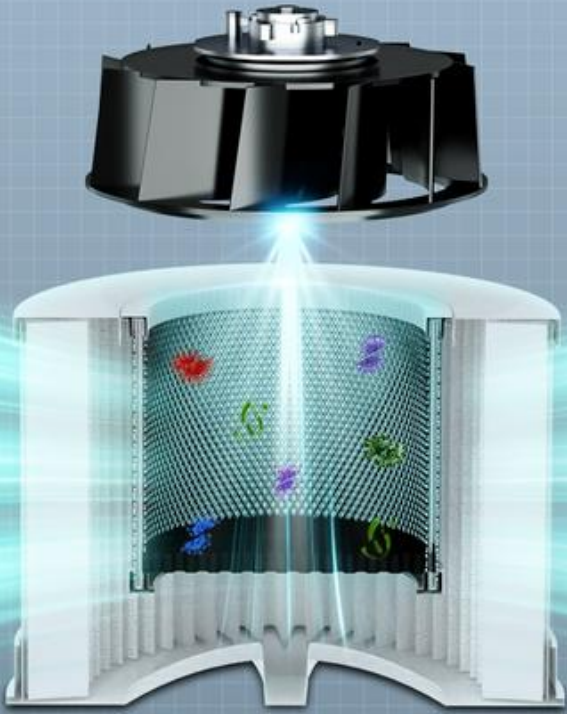

The upper part of the product is round and the lower part is polygonal. The two parts are integrated and coordinated. The silver decorative edge of the waist is small but precise, which properly embellishes the delicate sense of the product. In terms of operation, it will emit sea blue light, and the sense of technology and atmosphere will be more prominent. The silver element on the panel and on the waist of the product echo with each other.

The product is suitable for office desks, bedsides, and small areas. The healthy wind is gently conveyed for healthy circulation.

The product adopts market-leading technology. It mainly focuses on sterilization, aldehyde removal and deodorization. Technology 1: H13-grade HEPA filter, which can effectively filter out particulate matters, PM2.5, dust, etc. UV light and photocatalyst can sterilize. Technology 2: Active manganese decomposition technology of Tsinghua University, which effectively removes formaldehyde, odor, and aldehyde by 98%.

纳米级光催化除菌  
筑起99.99%强效屏障

办公场所的人员流动性大，容易传播病菌。纳米光催化除菌率高达 99.99%，除菌消毒，保障呼吸健康

H1N1 99.99%	PM2.5 99%
大肠杆菌 99.9%	白色葡萄球菌 99.9%

这种空气煎锅通过加入蒸汽解决了空气油炸食品太干的问题。多功能，有三种烹饪模式：空炸、蒸汽或蒸汽烧烤。它的大容量甚至可以让用户蒸或煎一整条鱼。水箱的模块化设计使其易于拆卸清洗，控制面板上的彩色图标易于理解和使用。

全新跑道形外观设计，造型新颖美观，容量大，能实现蒸/炸全鱼；多彩面板、水箱模块化设计，提高用户视觉体验和使用便捷性。

相比传统空气炸锅，轻松实现烤全鱼，整机具备蒸、炸、烤三大功能，食物烹饪适用性广，容量大，体积小，节省厨房使用空间，有效提高空间使用率；面板多彩图标提示，提高用户暖心体验。

This air fryer solves the problem that air-fried foods are too dried by incorporating steam. Multifunctional, it has three cooking modes: air fry, steam, or steam and grill. Its large capacity even allows users steam or fry a whole fish. The water tank's modular design makes it easy to remove for cleaning, and colorful icons on the control panel are easy to understand and use.

This air fryer boasts a new design, a novel and beautiful shape, and also a large capacity, enabling users to steam or fry a whole fish. The colorful panel or modular design of the water tank greatly improves the user's visual experience and convenience of this air fryer.

Compared with the traditional air fryer, it can easily roast the whole fish. The whole machine has three functions: steaming, frying and roasting. This air fryer has wide applications, large capacity and small size, which saves the space of the kitchen and effectively improves space efficiency. Colorful icon prompts on the panel also improve user experience.

设计师 Designer:  
茹斐 Fei Ru

F30S-S160是全球首款可视化烹饪蒸汽饭煲。独有玻璃内胆搭配可视化视窗，看得见食物烹饪过程。对比传统合金内胆，高硼硅玻璃具有无涂层，易清洁，更健康的优点。

S160蒸汽饭煲的一大特点，是120℃蒸汽、360度全方位加热，蒸汽能够直达食物内。可以使米饭含水量提升，分解脂肪。一键沥糖功能、还原糖降低60%，蒸汽加热30秒后开始沥糖冲刷，降糖率约60%行业第一。无水鸡汤可以不额外加水，通过蒸汽瞬间释放进内胆，直接加热鸡肉。蒸汽冷凝结合鸡肉自身水份产生鲜美汤汁，高温蒸汽明显提升鸡汤里鲜味氨基酸和甜味氨基酸的占比，可以抑制苦味氨基酸的释放。

多功能升级健康材质。可蒸、可煲、可隔水炖；一人、多人随心享，搭载语音食谱，支持语音搜索。

S160 is the first visual steam rice cooker. With the unique glass liner-"visual window", it makes cooking more healthier. Compared with traditional metal liner, the borosilicate glass contains no coating and is easier to clean and healthier.

Another advantage of S160 is the 120℃ steam and 360° heating technology. The steam goes directly to the inside of the food, which can increase the water content of the rice, and decompose the fat. Exclusive low sugar rice button can decrease 60% of sugar. Sugar will be reduced after steam heating for about 30s. The sugar reduction rate is greatly improved to about 60%, which is the top in the industry.

It can also make chicken soup without extra water. The steam can be instantly released into the liner and directly heat the chicken. The steam condenses water and combines it with the moisture of the chicken to produce a delicious soup. The high-temperature steam significantly increases the proportion of umami amino acids and sweet amino acids in the chicken soup, which can inhibit the release of bitter amino acids.

With healthier glass material, S160 can be used as a steamer, a boiler or a stew pot. Its 3L capacity suits both one-person daily meal or family dinning moment. Voice search function is supported (Chinese only so far).

## 磨豆压力咖啡机CJ-281C GROUND BEAN PRESSURE COFFEE MACHINE CJ-281C

企业名称：广东亿龙电器科技有限公司

### 设计师 Designer:

柯广权 Sam

本设计造型采用圆润复古的设计，一款磨豆压力咖啡机实力及美貌兼备，颜值担当、实力担当，研磨、萃取、奶泡一气呵成。高档不锈钢外观设计，意式咖啡机带不锈钢锥磨系统，一分钟内轻松实现从咖啡豆到意式咖啡的享受。带有压力表全程显示酿造压力，直观清晰的体验咖啡乐趣。多种杯数选择，以便符合使用者个人喜好的咖啡量。

整体采用不锈钢材质选用食品级304不锈钢。豆仓AS食品材质，便于用户易识剩下豆。手柄漏斗铝压铸。耐热防爆、不惧冷热变化、节能环保。

触发式咖啡豆研磨系统。250g大容量豆仓，1~15档可调咖啡粉粗细研磨度，能最大限度提高咖啡的风味。带有压力表全程显示酿造压力，直观清晰的体验咖啡乐趣。一体化暖杯盘（即有暖杯功能）除垢提醒以及清洁功能；带有过热&过压保护功能。自动清洗除垢提示功能，蒸汽后自动调节水温以获得最佳浓缩咖啡萃取温度。

The product adopts a retro design, which makes this grinding bean pressure coffee machine not only looks beautiful but also practical to use. Grinding, extraction and milk frothing could be done easily. Exterior design with high-end stainless steel, an espresso coffee machine with grinder. The stainless steel cone grinding system can easily transform coffee beans to espresso coffee in one minute. With a pressure gauge to display the brewing pressure in the whole process, the experience of making coffee becomes clearly and enjoyable. A variety of volume of coffee could be selected as personal preference.

1. The whole is made of stainless steel and food grade 304 stainless steel is selected.
2. The bean bin is made of as food material, so it is easy to know how many beans are left.
3. Handle funnel aluminum die casting.
4. Heat resistant and explosion-proof, fearless of cold and heat changes, energy saving and environmental protection.

1. Triggered coffee bean grinding system 250g large capacity bean bin, 1 ~ 15 grades of adjustable coffee powder thickness and grinding degree, which can maximize the flavor of coffee.
2. It is equipped with a pressure gauge to display the brewing pressure in the whole process, so as to experience the fun of coffee intuitively and clearly.
3. Integrated cup warming plate (i.e. with cup warming function).
4. Descaling reminder and cleaning function; With overheating & overvoltage protection function.
5. Automatic cleaning and descaling prompt function, automatically adjust the water temperature after steam to obtain the best espresso extraction temperature.

沈小龙 Xiaolong Shen

这是一台全新外观设计的吸油烟机，采用了一种特殊的，以圆润细腻为主设计风格。视觉观感如同倒吊在半空酒杯，或磨砂的玻璃烛座，在夜晚散发着迷人的光芒。伴随着蓝牙音乐和七彩灯光氛围，或携手共舞，或灯下谈心，开启一场视觉和听觉的私宴。设计师的理念，在于将传统的日常厨房场景，转化为与爱情、梦幻等词汇相匹配的浪漫空间。以此向大众传达，生活不止有枯燥重复的柴米油盐，也可以通过小小的设计与思考，为日常增添浪漫的情调。

配备直流无刷电机，小功率大功效，能效可达欧标A+级，节能&静音。内置5层空气净化滤芯，内循环净化空气环保。整机精小，产品包装上大大的降低泡沫，纸皮的使用量，促进绿色发展。

此产品需确保玻璃外罩透光实现灯的功效同时要隐藏繁杂的烟机内部结构，这样的工艺是创新的，是独特的。它引导烟机行业朝着多元化发展，并在设计上，工艺上，品质检验上进行跨行思考，跨行融合，大胆创新。

This is a brand-new cooker hood , exuding an especially mellow and delicate styling, the first sight of which may impress viewers as an upside-down wine glass or a frosted glass candlestick. Rather than a regular cooker hood, it bears a striking resemblance to an adorable chandelier hung over the cooker or an ambient candle accompanying the quiet fire in a romantic mood and beautifying the kitchen in the glamorous glow. At leisure, connect the bluetooth speaker of the machine, along with the slow-flowing music and colorful ambient lighting, dance hand in hand, or talk heart to heart under the lamp, throwing yourselves a visual and auditory private party. And all of these showcase the motive of designers. The design philosophy of it lies in transforming the traditional, realistic and daily kitchen scene into a romantic space that matches the words of couple, dream and love, which conveys that apart from lacklustre daily necessities, a subtle design and thoughts may spice your life up.

Equipped with BLDC motor, small in power and big in efficiency. EEC of this product can reach up to A+ EU standard. ECO and noise free.Built-in 5 layers purifying filter, keeping air fresh and environmental friendly.Compact design, with less usage of foam and carton in package, conforming to carbon-neutral regulation.

Glass cover of this machine has to achieve two functions at the same time: spread the lighting out and conceal the complex structure inside. Such a technology is innovative and unique. Cooker hood with gesture control, ambience lamp, and Bluetooth speaker, all these in one machine, indicating the diversified development of cooker hood industry. Meanwhile, it leads people to innovate, to think more on design and to break the routine or industry barriers, combined with different technologies and ideas of various industries in one product.

100-240V, 50/60Hz ,翻盖式上加水, 带LED显示、触摸式按键控制, 三档雾量调节, 顶部七彩变幻水幕灯让您生活充满精彩。可根据客户需求自动设置恒湿, 产品自带定时功能, 外加香薰, 具有提起水箱停机保护功能和缺水保护功能,配小陶瓷球滤芯净化和软化水质。

超大容量水箱和喷雾量, 能高效调整室内空气湿度, 商务和家用通用。独特的双雾化头为国内首创, 超大800毫升/小时的出雾量让您的房间更快达到设定湿度。家庭和商务都能使用。

产品自带双倍UV杀菌功能, 带有SGS 实验室整机杀菌测试报告, 杀菌率达98%。在全球疫情大背景下可以有效杀菌。产品支持涂鸦APP, 谷歌助手, 谷歌之家, ALEXA 语音, 蓝牙, 百度语音等。

100-240V , 50/60Hz Top water filling; LED screen with digital humidity display; Touch panel; Remote control; Automatic humidity control; Autostop when lack of water; Autostop when water tank removing from base; Cool mist; The top 7-colored water curtain lamp make your life more wonderful. 12 hours timer setting; 3 speeds mist adjustment; With Auto mode and night mode; With changeable color night light; With ceramic filter to soften and purify the water ; Base with tray for the felt, to wet it with aromatic oil; 2 UVC lamp.

Large capacity water tank and spray volume, can effectively adjust indoor air humidity, business and home use. Unique double transducer for the first time in China, the large 800 ml/hour outmist make your room quickly reach the set humidity.It can be used for both home and commercial use.

Super 8 liter large capacity water tank, double atomizing , 800-900ml/H, super spray volume , can effectively adjust indoor air humidity, business and home use. The product comes with double UV sterilization function, with SGS laboratory machine sterilization test report, sterilization rate of 98%.During a global COVID-19 situation, they can be effective in killing bacteria. Product support TUYA APP, Google Assistant, Google Home, ALEXA voice, Bluetooth, Baidu voice etc.

首款使用灯光为用户提供湿度反馈的蒸汽加湿器。使用蒸汽方式进行无菌加湿，上方悬浮口方便加水，环形出雾口增大加湿体积。

通过灯光来表达空气湿度并智能恒湿让湿度保持在宜人的数值，有效避免了以往多数同类产品过渡加湿用户还不清楚的现象，健康环境需要从身边的电器做起，优化产品进而环保社会。

产品设计了品牌统一特征的大屏幕，方便操作的同时凝聚品牌影响力，整体创新性设计丰富了蒸汽型加湿器单品，为产品在运营销售渠道方面增加产品商业价值。

It is the first steam humidifier that provides users with humidity feedback via lights. It offers aseptic humidification with steam. The suspension port on top is convenient for users to add water. The ring-shaped fog port increases humidification efficiency.

It displays air humidity via lights and offers intelligent constant humidity to keep the humidity at a pleasant value. In this way, it effectively avoids the weakness of most similar products where users can't notice excessive humidification. A healthy environment needs to start with electric appliances around. We should optimize products to protect the environment.

The product is equipped with a large screen, a common feature of big brands. It is convenient to operate while enhancing brand influence. The overall innovative design increases the product's commercial value in terms of operating and sales.

只需轻轻按一下按键，即可实现自动开瓶和退塞；迷你小巧，直径只有44mm，高度188mm；猎豹造型按键，时尚独特。

Type C锂电池充电，环保节能，可实现充电90秒即可开1-2瓶红酒；满电可开50-60瓶红酒。

实现单按键控制，简化开瓶步骤，更便捷；同一款模具，可实现更换多款按键的方式，大大降低生产成本。

1. Just press the button gently, can realize automatic bottle opening and uncorking.
2. Mini compact, only 44mm in diameter, 188mm in height.
3. Leopard shaped button, fashion and unique.

Type C charging port, lithium battery charging, environmental protection and energy saving, can realize charging 90 seconds to open 1-2 bottles of red wine. A full charge can open 50-60 bottles of wine.

Realize single button control, simplify bottle opening steps, more convenient. The same mold can replace multiple keys, greatly reducing the production cost.

自动炒菜机器人是九阳推出的厨房新品，只需要一键选择，即可进行自动烹饪。专利搅拌铲，能够模拟星级大厨的专业翻炒动作，保证食物彻底加热炒熟。

A8炒菜机带有精准控温元件，可以智能检测锅底温度，将烹饪温度控制在烟点以下，更少油烟，更加健康；锅体上的把手坚固实用；防烫上盖带有阻尼，并且可以完全拆卸，便于清洗；机器后方设有接水槽，可以收集冷凝水和油污，维护灶面整洁。

A8炒菜机随机带有爆炒、红烧、煎炸、火锅、煲汤5种预设功能。连接到专用APP，可以获取海量食谱。小程序上自带116道菜谱（70%家常菜+30%精品菜，还会进行定期更新）。

A8 Automatic Stirring Multicooker is a new category in kitchen products, which doesn't need manual management after one-button operation. The patented stirring wing can restore professional stirring to cook the food evenly.

It features accurate temperature control, professional cooking curve and patented sauce thickening function. It is healthy as less oil is generated. It automatically detects pot bottom temperature to make cooking without oily smell. The 90° handle is simple, practical and sturdy, and the upper cover prevents scalding. The water tank set at the back of the product is removable which collects the condensate steam and oil to keep the cooking zone clean.

Multi-functional: stir, stew, fry, hot pot and soup. There are massive recipes in the smart app. The app comes with 116 recipes updated regularly. 70% of home-cooked dishes + 30% of premium dishes.

红酒柜JCF-92S（电推杆）  
WINE COOLERJCF-92P

Web:www.cookerhood.com.cn

设计师 Designer:  
刘杰 Jie Liu

推弹门体，无需把手，一触即开。

门体左上方的指示标志为门板开关，无需把手，轻轻触碰，门体自动打开。同时，酒柜内置安全门锁，锁芯坚固，防止门体被意外打开而影响储藏效果。仅需轻轻一推，门体自动合上，操作方便快捷。

无把手推弹门嵌入式酒柜，外观经典时尚，简约而不失质感，更完美的融于墙面，无形中增强了整体的空间感。统一流畅的视觉感受，乃极简主义者的福音！

JCF-92P酒柜的总容积为85升，内置最大装瓶数为36瓶，日耗电量仅为0.387千瓦时，达到A级能效的标准，十分绿色低碳。此外，酒柜精选高品质压缩机制冷，搭配新一代发泡剂，性能稳定，耐用节能。

JCF-92P从每个细节入手，甄选低噪压缩机，同时在压缩机脚上装有良好减震效果的塑胶垫圈，搭配合适的减震榉木酒架，最大程度减震降噪，创造安静的储酒环境，呵护美酒的香醇口感。

此外，茶色玻璃门体具有良好的抵抗紫外线UV照射功能，箱体内置上下温区，温度分别可设置5-22℃，平均湿度在60%-80%之间，储酒环境恒温恒湿，打造葡萄酒最佳储存环境，媲美专业酒窖，适合储藏各种美酒。

Projectile door body design: no handle is needed,the door opens automatically by touching it no handle, open at a touch.

Different from the previous embedded wine cabinet, JCF-92P realizes no handle design and has carried on the innovation in the door body: the indication sign on the upper left of the door body is the door panel switch, without handle, the door body automatically opens when you gently touch. At the same time, the wine cooler built-in safety door lock. The lock core is strong, preventing the door body from being opened accidentally and affecting the storage effect. Just a gentle push, the door body automatically closed, easy and quick operation.

There is no handle push door embedded wine cabinet, the appearance of classic fashion, simple and do not lose texture, more perfect integration into the wall, virtually enhance the overall sense of space. Unified and fluent visual experience is the good news for minimalism!

The total volume of the JCF-92P is 85 liters, the maximum number of built-in bottles is 36 bottles, and the daily power consumption is only 0.387 KWH, meeting the standard of Class A energy efficiency, which is very green and low consumption. In addition, the wine cooler selected high-quality compressor refrigeration and new generation of foaming agent, stable performance, durable energy saving.

Wine is known as the "sleeping beauty". Sound and vibration can destroy the molecular structure of the wine, affect the taste of the wine, and make the wine lose its original flavor. JCF-92P starts with every detail, selectes low noise compressor(JIAXIPERA).In the meantime, the plastic washer with good shock absorbing effect is installed on compressor foot, matching appropriate shock absorbing wooden wine shelf, which can reduce vibration and noise to the greatest extent, create a quiet wine storage environment, and care for the mellow taste of wine.

In addition, its brown glass door body has a good resistance to UV radiation function, the upper and lower temperature area inside the box can be set 5-22℃ respectively, the average humidity is between 60% and 80%, the wine storage environment is constant temperature and humidity. It creates the best wine storage environment, which is comparable to professional wine cellar and suitable for storing all kinds of wine.

机身硬朗机甲设计，手提即行，垂钓，露营，徒步，观星……置身自然之间，空调在手，虽骄阳酷暑，仍随时随地尽享凉爽。坚实的手柄与机身浑然一体，操控按键触碰即启。得益于小巧强劲的心脏（品牌压缩机）和高效的制冷体系，纵使高达2300BTU的制冷量，整机仍仅有8.5kg重量，仟仟小女子亦可轻松拎行。

### 露营之侣

人为本，可靠，实用且易用。设计上充分考虑了户外除降温需求之外的补电，续航，照明等之需。可选配长续航的35Ah的大容量锂电池，另可搭配太阳能充电板随时补电。电池盒随附的多规格DC输出接口，可满足多数USB接口小电器充电之需。

### 夏之侣

核心配置松下直流压缩机，强劲，轻巧，稳静。另契合新颖的V型排列换热系统，带给户外活动者非凡的体验。

### DC Camping Air Conditioner

Simple mecha design makes it handheld, wherever you're outdoor, fishing, camping, hiking, stargazing, etc... Bathe in the nature, and enjoy cool breeze from the AirCon.

Roubst handle comes nicely with the body, with easy reach control panel on top. Due to the perfect prefromace of brand compressor, even though it goes with up to 2300BTU high cooling power, it comes out with just 8.5kg in weight, a young lady can easily carry it around.

### Camping Mate

Besides of the strong cooling power, it can also work with a big 35Ah lithium battery, which can be charged with solar charging panel. By thus ensure unlimited power ourdoor as long as there is sunlight. Thanks to the multi output ports on the battery, Type-C\*1, USB\*2, DC\*1, and wireless charger for cell phone, it's the best outdoor mate for small USB-Powered devices. Every detail reflects the people-oriented research and development spirit of our engineers.

### Summer Mate for OutDoor

Embedded with Panasoic DC compressor, tiny in size, light in weight, quite and stable in working, but remain powerful at the same time. Innovation V-Layout-Heatexchanger guarantees a much more efficiency cooling system.

外观灵感来源于“天圆地方”的设计理念，整体形态采用方加圆的元素碰撞，简洁方正的设计。隐藏式气氛灯圈也是亮点设计，配合会议环境，灯光效果柔和不刺眼。按键面板居中设计，便于各方位进行操作，主体以ABS材料为主有减重作用，表面金属漆喷涂提升品质感。

此图展示内置充电和数据传输线及USB转接头的收纳设计，嵌入机身，便于用户随时携带使用。

内置4个麦克风，可360°拾取半径6米范围内的声音，自动消除回声和降噪，支持6人以上高清通话。

The design inspiration comes from the concept of "Circular Sky and Square Ground", the overall shape adopts the collision of square & circle and simple design. The hidden atmosphere light ring is also a highlight design, with the meeting environment, the lighting effect is soft and not dazzling. The panel is designed in the center, which is convenient for operation in all directions. The main body is mainly made of ABS material, which has a weight reduction effect, and the surface metal paint spraying enhances the sense of quality.

This picture shows the storage design of the built-in charging and data transmission cable and USB dongle, which are embedded in the speaker and are convenient for users to carry and use at any time.

There are 4 built-in microphones, which can pick up voice within 6m radius in 360°, automatically eliminate echoes and noise reduction, and support high-definition calls for more than 6 people.

格力零冷水燃气热水器JSQ30-16T601

这是一款具有高效恒温零冷水节能省气的燃气热水器。玻璃高清全面屏使功能能够一触即达。简洁的操作界面，让用户能即时操作。

简洁的外观没有多余的装饰，适合各种家装风格。在功能上高效恒温零冷水节能省气。

这款燃气热水器外观没有多余装饰，时尚碧玺蓝玻璃高清全面屏，艺术与实用结合，功能一触即达，兼容各种家居风格。四种零冷水巡航运行，使用时无需等待冷水，打开即热水；短时用水响应快,运动健身舒心洗。

简洁的操作界面，让用户能即时操作。产品通过结构优化，能够减少过多烟气排放，降低烟温热量损失，更加环保节能。目前已经衍生6款系列产品，上市至今销量直线上升。

It is a kind of gas heater with efficiency, constant temperature and no cold water is required, which is energy-saving. It's needless for the user to wait for cold water during using, and hot water is available when turning on the unit. The glass screen of high definition enables all functions at hand. The concise operation interface is convenient for the user for instant operation. The simple appearance is suitable for all kinds of decoration style. It is efficient and with constant temperature, no cold water is required, which is energy-saving.

陈光宇 Guangyu Chen      贾冬冬 Dongdong Jia  
刘佳池 Jiachi Liu

这是一款具有高效净化空气且静音的新风机。简洁的外观加上圆形动态屏显，循环显示室内CO2和PM2.5浓度变化，可通过灯光颜色检测空气质量，好空气一目了然。高效过滤，健康更进一步。通过持续输送新鲜空气，增加整屋含氧量，排除室内污浊气体。输送400m<sup>3</sup>/h纯净新风，使室内气压形成微正压状态，加速空气流动更替。2+1过滤，引入洁净空气。采用“初级过滤网+中效过滤网”和“HEPA过滤网”提升过滤效果。强效阻隔脏浊空气，效果持久更耐用。

用“芯”工作 更懂生活 高品质强劲变频电机，小身材大风量即使24小时持久工作，耗电仅为1.92度电。

激光粉尘检测，严准把控环境质量 激光粉尘传感器通过收集颗粒物反射的散射光线实现颗粒物的浓度检测，检测精度高，速度快，实现空气质量可视化。

低噪运行畅 想轻声新境 采用独特低阻风道设计，有效降低机组运行时的气动噪音，最大音量仅44dB(A)，不打扰你的每刻专注。

PTC辅热技术 输送和煦新风 新风机内置的PTC辅热加热技术，支持开启温度两档可调，输送宜人新空气。

“格力+”在手 实现智慧交互 wifi智能互联，可实现查询新风机滤网状况，提供远程操控新风机等设置。

High-efficiency filtration for health It increases the oxygen content of the house and removes the indoor dirty air by delivering fresh air continuously. PM2.5 will reduce 98% and CO2 will reduce 71.7% within 1 hour. The house is full of oxygen, Supply fresh air 400m<sup>3</sup>/h to form micro positive pressure status for indoor air pressure and speed up air circulation.

2+1 filtration introduce clean air Adopt "preliminary filter screen+medium filter screen" and "HEPA filter screen" to improve filtration effect Separate the dirty air effectively, and the effect is durable Stop the large particles outside from entering effectively, such as: mosquito, willows, dust, PM10 and other particulate matters.

Embrace life with "core" High-quality and turbo inverter motor, small size with big airflow volume Power consumption of 24 hours is only 1,920 kilwatt hour.

Laser dust detection control environmental quality strictly The laser dust sensor realizes the concentration detection of particulate matter through collecting the scattered beam reflected by the particulate matter. The detection precision is high and speed is fast, to make air quality visual.

Fluent operation with low noise Adopt the unique and air duct design of low resistance to reduce the air-operated noise effectively when the unit is operating Maximum volume is only 44dB (A), it will not bother you at any time.

PTC auxiliary heating technology Supply fresh air Built-in PTC auxiliary heating technology of fresh air unit Two kinds of temperature adjustment for comfortable air.

"Gree+" at hand The WiFi intelligent interconnection can inquire the filter condition of the fresh air unit Provide remote control setting for the fresh air unit.

一款多功能的新型可视化空气炸锅，旨在从功能上改进常规的空气炸锅，通过与专用结构件搭配，又能作为一款煎烤机使用，一锅多用。

空气炸锅上盖翻转后作为底座可煎烤，根据与不同结构部件组合在两种模式下切换，搭配玻璃仓实现空气炸，搭配铸铝煎盘实现煎烤功能。可视玻璃作为加热仓材质，食品烹饪可视化，充满趣味。电子式精准操控模式，满足不同烹饪需求简单明确，让繁琐的烹饪变得简单。

空气炸锅+翻转煎烤=多功能空气炸锅。空气炸锅上盖翻转后作为底座可煎烤，为生活带来多元烹饪的便利。

A new dual-functional visual air fryer aims to improve the conventional air fryer, by matching it with special structural parts, which can be used as a frying aster.

After the upper cover of the air fryer is turned over, it can be fried as the base. According to the combination of different structural parts, it can switch in two modes. Realize air frying with glass chamber, and achieve frying function with cast aluminum frying plate. Visual glass as a heating warehouse material, food cooking visualization, full of fun. Electronic precise control mode, to meet the different cooking needs of simple and clear, make the tedious cooking become simple.

Air fryer + flip fry = Multifunctional air fryer. The cover on the top of the air fryer is turned over as a base and can be fried and roasted, bringing the convenience of diversified cooking to life.

新型圆弧门酒柜SC-208RG

设计师 Designer:  
雷宏昌 Raymond

HCK汲取了侘寂美学灵感，化繁为简、归于本质，以质朴取代奢华，冷淡的折衷主义与原生态的质感相融合，推出了高定侘寂系列酒柜。

嵌入式温度控制器，提升空间利用；率搭配HCK专利平衡湿度系统，以及双层玻璃加LOW-E镀膜的滤光技术，可以稳定呵护红酒和雪茄的天然味道；全部木层架采用橡木材料，橡木的独特纹理和气味，提升整个酒柜使用氛围。

整体外观至简至素，整机使用汽车漆工艺标准漆面处理，以素水泥的质感塑造出侘寂风的高级感和纯粹质朴的细腻感，拥有婴儿的触感感受，与现在流行家居环境也十分时尚百搭。

HCK draws inspiration from the aesthetics of tranquility, simplifies complexity and returns to essence, replacing luxury with simplicity, and blending cold eclecticism with pristine texture to launch the Couture Silent Series wine cabinet.

The embedded temperature controller, increased space utilization, rate and HCK's patented humidity balancing system, and double glazing and LOW-E coating filter technology can stabilize the natural taste of red wine and cigars; All wood shelves are made of oak material, and the unique texture and smell of oak enhance the atmosphere of use of the entire wine cabinet.

The overall appearance is simple to plain, the whole machine uses the standard paint process of automotive paint process, and the texture of plain cement creates a sense of luxury and pure rustic delicacy, with the touch of baby skin, and the current popular home environment is also very fashionable.

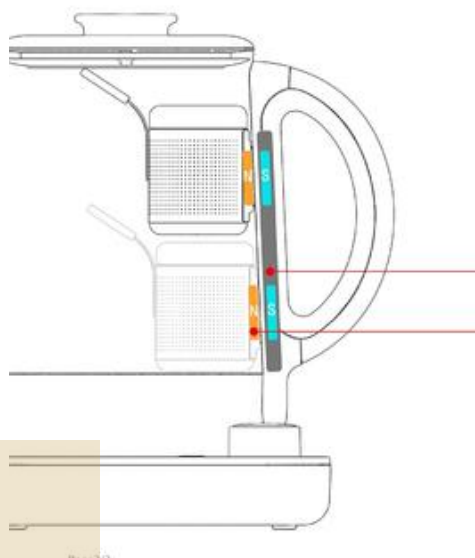

## 迷你智能煮茶器MC395 MINI INTELLIGENT TEA MAKER MC395

企业名称：广东新宝电器股份有限公司  
Corporate Name: GUANGDONG XINBAO APPLIANCES HOLDINGS CO.,LTD.  
张群 Qun Zhang

E-mail:zhangqun@donlim.com

### 设计师 Designer:

陈龙辉 Longhui Chen  
余海秀 Haixiu Yu  
何云飞 Yunfei He

MINI智能煮茶器基于文化和科技的融合，提出了新的泡茶模式—智能升降冲泡。茶篮通过智能升降将茶叶萃取浸泡更彻底，充分释放茶多酚等健康养生物质；智能升降冲泡模式更加贴近煮茶本质，实现茶水分离，中途加水可以避免冷水直接冲击茶叶，影响茶水口感。专业冲泡六大茶类，精准控时控温，0.8L黄金容量，满足会友需求，小巧简洁的外观通过木材与玻璃的搭配，让产品更加自然，悬浮的茶篮有利于壶内的茶垢清洗，壶嘴沿用了中国传统的长壶嘴，倒茶轻松方便。

合理设计，设计小巧，多功能的融合较少产品的部件，降低生产成本，使整机容易大批量生产。产品小巧，可节省空间。可以适用于各种不同使用环境，也能最大化的减小包装体积以及运输成本。

首创无杆磁吸升降方式，多角度自动吸附，茶篮沿着玻璃内壁滑行，好用且有趣。

Based on the fusion of culture and technology, the MINI intelligent tea maker proposes a new tea brewing mode--brewing with intelligent lifting tea basket. The tea basket extracts and steeps the tea more thoroughly through intelligent lifting method, and fully releases the healthy nutrients such as tea polyphenols. The intelligent lifting brewing mode is closer to the essence of traditional tea brewing, and realizes the separation of water and tea leaves. Refilling water in the middle of brewing can prevent cold water from directly impacting the tea and destroying the taste. The machine has professional brewing programs of six major teas, precise time and temperature control and 0.8L capacity, satisfying the needs of meeting friends.

Modular design, small product volume ,multiple functions will reduce the costs of production and transportation which will ensure the large quantities production.The product is compact that can save space. It can be used in various environments, and it has the minimize packaging volume to reduce transportation costs.

Adopting the first rodless magnetic lifting method with multiple-angle automatic suction, the tea basket can slide along the inner wall of the glass, and is easy to use and interesting.

设计师 Designer:

蔡江铃 Jiangling Cai

这是一款热雾加湿器，其简约的几何风格搭配金属喷漆材质，突显产品品质感；创新前出雾风道，加湿效率更高，同时出雾口做了水雾回流设计，通过热雾进行加湿，除了可以通过内部高温杀菌，还能平衡空间温度，增加空气湿度使呼吸更为健康；水雾细腻，不湿地板，为用户提供温湿度舒适而健康的空气，让健康生活围绕身边！

分离式水箱让用户既能方便加水，又能定期清洗水箱，确保水质健康安全；本产品采用环保标准的ABS材料，可回收利用。很大程度减少了对环境的危害。为了控制产能与产品不良率，磨具上采用了很多巧妙的美工线，丰富细节的同时，保证了产品生产的良品率。水箱采用透明材质，更好地反映水箱洁净度。

顶部跑道形态屏幕与整体元素完美融合，搭配顶部按键，提供卓越的人机交互体验。金属漆与黑色的搭配，加上电镀件的点缀，让产品更具科技未来感。

This is a thermal fog humidifier. Its simple geometric style with metal spray paint material, highlighting the quality of the product. Innovating the previous mist outlet air duct to make the humidification more efficient, while the water mist reflux design is made at the mist outlet. The humidification by thermal fog can not only sterilize the interior through high temperature, but also balance the space temperature and increase the air humidity to make breathing healthier. Thermal fog humidifier with fine water mist will not wet the floor, but increase the air humidity to provide users with comfortable and healthy air. Healthy living embraces you!

Separate water tank so that users can easily add water, and can regularly clean the tank, to ensure the health and safety of water quality; This product adopts ABS material of environmental protection standard and can be recycled. Greatly reduce the harm to the environment. In order to control production capacity and product defect rate, a lot of clever art lines are used on the grinding tools to enrich the details and ensure the good yield of product production. The water tank adopts transparent material to better reflect the cleanliness of the water tank.

The runway-shaped screen at the top is perfectly integrated with the overall elements, and with the top button, it provides excellent human-computer interaction experience. The combination of metallic paint and black, plus the embellishment of electroplated parts, makes the product more technologically futuristic.

产品设计来源于中国古典窗花，置身于一步一景的庭院之中，蜿蜒起伏的线条展露出令人意想不到的对称美感，随着光线的变化空间投射出优雅古典的东方魅力。

该成品是用发泡陶瓷雕刻而成，原材料85%以上是工业固废，雕刻过程中二次固废可以100%回收利用。成品体轻，防火，防水，防霉，施工方便快捷。

我们这款产品无需开模,从产品设计到成品输出数字化控制，无论是大批量生产还是个性化定制，都可以做到产品质量稳定且做工精细。

The design is derived from the classical Chinese window grilles. It is located in the courtyard. The winding and undulating lines show an unexpected symmetrical beauty. With the movement of sun, the space projects an elegant and classical oriental charm.

The product is carved from foamed ceramics. More than 85% of the raw materials are industrial solid waste, and 100% of the secondary solid waste can be recycled during the carving process. The finished product is light, fireproof, waterproof, mildew-proof, convenient and fast installation.

It does not need to open the mold, digital control of finished product. whether it is mass production or personalized customization, we can achieve stable product quality and fine workmanship.

E-mail:katie@selaqua.com

Web:www.selaqua.com

### 设计师 Designer:

徐志良 Tony Xu

这是一款多功能可调节折叠收纳的老人坐式恒温淋浴设备。由可调节收纳的淋浴凳、淋浴屏恒温龙头、不同方式的顶喷花洒组构而成。淋浴椅的支架是高强度的铝合金材质，座椅面板和靠背则是由高品质的脲醛材质制造而成。背后的淋浴屏面板是优质铝合金面板，整体覆盖了背后所有的水路和接口，让整个浴室看起来更简洁舒适。这是老年人的多功能舒适淋浴器。

这款设备极度方便将旧浴室改造成老年人使用。淋浴设备接连原有的龙头接口即可，淋浴设备的背板能整体覆盖原有的龙头出水口，安装简单又美观。坐式浴凳和扶手均可上下调节高度至最舒适的状态，可折叠收纳节省空间。顶洒或伸缩式顶喷出水方式通过浴座旁侧的龙头切换，使用顶洒可解放双手，使用伸缩式顶喷方便全方位洗浴。龙头带恒温，可调温度，可锁定理想温度，防止忽冷忽热。

This is a multi-functional adjustable folding storage sitting thermostatic shower equipment. It is composed of an adjustable and stored shower stool, a shower panel, the thermostatic faucets, and two styles of top-spray shower. The bracket of the shower chair is made of high-strength aluminum alloy, and the seat, the backrest are made of high-quality urea-formaldehyde material. The shower panel at the back is a high-quality aluminum alloy panel, which covers all the water channels and interfaces behind it, making the whole bathroom look more concise and comfortable. This is a multifunctional comfort shower for the elderly.

This equipment is extremely convenient for renovating the old bathrooms for seniors. The shower equipment can be connected to the original faucet interface, and the back panel of the shower equipment can cover the original faucet water outlet as a whole. The installation is simple and looks nice. Both the bath seat and armrest can be adjusted up and down for the most comfortable height, and can be folded to save space. Shower by the top spray or retractable top spray can be switched by the faucet on the side of the bath seat. Using the top spray can free your hands, and using the telescopic top spray is convenient for all-round bathing. The thermostatic faucet can adjust the temperature suitable for different persons, and it can lock the ideal temperature.

方圆结合的设计元素。圆，于东方代表一种美满。方，于西方代表一种理性。东西元素的交融汇集，于产品上展开和谐的对话，低调质的素材和细腻工艺的碰撞，淡淡的展现出低度设计中的奢华。

为用户提供更加舒适的使用体验：舒适座圈，经过大量的人体工程学实验，设计出符合亚洲人体型的马桶座圈造型，400MM加宽座面，5.2°微倾内圈，减少压力点，入座更舒适。自主研发的无棱陶瓷内壁，无死角更易日常清洁。

零水压冲水，3.8L超节水设计，解决了使用环境和节水问题。60秒快速烘干，解决了使用者长时间等待的痛点。一个旋钮实现智能臀洗、妇洗、烘干、冲水等功能，在不同状态下按压后，开启冲水和停止功能，老人、儿童都能方便操作。

This product features the perfect combination of square and circle. The circle represents happiness in the East. The square represents rationality in the West. The integration of eastern and western elements leads to a harmonious dialogue on the product.

It offers users more comfortable and healthy experiences: Comfortable seat. After a lot of ergonomic experiments, we designed a toilet seat in line with the shape of Asian. The 400mm widened seat face and 5.2° slightly inclined inner ring reduce pressure points and make it more comfortable to sit on the product. Independently developed non-edge ceramic inner wall is easy to clean.

It features zero water pressure flushing and the 3.8L super water-saving design. It can get dried within 60s and avoid long wait of users. Just a knob, users can choose hip washing, women washing, drying and flushing. Senior people and children can easily operate it.

LESSO 联塑

## 高性能厚壁高密度聚乙烯（HDPE）管材管件

### HIGH-PERFORMANCE THICK-WALL HIGH DENSITY POLYETHYLENE (HDPE) PIPE AND FITTING

企业名称：广东联塑科技实业有限公司

Corporate Name: GUANGDONG LIANSU TECHNOLOGY INDUSTRY CO., LTD.

E-mail:oversea@lesso.com

Web:www.lesso.com

#### 设计师 Designer:

宋科明 Keming Song

HDPE是生产大口径塑料管道理想的材料选择，为了保证管道的承压等级和强度，大口径HDPE管道产品壁厚较厚，但厚壁产品加工难度大，存在熔垂、内缩孔、尺寸不稳定等诸多行业内长期无法解决的技术难题。

联塑集团通过在材料、模具设备、加工工艺等方面的组合创新，开发了最适合制造厚壁HDPE管材管件的材料，解决了厚壁产品存在行业关键技术难题，实现了管材至1600mm、管件至800mm全系列产品的规模化生产。

该产品的创新满足了城镇化建设对大流量输送管道的需求，使用寿命可由金属管道的20年延长到超过50年，可解决金属管卫生性能差、不耐腐蚀、使用寿命短等问题，大幅提升市政管网的使用安全性和运行寿命，利于城市高质量发展和水资源保护。联塑是国内唯一可生产管材规格DN1600mm、PN0.6MPa及以上压力等级的企业，已通过美国、欧盟等三十多个国家和地区的认证，并应用于雄安新区、港珠澳大桥等国家重大工程项目中。

#### Innovation of Material:

HDPE is an ideal material for producing large diameter plastic pipe. But pipes with thick wall have great difficulty in processing, which meets many technical problems unsolved for a long time in the industry like the sag, internal shrinkage, size instability, etc.

#### Innovation of Technical Process:

The technical team of Lesso group developed the most suitable material to produce thick-wall HDPE pipe and fitting and built a complete design system for extrusion and injection mode of thick-wall HDPE pipe and fitting, and innovates a specialized molding process equipment and manufacturing producing process.

#### Innovation of Applications:

With the multi-innovation in material, mould, equipment and processing technologies, Lesso successfully resolves the critical industry problems of sag, internal shrinkage, size instability, etc., realizing scale production in all series of pipes up to 1600mm, and pipe fittings up to 800mm.

The advancement of large diameter thick-wall HDPE pipe and fitting satisfies the needs for high flow capacity water supply pipeline in urban construction. Its service life can be extended to 50 years, which effectively address fundamental weaknesses of metal pipes such as poor sanitary performance and corrosion resistance, and short service life, significantly improves the safety and service life of municipal piping system in China, and plays great importance in high quality development and water resource conservation in city.

张士泉 Siquan Zhang

胡桃木三维铝航空板: 内外墙装饰/机械外壳/家具装饰。  
标准尺寸: 1220x2440mm, 尺寸可定制。  
厚度: 4mm。  
重量: 4.0kg/平方米。

三维铝芯航空板是铝蜂窝板及铝塑板的改良款, 不需要铝蜂窝板昂贵的单价, 却比铝蜂窝板更坚固, 更轻质。比铝塑板轻质且防火等级高, 全铝结构, 无聚乙烯塑料成分, 百分百可回收, 环保且达到A2级别防火标准, 却又具有铝塑板单价便宜且简易加工的特性。

产品用途: 内外墙装饰/机械外壳/家具装饰。  
丰富色彩, 氟碳涂层可质保十五年。  
单位面积自重轻, 每平料仅4.0KG。  
纯金属材质结构, 100%纯铝达到A2级防火标准。  
纯金属材料构成, 可简易全回收循环再利用。  
轻、薄、强、防火、易加工。  
开槽、折角等多种加工方式应用广泛。

Walnut Aluminum Core Composite Panel  
Application: interior and exterior wall decoration/mechanical shel/furniture decoration  
Standard Size:1220X2440mm Size customization is available  
Thickness:4mm  
Weight:4.0kg/m<sup>2</sup>

Aluminum Core Composite Panel is an improved panel of Aluminum Honeycomb Board and Aluminum Composite Panel. It do not need expensive unit price as the Aluminum Honeycomb Board, and it is stronger and lighter than Aluminum Honeycomb Board. Compared with the Aluminum Composite Panel, the weight is lighter and FR grade is higher. The whole panel is made of aluminum, no polyethylene plastic components, and can be 100% recycled. It is environmental friendly and can reach A2 grade flame-retardant. Meanwhile, it also has the characteristics of cheap unit price and simple processing as Aluminum Composite Panel. Its appearance effect is diverse. Whether marble series pattern, wooden series pattern or brushed pattern, all can be perfect display. Therefore, it can be used as a substitute for Aluminum Composite Panel or Aluminum Honeycomb Board.

Rich color, PVDF coating can be guaranteed for 15 years.  
Light weight, with only 4.0kg per square meters.  
100% pure aluminum structure, up to A2 grade FR standards.  
Made of pure metal materials, easily for recycled.  
Light, thin, strong, fireproof, easy to process.  
Slotting, Angle folding and other processing methods are available.

刘延 Yan Liu

智显是一款数显抽拉厨房龙头，让我们不再凭感觉来感受温度，每一度的微妙变化都灵敏地呈现眼前。智显的温度显示模块采用水力发电，且在不同的温度范围有不同的对应颜色，以此提高产品的安全性。面向使用者的把手更易操控，可360°旋转的出水管搭配长伸缩的抽拉头，能触及到水槽的各个角落，使得日常清洁变得随心所欲且不再有死角。

产品的造型稳重大方，形态变化自然，平面与弧面的相互结合与自然过渡让产品有别样的美感，区别于主体色彩的彩环不仅表明了抽拉头的分界线而且还和主体产生了鲜明的对比吸引消费者的注意，使产品不再单调。

多种表面处理方式以及色彩搭配定制，满足用户的不同审美需求。采用新一代无铅环保过水通道技术，使每一滴水都充满健康！

Zhixian is a digital display pull-out kitchen faucet. With it, we no longer feel the temperature by feeling. Every subtle change is sensitively presented in front of us. Its temperature display module adopts hydropower, and shows different colors in different temperature ranges, so as to improve the safety of the product. The handle facing the user is easier to control. The 360° rotatable water outlet pipe and the long retractable puller can reach every corner of the sink to guarantee easy and comprehensive daily cleaning.

The product looks stable and elegant with natural shape changes. The combination and natural transition of the plane and the curved surface bring the product a different kind of beauty. The colored ring has a different color from the main color. It not only shows the dividing line of the puller, but also produces a contrast with the main body to attract the attention of consumers.

Rich surface treatment methods and color matching customization meet different aesthetic standards of users. It adopts the new-generation lead-free environment-friendly water-passing technology, so that every drop of water is healthy!

FLOVA®

## 单把墙式脸盆龙头FH 9897-D122-SG SINGLE LEVER CONCEALED BASIN MIXER FH 9897-D122-SG

摒弃了传统墙式脸盆龙头左侧出水嘴、右侧控制开关的结构。采用创新性的一体式设计，把开关阀芯设计在出水嘴中，使墙式龙头和台面居中对齐，美观对称。

采用6mm超薄的平面出水嘴设计，底部隐藏弧形水路，突出视觉上的纤细现代感。

绵密柔和如细雨般的水流，由49个直径仅为0.5mm的柔软硅胶出水头送出，畅享自然放松与享受的指尖体验。

出水口内置双限流器，节约用水的同时还能稳定水花造型。

分体式安装结构设计，将关键的接口部件装入巧装盒中，操作简单让产品安装简便无忧。

This unique one-piece design differs the product from most traditional concealed basin faucets which have a spout left and a handle right. Flova's innovative design integrates the cartridge into the spout, making the product more symmetrical and aligned with the center of a basin.

It has a ultra-thin spout (only 6mm). The hidden curved waterway at the bottom highlights the slim and modern visual sense.

The spout features 49 micro silicon nozzles (0.5mm in diameter). Soft and tender water flow will relax each fingertip. With built-in double flow restrictors, it saves water and keeps flow stable without splashes.

An easy SmartBOX simplified the installation process by mounting the once-piece finish set after tiling.

More natural than traditional artificial grass

Wild and non-directional grass surface

采用青禾独特的弯丝加工工艺，使纱线具有一定的弯曲状态，搭配传统的直丝及弯丝，使草面具有无方向感，更接近自然草。

采用簇绒新技术实现三层草丝结构，使草面丰满程度达到同行常规草坪2倍耗纱量的丰满程度，草坪的层次感，使底部具有厚实的感觉，具有较好的回弹性及踩踏体验感。

采用无毒无害材料，已通过CE、ROHS、REACH SVHC 224、EN71-3等检测。

Using bellin special unique straight bending processing technology, the undirected yarn is developed, which combines the traditional straight drum yarn and reel yarn together, increasing the irregular degree and undirected lawn.  
Using 6-color combination, Supereal has a more natural look and feel than traditional artificial grass, grass surface wear resistance is strong, up to carpet level wear resistance.

Using the new tufting technology to realize the three-layer straw silk structure, so that the fullness of grass surface can reach the fullness of two times of the traditional lawn.

Non-toxic and harmless materials, CE, ROHS, REACH 211, EN71-3 test certification. EC EN71-3, healthy, high quality and soft to the touch, more natural than traditional artificial grass.

ETR02智能电热毛巾架，智能烘干新物种（智能卫浴新标配）提升浴室空间美学，解决卫浴空间织物收纳问题，可展开挂钩设计，进一步增加置物收纳空间。提高人居生活品质。

可通过APP智能操控（支持手机APP远程遥控），搭载智能芯片，精准控温，让暖烘速干、抗菌除螨、节能省电尽在掌握。

68mm超宽横管，大面积散热，加热均匀，高效烘干。横管间距离恰到好处，方便晾晒，保障烘干效果，解决南方潮湿天气（梅雨季，阴雨天）小件衣服，贴身衣物、毛巾、浴巾等（烘干、晾晒问题），节能、低碳的同时保证织物柔软速干。智能无人工厂，中国“智”造新标准。

ETR02 smart electric heating towel rack is a new smart drying device and a new necessary assistant for a smart bathroom. It improves the beauty of the bathroom space and solves the problem of fabric storage in the bathroom. The expandable hook design can further increase the storage space and improve life quality.

It can be controlled intelligently through app (mobile phone app remote control supported). Equipped with an intelligent chip, it can realize precise temperature control, warm and quick drying, antibacterial and anti-mite function, energy saving and power saving.

The 68mm ultra-wide horizontal tubes ensure large heat dissipation, even heating, and efficient drying. The distance between the horizontal tubes is just right, which is convenient for drying and guarantees the drying effect for small clothes, underwear, towels, bath towels, etc. in the humid weather in south China during the plum rainy season and rainy days. It is energy-saving and low-carbon, while ensuring that the fabric is soft and can be dried quickly. It is an intelligent unmanned factory.

Dig 把水温数字化，精准化。顺时针旋转手柄，瀑布式的流水从出水口流出，继续旋转，水温上升，手柄上圆形的数字显示屏精准的显示当前的水温，有效防止烫伤。

Dig 兼顾产品的实用性，与美观性。出水嘴角度与竖直方向成20°，大大增加了落水点的距离，更符合人机工程学，使用更加方便舒适。

秉承“LESS IS MORE”的设计理念，在满足数字水龙头功能的前提下，我们把产品的使用方式以及外观造型都做到了极简，剔除了一切非必要的装饰。

Dig digitizes water temperature and shows water temperature precisely. If you rotate the handle clockwise, waterfall-style water will flow out from the water outlet. If you continue to rotate it, the water temperature will rise. The circular digital display on the handle accurately displays the current water temperature, effectively preventing burns.

Dig takes into account the practicality and aesthetics of the product. The angle of the water outlet is 20° from the vertical direction, which greatly increases the distance of the water drop point. This is more in line with ergonomics, and is more convenient and comfortable to use.

It adheres to the design concept of "LESS IS MORE". While guaranteeing the functions of the digital faucet, we have made the product as simple as possible in terms of use and appearance by eliminating all unnecessary decorations.

极简纤细的线条，可调流量的按键开关操作，双功能雨淋花洒，配以不留指纹的亚光黑表面，极大提升了明装花洒的淋浴体验。

雨帘出水：全新雨帘出水方式仿佛是串联起来的珍珠链，双排九组雨帘出水口，带来充满活力的淋浴体验。

雨淋出水：采用空气注入技术，1升空气4升水；雨淋水滴更加丰盈、柔软而不飞溅，在节水20%的同时，带来更多快乐享受。

花洒主体设计全金属的置物平台;按键开关操作直观简单，配备丰华自主研发的可调节按键技术，每一路出水大小单独可调。

Slim design element infused with GoClick flow control technology and a dual-function rain shower, bringing more shower pleasure with simplicity.

Rain Stream: Powdered by water-saving technology, this shower head features double lines of nine nozzles looking like pearl drops falling from the roof.

Rain Shower: The Air-Mix shower technology saves water up to 20% while users can enjoy the shower.

With an integrated metallic shower tray, the shower body features intuitive operation by the GoClick push button with volume control. Each waterflow can be controlled separately.

### 设计师 Designer:

丁琪峰 Qifeng Ding

苏尔达将按压技术引入脸盆龙头，通过按下按钮而不是使用传统的手柄来打开和关闭水流。当手中沾满肥皂沫时这个设计尤为实用：手背或下臂可以启动和停止水流，而不会弄脏夹具。

按压技术是纯机械的，通过特别的阀芯工作。它控制通过转动阀门来调节水流和温度。增加的便利性不需要在使用电或其他设备。

节能环保，绿色低碳。该款产品配合节水型的起泡器，符合国标和更高要求的节水型。

产品的外观设计，结合了机械化的按键阀芯技术，大规模生产的同时也保证了品质的稳定。

Suerda introduces the Push-to-Go cartridge technology in basin faucet. Users can turn the flow of water on and off by pressing a button rather than through a traditional handle. It is especially useful when it comes to soapy hands: The back of the hand or lower arm can start and stop the flow of water without soiling the clamps.

The Push-to-Go technology is purely mechanical and works through a special spool. It controls the water flow and temperature by turning the valve. The added convenience does not require the use of electricity or other equipment .

It is energy-saving, environment-friendly, green and low carbon. This product is matched with a water-saving aerator, which conforms to the water saving requirements of national standards and higher standards.

The appearance design of the product is combined with the mechanized Push-to-Go cartridge technology, and its mass production also ensures stable quality.

### 设计师 Designer:

郑荣亮 RongLiang Zheng

戴书城 Shucheng Dai

GK350定位智能攀爬摩托车，它充分体现了由现代设计及新科技技术与传统摩托设计相结合的美学，同时兼顾街道和轻度越野双重用途。在优秀的动力系统、制动系统、预警系统、定位系统的加持下，轻便、精致、灵活的全新设计特点，科技、环保、安全、娱乐的设计理念下，诞生了这台让骑士们青睐的GK350。

GK350在设计、材料、工艺技术上都本着科技环保节能的理念。攻克技术难关研发出12.3:1的高压缩比发动机，匹配新款博世电喷系统和配备运动节能双模式，使发动机性能高、省油、环保。全车采用环保的LED灯源。全新的排气大幅降低声音和排放污染。全新设计的干湿功能胎，抓地力强，降低能耗。胎压监测系统，提升安全性，防止胎压低带来的高能耗。整车采用轻量化设计：全新设计轻量化车架，铝合金后平叉、真空钢丝辐条轮。

GK350配置上追求安全、智能、娱乐、方便的理念。升仕智能APP通过手机实现对车辆管理，包括远程控制车辆、读取车辆数据、授权他人使用、记录行驶轨迹、导航、车辆状况诊断、售后反馈等。车辆配备无钥匙控制和电动油箱盖、电动座垫锁等电动功能及TFT智能仪表。配备双通道ABS、滑动离合、辐射式卡钳，加粗前后减震、加大碟刹盘、一体式护杠、多功能手把开关、双路快充USB接口等保障车辆和骑士的安全与娱乐性配置。

GK350 is positioned as an intelligent climbing motorcycle, which fully embodies the aesthetics of the combination of modern design and new technology and traditional motorcycle design, while taking into account the dual use of street and light off-road. Under the blessing of excellent power system, braking system, early warning system and positioning system, the new design features of lightness, exquisiteness and flexibility, and the design concept of technology, environmental protection, safety and entertainment, GK350 that is favored by knights was born.

GK350 is based on the concept of technology, environmental protection and energy saving in design, material and process technology. Overcame technical difficulties and developed a 12.3:1 high compression ratio engine, matched with the latest Bosch EFI system and equipped with dual modes of sports and energy saving, making the engine high performance, fuel efficient and environmentally friendly. The whole car adopts environmentally friendly LED light source. The all-new exhaust significantly reduces sound and emissions. Newly designed wet and dry tires with strong grip and reduced energy consumption. The tire pressure monitoring system improves safety and prevents high energy consumption caused by low tire pressure. In order to save energy and improve vehicle performance, the whole vehicle adopts a lightweight design: a newly designed lightweight frame, aluminum alloy rear flat fork, and vacuum steel spoked wheels.

GK350 configuration has been pursuing the concept of safety, intelligence, entertainment and convenience. Zontes Smart APP realizes vehicle management functions through mobile phones, including remote control of vehicles, reading vehicle data, authorizing others to use, recording driving tracks, navigation, vehicle condition diagnosis, after-sales feedback and other functions. The vehicle is equipped with keyless control, electric fuel tank cover, electric seat lock and other electric functions, as well as TFT smart instrumentation, which is technologically intelligent. Equipped with dual-channel ABS, sliding clutch, radial calipers, thick front and rear shock absorbers, enlarged disc brakes, integrated bumpers, multi-function handle switches, dual-channel fast charging USB interfaces, etc. to ensure the safety of vehicles and riders, increase recreational configuration.

吴帅 Shuai Wu

350D搭载一台排量为350cc，压缩比为11.8:1的发动机，提供迅猛动力，无论是穿街走巷，还是高速巡航都能游刃有余。节油运动双模式，不同的模式选择带来不同的操作乐趣，也有助于提升行车安全。

智能互联科技方面，升仕350T—D运用了全新3.0代无钥匙控制系统，该系统可以通过升仕智能APP进行车辆管理，实时读取车辆数据，远程控制车辆和授权车辆使用等功能，后期可通过程序升级，不断迭代优化。

3.0代无钥匙控制系统具有先进的加密技术，CNA通信，能实时与ECU、仪表等进行通信；同时该系统搭载了4G，GPS和蓝牙功能。可以让用户通过升仕智能app定位，智能规划寻找车辆路线。

350D拥有着犀利的外观，首先映入眼帘的是具有跑格风范的车头设计，极具杀气的车灯像鹰眼一样从外侧向中心下方延伸，使用了亮度十足的LED灯泡，点亮瞬间，不怒自威。

车辆配备了TFT全彩液晶屏幕仪表，车机仪表能实时互联，进行胎压监测、导航投屏、镜像投屏、蓝牙听歌以及接听通话各项功能，大幅扩充多媒体应用。

专利下悬挂摇架，降低整车行驶过程中发动机前后方向的震动和冲击，提高驾乘舒适性。

350D is an engine whose displacement is 350cc and compression ratio is 11.8:1. It provides rapid power for the car to travel through streets or cruise at high speed. Fuel-saving and sports modes bring different operating pleasure, and also help to improve driving safety.

In terms of intelligent interconnection, ZONTES 350T-D uses the 3rd generation keyless control system, which can manage vehicles through the ZONTES intelligent app, read vehicle data in real time, remotely control vehicles and authorize vehicle use. It can be optimized through program upgrade.

The 3rd generation keyless control system supports CNA, an advanced encryption technology. It can communicate with ECU, instruments, etc. in real time. At the same time, the system is equipped with 4G, GPS and Bluetooth. It allows users to locate and intelligently plan vehicle routes through the ZONTES intelligent app.

The 350D has a sharp appearance. The first thing that catches consumers' eye is the SUV-style front design. The sharp headlights extend from the outside to the bottom of the center like eagle eyes, and are equipped with bright LED bulbs. Instantly after they turn on, the car looks majestic.

The case is equipped with a TFT full-color LCD instrument, which can be interconnected in real time for tire pressure monitoring, navigation projection, mirror projection, Bluetooth music listening and answering calls, which greatly expands multimedia applications.

The patented lower suspension cradle reduces the vibration and impact of the engine in the front and rear directions during the whole driving process, and improves driving comfort.

Web:www.hwasdan.com.cn

### 设计师 Designer:

李淑龙 ShuLong Li

杨全 Quan Yang

本产品设计理念的出发点是为客户提供一款轻便的手提式3KW功率段的静音变频汽油发电机，业界现有3KW功率段的静音变频汽油发电机产品重量普遍在35Kg-45Kg,基本都需要带车轮手把进行推拉或者两位操作者抬着移动。此款产品经过优化设计，在满足使用寿命500h的前提下通过提升工作转速将体积做到535×335×530，重量做到28Kg，单人便可轻松手提移动，可轻松放入家用轿车后备箱中。

随着新能源汽车产业的崛起，目前充电站建设尚不充裕，新能源车主长途旅行中普遍都有续航焦虑，但目前市场上2KW系列产品体积较小但不能满足新能源车的充电功率要求或充电时间过长，3KW系列产品体积过大，普通新能源家轿无法放入后备箱中同时也不便于移动。本产品具备重量轻，体积小，便携，功率大的特点可以填补这一市场空缺，以适应目前市场发展，为人类社会节能减排事业提供一份推动之力。

作为市场首台重量小于30Kg的3KW小型汽油变频发电机组，契合社会主流节能减排需求，填补了3KW功率段手提型发电机空白。

The starting point of this product design concept is to provide customers with a portable silent variable-frequency gasoline generator in 3KW power range. The weight of the existing silent variable-frequency gasoline generator in 3KW power range in the industry is generally 35kg-45kg. Basically, it needs to be pushed and pulled with wheel handle or carried by two operators. This product has been optimized. On the premise of meeting the service life of 500h, the size is 535×335×530, with a weight of 28KG. It can be easily carried and moved by one person, and can be easily put into the trunk of a family car.

With the rise of the new energy vehicle industry, available charging stations are not sufficient at present, and new energy vehicle owners are generally worried about endurance during long-distance travel. However, the 2kW series products in the market are too small to meet the charging power requirements of new energy vehicles or the charging time is too long. The 3KW series products are too large. Ordinary new energy family cars cannot be put into the trunk and are not easy to move. This product has the characteristics of light weight, small size, portability and strong power, which can fill this market vacancy, adapt to the current market development, and provide a driving force for the cause of energy conservation and emission reduction in human society.

As the first 3KW small gasoline frequency conversion generator set with a weight less than 30kg in the market, it meets the mainstream energy conservation and emission reduction needs of the society and fills the blank of portable generator in 3KW power range.

## 阿波罗RFN ARES疯摩战神竞技版 AM RFN ARES RALLY PRO

应儿 Chanel

阿波罗RFN ARES疯摩战神竞技版是一款全地形电动越野摩托。创新性的变形系统，3秒内越野车变身攀爬车。整车全面防护设计，防水等级达到IP67，锂电池搭载热气溶胶灭火装置。智能电子架构及四电系统。采用智能FOC矢量动力控制技术，4秒提速至50KM/H，让越野更狂野。极佳的人体工程设计加载12.5千瓦中置永磁电机，让勇者，竟无畏，越有型。

随着全球各国发布停售燃油车时间表，国际油价的不断飙升，新能源车全面普及的时代即将到来；综合以上因素，阿波罗公司研发出来了这款具有自主知识产权的可在道路和越野场地上行驶的电动越野摩托车-阿波罗RFN疯摩战神系列，同时响应国家号召低碳环保、绿色出行的碳达峰、碳中和的理念。

### AM(Apollo) RFN ARES RALLY PRO

An electric off-road climbing motorcycle that is light & powerful. Maximum speed is 80km/h and it speeds up to 40km/h in 5 secs. Designed in full protection, waterproof level reaches IP67. Intelligent four-electric system & four control mode makes switch off-road & climbing modes within 3 secs and is free to gallop. Features: Lithium battery with hot aerosol fire extinguisher, FOC vector power control, three-speed output, power-off protector for rider and ergonomic design. Racing Fears Nothing.

With the release of timetables for stopping the sale of fuel vehicles around the world and the soaring international oil prices, the era of full popularization of new energy vehicles is coming;

Based on the above factors, we developed this series of electric off-road motorcycles with independent intellectual property rights that can run on roads and off-road sites -AM BOOOM series, which fills the gap in the market and responds to the national call for low-carbon environmental protection and green travel with carbon peak and carbon neutrality.

500W便携储能电源具有BMS十重安全保护（过充、过温、过压、过载、通风堵塞、过放、欠温、欠压、短路、风扇故障），通过六大类、62项专业测试，三路NTC温感检测，为产品安全保驾护航；在外观设计上大胆创新，不管是造型形式，材料应用、场景使用体验，全方位突破传统储能电源的工业产品的陈旧印象，争做行业标杆。

500W便携储能电源，倡导绿色节能出行，不管露营、钓鱼、野炊、航拍等等，减少传统户外使用明火的带来的各种污染，为消费者提供更多多元化的生活应用，摒弃过往的生活陋习，树立绿色健康文明的新生活观念，切实为低碳贡献一份自己的力量。

控制面板输出部分的互换性，可以使企业在针对欧美，日韩，澳洲等市场时，可以快速，低成本投入的前提下，不改变产品的各项性能指标，通过设计的优势形成不同市场差异化的产品解决方案，更全面的满足各类市场生活习惯及需求，同时通过产品的配色上给市场、给消费者更多选择的空间。

The 500W portable power bank has ten BMS safety protection functions (overcharge, overtemperature, overvoltage, overload, ventilation blockage, overdischarge, undertemperature, undervoltage, short circuit and fan failure). It has passed 62 professional tests in six categories. Three-way NTC temperature detection can ensure product safety. It gets rid of traditional appearance design, shape, materials and scenes. It strives for to be the industry benchmark.

The 500W portable power bank advocates green and energy-saving travel, such as camping, fishing, picnic, aerial photography, etc. It reduces pollution caused by the traditional use of open flames outdoors. It provides consumers with more diversified life applications. It gets rid of traditional applications, establishes a new concept of green, healthy and civilized life, and earnestly contributes to low-carbon development.

The control panel can support the usage in different countries, such as Europe, America, Japan, South Korea, Australia, etc. On the premise of fast and low-cost investment, companies don't need to change performance indicators of the product. Its design advantages can form different product solutions for different markets and more comprehensively meet the living habits and needs in different markets. At the same time, it offers different color versions.

KM173FX是无锡凯马公司最新研制的一款单缸、立式、四冲程、直喷式微型风冷柴油机，该产品采用了国内外先进的轻量化设计技术、直喷燃烧技术和低排放控制技术。

其尾气污染物排放可满足中国非道路柴油机国三和国四排放标准要求，整机重量约18kg，与现有老170F、173F单缸风冷柴油机的26kg重量相比，可减轻重量8kg。

同等功率体积更小重量更轻，满足轻量化发展趋势。

KM173FX is a single-cylinder, vertical, four-stroke and direct-injection miniature air-cooled diesel engine newly developed by Wuxi Kama. This product adopts the advanced lightweight design, direct-injection combustion technology and low-emission control technology at home and abroad.

Its exhaust pollutant emissions can meet China III and IV vehicle emission standards for off-road diesel engines. The weight of the whole machine is about 18kg, 8kg lighter compared with the 26kg 170F and 173F air-cooled single-cylinder diesel engines.

It can generate the same power with smaller size and lighter weight, which meets the trend of lightweight development.

## DEEPBLUE 3.0系列组件JAM72S30-XXX/MR DEEPBLUE 3.0 SERIES MODULES JAM72S30-XXX/MR

企业名称：晶澳太阳能科技股份有限公司

E-mail:bj.liuhc@jasolar.com

### 设计师 Designer:

周艳方 Helen Zhou

DeepBlue 3.0系列组件是一款基于182mm硅片的高效率、高功率p型PERC单晶光伏组件，此产品综合考虑组件的生产、运输、安装、系统配套各环节实际情况，采用了各种高效率和低衰减技术，包括新一代的高效PERCIUM+电池技术、掺镓硅片技术、半片电池技术、MBB技术等，因此在组件可靠性能、效率（功率）和发电性能等方面具有突出的性能优势。

光伏组件作为光伏电站的重要组成部分，尤其高效DeepBlue 3.0组件，能够在25年或更长应用寿命内，高效、稳定发电，助力双碳目标达成，1GW光伏电站，平均每年减排二氧化碳130万吨。同时，DeepBlue 3.0组件能够适应不同的应用场景，包括地面光伏电站、工商业屋顶电站和居民屋顶电站等。

LCOE是衡量光伏发电项目的核心指标，高效率、高发电能力、高可靠性的DeepBlue 3.0组件能够有效降低项目的LCOE。TÜV北德实证项目数据显示，相比于超大电流组件，DeepBlue 3.0组件单瓦发电量高1.6%左右（测试周期一年：2021年2月到2022年2月）。

DeepBlue 3.0 series module is an efficient and high-power p-type PERC monocrystalline PV module based 182mm wafers. Considering production, transportation, installation, system compatibility and the actual performance of the entire industry chain, DeepBlue 3.0 series module adopts various efficient and low-attenuation techniques, such as the new-generation efficient PERCIUM+ battery technology, Gallium doped silicon wafer technology, half battery technology, MBB technology, etc. Therefore, it has outstanding performance in component reliability, efficiency (power) and generation performance.

PV module is an important part of the PV plant. DeepBlue 3.0 series module can generate power efficiently and stably in 25 years or longer and thus contribute to carbon peaking and carbon neutrality. For example, 1GW PV plant can reduce 1.3 million tons of carbon dioxide annually on average. At the same time, DeepBlue 3.0 module can be adapted to different application scenarios, including ground PV plant, commercial and commercial rooftop power stations and residential rooftop power stations.

LCOE is the core indicator to measure PV projects. DeepBlue 3.0 series module features high efficiency, high power generation capacity and high reliability. It can reduce LCOE efficiently. TÜV NORD's field test results show that compared with high-current solar modules based on larger wafers, DeepBlue 3.0 series module generates about 1.6% more power per watt (test period: 1 year: February 2021-February 2022).

## 便携式储能电源INFINITY1800 PORTABLE POWER STATION INFINITY1800

企业名称：福建天成时代新能源科技有限公司

刘永德 Ade Liu

Infinity系列产品首创可替换功能模块，将功能配件升级为拆卸模式，一机多用。无线充电宝，应急收音机，集照明、蜂鸣报警、手摇发电、收音等功能于一体。配有应急照明灯，支持SOS报警功能。UPS不间断电源安全管理系统：市电供电时，由市电直接给设备供电，不消耗电源储备电量；意外断电时，电源管理系统可在10毫秒之内急速自动切换到Infinity电源供电。确保用电设备维持正常工作。

双向逆变快充技术：Infinity迭代升级，在性能、安全、效率等方面都有了质的提升。实现双向逆变，取消充电适配器，压缩物理空间，真正实现市电直充快充技术，大幅度提升充电效率，可在1.5小时内将电源快速充电至容量的80%，减少等待时间。ECO电池节能管理系统：低耗节能，Infinity电源自主研发低功耗自动休眠关机技术，同时电源上增加ECO可控按键，精准利用每一瓦数电量。

电池极联功能：Infinity电源推出电池极联功能，打破了固体电极的局限性，实现了高面积容量。当容量不够时，可通过电池极联方式额外增加电池包，扩大容量，延长使用时间。逆变器并机功能：为兼顾多种大功率设备使用场景，Infinity电源配备了额外并机盒，将同款机子并联，实现更灵活的兼容性拓展，更强大的性能提升，可完成1800W x2至3600W的双倍功率和大容量升级，可覆盖99%的家用电器。

Actively implement the strategic goals of “carbon peaking and carbon neutrality”, Infinity 1800 first apply removable modules. The wireless power bank supports wireless charger and PD20W fast charger. Emergency radio receiver integrates lighting, SOS warning, hand generators and radiogram. The delicate Bluetooth speaker provide high quality auditory experience in outdoor activities. All accessories are equipped with emergency light which can be switched to SOS warning function. It is benefit for safe trip. UPS is designed to ensure the safety of your home and family during a power outage. When the mains power supply normally works, the Infinity 1800 allows the charged/powered devices to gain the power source directly from the main power supply without consuming the battery. In the event of an unexpected power failure, the Infinity 1800 quickly detects the outage and then automatically switches to charge/power the devices via the stored power within 10 milliseconds.

Power Conditioning Fast Charging Technology: Improvement in performance, safety and efficiency. it upgrades bidirectional AC-AC solution and cancels the heavy charging adapter. Optimize the battery configuration to compress its physical space, the Infinity 1800 can be fully charged quickly by any power outlets. It can reach 80% in 1.5 Hours with significantly improved charging speed. Battery Energy Saving Management System: Equipped with low-power AUTO SHUTDOWN technology, the Infinity 1800 is also added with an ECO BUTTON to adapt to different scenarios of high or low energy consumption. Just a click, you can decide whether to have the shutdown feature on or off. With the ECO mode on, the power station will shut off automatically if not in use.

Expandable Battery Management System: We add expandable battery function to the Infinity 1800 to make the need of high capacity. When you need more capacities, you can connect an extra battery to expand the battery capacity and prolong the usage time. Inverter Parallel Management System: Make more needs of different high-power equipment usage scenarios, the Infinity 1800 is equipped with an extended parallel kit, which parallels two power stations to achieve output power from 1800W x2 to 3600W and more capacity, improve compatibility to support more high-power devices like kitchen appliances, air conditioner, power tools etc. It can support 99% of the world's household appliances.

ESS510储能系统是一种一体化解决方案，将5.5KW混合逆变器和5KWH锂离子电池集成为一个单元。ESS510经济且自给自足的解决方案，允许房主在白天无缝存储多余的太阳能，为家中提供白天和晚上的电力。具有紧凑且易于扩展的锂离子电池模块，用于能量扩展，与铅酸电池相比，空间更小重量更轻。模块化设计的逆变器和电池可以轻松安装和堆叠。通过其 5 英寸彩色 LCD 面板可设置 7 种操作模式以适应不同环境。

将太阳能或电池电源转换为可直接用于家庭和企业的标准交流电源，灵活利用太阳能、市电和电池，全天持续提供清洁能源 特别适合取电不易或是电力系统不稳定的地方ESS510 提供了一种经济且自给自足的解决方案，允许房主在白天无缝存储多余的太阳能，为他们的家提供白天和晚上的电力。ESS 具有紧凑且易于扩展的锂离子电池模块，用于能量扩展，紧凑且重量轻。模块化设计的逆变器和电池可以轻松安装和堆叠，提供从小处着手并随着需求增长添加电池的灵活性。安装简单直观，无需多种工具，也无需大量人力。

ESS510 Energy Storage System is an all-in-one solution, which integrates a 5.5KW hybrid inverter and a 5KWH lithium-ion battery into one unit. ESS510 offers an economical and self-sufficiency solution allowing homeowners to seamlessly store excess solar energy during the daytime to power their home both day and night. ESS510 features a compact and easily scalable Lithium-ion battery module for energy expansion which with less space and is lighter than lead-acid batteries. Modular designed inverter and batteries can easily mount and stack up. 7 operation modes can set via its 5" color LCD panel to adapt to individual houses.

Converts solar or battery power to standard AC power that can be used directly in homes and businesses. Flexible use of solar, mains and batteries to continuously provide clean energy throughout the day. ESS offers an economical and self-sufficiency solution allowing homeowners to seamlessly store excess clean energy during the daytime to power their home both day and night. ESS features a compact and easily scalable Lithium-ion battery module for energy expansion which is compact and lightweight. Modular designed inverters and batteries can easily mount and stack, offering the flexibility to start small and add battery cells as your needs grow. The installation is simple and intuitive, without a wide variety of tools, nor lots of manpower.

Cooking totem 是一款可堆叠的炊具产品，这款产品最大限度地扩大了厨房空间，令用户可在家中尽情享受不同的美食时刻。紧凑的标志性结构旨在将产品展示在厨房柜台上，而不是将其隐藏在橱柜中。所有形状和尺寸都经过精心设计，组装时可形成无缝的标志性整体。一整套炊具组合可以通过独特的堆叠结构从而达到节省空间的效果。

不用再把炊具藏进抽屉里，而是将它展示出来，这重新定义了炊具和餐具，将它们有机地组合起来，可以适应不同场景。可拆卸把手适用于所有烹饪锅具，卸下可拆卸把手，可实现锅变碗的目的。独特的可拆卸把手通过背面集成锁来实现控制装置，背面不会升温，也不会因操作不当而发生解锁，确保用户手部安全。

The Cooking Totem is a stackable cookware set for maximizing space in the kitchen and conquering different food moments around the home. In modern interiors, the kitchen is part of the living room. The compact and iconic structure is designed to exhibit the product on the kitchen counter instead of hiding it in a cabinet. All shapes and sizes are carefully designed to achieve a seamless and iconic unit when assembled. An entire cookware set that save space through the unique stackable structure.

No need to hide cookware in drawers anymore, exhibit it and spark compliments instead. We redefined cookware and diningware by combining them into a set that can adapt to both scenarios. The detachable handle fits to all pots for cooking. Removing the detachable handle enables the user to turn the pots into serving bowls. The unique detachable handle adapts to all pots and keeps users' hands safe by integrating the lock control on the back of the handle where there is no heat and cannot be unlocked by mistake.

乐桌是一款高度可调节的竹制升降桌。其秉承“以竹代木”的理念而设计，采用生长周期更短、韧性更强的竹子代替原木，以此缓解资源危机和环境压力。桌脚以中国甲骨文的“乐”字为原型，巧妙地将形状和重心支撑面融于一体。特殊压缩工艺加工而成的桌板，可承重100KG的压力。

桌腿支撑件则从竹节中汲取灵感，设计了节段式升降功能，其高度可在60cm-125cm间调节，能作为成长型学习桌、办公桌使用。乐桌科学、人性化的调高方式有助于帮助用户纠正坐姿、缓解久坐带来的腰椎疼痛、放松颈肩椎，从而养成健康的学习、办公习惯；也能通过产品形态和理念的结合，向世界展示中国竹文化的底蕴和独有魅力。

用户可通过智能触屏APP进行高度的调节，一键即可切换坐站姿。智慧屏提供心率检测，坐姿提醒等多功能APP,保护用户的身体健康。同时，其升降模块配备六轴传感的遇阻回退功能，可避免意外磕碰和损坏桌面。

Le Bamboo Desk is a bamboo height adjustable desk. Upholding the concept of "replacing wood with bamboo", designers adopt bamboo which grows faster and is more resilient in terms of strength to relieve the resource crisis and environmental burden. Its legs are derived from the character "Le" (happiness) in the Chinese oracle bone script. It ingeniously integrates the shape and the supporting base. Inspired by bamboo joints, two supporting legs were designed to lift in segments. The desk board processed by special compression process can bear up to 100KG.

Inspired by bamboo joints, two supporting legs were designed to lift in segments. The desk height can be adjusted from 60cm to 125cm. It can be used as a study or office desk to accompany users as they grow. Its scientific and user-friendly adjustment method can correct sitting postures, ease sedentary fatigue, relax the cervical and shoulder vertebrae and help develop healthy study and office habits. Furthermore, By combining product concept and form, Loctek shows the profound and unique charm of Chinese bamboo culture.

Users can adjust the height through the smart touch screen apps, and switch between sitting and standing with one key. The smart screen provides multi-functional apps such as heart rate detection, sitting posture reminder, etc. to protect the user's health. Moreover, its gyroscope-based anti-collision function can avoid damaging the desktop and contact objects.

卡尔（CURL）系列产品是以一个受到保护的安乐窝和一个属于自己的安乐之地为设计概念，完全曲线形的结构加上巧妙的编制柳条的运用，创造一个有极致魅力并且极漂亮的外形。

产品整体使用户外环保PE藤编织，防水防晒耐腐蚀，同时具备功能性和环保性的特点。坐垫内含快干的高密度的泡棉，柔软舒适；布料采用户外全防水涤纶布，完全适合户外长期使用；

产品使用范围广泛，适合从住宅到公共场所等多种风格的空间。

A protective nest and a comforting place of your own, this is what CURL is all about. An all curves structure, expertly dressed with random woven wicker, creates a stunning shape that is so inviting. Sculptural and unique as it is, this is simply "art to sit on".

The whole product is made of outdoor PE rattan weave, which is waterproof, sun-proof and corrosion-resistant, and is functionality and environmental friendly. The seat cushion contains fast-drying high-density foam, which is soft and comfortable.

CURL can be widely used in variable places, it is completely suitable for both residential and public spaces.

LIVEON Diamond Knife

简洁/流畅的产品造型设计，以“钻石”为主题，构造出把手高低峰的外观造型，高峰处的钻石造型用于手掌心与把手相握时更加饱和发力，低峰处的钻石造型用于手指紧握时的牢固度，整体的设计融合了良好的人体工程学，让握刀更加牢固稳定、切割食材更加精准，实现高贵与实用并存设计理念

刀刃采用合金粉末钢制作，湿式手工开刃，大幅度提升了刀刃的硬度（HRC64正负2）、锋利度和耐磨性，体现“好钢用在刀刃上”设计理念，实现节能环保的作用；刀具持久锋利，有效减少磨刀次数，处理食材得心应手。

刀身和把手采用优质18/8不锈钢材料，具有极好的防锈性和耐腐蚀性，斜磨工艺制作搭配镜光的表面处理效果，更加延长刀具的使用寿命，突出节能环保的作用。

LIVEON Diamond Knife

优质18/8不锈钢，具有极好的防锈性和耐腐蚀性，使用放心。  
high quality 18/8 stainless steel material, with excellent rust resistance and corrosion resistance, safety for use.

刀刃合金粉末钢，高硬度，持久锋利，有效减少磨刀次数，节能环保。  
The blade is made of alloy powder steel, high hardness, durable sharpness, effectively reduce the times of knife sharpening, food processing easily.

高峰处手掌相握时饱和，低峰处手指紧握时牢固，整体的设计融合了良好的人体工程学，让握刀更加牢固稳定，切割食材更加精准。  
the diamond shape at the peak is used for more saturated power when the palm and the handle are held together, and the diamond shape at the low peak is used for the firmness when the finger is clenched. The overall design integrates good ergonomics, making the knife more stable and firm, cutting food materials more accurate, and realizing the design concept of nobility and practicality.

LIVEON Diamond Knife

Concise and smooth product design, with "diamond" as the theme, construct the appearance of the handle with high and low peaks, the diamond shape at the peak is used for more saturated power when the palm and the handle are held together, and the diamond shape at the low peak is used for the firmness when the finger is clenched. The overall design integrates good ergonomics, making the knife more stable and firm, cutting food materials more accurate, and realizing the design concept of nobility and practicality.

The blade is made of alloy powder steel with wet manual cutting method, which greatly improves the hardness of the blade (HRC64 plus or minus 2), sharpness and wear resistance, reflecting the design concept of "good steel is used on the edge" and realizing the role of energy saving and environmental protection; Durable sharp knife, effectively reduce the times of knife sharpening, food processing easily.

The knife body and handle are made of high quality 18/8 stainless steel material, with excellent rust resistance and corrosion resistance. The surface treatment effect of taper grinding process and mirror polishing can prolong the service life of the knife, and highlight the role of energy saving and environmental protection.

Light weight and high weight capacity  
Cot frame uses magnesium alloy metal material.

One-third lighter than regular cot

The max loading is 300LBS

LIGHT WEIGHT

STABLE

Quick folding in three seconds  
New structure design with patent

CONVENIENT TO FOLD

SPEEDY COT  
Enjoy with the outdoors nature

采用的是联动的快速收折机构，只需要2秒即可轻松打开和收折，且收折后的体较小、易存储、不占空间。

主要的面料是柔软舒适的双彩绒，同时采用光触媒净化技术，在面料有污染的时候可以通过紫外线照射有净化的效果并且具有极强的抑菌、除臭、防污自洁、让产品在使用过程中有着更加强大的保护性。

框架采用了镁合金金属材料，重量轻、强度好、环保。

Speedy Cot adopts the interconnected fast folding mechanism. It only takes 2s to open and fold easily. It is small and easy to store after being folded.

The main fabric is soft and comfortable double color velvet. It adopts the photocatalyst purification technology. When the fabric is polluted, it can be cleaned by UV radiation. Besides, it is antibacterial, deodorant and anti-fouling. The product can maintain clean, during use.

The bed frame is made from magnesium alloy, which features light weight, good rigidity and environmental protection.

刘金鹏 Jinpeng Liu

Tiara（福娃）是一款为儿童精心打造的靠背椅，造型设计灵感源于中国传统头饰，流畅的曲面造型让儿童靠背椅每一处角度看都非常协调优美。

儿童脊柱发育的良好与坐姿有着很大的关系，我们采用非常贴合儿童背部的人机工程设计，保证了发育中儿童脊柱的良好成长。椅背顶端的造型可以单手轻松提起，方便移动，可堆叠、易收纳的结构设计减少运输和包装成本。我们对产品安全性有严苛的要求，增加TPE防滑脚垫，使得产品使用过程中更加的安全可靠。

为了秉承低碳环保理念、保护环境，我们产品采用的PP原材料要求非常高，对原材料使用秉持可回收、可再生的标准，降低浪费，追求材料利用的最大化。我们经过无数次的挑战和不断尝试，最终设计出价格亲民、造型简约，大众接受度高的儿童靠背椅产品，我们希望通过创新的设计来解决社会问题，为环境贡献一份力量。

Tiara is a well-built backrest chair for children. It was inspired by traditional Chinese headdresses. The smooth curved shape makes it look very harmonious and beautiful from every angle.

The good development of children's spine has a lot to do with their sitting posture. We use a ergonomic design that fits children's back very well. It ensures the good growth of children's spine. The top of the back makes it easy to lift with one hand. It is stackable. Its easy-to-store structure reduces transportation and packaging costs. We have strict requirements for product safety. Therefore, we increase TPE non-slip mats to make the product safer and more reliable during use.

Based on the concept of low carbon emission and environmental protection, our product uses high-quality PP. We use recyclable and renewable raw materials to reduce the waste of resources and maximize material utilization. After numerous tests and attempts, we finally get this children's backrest chair with an affordable price, simple design and high recognition. We hope to solve social problems and contribute to environmental protection through our innovative designs.

## 蔚刻宠物出行包FYNN VOOCOO PET TRAVEL BAG FYNN

企业名称：深圳市设际邹工业设计有限公司

郭馨蔓 Xinman Guo  
李彭尧 Pengyao Li

宠物出行包的设计灵感源自于时尚女性的提包以及潮流男性的单肩包，通过皮革、磨砂金属、帆布的材质搭配，呈现出时尚的气息，上方的环形开口设计，让放置宠物时有足够大的空间；类似布袋收口的开合方式让使用者在放宠物时能防止宠物逃脱，加固的尼龙网格无惧宠物挠损。

蔚刻宠物出行包，产品全面采用超纤素皮、牛津布、锌合金、尼龙等可回收再利用材质，在一定程度上保护了环境，实现低碳生活与社会的可持续发展。

蔚刻不做简单“贴牌”，从产品的外观设计到模具开发再到软硬件的交互，每一个环节都是研发团队身上长出来的能力，产品只是这个能力的结“果”。我们认为只有这样才能做好产品，好的产品才能持续收获用户口碑，这是VOOCOO的品牌价值观。

The design of pet travel bag is inspired by women's handbags and men's shoulder bags in the fashion community. The combination of leather, frosted metal and canvas presents a fashionable feature. The annular opening at the top provides enough space for pets. The opening and closing form similar to that of cloth bags prevents the pet from escaping. Reinforced nylon mesh prevents pet scratching.

VOOCOO pet travel bag is made of recycled materials such as super fiber leather, Oxford cloth, zinc alloy and nylon, which protects the environment to a certain extent and promotes low-carbon life and sustainable social development.

VOOCOO does not turn to OEM service. Every process, including product appearance design, mold development and software and hardware interaction, is closely observed by the R&D team. We believe that only in this way can we make good products, and continue to gain users' preference. This is VOOCOO's brand value.

## 彩虹智能感应垃圾桶86439 SMART SENSOR BIN 86439

企业名称：广州家馨居贸易有限公司  
Corporate Name: GUANGZHOU HOMFEL CO., LTD.  
陈友章 William Chen

### 设计师 Designer:

林蔚聪 Weicong Lin  
易均活 Junhuo Yi  
李伟洲 Weizhou Li

彩虹系列智能感应垃圾桶是一款集设计及功能之大成的作品。该系列旨在针对当今欧美市场受众的审美要求及使用习惯进行研发与设计，将智能、时尚、耐用、健康这四种产品价值表现到极致。

彩虹系列感应桶最具特色的地方是其富有科技感的弧形信号灯，简洁而清晰地告知使用者目前的工作状态——浅绿：通电指示（守护您的安全）；绿色：桶盖竖立等待模式（便于清理）；蓝色：5s自动缓降闭合模式（安静自然）；红色：自动O<sub>3</sub>消毒模式（无异味，无可挥发性有害气体释放）。

这四种功能将该款产品的细节拉满，满足了现代智能化家居系统中对环保储存类装置的全部设想。

出色的不锈钢砂光封油表面处理具有高效的防水和抗腐蚀作用。此外，高效的内部电气化设计使续航工作时间达半年以上。

个性化的选配模式如带内桶或不带内桶、干电池或锂电池迎合了不同消费者的使用习惯。

Rainbow Sensor Bin is a combination of stylish design and remarkable functions. Aiming at the recent aesthetic needs and using habits of consumers in Occident markets, the four values of intelligence, fashion, durability and health are fully expressed in this series.

The most distinctive feature of the Rainbow Sensor Bin is its technological curved signal light, which concisely and clearly informs the user of its current working status and functions.

Light Green: Power On - Guarding Your Safety;

Green: Upright Standby Mode of the Lid - Easy to Clean;

Blue: 5s Auto Soft Close - Reducing the Noise;

Red: Auto O<sub>3</sub> Disinfection Mode - No Odor or Volatile Harmful Aerosol Released.

These four functions add surprising details to the product, meeting all the ideas of Eco-friendly storage devices in modern intelligent home systems.

The outstanding surface treatment of sanding and sealing oil provides high performance waterproofing and corrosion resistance. In addition, the efficient internal electrification design provides more than half a year of endurance working time. Customized options such as with or without inner buckets, dry or lithium batteries cater to different consumer habits.

### 设计师 Designer:

陈嘉琦 Kiki

该产品集让猫咪攀爬，休息，钻洞窥探等功能于一体。以柔和的绿色和米黄色仿麻布为主，多种材质的面料拼接，与家居风格契合度高。跳台元素以交叉的组装形式呈现，既美观又实用。带有可拆卸围邦，封闭窝和开放空间可一键切换。

贴近自然是今后产品设计的大方向之一，这个系列希望给空间带来舒适清新的感觉，使用交叉排列的产品语意来展示，跳台交叉排列，以三角形为基础形态，将椭圆形跳台按规律陈列，呈开放式造型，突破了传统猫爬架比较呆板的陈列方式。最小款的设计来源为边几，让猫的住所能更好融入主人的家居环境。底层做了一个存储空间，可以放置猫咪零食和玩具，也可以作为猫咪的躲藏处。

Japanese-style household wind cat climbing frame: climbing, rest, drilling, peeping and other functions. Soft green and beige imitation linen are mainly used, and the fabric of various materials is spliced, which is highly consistent with the home style;The jumping platform elements are presented in the form of cross assembly, which is both beautiful and practical;With removable enclosure, closed nest and open space, one key switching;Being close to nature is one of the general directions of product design in the future. This series hopes to bring a comfortable and fresh feeling to the space.

The clumsy and shapeless traditional cat climbing frame has always been a pain point for the team to break through, so this series uses the cross arrangement of product semantics. The jumping platforms are arranged in a cross way. Based on the shape of triangle, the oval jumping platform is displayed according to the law in an open shape, breaking through the rigid display mode in the past.

The design of the smallest version was inspired by the side table, which aims to make the cat's house better integrate into the owner's home environment. There is a storage space on the ground floor, which can be used for cat snacks and toys, or as a hiding place for cats.

藏石真味-直口增压炖锅A-ZS

墨脱石锅采集雅鲁藏布悬崖上的天然原石，手工经典款，上口直径200mm，锅底直径220mm，锅高度16mm，重量6公斤（不含盖），容量5L-5.5L，适合6人使用。

源自公元607年的西藏传统炊具，因皂石特有的属性及所含的16种微量元素，墨脱石锅多用于煲汤。不仅保留食材的原生态美味，也能补充人体有意的微量元素。经过“开锅”，煮粥、刷油，石锅由灰白自然变色成深灰或墨绿色。

考虑到西藏是高海拔地区。锅身升级梯形设计，气流在锅内形成内循环。内嵌锅盖设计，增加密封性，双重保压、增压。此款型，实用性最高，可在西藏部分地区直接煮米饭及面食。

Motuo stone pot collects the natural raw stone on the cliff of Yarlung Zangbo. It is a classic hand-made Stone. The diameter of the upper mouth is 200mm, the diameter of the bottom of the pot is 220mm, the height of the pot is 16mm, the weight is 6 kg (without cover) , and the capacity is 5L-5.5L. It is suitable for 6 people.

Originating from the traditional Tibetan cookware of 607 AD, Motuo stone pots collect natural raw stones from the cliffs of Brahmaputra. Due to the unique properties of soapstone and the 16 micro-nutrients it contains, Motuo stone pots are often used for soup-making. Not only does it retain the original taste of the ingredients, but it also complements the micro-nutrient of the human body. After "waking up" the pot,cooking porridge and adding oil, the natural color of the pot from gray to dark gray or dark green.

Considering that Tibet is a high-altitude area, the stone pot is designed in a trapezoid shape with the air flow in the pot forming an internal circulation. The built-in lid design increases the tightness and doubles pressure. This model is most practical and can be used to cook rice and noodles directly in some regions in Tibet.

JOYYE「布衣情」茶具以民族服饰艺术，尤其是云南地区少数民族的拼布艺术为设计灵感，将民族服饰中的车缝线、团花等元素抽取出来成为陶瓷装饰的一部分，制作出具有淳朴手工意味的茶具。

整套茶具兼具陶瓷手绘和民族服饰艺术的独特美感，六只品茗杯，每一只都各具特色，喝茶时不易混淆，带来不一样的专属品茶体验。

茶杯外壁着色特别采用了古雅的中国传统色，明黄、霁蓝、正红、湖蓝色、碧色、酡红，极具东方韵味。

JOYYE「布衣情」茶具将陶瓷艺术与民族服饰艺术相融合，从传统艺术中汲取养分，传承并创新。通过陶瓷工艺师一笔一划亲手绘制，将传统工艺与现代审美完美结合，突显大国工匠精神，以别出心裁的创意设计赋以中式茶具另一种风情。

有别于传统中式茶具的单调深沉之气，「布衣情」主打女人的茶具，茶杯小巧轻盈，色彩斑斓丰富，犹如女性的服饰鲜艳亮丽、时尚多姿。新颖的创意、鲜明的风格让其成为女性茶具市场上的一股新潮，丰富了女人的茶桌和生活，打造精致女性专属饮茶模式。

「The Patched Cloth」 is the teaset which is inspired by the art of ethnic costumes, especially the patchwork art of ethnic minorities in Yunnan, such as sewing thread, national patterns. The series of tea set combined the unique beauty of ceramic hand-painted and ethnic costume art, which makes tea-table new look. There are six tea-cups that show different unique designs. The tea cups show oriental charming through different colors, such as bright yellow, blue, pure red, lake blue, cyan and red.

「The Patched Cloth」 is combine ceramic art with traditional costume art through ceramic craftsmen's handpained, which makes this tea set unique and elegant.

The target customer of 「The Patched Cloth」 is female's market. The colorful teacups are cute and light, just like women's fashionable clothes. Therefore, novel creativity and distinctive style make it a trend in women's tea set market, enriching women's tea table and life, and creating exquisite women's exclusive tea drinking mode.

积木、小汽车、七巧板、城堡...将辅食格设计中加入童年元素，每一个冰块细节都生动有趣，童真童趣跃然其上，希望无论是宝宝还是妈妈，都能从产品中感受到童年的美好趣味。

该产品使用食品级硅胶，材质安全稳定，耐高低温，质地柔软，触底按压定量轻松取出。  
产品配有顶盖，边缘设计增高卡位，盖子与辅食格可随意搭配层层叠加，满足不同的用量需求，同时满足不同类别辅食的分层存放。

Building blocks, cars, tangrams, castles... We add childhood elements to the design of the complementary food grid. The details of each ice cube are vivid and interesting. We hope that both babies and mothers can feel the joy of childhood from the product.

This product uses food-grade silica gel. The material is safe and stable, resistant to high and low temperatures and soft in texture. Users can easily take out complementary food they want by pressing the bottom.

The product is equipped with a top cover, and the edge has higher positions. The cover and the complementary food grid can be stacked layer by layer at will to meet different needs and to meet the layered storage of different types of complementary food.

这是一款能实现自动抽真空的保鲜产品，电动真空泵能自动检测盒内气压，当盒内负压达到-0.03Mpa，能自动停止抽气。保鲜盒是使用婴儿级材质的Tritan，不含双酚A，且能实现微波炉内加热，解决疫情下食物存储的问题。

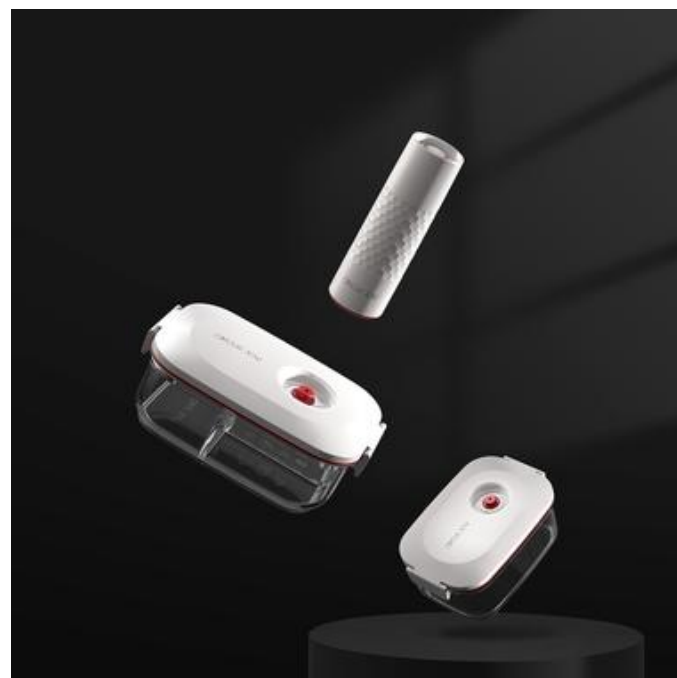

电动智控，锂电充电真空抽气泵：一键轻松抽真空，识别负压值自动停止；源自15年真空保鲜技术支持，可达-0.03MPa高度真空，保鲜加倍；真空状态可保持超过28天：超高真空负压值+加厚密封硅胶条，让保鲜盒长久密封不漏气，盛放液体倒放七天也不担心渗漏。

欧美婴幼儿用品指定材质，符合FDA认证，环保无毒，不含双酚A、铅等有害物质，微波加热亦不会释放BPA，始终贴心守护健康；Tritan材质分子密度高，表面细腻平滑无气泡，不易吸附油污，清洗方便；可微波加热，便于上班族带饭；可进烤箱/洗碗机使用；可拆卸式设计，实现360°无死角清洁。

A food container equipped with an electric vacuum pump that keeps food fresh in a vacuum. The vacuum pump measures the vacuum and stops automatically as soon as the target value of -0.03 Mpa is reached. Made of Tritan plastic, it is free of harmful substances and can also be used in the microwave.

The container set includes an electric vacuum pump that can automatically vacuum with one button press, which can be easily used by the elderly and children. Efficiently extract about 30% of the air to reduce the oxygen content, therefore inhibit the growth of bacteria, and prolong the preservation time. With 15 Years Development of Technologies, vacuum preservation keeps food fresh and healthy for more than 28 days by inhibiting bacterial growth, slowing down the oxidation of food and keeping the fresh taste for a long time.

The vacuum container uses FDA approved food-grade Tritan™ material, which is environmentally friendly and non-toxic, do not contain harmful substances such as bisphenol A, lead, etc. And it is also microwave-heating safe. Tritan material has high molecular density and is not easy to absorb oil, therefore is easy to clean. The container has good stability and heat resistance under the high temperature of microwave heating, ensuring the vacuum tightness of each time of use. Safe for oven and dish-washing machine. The vacuum container could be disassembled to each single part for through cleaning and then be easily reassembled.

E-mail:464766930@qq.com

设计师 Designer:

谭鉴平 Ivan Tan  
邝家俊 Gary Kwong  
戎熙华 Joe Rong

MUCH系列硅胶厨具包含中式铲、密铲、漏铲、汤勺、密更、漏更、捞篱和意粉爪8款大厨具，适合中西餐烹饪风格。分件撞色设计，满足用户的个性化需求。在简约的基础上，用秩序的线条丰富主体，恰到好处的电镀件加以点缀，塑造产品内敛而优雅的气质；在使用上，也为用户带来惊喜且优秀的握持感受。

硅胶材质耐高温，环保安全，柔韧不伤锅，让三餐远离涂层剥落，延长锅具寿命，即使在爆炒时也能保持静音。尼龙手柄轻质耐热，手柄截面设计更贴合人手曲线。强度更高的尼龙内芯让用户可以放心进行按压食物等各种重度操作。

独特纹理设计让手柄即使有油污与水分，也能时刻保持舒适防滑，翻炒和盛汤更加安心自如。手柄与功能头的撞色搭配，在减轻整体重量且不牺牲功能性的同时，较一体硅胶厨具配色方案更丰富，可以根据流行色趋势快速迭代。

The MUCH series of silicone kitchen utensils includes 8 large kitchen utensils: wok turner, turner, slotted turner, ladle, spoon, slotted spoon, strainer, and spaghetti server, which are suitable for Chinese and Western cooking styles. The color-contrast design is divided into pieces to meet the individual needs of users. Based on simplicity, the main body is enriched with orderly lines and embellished with just the right electroplating parts to create a restrained and elegant temperament of the product; in use, it also brings surprises and excellent grip to users.

Silicone material is heat-resistant, environmentally friendly and non-stick safe, keeping the food away from the coating peeling, prolonging the life of the pot, and keeping silent even when stir-frying. The nylon handle is light and heat-resistant, and the handle section is designed to better fit the curve of the human hand. The stronger nylon inner core allows users to perform various heavy operations such as pressing food with confidence.

The unique texture design keeps the handle non-slip even if there is oil and moisture, making it more comfortable to stir-fry and serve soup. The contrasting color matching of the handle and functional head reduces the overall weight without sacrificing functionality, and is richer than the one-piece silicone kitchen utensils color scheme, which can be quickly iterated according to popular color trends.

双层无光反应釉与简约浮雕器型结合，莫兰迪色系撞色搭配的层次感，仿佛是秋日午后的缩影，给人一种秋日独有的温暖。

当下流行的无光反应釉与规矩竖线器型的结合，自然而大方，没有突兀的视觉效果只有安静的舒适感。

运用细腻有质感的无光反应釉，搭配竖线浮雕器型，立体竖条纹勾勒出精致的器型特质，增加视觉层次感。运用流行的莫兰迪色系，色彩像被暖阳照射着，每处细节都是充满意境。

The combination of double-layer matt reactive glaze and simple relief shape and the layered feeling of Morandi color matching with contrast colors, make it the epitome of an autumn afternoon, giving people a unique warmth of autumn.

The combination of the current popular matt glaze and the regular vertical design make it look natural and elegant. There is no abrupt visual effect, only quiet comfort.

The fine matt glaze, vertical line relief and vivid vertical lines outline its delicate quality and enhance visual effect. It uses popular Morandi colors, which seem to be bathed in the warm sun. Every detail is full of artistic atmosphere.

PP椅背做成中间宽，两头窄的形状。呈椭圆形状可有力支撑背部；扶手处高度与坐下时手肘放置相适宜，利于平时休闲放松。

椅背倾斜角度经过反复测量，符合人体工学理念，在倚靠时可贴合曲线，注重健康和舒适感。实木多层坐板与椅背做拼接处理，使用天然清漆作为保护，保留其实木的原有纹理，镂空处便于椅子在空间里的移动。

软包设计增强舒适感，棉麻的亲肤面料可改变颜色，便于搭配。椅腿使用金属材质，椅腿之间增加横杆，加强稳定性。

The PP chair back is made wide in the middle and narrow at both ends. The oval shape can strongly support the back. The height of the armrest is suitable for the elbow when sitting down to bring leisure and relaxation to users at ordinary times.

The tilt angle of the chair back is measured repeatedly, which conforms to the ergonomic concept and can fit the body curve when reclining. We pay attention to health and comfort. Solid wood multi-layer sitting plate and chair back join together. We also use natural varnish to protect it and retain the original grain of real wood. The hollow facilitates the chair to move smoothly.

The soft bag design enhances comfort. Cotton and linen are skin-friendly fabrics and can change color to easily match with other furniture. The legs of the chair are made of metal, and crossbars are added between the legs to enhance stability.

Bescok

Platinum silicone utensils

Bescok铂金硅胶厨具系列包含密铲、漏铲、密羹、漏羹、汤勺、搅拌勺、抹勺、抹刀和酱料刷，可完美胜任厨房任何烹饪需求。产品由手柄及件头组成，其中件头部分由铂金硅胶制成，使用不对称设计，适用于不同弧度大小的锅具，在不刮损锅具涂层的同时，更容易刮干净锅具内的残留物。

整个系列件头硅胶部分使用铂金硅胶，环保安全无味性能更突出，使用寿命长。产品利用结构，不涂胶可以通过拉力测试，长时间使用也不会有脱落问题；手柄装配简单，生产效率高。手柄为硅胶套设计，具有良好的抓握感、防滑、耐高温、防烫伤等性能。挂锅边设计；搁置锅边时，厨具不易滑落。手柄尾挂可电镀，可变色，更多CMF变化。

Bescok platinum silicone utensils series can be perfect for any kitchen cooking needs with its turner, slotted turner, spoon, slotted spoon, ladle, stirring spoon, spoonula, spatula, and basting brush. Each product consists of a handle and a head part, and the head part is made of platinum silicone that is designed asymmetrically and is suitable for pots with different radians. It is easier to scrape the residues in the pots without scratching the coating of pots.

The head of this series of utensils is covered by platinum silicone material that ensures the product does not turn yellow or deformed for long-term use. In addition, it features environmentally friendly, safe use, tasteless, and long service life.Products pass the tension test with no glue use due to the clever structure design, and may no peeling problems occur when used for a long time. In addition, the handle assembly is simple and thus beneficial to efficient production.

The handle is a silicone sleeve with good grip, anti-slip, high-temperature resistance, anti-scald and other properties.Pan hanging design. Kitchen utensils are not easy to slide into while sitting on the edge of the pot. The handle hanger can be electroplated into different colors and more CMF changes for your options.

谢欢 Joy

北极、雪白、冰川的颜色成为设计灵感的载体，磨砂质感的白色与质朴的亮光白结合，像是冰天雪地之间一股涌动的温柔，任由冰雪世界在光年之下静静地氤氲，诠释出极地白光的冷峻与绮丽。

手工自然的肌理取决于自然界的器之美，不夹杂任何工业化颜色的白，陶土中自然的矿物点，让纯净的白更具质朴自然，更融于自然。

白色系的配套餐具，白色之间追求一种简约的强烈的质感对比，突出材料和器物之美,更适合我们的工业化复制，无论家居氛围，还是用餐体验，都是一种完美的遇见。

The north pole, white and glacier are the source of design inspiration. The combination of frosted white and simple bright white is like a surging tender flow in the snow world. The snow world bathes quietly in the light years and interpret the coldness and beauty of the polar white light.

The handmade natural texture depends on the beauty of natural utensils, without any industrialized color. The natural mineral points in the clay make the pure white more simple and natural, and more integrated with nature.

The white tableware set pursues a simple and strong texture contrast, highlights the beauty of materials and utensils, and is more suitable for our industrial reproduction. It is perfect to be placed at home or used for dining.

董晶晶 Jade

智能音响饮水机是专为年轻的追求时尚潮玩的养宠物人群设计的一款饮水机。透明水箱设计，底部加入了优雅的光效，光影随水波律动，拥有别具一格的视觉效果。塑胶件中添加纳米抗菌银，有效减少细菌。静音水泵，噪音降低至人耳听到声音的最低值。

水箱底部加入了优雅的光效，光影随水波律动，拥有别具一格的视觉效果。既是猫咪家居用品也是家里的时尚艺术摆件。晚上还可当做小夜灯使用。桶身内部的塑胶件中添加纳米抗菌银，有效减少细菌。顶部的火山口造型，在突然断电的时候可以缓存一部分水供宠物咪饮用。

底座设置电源按键和功能按键，可以控制连续出水 and 间隔出水。底座灯光不同颜色显示不同状态。正常情况下，白灯常亮，水位过低时白灯闪烁提醒加水，亮红灯时提醒更换滤芯。若不喜欢常亮白色灯效可以选择关闭，但不影响缺水和更换滤芯的状态提醒。充电线在底座，桶座分离，接水通电更安全。通过灯光及时提醒主人水质状态，呵护猫咪健康用水。突然断电的情况下依然能够保证猫咪有水可喝。

The music fountain smart waterer is a water dispenser designed for young pet owners who love fashionable and trendy things. This product has a transparent water tank, which combines elegant water wave light effect from the bottom to present a unique visual effect. The plastic parts contain nano antibacterial silver that can effectively reduce bacteria. The silent water pump helps minimize the working noise of product.

The elegant water wave light effect coming from the bottom of the product presents a unique visual effect, making it also a fashionable decoration. It can also be used as a night light. The plastic parts used in the tank contain nano antibacterial silver that can effectively reduce bacteria. The crater-shaped top of the product ensures the pet can still get some reserve water when there is a sudden power failure.

The base has a power button and function buttons for switching between continuous and interval dispensing. Different light effects coming from the base indicate different working states, including constant white light (normal working state), flashing white light (water level too low) and red light (filter element to be replaced). If you don't like the always-on white light, you can turn it off. However, the other two light effects can still be activated when necessary. The charging cable is in the base which can be separated from the water tank for electrically safe water-filling. The product uses light effects to remind the owner of water quality, ensuring healthy water supply for the pet. In the case of a sudden power failure, the pet can still get some reserved water from the top of the tank.

这是一款在潮湿、下雨的地方轻松烘干鞋子并抑制鞋子细菌生长的干鞋器。产品外观简洁大方，圆润且富有亲和力，适合在任何环境下使用。此干鞋器整体小巧玲珑，可方便携带外出。可用于干鞋，暖手，烘袜子，烘手套。

当你使用时支撑板可以90°翻开，并支撑机身，烘鞋更加灵巧。支撑板内为电线收纳盒，可将电线收纳进去。U型管头设计可以同时烘干两双鞋子。

This is a shoe dryer that can easily dry shoes in wet and rainy places and inhibit bacterial growth. Its appearance is simple, mellow, and amicable. It is suitable for any environment. When in use, the support plate supports the body, which is convenient for shoe drying. Inside the support plate, there is space for power cord storage. This product gives users a better experience in terms of structure, appearance and cost. Any type of shoes can be dried. Gloves, high boots, shoes, socks, sneakers, etc. It is also a little heating fan.

When you use it, the support plate can be opened at 90° and supports the body, making the drying of shoes more flexible. Inside the support plate, there is a wire storage box, which can be used to store wires in it. The U-shaped tube head design can dry two pairs of shoes at the same time.

The international market is paying more and more attention to environmental protection products, and the demand for environmental protection products is also increasing. The addition of degradable wheat straw reduces the use of PP, which is in line with the international consumption concept. The wheat straw particles that can be clearly seen on the surface of the hanger, the appearance also has a rustic and original feel. The concept of degradable straw is also introduced into the packaging design, so that consumers can clearly realize what kind of positive impact of their purchasing behavior will cause on our environment, so as to achieve the purpose of promoting consumption.

The product is used for drying and storage of clothes, suitable for ordinary clothes, suspenders, underwear, etc. The flat design reduces the cost of packaging and transportation, and is more conducive to saving the space occupied by the wardrobe.

The product discards the structural shape that will increase the material as much as possible, and uses the thin and narrow design to make the hanger flat and light with a stable structure.

The shoulder U-shaped groove anti-slip belt adopts the same mold one-time injection molding process, which increases the friction and resistance of the hanger, to make sure the clothes are not easy to slip off. The large groove design can also facilitate the drying of suspenders, vests, underwear and other clothes.

The frame line of the hanger adopts an inverted triangle design, and structure made as the outer thick and the inner thin was enhances the load-bearing and is not easy to deform.

本产品用于衣物晾晒收纳，添加可降解原材料小麦秸秆，减少了PP的使用，符合国际消费理念。在衣架表面可以清晰看到的小麦秸秆颗粒，使该款衣架符合环保理念的同时，外观也带有质朴的原始感。产品尽可能抛弃会增加材料的结构造型，利用主体材料的薄窄变化，在结构稳固的情况下使衣架扁平、轻便。扁平的设计减少包装运输成本，使用时更有利于节省对衣柜的占用空间。

肩部U型凹槽防滑带采取同模一次性注压成型工艺，增加衣架的摩擦力和阻力，衣物不易滑落。防滑带增加大凹槽设计，方便吊带、背心、内衣等衣物的晾晒。衣架框架线条采用的是倒三角设计，外厚内薄的结构增强承重且不易变形。

复古唱片机猫厕所专为城市年轻铲屎官们设计的集收纳与除臭为一体的复古新风猫厕所。唱片机样式的造型为铲屎官们增添铲砂的趣玩体验，为家庭增添时尚环境。唱片碟下面隐藏收纳空间，放置除味模块、猫砂铲和拾便袋。入口处防漏沙设计，将猫爪携带的猫砂抖落在箱子内，同时您也可以方便拆卸清洁。

市场上的猫砂盆大多为简单无情感化的几何设计，我们在简约的设计基础上增添了情感化的设计体验，赋予猫砂盆怀旧感的唱片机意向，同时增加了时尚的元素，让铲砂的过程充满了趣味体验，这也符合年轻人追求时尚趣玩的性格。

这款猫砂盆上盖内置收纳盒放置猫砂铲，垃圾袋，除味器。铲砂前将上盖打开，拿出猫砂铲和垃圾袋。内部有放除臭剂和干燥剂的空间，能够延长猫砂的使用时间，减少异味对空气的影响。螺旋入口为猫咪提供弱光、透气且安静的隐私空间，猫咪可以放松的上厕所。

It is a vintage yet stylish cat litter box integrating storage and deodorization specifically for young cat lovers in the city. Resembling the vintage look of an old record player, it adds fun to cleaning cat litter and a fashionable element for the cat lover's home. Hidden under the "disc" is a storage space for deodorant, litter scoop and poop bag. The entrance of the box adopts a leak-proof design, allowing the cat to shake off litter into the box when entering and exiting, and facilitating the owner to disassemble and clean the box.

Given that most cat litter boxes in the market just adopt simple and lifeless geometric designs, we decided to add some interesting design elements into the product without increasing functional complexity. As a result, we launch this cat litter box with the appearance of an old-fashioned record player, so as to add fun to cleaning cat litter and a fashionable element for the cat lover's home. We believe that this product will be welcomed by young cat lovers in pursuit of fashion and fun.

Under the upper lid is a built-in storage box for litter scoop, litter bag and deodorizer. The box has a built-in storage space in which you can put deodorant and desiccant to extend the life of cat litter and reduce possible odors. The spiral entrance ensures that the cat can get a softly luminated, ventilated, quiet and private space to relieve itself.

设计师将俯瞰下的岛屿用一种极为现代的方式抽象地表现在餐具上。用丰富且大胆的配色搭配一叶岛屿的形状，让人不禁联想到这是一座独自伫立在海中央的自然岛屿，充满着自然，未经人工污染，这是大自然留给我们的宝贵礼物。

将岛屿的图案创造性的运用在餐具中，为餐具注入了自然之美。通过大自然图案的运用，旨在在于在餐桌上呼吁人们关注自然资源，保护自然资源，实现人与自然的和谐发展。

这套陶瓷餐具严格选用符合严格安全标准的色釉制作而成。公司已通过ISO9001质量管理体系、ISO14001环境管理体系、OHSAS18001职业健康安全管理体系等国际组织体系管理标准。

The designer abstracted the overlooked island on the tableware in a very modern way. Using a rich and bold color scheme with the shape of an island, it is reminiscent of a natural island alone in the middle of the sea. It is not artificially polluted, which is a precious gift from nature to us.

The island pattern is creatively used in the tableware, injecting the beauty of nature into the tableware. Through the use of natural patterns, it aims to call people's attention to natural resources on the dining table, protect natural resources, and achieve the harmonious development of man and nature.

This set of ceramic tableware is made with strict selection of coloured glazes that meet strict safety standards. Our company have passed ISO9001 quality managing system, ISO14001 environment managing system, OHSAS18001 Occupational Health and Safety managing system are the most widely used international standards of the organization system management.

此款灯饰是利用中国建筑里马鞍墙为设计元素，通过顶部悬挂的方式将，将每个马鞍墙造型的雕刻木片悬挂在一起，形成一个灯罩的形状，让整个灯饰保留中国文化韵味的同时，又不失设计感。

此款灯饰的主要功能是照明和装饰家居的作用。它可以让使用的空间充满中国文化韵味以及设计感。

此款灯饰的灯罩部分，我们采用的是顶部龙骨与挂片相结合的模式，营造出一个立体的灯罩。让马鞍墙的元素融入到整个产品中，做到既能照明又具有装饰性和文化韵味。

This lamp uses the saddle wall in Chinese architecture as a design element. Each carved piece of wood in the shape of a saddle wall is suspended together by a top hanging to form a lampshade. The whole lighting retains the charm of Chinese culture without losing the sense of design.

The main function of this lamp is to illuminate and decorate the home. It can add the charm of the Chinese culture and the sense of design to the space.

For the lampshade part of this lamp, we use the combination of the top keel and hanging pieces to create a 3D lampshade. The element of the saddle wall is integrated into the whole product, so that it can not only illuminate but also have decorative and cultural value.

#### 设计师 Designer:

金岚 Lambo

傅鑫鹏 Hugh

产品整体设计以哈尔斯原创IP爱斯少年为原型，宇航员外形设计。杯身底座可以连接小程序，进行个性化饮水提醒设置，通过灯光闪烁，定时提醒宝宝喝水，让宝宝爱上喝水、高频喝水。可设置多种灯效及灯光颜色。一杯多用，配有专属钛碗，可使用无线充电台为钛碗中的饮品保持恒温。

杯子接触饮品的金属全部采用航天级纯钛材质，无重金属析出。钛是一种健康、稳定且无毒的元素，具有轻盈、结实、抗强酸强碱、抗腐蚀、耐高低温、抗菌抑菌、天然保鲜、寿命持久等特性，比不锈钢轻43%。它是“亲生物金属”。

杯身双层真空，保温保冷。盖子装有安全童锁，滑动按键式开关，缓冲排气十分安全。防喷溅食品级硅胶吸管，啃咬不变形，防止热水喷溅。配套杯套便于携带。

Modeled after the teenage astronaut Ace, an original Haers creation, this titanium bottle is designed for kids. When pair it with a WeChat app, you can set this bottle to remind your children to drink water periodically with blinking lights. It offers multiple blinking patterns and light colors. You can pick a favorite for your kids. It also includes a wireless titanium warming cup and power base (can be used as a Qi compatible wireless charger) to warm drinks.

The entire body of the bottle is made from Grade-1 pure titanium and is completely free of heavy metals. Considered the most biocompatible metal, TA1 is chemically stable and non-toxic, making it ideal for drinkware. It is also extremely tough and lightweight. This bottle's body is 43% lighter than an equivalent stainless steel one while being at least as durable and deliver better corrosion resistance.

This bottle is vacuum insulated, which guarantees excellent temperature retention and makes it safe to touch when filled with hot drinks. Its cap is equipped with a child safety lock to prevent mistaken opening. The silicone straw will not deform by children's biting and will not spray hot liquids under steam pressure. The bottle also comes with a carrying sleeve which protects the bottle from impacts and makes it easier to carry.

本产品的设计概念来源于生机勃勃的树木，Y的造型为主体，地下覆盖着肥沃的土地。在繁忙紧张的生活，需要低碳绿化的生活用品来舒缓。希望森林配套红酒杯架 产品的造型元素源于树芽的形态演变而成，简单大方的主杆造型，精致别雅的小绿叶，配上稳重夺目的双色效果，亮光珍珠质感的环保材料，使产品尽显时尚、情趣、环保气息。

The design concept of the disc rack comes from the vibrant trees. The shape of “Y” is the main body, and the underground is covered with fertile land. In today's busy and weary life, people need low-carbon daily necessities to relieve the stress. The whole product is committed to promoting the awareness of environmental protection and greening, and is user friendly. The role of “Y” shape is to support the plate.

Forest of hope supporting red wine cup holder.  
The modeling elements of the product are evolved from the form of tree buds. A simple and generous main rod modeling, exquisite and elegant small green leaves, coupled with steady and eye-catching two-color effect and bright pearl texture environmental protection materials, make the product stylish, fun and environmental friendly.

黑色，是象征奢华和力量的典型色彩，用它与生俱来的低调和优雅，为任何设计添加独特的味道，于是取黑色为主色调，通过特殊工艺形成亮亚效果产生强烈的视觉冲击人性化的设计。

以传统手工辅之制坯成型，保留原始的天然美也在成型过程中拿捏有度，每一个都是独一无二的。

强化瓷质地坚硬，厚实的质感中卷入一股怡然自得的生活感，使人心旷神怡。

灵感来源于大自然，简洁器形上凹凸的质感，一种舒适的触觉体验，并展现出独特的现代欧式风格。

寓意营造出一种天人合一的气氛，将使用者带进这种自然的情境中来调节着人们的心情，给现代人带来健康的生活体验。

Black is a typical color symbolizing luxury and power. With its inherent low-key and elegance, it adds a unique flavor to any design. Therefore, it takes black as the main tone, forms a bright sub effect through special technology, and produces a strong visual impact and a humanized design.

With the traditional hand-made blank forming, the original natural beauty is retained, and each one is unique. Strengthen the hard and thick texture of porcelain, and get involved in a sense of happy life, which makes people relaxed and merry.

Inspired by nature, it is simple, concave and convex in shape, a comfortable tactile experience, which shows a unique modern European style.

The implication is to create an atmosphere of unity for heaven and earth, bring the users into a natural touch to regulate people's mood and healthy life experience.

Web:www.guideir.cn

### 设计师 Designer:

成磊 Lei Cheng

主要用于对夜间目标的观测，采用高灵敏度氧化钒非制冷探测器，搭配1024x768高清OLED屏幕，提供清晰流畅的红外图像及视频，同时具备激光测距功能，能在600m内进行±1m精准定位。外观采用双筒设计，更接近白光望远镜的造型使产品更具亲和力。调焦结构上采用了滚轮带动探测器移动的创新形式。两个目镜间距可以调节适应不同人群。电池采用快拆的电池夹设计。具备WIFI连接APP实现远程操控，实时传输图片、视频。

该产品可在完全无光的夜间环境下快速搜索目标，主要应用于警用执法、夜间巡逻、应急搜救、户外夜视等。可识别与定位隐藏在黑夜丛林中的犯罪嫌疑人，辅助警方搜捕侦查；可突破黑夜视野限制，对监控范围内闯入者、船只进行监控及定位，辅助执法人员及时制止非法入侵者，提高夜间治安防范能力；可观测热源目标，帮助救援者搜寻被困/失踪人员等；可在夜间进行户外运动时，观察周边情况，确保自身安全。

这款造型与白光望远镜类似的红外热成像望远镜具有更好的握持感和操作性。整体采用双筒几何造型按链区域与镜筒采用线条连接，按键根据手指长短呈“X”造型，提升了品质感和易用性。硅胶logo及铝合金冲压成型的标牌和镜头及调焦轮处增加红色装饰圈提升了产品的PI形象。镜筒外围采用TPU软橡胶双色注塑，表面有凹凸的皮纹，握持更加舒适。本产品除与光学相关的精密件外均通过专业模具生产提高了材料的利用率保证了产品一致性。

This is a thermal imaging telescope, which is mainly used for the observation of night targets, featuring the high sensitivity vanadium oxide uncooled detector and a 1024x768 HD OLED screen. It provides clear and smooth infrared images and video. Its laser-ranging function supports  $\pm 1\text{m}$  accurate positioning within 600m. It and the white light camera have a similar appearance, which makes it more approachable. There is an innovative roller-driven detector movement in the focusing structure. Eyepieces can be adjusted to suit the eye spacing of different people. The battery is designed with a quick-release battery clip for quick replacement. Equipped with a WIFI connection APP, which meets the needs of taking images and videos and real-time transmission.

TN Handheld Thermal Binoculars can quickly search for targets in total darkness, and mainly used for law enforcement, night patrol, search and rescue, night vision, etc. It can identify and locate criminal suspects hidden in the woods at night and assist the police to search and investigate; it can, without the vision limitation, monitor and locate intruders and ships within the range, and assist law enforcement officers to stop illegal intruders in time, improving the public security; it can capture the heat source and help rescuers find trapped/missing persons; it can be used to observe the surroundings to ensure the personal safety when people do outdoor activities at night.

It is a multifunctional thermal imaging telescope with a white light telescope shape, which provides a better grip, and is easier to handle. It has a double-barrel with smooth lines connecting the button area to the barrel. The buttons are arranged in an "X" shape according to the length of the fingers, which adds texture and ease of use. In addition to the silicone logo plate and the stamped aluminum plate, a red ring has been added to the lens and the focus wheel to enhance the PI image of the product. With the TPU injection molding, the periphery of the barrel has a dimpled leather surface for additional comfort. All parts, excluding optics-related precision ones of this product, are offered by molding manufacturers, which promotes the utilization of materials and achieves product consistency.

Philips Alpha-VP-5HW smart door lock integrates peephole, doorbell and door lock. It adopts a 2MP wide-angle camera and supports Wi-Fi networking. It allows you to view the doorway via the app anytime and helps you enjoy an intelligent life.

There is a 4-inch IPS display on the indoor escutcheon. You can click the button of the display to view the visitors and the situation at the doorway. Re-click the button and you can turn off the display. It is convenient for the elderly and children. Additionally, you can adjust the brightness and sleep mode timeouts of the screen via the mobile app.

The whole product series is equipped with considerate user-friendly multi-function settings to optimize the collection of raw materials and quality control.

飞利浦Alpha-VP-5HW可视智能锁集猫眼、门铃、门锁于一体，搭配200万像素广角摄像头，同时支持Wi-Fi联网，通过手机APP即可远程查看门前动态，让您的家门安全随时随地“看得见”，全面开启智能生活。

室内面板上设有4寸IPS显示屏，点击显示屏上的按钮即可查看来访客人及门外情况，再次点击按钮即可关闭显示屏，方便老人小孩使用，还可通过手机APP调节显示屏的亮度与亮屏时间。

全产品系列配备，贴心的人性化多功能设置，优化产品原料采集及品质把控。

张荐 Jian Zhang

本产品采用无刷电机，搭载了我司双20V锂电平台，配备恒速的电子功能，强劲高效，且其最大切割速度达到14m/s，媲美交流链锯。

本产品在辅助手柄处设计了特殊的减震系统，可以有效减少使用者的操作疲劳，同时该产品也采用了自动泵油系统，该系统可以在机器运作过程中自动向导板泵油，免去了其他链锯手动加油的麻烦，更加便利。

本产品具备0.1s安全刹车专利功能以及断电重启保护功能，有效防止意外情况的发生。

This product adopts a brushless motor. Equipped with our company's dual-20V lithium technology and constant speed electronic function. It is powerful and efficient. Its maximum cutting speed can be up to 14m/s, as efficient as AC chain saw.

This product adopts a special shock absorption system at the auxiliary handle, which can effectively reduce the user's operation fatigue. At the same time, the product also adopts an automatic oil pumping system, which can automatically pump oil to the guide plate during the operation and is more convenient.

This product has the safety brake patented function (0.1s) and power-off protection function and can effectively prevent accidents.

周星余 Xingyu Zhou

产品采用星宇独有技术生产的Adamas防切割PE丝，提高产品防切性能的同时，摒弃了传统防切割纱线中的玻纤和钢丝，更加舒适不刺激。浸胶采用热敏技术，纯天然乳胶，不含化学添加剂，更加环保。

产品可广泛用于机械制造、薄片搬运、裁切加工、警用等需要防切割、防滑的工作。

新型防切割材料，国家专利技术，防割性能稳定，可水洗重复使用；不含玻纤、金属丝，避免了皮肤刺痒，手感偏硬等缺点；人体工程学手模设计，贴顺手部自然弧度，舒适抗疲劳；纯天然乳胶涂层，物理压纹，耐用防滑

The product adopts Adamas anti-cutting PE yarn produced by Xingyu's unique technology, which improves the anti-cutting performance of the product. Besides, it replaces the glass fiber and steel wire in the traditional anti-cutting yarn, so it is more comfortable and less stimulating. Its gum dipping adopts the heat-sensitive technology and pure natural latex without chemical additives, so it is more environmentally friendly.

The product can be widely used in machinery manufacturing, sheet handling, cutting processing, police work and other work requiring anti-cutting and anti-skid function.

This new anti-cutting material has obtain a national patent. It features stable anti-cutting performance and can be washed and reused. No glass fiber or metal wire is contained to avoid skin irritation and hard hand feeling. The ergonomic hand mold design enables it to fit the natural arc of the hand. It is comfortable and won't cause hand fatigue. The pure natural latex coating and physical embossing make it durable and anti-slip.

该商品完美地将工具箱和踏凳结合为一体，能够当工具箱使用，也能当踏凳踩踏使用。  
日常DIY工作中，当想要在墙上挂画时，或者需要外出做简单修理工作时，人们经常会同时需用到工具箱和一个有登高功能的梯子。这款产品创新性地融合了工具箱和踏凳的两种功能，让DIY变得更简便。  
产品克服了塑料工具箱承重不足的痛点，并且符合欧标。

This product perfectly combines the tool box and the step stool. It can be used as a tool box and a step stool at the same time.

In daily work, when people want to hang pictures on the wall, or need to go out to do simple repair work, people often need both a tool box and a ladder which they can climb on. This product innovatively combines the two functions of a tool box and a step stool, making DIY easier.

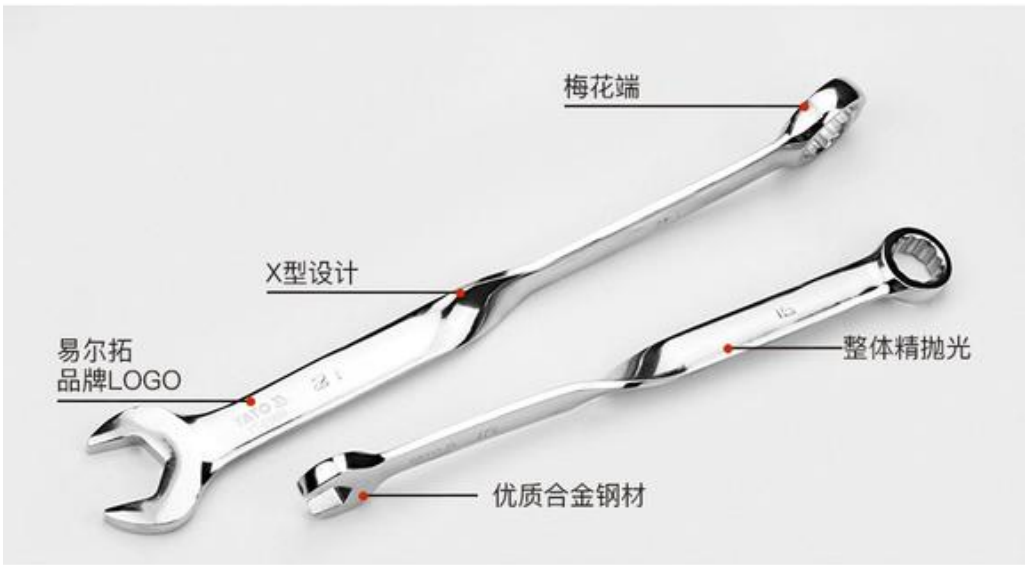

The innovative combination of the tool box and the step stool overcomes the pain point of insufficient load-bearing of plastic tool box, and the product complies with European standards.

设计师 Designer:  
MR LEE

独特的X手柄设计：操作时手与扳手的接触面积增加5倍（与传统扳手相比）；转角较小：可用于只有较小摆角的地方（只需转过扳手1/2的转角），且接触面大，可用于强力拧紧。  
扳手是常见的安装与拆卸工具，使用简单，价格也低，但劳动强度大。近几年开始流行电动扳手，主要是省力，但价格高，携带不方便。我们新创的X柄扳手使传统工具回归初心，简单而又能受力。  
更适合在狭小空间使用，省力耐用，光滑不膈手，给传统的扳手带来新的启发和思考。

The unique X-handle design increases the contact area between the hand and the wrench by 5 times (compared with the traditional wrench). Small operation angle design enables it to be used in places where only small operation angles are needed (only need to turn 1/2 of the angle range of the wrench). With the large contact surface, so it can be used for strong tightening.

The wrench is a common installation and removal tool. It is simple to use and low in price, but labor-intensive. In recent years, the electric wrench has become popular. It is labor-saving, but it is expensive and inconvenient to carry around. Our new X-handle wrench brings a traditional tool back to its original purpose, simple and powerful.

It is more suitable for small spaces, labor-saving, durable and comfortable to use. And it brings new inspiration and thinking to the traditional wrench.

## 锂电泳池清洁器PCT403T DC POOL VACUUM CLEANER PCT403T

### 设计师 Designer:

徐海良 Jesse

本产品是一款无线可充电泳池清洁器，由锂电池供电，不需要软管或电线，更便携。这是一款18V的水池清洁器，一次充满电（耗时90分钟）后可以持续使用60分钟，产品重量只有3kg。适用于各类水池垃圾吸附和清洁，水池水位高度3-4m均可使用，清洁能力出色，泥沙，碎片，细树枝以及藻类都可以吸附。

由吸污盘（硬板刷高效清洁泳池死角）+网袋粗过滤和细过滤+中间的大腔体+有开关和充电接口的电机部分+手柄组成。壳体有止逆阀设计，当泵从水中拿起来，里面的水会被排出。所以使用中不会很重。伸缩管是选配,可以匹配伸缩管来使用达到清洁效果。

这款锂电泳池清洁器专为无电水应用目的而设计。可用于家用游泳池、热水浴缸、水疗中心等地的快速清洁。

This DC Pool Vacuum Cleaner is a cordless and rechargeable pool-cleaner powered by lithium battery. There is no hose or cord needed, so it is much more portable. With a built-in rechargeable battery 18V/2000mAh, one charge takes 90mins and can run up to 1 hour. And it has light weight, only 3kg. In addition, it 's suitable for removing all kinds of dirt like sand &silt and debris,also leaves, twigs, and dead

It is composed by a Vacuum head(robust scrub brush helps to reach all dirty areas of pool) + two filter bags (for coarse or fine filtration)+a large chamber in the middle +a motor box with on/off switch and charging port + a handle. On the main body, there is a side drainage system, water will constantly come out from the holes during suction. So It won 't get heavier during working. Telescopic tube is optional, which can be matched to achieve cleaning effect.

This DC Pool Vacuum Cleaner is designed for no electricity water application. It can be used for quick cleaning in swimming pools, hot tubs, spa centers and so on.

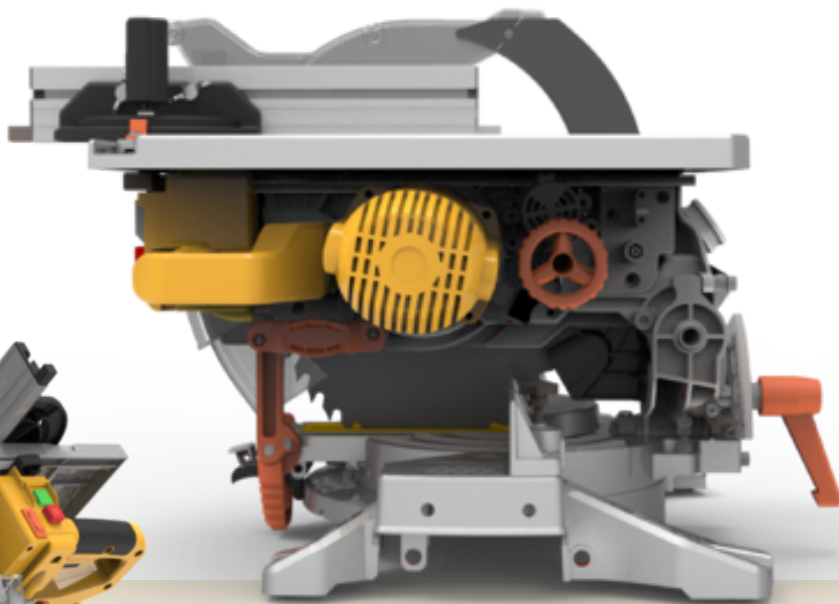

台/斜切两用复合式切割机J1X-KZ21-210  
TABLE/BEVEL COMBINATION CUTTING MACHINE J1X-KZ21-210

Tel:+86-13857955255  
E-mail:ljf@cyc.cn

设计师 Designer:

申屠亮 Tuliang Shen

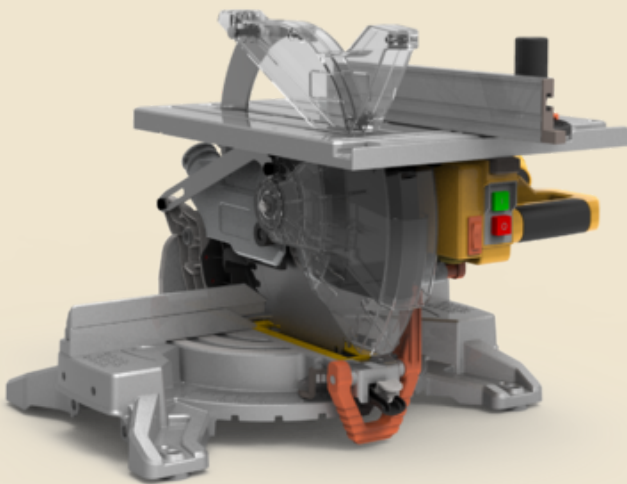

型号：J1X-KZ21-210  
电压：220~240V/50Hz  
功率：1800W  
锯片直径：210mm  
空载转速：5000rpm  
台锯切割高度：70mm  
切割机模式切割参数：  
0°×90°(高/宽)：55×120mm  
45°×90°(高/宽)：55×80mm  
0°×45°(高/宽)：30×120mm  
45°×45°(高/宽)：30×80mm

斜切和台切一体化，多功能结构设计，将单一的切割机多功能化，以适应更加复杂的工作环境，更加环保和高效。斜切和台切可以利用拔销和按钮调整锯片的位置进行转换，便捷有效，按钮式的调整，更加安全和便利。

切割能力大，便携紧凑，使用方便，经济，防护安全，结构可靠简单，清洁。

Model name: J1X-KZ21-210  
Voltage/frequency: 220~240V/50Hz  
Power: 1800W  
Blade diameter: 210mm  
No load speed: 5000rpm  
Table saw cutting height : 70mm  
Max cutting capacity:  
0°×90°(height/width) : 55×120mm  
45°×90°(height/width) : 55×80mm  
0°×45°(height/width) : 30×120mm  
45°×45°(height/width) : 30×80mm

It integrates chamfering and table cutting. With a multi-functional structure design, it can offer many functions and adapt to more complex working environment. It is more environment-friendly and efficient. Diagonal cutting and table cutting can be converted to each other by using the latch and button to adjust the position of the saw blade. It is convenient and effective. The push-button adjustment design makes it more safety and convenience.

It has excellent cutting capacity. And it is portable and compact, easy to use, economical, safe, reliable and easy to clean.

## 头灯H35 HEADLAMP H35

H35是一款USB直充铝合金便携头灯，它是聚光、泛光、红光于一体的头灯。可以让使用者在不同环境中随时切换不同照明模式。采用了带有防滑胶防过敏头带让用户佩戴头部舒适不易滑落，也可以配安全帽扣让作业更加便利。

聚光照明模式：长按开关A 1.2S通电 - 强光 - 高亮 - 中亮 - 低亮 - 长按开关1.2S关闭；

泛光照明模式：长按开关B 1.2S通电 - 强光- 高亮 - 中亮 - 低亮 - 长按开关1.2S关闭；

红光及红光闪烁模式：轻按泛光模式的开关，红灯亮，再按红灯闪烁，再按关闭。

红色是标志灯，适用于户外运动，以及电力、铁路等重工业范围。

H35 is a USB rechargeable aluminum alloy portable headlamp. It has three modes: spotlight, floodlight and red light. Users can switch among different lighting modes at any time in different environments. The headlamp adopts an anti-allergic headband with anti-slip rubber, which makes the user more comfortable and it is not easy to slip off. It can also be equipped with a safety helmet buckle to make the work more convenient.

Spotlight mode: long press switch A for 1.2S to turn on - strong light - high light - medium light - low light - long press switch A for 1.2S to turn off.

Floodlight mode: long press switch B for 1.2S to turn on - strong light - high light - medium light - low light - long press switch B for 1.2S to turn off;

Red light and red light flashing mode: press the switch Floodlight mode, turn on the red light. Press again to turn it off.

Red is the signature lamp, which works for outdoor sports, and heavy industries such as electric power, railway etc.

## 智能锂电大扭力电枪钻/冲击钻BLMD-293JS/JST SMART CORDLESS DRILL/IMPACT DRILL BLMD-293JS/JST

### 设计师 Designer:

乐乔威 Qiaowei Le

此款产品整体采用一体化设计。从电动工具美学，人机工程学和安全等要素出发，外观设计上充分展现现代设计思维。大扭力输出使产品拥有强劲冲击力，25+1档扭力调节，防反冲功能防止扭伤，一机多用功能，包括起拧螺钉模式、钻孔模式、冲击钻孔模式。材质上，产品采用可回收重复利用的环保材质；设计理念上采用“以用户为中心的产品设计”。

采用可回收重复利用的环保材质，功能多样，携带方便，3种模式随意切换，满足多种使用场景。具有效率高、使用寿命长、振动小、易控制，能达到节能环保、降耗、减排的作用。

通过智能锂电管理系统，经过产品优化设计及制造流程合理设计后，进行订单式生产和配套服务，为客户提供锂电电动工具信息化和智能化技术。受众群体广泛，兼具组装、钻孔、墙面安装功能，家中安装、维修、拆卸、紧固、打孔等工作都能轻松解决。

This new intelligent lithium-ion high torque brushless gundrill/impact drill has an integrated design with 3 freely switchable modes. The product is equipped with a brushless permanent magnet motor and motor control software technology, with an impact gearbox for the industry-leading 150N.M high torque output, which gives the product a strong impact, 25+1 gears of torque adjustment, stepless variable speed switching, anti-backlash function and timely stop. The multi-use function includes screwing mode, drilling mode, impact drilling mode and rotary function adjustment ring that can be switched at any time to adapt to multiple applications. Aesthetically, the product quality is reflected in the clear curved edges of the product; the material is made of recyclable and reusable materials; "user-centred product design", the product is ergonomically designed with a non-slip soft-grip handle and auxiliary handle for effortless use and comfortable grip.

The product uses recyclable and reusable environmental protection materials, with a variety of functions. And it is easy to carry. There are 3 modes switch to meet a variety of use scenarios. It is a tool with high efficiency, long service life, small vibration, easy to control, and can achieve energy saving and environmental protection, consumption and emission reduction.

Through intelligent lithium management system technology, and after optimizing product design and manufacturing process, order production and supporting services can be provided. Wide audience, with assembly, drilling, wall mounting functions. It can be used for home installation, maintenance, disassembly, fastening, drilling and other work.

E-mail:109814553@qq.com  
Web:www.fashioonflying.cn

### 设计师 Designer:

缪建斌 Jianbin Miao

这款套头滑雪休闲服采用新型100%可生物降解面料。整件衣服采用传统的套头式做法，衣服采用侧缝开链穿法，为了在急速滑雪时防止冷风正面袭击，很好的保存身体的舒适温度，胸前设计了兜跟袋鼠袋，方便快速存放手套以及随身物品，袖口设计了钥匙跟滑雪票口袋，方便进入滑雪场使用。

该款滑雪服针对传统滑雪服在滑雪时高速转向时衣帽无法流畅跟随头部活动，导致出现头帽遮挡视角，颈部防护松动的问题，创新采用了连帽专用塑钢滑链。此滑链获得德国ISPO最佳辅料奖，主要功能是随着头部的旋转，帽子也会跟着头部左右转动，减少视觉盲区，提升安全性。领处安装了衣领气囊，吹气管藏在胸前袋内，在滑雪出发前吹好气，可以在第一时间保护好颈椎，让生命提升保障，平时休息时也可以当靠枕使用，一举两得。

环保且耐用：环保涤纶纱线，应用到更耐用的组织结构设计，延长产品生命周期，减少对环境的负担；拒水防护：在面料表面形成纳米级疏水层，产生荷叶效应。雨滴、雪花落到身上迅速划走，保持干爽舒适；Polygiene有效抗菌：采用来自瑞典的Polygiene抗菌助剂，具有抗菌功能；全天候防护：高性能防风防雨，达到25000mmH2O，轻松抵御极端天气，从容应对全天候；透湿防护：高性能透湿，就算极端环境下，也能保持内外干爽，始终关注人体微环境舒适性。用科技创造更美好的穿着体验，为可持续发展与实现碳中和目标而持续努力。

It uses technology to create a better wearing experience. It contributes to sustainable development and carbon neutrality. It is a must-have product for hiking and extremely cold weather, and also the best product for skiing. Basic style details. Side opening with zipper. Chest pocket. Kangaroo pocket and side pockets. Ski card pocket on lower left sleeve.

Styling highlight. Slide rail zipper. ISPO TexTrends Best Product winner. It is special for hood use. Its flexible rotation can reduce blind areas when the head turns around, thus ensuring safety. Inner neck air bag: Protect the neck and also can be used as a pillow when having a rest.

Shell fabric. 100% Biodegradable fabric with more durable yarn structure, extending the life cycle of the product and reducing the burden on the environment. Water repellent. With hydrophobic layer on fabric surface, raindrops and snowflakes are quickly wiped away, keeping the wearer dry and comfortable. Antibacterial. Polygiene additives from Sweden with anti-bacterial function. All-weather protection. Water resistance (25000mm), excellent wind-proof performance, and good water vapor penetration to enables the wearer to easily withstand extreme weather and create comfortable human micro-environment.

## 防水羊毛针织面料k997 K997

企业名称：嘉兴市元创纺织有限公司  
Corporate Name: JIAXING YUANCHUANG TEXTILE CO.,LTD.  
姚一婷 Yvette  
Tel:+86-18367357511  
E-mail:jxyuanchuang@163.com  
Web:yc-tex.cn

### 设计师 Designer:

姚一婷 Yvette Yao

羊毛混纺面料既有羊毛的悬垂性和光泽度，又兼具涤纶的挺括性，适合作为日常的穿着的男装面料。经过防水整理工艺，赋予织物防水性能，使水滴无法渗透至服装内部，保持干爽。在雨天可以做到暂时的防水效果，使人们出行时更加方便。本面料还兼具防油防尘的效果，在聚会、户外等场合难免会发生突发的泼水困扰，在突发情况下也可抵御污渍的影响。

虽然PFOA和 PFOS作为防水剂效果优良，但是研究表明这是持久性强、最难分解的有机污染物之一，能够通过多种日常渠道摄入生物体内，并很难被排出。本产品使用的防水整理剂为C6整理剂，不含有PFOA和PFOS，属于环保产品，符合国际标准，且能达到含氟防水剂的防水效果。

目前在纺织领域中，功能型面料的应用规模还不大，随着人们对衣食住行要求的提高，面料功能的多元化需求增加。在聚会、户外等场合难免会发生突发的泼水困扰，针对防水这一要求我司开发了一款防水羊毛混纺面料，使服装在突发情况下也可以抵御污渍，提高面料价值。防水这一要求在未来将会是一种长久的需求，拥有着很大的市场前景，本产品的开发可以推动防水等新型面料的发展，以满足消费者日益增长的要求。

With the gradual improvement of people's living standards, people's requirements for clothing are getting higher and higher. Wool blended fabric has both the drape and gloss of wool and the crisp of polyester, which is suitable for daily wear of men's clothing fabric. This fabric after the waterproof finishing agent finishing process, give the fabric a certain waterproof performance, so that the dripping water can not penetrate into the clothing, keep a certain dry. At the same time, the fabric also has the effect of anti-oil and dustproof, wearing can improve the sense of life experience.

Nowadays, people have higher and higher requirements for green environmental protection. Although PFOA and PFOS are excellent water-repellent agents, research and investigation have found that they are in fact one of the most persistent and most difficult organic pollutants to decompose. They can be absorbed into organisms through a variety of daily channels and are difficult to be discharged. The waterproof finishing agent used in this product is C6 finishing agent, which does not contain PFOA and PFOS. It belongs to environmental protection products and conforms to international standards. And can achieve the waterproof effect of fluorine waterproof agent, in environmental protection at the same time also has the corresponding function.

At present, the application scale of functional fabrics is not large in the textile field. With the improvement of people's requirements for clothing, food, housing and transportation, the diversification of fabric functions is urgently needed to be launched and developed. It is inevitable for parties and outdoor occasions to suffer from sudden water drops. In response to the requirement of waterproof, our company has developed a waterproof wool blended fabric, which is finished with C6 triple anti-finishing agent, so that the garment can resist the impact of stains in emergencies and improve the value of the fabric. Waterproofing will be a permanent requirement in the future. Waterproof fabric has a great market prospect, its development can promote the development of waterproof and other new fabrics, in order to meet the growing requirements of consumers.

E-mail:109814553@qq.com  
Web:www.fashioonflying.cn

### 设计师 Designer:

缪建斌 Jianbin Miao

这是一款登山运动员和登山者的最佳高山夹克，整件夹克使用了100%回收材料制成的三层软膜夹克。整件提供了最佳的防水15,000mm，防风和超高的透气5,000G/M<sup>2</sup>/24 Hr来保护身体。整件衣服使用了人体工程学的剪裁，充分配备和使用灵活的夹克支持在极度登山运动或休闲旅游时穿着。超高的衣领带有急速透气孔，在防止冷风进入同时供给登山运动员快速呼吸换气使用，领延伸到背部和头盔兼容的连帽，旨在提供额外寒风侵入保护。整件衣服设计了许多巧妙便捷的口袋，符合人体工程学的切割，便捷储存跟拿取物品。右肩处安装RECCO探测器，以提供先进的救援技术。

内里采用区域条状充棉设计，运动过热时，打开腋下透气链，可以快速促使新鲜空气流通，减少出汗造成身体不舒服，而遇到极冷的天气时，关闭衣服上所有的拉链，能快速保存体内的热量，防止寒风袭击身体。内填充物采用37.5<sup>TM</sup>保暖棉，利用体热蒸发湿气的专利技术来调整身体的温度，让你的体温处于37.5度的舒适范围，让你的体能也处于最佳状态。37.5度保暖棉纤维还拥有像干燥剂一样的功能，能提供一种独特的驱动力，把湿气驱走。

材料内含大量活性粒子，能快速利用人体的红外热能加速汗液的蒸发，从而大大提高干燥速率。这种功能在穿戴者体温升高时，祛除多余热湿气的驱动力就越强，保持体温恒定和体表干爽。

It's one of the best alpine jackets for mountaineers and climbers. The whole jacket uses a 3-layer fabric which is made from 100% recycled polyester. The fabric with taped seams delivers strong waterproof performance (15,000mm), windproof performance and high breathability (5000 G/M<sup>2</sup>/24 Hr) to protect the body. The whole garment is ergonomically cut, fully equipped and very flexible to support wearing during hiking as well as leisure travel. The extra-high collar with rapid vent holes can prevent cold winds while providing mountaineers with quick ventilation. The collar extends to the back and the helmet-compatible hood to provide additional windproof function. The whole garment is designed with many convenient pockets. Its ergonomic cut makes it easy to store and fetch items.

The lining adopts an area strip quilted padding design. When you feel too hot, you can open the underarm vent zipper to quickly speed up the circulation of fresh air, reduce sweating and make yourself comfortable. In case of extremely cold weather, you can close all the zippers on the jacket to quickly keep yourself warm and prevent the cold wind. The inner padding is made of 37.5<sup>TM</sup> insulation cotton, which uses the patented technology to evaporate moisture with body heat and adjust the temperature of the body, so that your body temperature keeps at 37.5° and your body in the best condition. The 37.5° insulation fiber also has the same function as desiccant, providing a unique driving force to drive away moisture.

The fiber contains a large number of active particles, which can quickly use the infrared heat energy of the human body to accelerate perspiration to pass out of the garment, keeping you cool. This function is the best alpine jacket for mountaineers and climbers. The higher the wearer's body temperature rises, the stronger the drive to remove excess heat and moisture, keeping the body temperature constant and the body surface dry.

陈英洪 Antony Chan

鞋面采用进口厚度为2mm头层牛皮和耐磨凯夫拉牛津网布相结合，具有防泼水、耐摩擦、耐曲折、透气；一体式橡胶防护鞋头，鞋垫采用Ortholite抗菌防臭鞋垫；鞋舌位置全新设计可充电式LED探照灯，一次充电可连续使用5-6个小时，适合丛林穿越、探险、救援等活动需要；侧边采用魔术扣与YKK拉链设计，穿脱更便捷；内嵌凯夫拉防刺穿中底，是户外行走遇到尖锐物的克星，以免伤到脚底，防护更全面。

为了便于在光线较暗的环境中行走，鞋舌位置全新设计可充电式LED探照灯，一次充电可连续使用5-6个小时，适合丛林穿越、探险、救援等活动需要。

侧边采用魔术扣与YKK拉链设计，穿脱更便捷。

The upper is made of imported cowhide with a thickness of 2mm and Kevlar mesh, which is water-repellent, friction-resistant, tortuous-resistant and breathable. One-piece rubber protective toe cap has a built-in ultra-light carbon fiber anti-smashing and anti-collision head, with a compressive strength of 20KN, to protect the toes. The lining is made of wear-resistant and breathable fabric. The insole is made of Ortholite antibacterial and deodorant insole, which prevents odor in feet during walking. Rechargeable LED searchlight, which can be used continuously for 5-6h per charge, is added on the shoe tongue. The side is designed with velcro and YKK zipper, which is more convenient to put on and take off. The Kevlar puncture-proof midsole is embedded to avoid the sole of the foot being injured.

In order to facilitate walking in a low light, the tongue position is newly designed with rechargeable LED searchlight, which can be used continuously for 5-6h per charge. It is suitable for activities such as jungle crossing, exploration, and rescue.

The side is designed with velcro and YKK zipper, which makes it more convenient to put on and take off.

## 全防水热压登山包TB3943-65L WELDED WATERPROOF TB3943-65L

### 设计师 Designer:

张强 Zach Zhang  
曹源 Evans Cao

全热压防水登山包是一款基于高频热压工艺设计制造的全新概念产品；主面料使用了TPU面料，在高温作用下通过溶解涂层将两块面料无缝粘合在一起，达到全防水的效果。

作为一款户外产品，该登山包本次在设计初就考虑加入了应急处理的概念，在腰带脱卸的腰包内配有户外应急药品，让喜欢在户外运动的用户在发生意外情况时有基本的医疗保障。

在背负系统上在保证了防水性的同时首次使用了调节背长结构，让此产品有更大的通用性；同时S型的铝条结构保证了背部的透气性和舒适性。

This welded waterproof mountaineering backpack is a new-concept product made by the high frequency hot pressing technology. The main fabric is TPU laminated fabric, which is seamlessly bonded together by coating dissolved under high temperature. It is fully waterproof.

As an outdoor product, this welded waterproof mountaineering backpack is designed with the purpose of emergency treatment at the very beginning. The removable zipper pocket at the hip belt contains emergency drugs to provide basic first-aid for users outdoor in case of accidents.

As for the back panel system, the adjustable back length structure is used for the first time while ensuring the waterproof performance, so the product is more universal. The S-shaped aluminum frame ensures air permeability and back comfort.

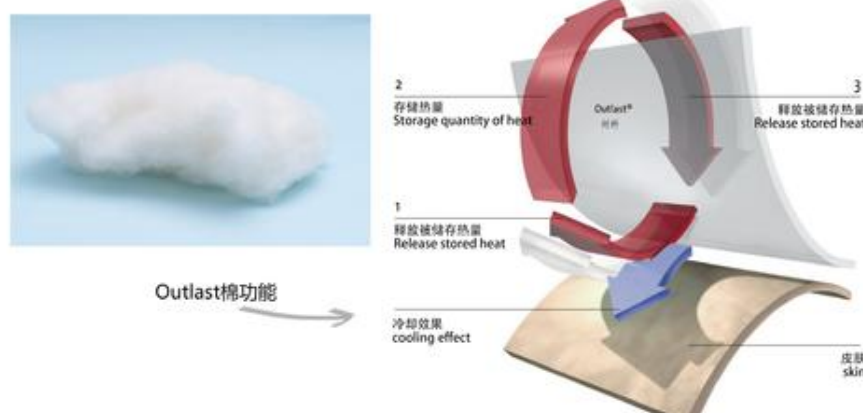

## 环保睡袋登山棉裤CMM22001 THE 2 IN 1 MOUNTAINEERING QUILTED PANTS CMM22001

能让身体感受到最舒适状态，来自于这款可以调控新鲜循环空气睡袋登山棉裤，此款裤子内里为绗棉做法，在寒冷的气候下能更佳的保暖，脚口处设计了拉链跟调节通风口，在出汗的攀登过程中的通风，缓解体内过热大量出汗。

面料采用100%环保可回收材料，具有超高的防水跟透气功能，环保面料提高回收利用资源，也给地球减少了压力。

内填充物为航空专用的Outlast棉，能调整皮肤的微气候温度，并通过主动的温度管理使人更加舒适，当你管理温度，热量和湿度你可以感受到“刚刚好”，能主动控制温度，减少过热、过冷，减少身体排汗让身体感受到最舒服的区域。是登山露营的必备产品。

裤内侧使用便捷快脱拉链设计，当在寒冷天气露营时，可以快速变成睡袋裤，可以加强保暖，给露营者一个舒适的睡眠。

### Styling highlight:

The pants can be easily turned into a sleeping bag thanks to the quick-release zippers at inseam, which can enhance warmth and reduce carry-on items for climbers.

### Basic style details:

Quilted lining to keep warmth.

Zipper and string adjustment at leg end for ventilation.

### Shell fabric:

100% recycled fabric with super performance of water resistance and water vapor penetration; improve resource recycling and reduce pressure on the environment.

### Filling:

Outlast padding, which is special for aviation use, can actively control the temperature, avoid overheating and overcooling and reduce perspiration, therefore making you feel "just right".

The 2-in-1 mountaineering pants make you stay in the most comfortable state. It is a must-have product for mountaineering and camping.

The inside of the pants uses a quick and convenient zipper design, which can be quickly changed into a sleeping bag when camping in cold weather to ensure warmth and give campers a comfortable sleep.

Burning up, my little universe.

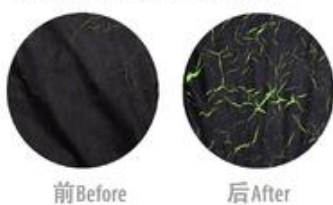

这款跑步夹克主面料采用满底压皱工艺，底部使用荧光色布底，与表面黑色对比强烈，轻轻一拉就能使其炸裂开来。每一次运动都能“燃烧”，每一个幅度都能赋予它不一样的风格。

经过抗菌抗病毒处理，添加了具有超氧化能力的特殊纳米金属氧化物，氧化能力凝固病毒蛋白质，其光电活性基因破坏病菌细胞壁，细胞质流失，灭杀病菌。对SARS、冠状病毒、禽流感(H5N1)、甲流(H1N1)等各种病毒，大肠杆菌、金黄色葡萄球菌等细菌有显著灭杀效果。运用可见光或者人体热能，为其提供能量动力。

受当下疫情影响，人们对运动越来越重视。这款特殊的印花时尚炫酷，每一次炸裂都在燃烧卡路里，脂肪燃烧看得见！并且经过抗病毒处理，让您尽可能的走向户外。

## 抗病毒烈焰跑步服 Antiviral Running Jacket

满底压皱工艺/CAEPE FABRIC

前Before

后After

This jacket is made of crepe fabric. The fluorescent back contrasts with the black surface. When you open it, you will be impressed. It makes each movement exciting and different.

After anti-bacterial and anti-viral treatment, it adds special nano-metal oxides with super oxidation ability, which solidifies viral proteins. Its photoactive genes can destroy the cell wall of bacteria. Then bacteria have their cytoplasm lost and finally die. It can kill SARS, coronavirus, avian influenza (H5N1), H1N1, Escherichia coli, Staphylococcus aureus and so on. It uses visible light or human heat to power it.

Due to the COVID-19 pandemic, people pay more and more attention to sports. This special print is stylish and cool. It shows burning calories with every burst. You can see the fat burn! And with antiviral treatment, it enables you to go outdoors as much as possible.

抗病毒保暖高亮反光安全防护服，具有五大功能，抵抗病毒，蓄热保温，安全防护，防风防雨，舒适透气。

抗病毒面料的关键元素是特殊助剂。添加具有超氧化能力的特殊纳米金属化物，氧化能力凝固病毒蛋白质，其光电活性基因破坏病毒细胞壁，细胞质流失。运用可见光或者人体热能，为其提供能量动力。杀菌杀病毒能力高达99.99%。

本实用新型公开了一种抗病毒保暖高亮反光安全防护服，本实用新型设计，反光效果醒目，加强在视线不良中的可见度，增强医务人员的安全防护性，并提升穿着保暖效果和活动舒适性。

This is an anti-virus high brightness reflective safety protective suit with 5 functions. It can resist virus, wind and rain and keep warmth and safety. It is also comfortable and breathable.

The anti-virus fabric adds special nano-metal compounds with super oxidation ability, which can solidify virus proteins. Its photoelectric active genes can destroy virus cell wall and cause cytoplasm loss. It uses visible light or human heat to power it. It can kill bactericidal and virus up to 99.99%.

The anti-virus high brightness reflective safety protective suit uses new designs and has eye-catching reflective effect. It enhances the visibility in poor sight, enhances the safety of medical staff, and improves warmth and movement comfort.

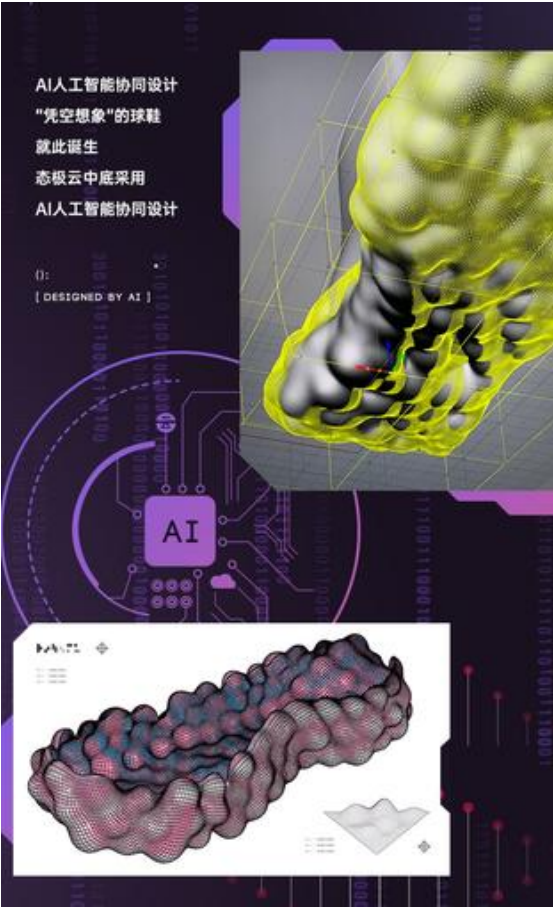

态极科技跑鞋E13917H

设计师 Designer:  
蔡魁 Kui Cai

态极云（由匹克洛杉矶研发中心设计），AI科技跑鞋，首次采用AI人工智能设计的中底，滚动式云朵造型中底为3D软件计算生成。鞋面采用不对称飞织设计搭配3M反光纱，并设计有360度组合环绕携带和后跟抽绳束紧设计。鞋底采用跑鞋KPU大底，内部及足弓搭载TPU稳定片。

态极云与自然中的云朵相似，没有固定的形态和方向，而是在变化的过程中形成实体，配备匹克超轻跑鞋的态极自适应技术。这种新风格的设计灵感来结合了自由形式的云和态极P4U小球在零重力状态下的液态。结合了自然形态，展示低碳环保生活和绿色发展。

成千上万的小球聚集在一起形成云朵，创造一种独特的体验，就像你在云中行走一样。因此，你可以看到新AI参数化设计的外底的球形。态极云目前和未来所呈现和表达的，也是希望通过动态的变化逐渐被大家了解和发现。传递给消费者的态度是 拥抱变化，挑战大家都喜爱和接受的那一种“刻板印象”，坚定自己的选择和喜爱而不是盲从。在变化中看见并成为那个未曾见到的自己并影响其他人。

Peak TAICHI Cloud (designed by PEAK Los Angeles R&D center), a pair of AI-based running shoes, adopts AI-designed midsole for the first time, and the rolling cloud shaped midsole is calculated and generated by 3D software. The upper is designed with asymmetric flyknitting, 3M reflective yarn, 360°surrounded shoelaces and drawstring fastening at the heel. The sole adopts KPU outsole of running shoes, and TPU stabilizer is equipped inside and at the arch of the feet.

Like the clouds in nature, TAICHI Cloud has no fixed shape or direction, but forms an entity in the process of changes. It is equipped with the TAICHI adaptive technology . This new design was inspired by the combination of free-form clouds and the liquid state of TAOHI P4U spheres under zero gravity. Combined with natural forms, it shows low-carbon and environment-friendly life and green development.

Thousands of small balls come together to form clouds and create a unique experience. You will feel like walking in the cloud. Therefore, you can see the spherical shape of the outsole of the new AI parametric design. What TAICHI Cloud presents and expresses at present and in the future is to be gradually understood and discovered by everyone through dynamic changes. The attitude passed to consumers is to embrace changes, challenge the "stereotype" everyone likes and accepts, and strengthen their choice and love rather than blind agreement. See and become the unseen self in changes and influence others.

### 设计师 Designer:

钟慧妍 Veronica Chung

运用意大利圣东尼无缝机器织造加上莱卡智塑创新技术独特的水溶性分散液印花工艺，采用丝网印花印制到含莱卡纤维的面料上形成定向轻盈支撑与具独特化学特性的莱卡智合智纤聚合物及对环境友好的生物基环保再生纱线材料制成，能适应人体穿着时的需求，赋予良好的弹性，持久的保形性以及舒适合身性，带来定制化的合身效果满足不同身型，为消费者提供全新佩戴体验并带有可持续发展的服装生产理念，引领环保时尚与功能性结合的潮流趋势。

运动套装由环保生物基纤维PA56制成，由生物基戊二胺和石油基己二酸聚合生成的一种新型生物基聚酰胺，其中生物基戊二胺是可再生资源如玉米、秸秆等为原料，解决石油资源紧缺的问题。生物基PA56具有优异的吸湿性、柔软性、低温可染性能且可降解的，达到低碳效果亦可替代部分石油基聚酰胺纤维产品。整个产品从纱线原料到生产和回收的过程都保持环保可持续发展的理念同时莱卡智塑印花科技的定向支撑性与无缝结合能简化服装制造。

运动套装使用莱卡智塑技术——一种专利水溶性分散液，功能与莱卡纤维分子相同，但形态为液体，能为服饰特定部位增加轻盈的定向支撑，摒弃了笨重的贴面或接缝。结合莱卡962L 纤维采用的新型聚合物带来更好的舒适和贴合性，使更具弹性并能针对各种体形提供量身订造的贴合体验，当穿着者处于运动状态时，聚合物会调整其弹性，以提高运动时的舒适度，就像第二层皮肤，使服装更好地保持在原位，这一创新直接满足了消费者的合身需求。

The product is made by using Santoni's seamless machine and LYCRA® FitSense Technology's unique patented water-soluble dispersion printing process, which is screen printed onto fabrics containing Lycra fibers to form a directional lightweight support with unique chemical properties of LYCRA® ADAPTIV fiber and environmentally friendly bio-based recycled yarn material, which can comprehensively adapt to the human body's wearing requirements for this unique combination of properties helps make sizing more inclusive and brings a customized fit to meet the needs of different body types, and makes the garment easy to put on and take off, thus providing consumers with an excellent new wearing experience with the concept of sustainable clothing production and leading the trend of combining environmental fashion and functionality. The product innovation directly meets the needs of consumers and addresses consumer fit needs, helping brands reduce returns and build consumer loyalty.

This liquid lycra seamless sports suit is mainly made of eco-friendly bio-based polyamide PA56, it's produced by polymerization of bio-based glutaric diamine and petroleum-based adipic acid, of which bio-based glutaric diamine is derived from renewable resources such as corn and straw through starch microbial fermentation, solving the problem of petroleum resources shortage. It has excellent moisture absorption, softness, low-temperature dyeability, and is degradable to achieve low-carbon effect, which can replace some petroleum-based polyamide fiber products. We focus on environmentally sustainable design from yarn raw material to production and recycling. Besides, the directional support and seamless combination of LYCRA® FitSense can simplify garment manufacturing by eliminating generally sewn garment pieces or additional seams. In addition, the concept of eliminates the application of coaster pads on bras that offers endless design possibilities for green garment development.

Our seamless sport suit to use LYCRA® FitSense Technology, is a kind of patent water-soluble dispersion, the function and lycra fiber molecule is the same, but the form of liquid, this revolutionary innovation technology uses the fabrics of silk screen printing technology to contain lycra fiber, increase light directional support specific areas for clothing, abandoned the heavy cover or juncture, also simplifies garment manufacturing by eliminating sewn pieces or extra stitches. Combined with Lycra 962L fiber using a new type of polymer design to bring better comfort and fit, make the product more flexible and can provide customized according to various shape joint experience, formed when the wearer is in a state of movement, the polymer will adjust their flexibility, in order to improve the comfort of sports, like a second skin, make the garment better remain in place. This innovation directly addresses consumer fit needs, helping brands reduce returns and build consumer loyalty.

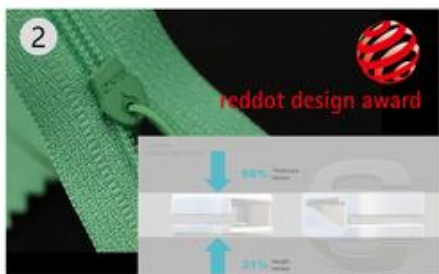

幻彩轻收纳风衣RM21103

设计师 Designer:  
繆建斌 Jianbin Miao

1 环保褶皱印花面料  
Environmentally friendly pleated printing fabric

2 获得红点奖收纳专用拉链  
Zippers which get Red Dot award specially for storage

3 反光织带收口  
Reflective ribbon edge wrapping

为倡导环保、轻便、多功能、美观的新户外服饰理念，我们设计了这一款幻彩轻收纳超薄风衣。成衣面料采用不含PFC的DWR环保面料，主要材料均来自于环保回收材料，整个制作过程都属于可循环条件，完全符合全球有机纺织品标准织物制成。同时，面料具有防潮、防风、透气等多种户外实用功能，方便穿戴者在户外应对多种天气状况。

细节上，腰袋处使用获得红点奖专利产品收纳拉链，收纳便捷易携带，无伤害的双面滑块，拥有世界上最薄的结构，替代传统拉链给穿着者带来不好的穿着体验，这款红点获奖拉链使运动无晃动，减少防撞且舒适。

在外观上，它创新的利用了目前最新高温褶皱原理，成衣随着不同的运动动作，呈现出不同花纹迷彩，让你在人群中脱颖而出。同时帽子、袖口、下摆均使用带反光织带包边，与成衣幻彩面料组成了360°反光体系，保证穿戴者夜间出行、运动的安全。

在运动散热性能方面，它加入了后背开口透气，可以让体内过度的热量快速散发出去，与此同时又能防止雨水侵入。成衣还具备抗紫外线UPF50+，在炎热的天气下也能保护皮肤不会被晒伤。

In order to advocate environment-friendly, light, multi-functional and beautiful new outdoor clothes, we design this multicolored easy storage windbreaker. It is made of DWR environment-friendly fabrics without PFC. The main materials are environment-friendly recycled materials. The whole production process is recyclable and the fabric fully conforms to global organic textile standards. Furthermore, the fabrics are moisture-proof, windproof and breathable, which is convenient for the people to cope with various outdoor weather conditions.

In details, the waist pocket is added with a product storage zipper, which get the Red Dot patent. It is easy to carry and store. The smooth double-sided slider has the slimmest structure in the world. It replaces the traditional zipper which brings bad wearing experience to the wearer. This special zipper brings less shakes to movement, reduces the chance of collisions and offers a comfortable experience.

In terms of appearance, it uses the latest high-temperature folding principle. The garment shows different camouflage colors with different movements and forms a 360° reflective system with the garment's magic color fabric to ensure the safety of the wearer's travel at night and during sports.

In terms of sports heat dispersion performance, it is equipped with the back ventilation system, which can release excessive heat quickly from body. At the same time, it prevents rainwater. The garment is also UV-resistant (UPF50+) to protect skin from sunburn even in hot weather.

梅斯巴赫 Max Bahr

此款产品为时尚休闲鞋，采用前卫的夸张视觉体现鞋子的时尚潮流，非传统的鞋领口设计，来诠释新颖。大底采用耐磨橡胶以及轮胎大大底纹理，为鞋子提供良好的耐磨防滑性，中底使用软弹的EVA同时采用风洞设计结构，中心填充了一款创新性的棉麻编织材料，为鞋底提供舒适回弹和良好的透气，鞋面部分采用羊毛绒和棉麻等突破传统的鞋身材料，使鞋子达到环保舒适透气的功能。

产品社会价值：此款鞋子除了具备时尚的外观和良好的穿着舒适感的同时，还有一个就是我们品牌最重视和最想推广的理念——环保可持续发展。低碳生活是我们追求的目标，此款鞋子设计了大量的环保可降解材料，包括鞋底的填充材料采用的是植物纤维编织的棉麻材料，鞋面大面积的使用羊毛绒材料和棉麻材料，突出了环保可持续发展。

This product is a fashion casual shoes, using the avant-garde exaggerated vision to reflect the fashion trend of shoes, non-traditional neckline design, to interpret the novel. With wear-resisting rubber and tire greatly sole attaching texture, provide shoes with good skid resistance, wear-resisting bottom using soft elastic EVA by wind tunnel design at the same time, the center fill an innovative cotton and linen woven materials, as the sole provides comfortable springback and good air permeability, cloth uppers part adopts abb and break through the traditional shoe body material such as cotton and linen, Make shoes to achieve environmental protection, comfortable and breathable function.

Social value of the product: In addition to fashionable appearance and comfortable wearing experience, there is another concept that our brand values the most and wants to promote the most: Environmental protection and sustainable development, and low-carbon life is our goal. The shoes are designed with a large number of environmentally friendly and biodegradable materials, including cotton and linen materials woven with plant fibers as sole filling, and wool and cotton and linen materials for a large area of the upper, highlighting our focus on environmental protection and sustainable development.

设计师 Designer:  
庄艺山 Yishan Zhuang

鞋面采用全新 Surface 科技包裹鞋头，减轻鞋重量，同时提升耐折性与透气性，全方位加强鞋面包裹。中底运用全新“一模双密”技术打造，超级魔弹科技+轻量化态极科技，超级魔弹科技使用回弹率高达 65%，后掌则是轻量化态极，前韧后弹，带来无断层脚感，让落地缓震更为均衡，减轻球鞋重量同时提升实战性能。外底方面采用水晶底并内嵌了一块尼龙板稳定，搭配外露的大面积侧向支撑 TPU，提供更好的响应速度，保证球鞋的支撑性。

鞋子帮面纱线材料和大底的尼龙TPU都是环保材料，提倡健康运动，快乐生活。

匹克态极系列鞋产品中底，搭载对环境应力可感知、响应的高分子智能材料P4U，并通过创新技术复合发泡而成，它拥有传统鞋中底材料所不具备的“自适应”特性。这项全新的颠覆式中底科技，可以根据不同运动状态，实现自适应性缓震与瞬间回弹功能，能够根据穿着的人、运动状态等外界信息，进行自我适应和调整，从而带给穿着者更好的体验感受。

The upper is wrapped around the toe with the new PEAK "Serface" technology (Mono Yarn) to reduce the weight, improve folding resistance and breathability, and strengthen the upper wrapping in all directions.

The midsole uses the Super P-MOTIVE + PEAK Taichi technology. It is tough in the front and elastic in the back, bringing an integrated feel.

The Super P-MOTIVE technology has a rebound rate of up to 65% for quick start and sensitive response.

The back is lightweight TAICHI material, which makes the landing cushioning more balanced, reduces the weight of the shoes and improves the actual performance.

As for the outsole, the crystal sole is adopted, and a nylon plate is embedded for stability. Combined with the exposed large-area lateral support recycle TPU, it provides better response speed and ensures the support of the shoes.

The yarn material for the upper of the shoes and the nylon TPU on the outsole are environment-friendly materials to advocate healthy exercise and happy life.

PEAK-TAICHI is made of P4U, a smart polymer material that can react to environmental stress. Under normal conditions, the material touches soft. However, it can become athletically firm against impact and return to a comfortable soft state once the external force disappears. The polymer material represents a breakthrough in the sector. PEAK-TAICHI, a gel material which can adjust its properties based on changes in the wearer's movements, distinguishes itself from similar materials due to its unique dynamic performance.

织法：斜纹2/1  
成分：棉53%+涤纶45%+氨纶2%  
颜色：浅蓝  
幅宽：150 cm  
克重：155 gsm  
功能：抗病毒、抗菌、弹力

用途推荐：医用服装、生物制药工服、个人服装

抗病毒：对重症急性呼吸综合征(SARS)冠状病毒、中东呼吸综合征(MERS)冠状病毒、人类免疫缺陷病毒(HIV)、登革热病毒、埃博拉病毒、甲型流感病毒、乙肝病毒等抗病毒活性率高达99.99%。

抗菌：快速完全去除织物上的（肺炎杆菌、金黄葡萄球菌、淋球菌、大肠杆菌、枯草杆菌、絮状表皮癣菌、石膏样毛癣菌、白色念珠菌、青霉菌）等多种有害菌，洗前抗菌高达99.6%，效果符合AAA标准。

Weave: Twill 2/1  
Composition: Cotton 53%+Polyester 45%+Spandex 2%  
Color: Light blue  
Width: 150 cm  
Weight: 155 gsm  
Function: Anti-virus, anti-bacterial, stretchable

Recommended use: Medical clothing, biopharmaceutical work clothes, personal clothing

Anti-virus: Broad spectrum and high efficiency, the antiviral activity rate of SARS, MERS, HIV, dengue virus, Ebola virus, influenza A virus, hepatitis B virus, etc. is as high as 99.99%.  
Anti-bacterial: Quickly and completely remove a variety of harmful bacteria (pneumoniae, Staphylococcus aureus, Neisseria gonorrhoeae, Escherichia coli, Bacillus subtilis, Floccus epidermidis, Trichophyton gypsum, Candida albicans, Penicillium)and so on. It can prevent the regeneration and reproduction of bacteria. Antibacterial rate is up to 99.6% before washing.

吴佳蔚 Jiawei Wu

该产品采用了纯天然艾草纤维面料及竹纤维抗菌面料。探索天然纤维与纺织纤维相结合的技术面料，将植物天然的药理性融入纺织服装中，体感凉爽轻盈、柔软舒适。

该产品主打运动休闲风格，满足多种都市穿搭。在设计产品时，以简约线条、立体剪裁、简单舒适为特点塑造个性时尚单品，并着重加强了该产品在户外活动中的防护功能。适用于锻炼、工作、度假等户外活动时穿着。

本产品为环保抗菌防护型的户外运动连帽外套：

可拆卸防护帽，可根据不同场合、天气温度等不同环境来进行多种搭配，符合一衣多穿的环保理念。

后背设计增加了收纳口袋，出行时可轻巧打包放置。而面料的触感柔顺细腻，穿着亲肤爽滑，加以纯植物纤维成分，不易致敏，贴身穿着宛如第二层肌肤。

产品面料含有艾草的抗菌成分，可自然降解，低碳环保。艾草为中医药用价值极高的植物，促进血液循环、祛湿散寒、通经活络。现代医学研究表明艾草是一种广谱抗菌抗病毒的药物，对多种病菌有抑制作用。

产品采用的另一种竹纤维面料，利用了竹资源制造的新型再生纤维素纤维打造。具有天然抗菌、抑菌作用，能保持良好吸湿性、透气性，具有抗紫外线效果。

This product uses the pure natural wormwood fiber fabric and the bamboo fiber antibacterial fabric. Explore the natural fiber and textile fiber combination of technical fabrics, the natural pharmacology of plants into the textile clothing, feel cool and light, soft and comfortable.

The main products of sports and leisure style, to meet a variety of urban wear. In the design of products, the characteristics of simple lines, three-dimensional cutting, simple and comfortable to create personalized fashion items, and focused on strengthening the product in outdoor activities in the protective function. Suitable for exercise, work, holiday and other outdoor activities wear.

This product is an environment-friendly, antibacterial and protective outdoor sports jacket with a cap: The detachable protective cap can be matched with different clothes according to different occasions, weather, temperature and other different environments. It conforms to the requirement of environmental protection.

The back design adds a storage pocket that can be conveniently packed and placed when traveling. The fabric feels soft and delicate, wearing skin-friendly smooth, with pure fiber plants ingredients, not sensitive, close-fitting wearing like a second skin.

The fabric used in this product skillfully combines the antibacterial, health care ingredients of wormwood, without adding any chemical substances, can be natural degradation, very low carbon environmental protection. Artemisia Argyi is of high value in traditional Chinese medicine. It can promote blood circulation, dispel dampness, dissipate cold and dredge Meridians. It can help the human body to produce a layer of safety and health protection.

The product uses another kind of bamboo fiber fabric, is the use of bamboo resources to make a new type of regenerated cellulose fiber. It has the natural antibacterial and bacteriostatic function of bamboo, and can keep good hygroscopicity and permeability. The textiles made by the invention have excellent drape, wear resistance, no pilling, easy care and good anti-UV effect.

设计师 Designer:

蒋密 James Jiang

碳纤维小提琴是一款采用全新材料和技术设计制造的原声乐器。碳纤维和注塑成型的应用解决了由于木材的湿度和温度导致的音色不稳定的问题，从而优化了小提琴的音质。同时，它使小提琴更薄更轻，即使长时间使用，小提琴家也可以轻松地练习或演奏。300多年来，这将是第一次重新定义和设计传统小提琴的形状和材料。

产品运用简洁的设计语言，摒弃多余的装饰，边缘收薄的处理，让产品看起来显得极致轻薄，符合年轻音乐家对现代乐器重量和造型的审美需求。

减轻了产品的重量，适合长时间练习和外出演奏携带；弦轴部分采用螺纹处理，有效的防止了演奏过程中因琴弦松动而导致的音色变化，让演奏变得更稳定可靠。

The carbon fiber violin is an acoustic instrument designed and manufactured with brand-new materials and technologies. The application of carbon fiber and injection molding optimizes violin's sound quality by addressing the tone instability problem due to the humidity and temperature of wood. At the same time, it helps make the violin thinner and lighter, which enables violinists either to practice or to play easily even for a long-time performance. Over 300 years, it will be the first time to re-define and design not only the shape but also the material of traditional violin.

The product uses a concise design language. It gets rid of redundant decorations, and thins the edges to make the product look extremely thin. It meets young musicians' pursuit of light weight and beautiful appearance.

Reduction of the weight of the product helps the performer to practice for a long time and makes it easier to carry out. The pegs are threaded, which effectively prevents the change in tone caused by the loosening of the strings during the performance and make the performance more stable.

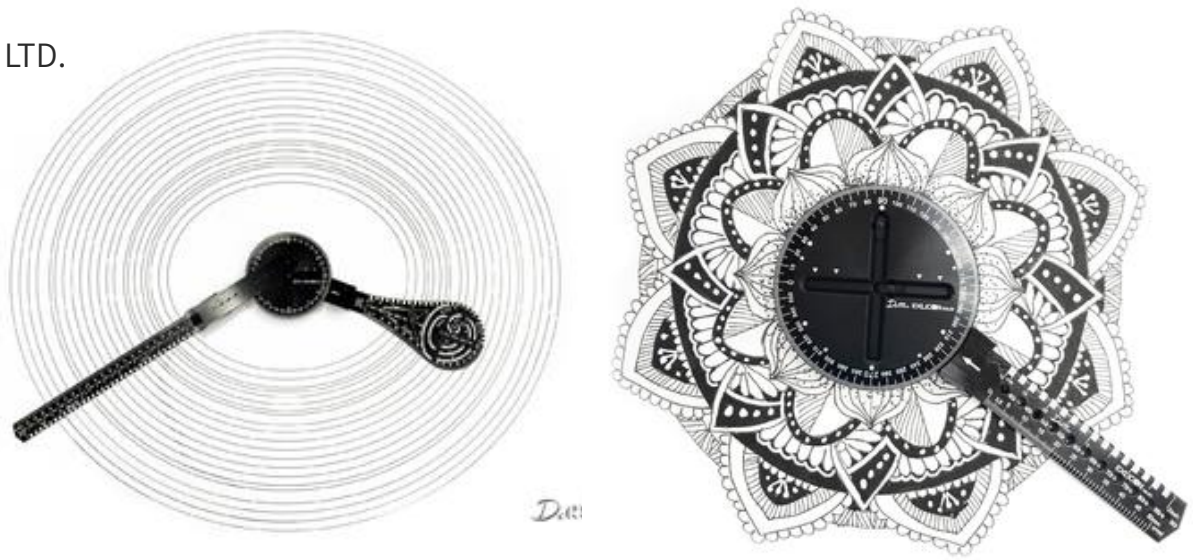

## EXLICON- 多功能椭圆形圆规F2

Web:www.ddiin.com

#### 设计师 Designer:

李碧珊 Sofia Lee Pik Shan

现在市面上的圆规都带有针，容易弄穿纸张。为解决传统圆规刺穿纸张的问题，我们设计了EXLICON。这是一件整合各种几何图形的绘画工具。传统的圆规只局限于画圆形，不能画椭圆形。市面上的椭圆尺亦不容许用家随意改变椭圆形的离心率，大大限制设计师的创作。本产品由圆底、长尺、短尺及水滴形磁性尺组成。设计师可以自由组合工具，再根据底座上的标记，绘画出需要的形状。

材料是由不锈钢和航天铝制成，材质坚硬，可以长期使用。产品体积小，零件可拆及易安装，方便携带。用CNC打造，更精准。设计师可绘制超过50个不同黄金比例的圆形、100个以上不同大小的椭圆形、正五边形和正六边形。长尺及水滴形尺亦可独立使用。

Available compasses have needles that can easily break through paper. To solve this problem, we designed EXLICON. EXLICON is a drawing tool that can draw various geometric figures. Conventionally, compasses are used to draw circles, but they can't draw ovals. Available ellipse guides don't allow users to change ellipse eccentricity, which greatly restrict designers. EXLICON consists of a round base, a long ruler, a short ruler. Designers are free to combine the parts and draw shapes needed according to the marks on the base. and a drop-shaped magnetic ruler. Designers can use them to draw any shape they want, such as circle, ellipse, regular pentagram, and regular hexagon. The long ruler and the drop-shaped ruler can be used independently. The product is made of stainless steel and aviation-grade aluminum, which can improve its durability and service life. It is small. Its parts can be removed and are easy to assemble. It's convenient to carry.

EXLICON is made of aviation-grade aluminium and stainless steel. These materials are much stronger and durable, which are suitable for long time use. Being compact in size and highly portable, EXLICON can be easily carried around. It is manufactured by CNC machining which provides high accuracy. It is capable of drawing ellipses of over 100 sizes and circles of over 50 dimensions with golden ratio, as well as regular pentagram and regular hexagon. The long wing can be used separately as a ruler and the water drop wing can be used for drawing curved lines.

苏晨曦 Chenxi Su  
高红侠 Hongxia Gao

**CMS50Q1**  
Pulse Oximeter

本系列血氧仪在设计时巧妙融入了小动物的设计元素，让原本冰冷的医疗器械更具亲和力，对儿童更加友好，从而有效缓解儿童对医疗检查的恐惧感。同时该血氧仪的指夹结构经过全新设计，在夹持力度、贴合度等方面更适合儿童较细的手指，摆脱传统血氧计儿童佩戴松垮的现象。产品的核心算法根据大量儿童血氧数据进行了适童优化。产品机身采用抗菌材质打造，全方位守护孩子的健康。

采用了贴纸设计，极大的提升生产效率的同时，也给了孩子们自己创作的空间，通过自己动手创作一个卡通形象更能建立起孩子和血氧仪之间的联系与羁绊，拉近血氧仪与孩子心理上的距离，让检测不再被排斥。

该系列血氧仪有多种颜色与动物形象可选，形成了自己的产品PI设计语言，家族化的设计可以有效降低生产本，提升生产效率。同时针对儿童专门改良的结构为后续儿童血氧仪的进一步研发奠定了基础。

The design of this series of oximeters ingeniously incorporates the design elements of small animals, making the originally cold medical equipment more friendly to children, thereby effectively alleviating children's fear of medical examinations. At the same time, the finger clip structure of the oximeter has been newly designed, which is more suitable for children's thinner fingers in terms of clamping strength. And it helps to solve the problem of loose phenomenon when children wearing traditional oximeters. The core algorithm of the product has been optimized for children based on the large amount of children's blood oxygen data. The body of the product is made of antibacterial material to protect the health of children in all aspects.

Stickers are used, which greatly improves production efficiency and gives children space to create their own works. By creating a cartoon image by themselves, the connection between children and oximeters are established, which shorten the psychological distance between oximeters and children, so that the test is no longer horrible for them.

This series of oximeters have a variety of colors and animal images to choose from, forming their own product PI design language. Family design can effectively reduce production costs, improve production efficiency. At the same time, the improved structure for children lays a foundation for further research and development of children's oximeter.

东辉休闲运动用品（上海）有限公司  
Oriental Recreational Products(Shanghai) Co.,Ltd.

全新旗舰款星锐专为进阶型桨板玩家设计，硬度媲美硬板，堪称竞赛机器，能帮助竞速爱好者专注于长距离直线划行和冲刺。

这款旗舰板运用了乐划独家四重碳纤加强筋技术（CFR™科技），使板体获得了惊人的硬度和回弹性，为竞速划行带来更高的能量反馈。

星锐具有狭长的外廓和更尖的尾部，从而最大限度地提升最高速度和划行循迹性。这款产品具有极佳的直线划行能力，非常擅于加速冲刺。板体中部的站立区延伸设计又能确保玩家在高速划行时迅速掌握平衡，保持一定的稳定性。

作为一款专业玩家的竞赛用板，星锐还配备了高端玻璃钢竞赛鱼鳍，其符合流体力学的刀片设计，能助你与秒针赛跑，是长距离赛事的理想之选！

星锐创新采用四重碳纤加强筋结构和尾端设计，全新加强碳纤玻璃钢竞赛鱼鳍，提升划行速度；配合尾部双重压浪条，带来流畅的高速划行体验。精致的工艺和优秀的划行表现，带给竞速玩家淋漓尽致的使用体验。

The new RACE ELITE is a true racing machine, especially for advanced paddlers who want to focus on paddling speed and cover longer distances. Constructed with four ultra-stiffening carbon fiber reinforced stringers (CFR™ Tech), this board delivers incredible rigidity and responsiveness.

Featuring a straighter outline and pointier tail that increase top speed and maximize paddling efficiency, this product excels at keeping the board moving in a straight line. With reduced width to 25" and the bonus EVA side rail pad, RACE ELITE ensures improved acceleration without losing stability. As a professional racing board for professional users, RACE ELITE comes with the premium fiberglass racing fin system and the new molded hydrodynamic rail edges that are specifically designed to help riders race against the clock. It facilitates fast and efficient glide and smooth tracking. It is ideal for long-distance races!

Constructed with four ultra-stiffening carbon fiber reinforced stringers and reinforced carbon fiberglass racing fins, this board enhances the paddling speed. Coupled with double wave press bars at the tail, it brings smooth and high-speed paddling experience. The exquisite craft and excellent paddling performance bring the racer wonderful user experience.

郑瑞浩 Ruihao Zheng

该产品是我司该雾化器以亲和、温润、易用为设计理念，机身线条简约、优美，同时兼顾了握持手感，人机性能优秀。可用于医院、诊所、家庭等多种场景。NE-M03采用了创新结构设计，有效地降低了运行过程中噪音的产生，让用户告别使用传统雾化器时需忍受噪声肆虐的糟糕体验，静享治疗。

近些年呼吸系统相关疾病频发，雾化吸入治疗成为了一种重要的治疗手段，而本雾化器可以将药液雾化成微小颗粒，药物通过呼吸吸入的方式更加充分的进入呼吸道和肺部，与传统治疗方式相比，雾化器方案无痛、直接、高效。且本雾化器小巧、雾化效率高，为呼吸系统疾病相关患者带来了全新的治疗体验。

采用一体成型工艺，无需二次加工，极大的提高了生产效率。机身材质采用易回收、对环境友好的抗菌塑料，使用回收过程健康、环保，不对用户与环境造成额外负担。

NE-M03 mesh nebulizer is a hand-held household/medical nebulizer recently developed by our company. The atomizer is friendly and easy to use. It has simple and beautiful lines, while taking into account the hand feeling. It also features excellent performance. it can be used in hospitals, clinics, home and other scenarios. NE-M03 adopts an innovative structure, which can effectively reduce noises during operation. Users can say goodbye to the bad experience of enduring raging noises when using traditional atomizers, and enjoy the treatment in peace.

Due to frequent respiratory-related diseases in recent years, aerosol inhalation treatment becomes an important means. This atomizer can atomize medical liquid into small particles. Drugs can get into the respiratory tract and lungs. Compared with the traditional treatment, atomizer treatment is painless, direct and efficient. is painless and direct with more efficient treatment effect. In addition, the atomizer is small and has high atomization efficiency, which brings a brand new treatment experience for patients with respiratory diseases

The body adopts the all-in-one forming process. Secondary processing is not needed. It greatly improves the production efficiency. The body material is easy to recycle and is environmentally friendly antibacterial plastic. The recycling process is healthy and environmentally friendly, without causing burden to users and the environment.

G36是荣泰与华为联合开发的一款筋膜枪，只需两分钟，唤醒肌肉活力。当手机轻触筋膜枪NFC区域感应区，华为运动健康即可连接筋膜枪，一步直达筋膜枪页面，实现手机、筋膜枪数据实时交互和可视化。

专业级别的筋膜枪，动力输出强劲，电机扭矩高达540mN.m，3800转/分钟，冲程10mm，按摩效果更好，迅速释放运动后产生的乳酸，让舒爽快感席卷肌肉。

G36拥有4款专业按摩头，满足不同部位的释压需求。镂空按摩头，Q弹减震更安全；硅胶材质手柄，减震防滑，使用更安全。筋膜枪机身小于830g，小巧便捷，随时放松。

G36 is a fascia gun jointly developed by ROTA and Huawei. It only takes two minutes to wake up your muscle. When the mobile phone touches the NFC area of the fascia gun, Huawei Sports Health can connect to the fascia gun and go directly to the fascia gun page immediately. It realizes real-time interaction and visualization of the data of the mobile phone and the fascia gun.

It is a professional fascia gun with strong power output. With a motor torque up to 540mN.m, rotation rate of 3800rpm/min and stroke of 10mm, it can ensure better massage effect, rapidly release lactic acid produced after exercise and refresh your muscle.

G36 has 4 professional massage heads to meet the needs of different body parts. Hollow massage heads are soft and shock-absorbent. It is safer. The silicone handle is shock-absorbent and anti-slip to ensure safer use. The body of the fascia gun weighs less than 830g, so it is small and convenient. You can use it at any time.

## 颈部揉捏按摩枕N5 NECK KNEADING MASSAGE PILLOW N5

按摩枕整体造型由颈后往前逐渐收小，使用时能更好地承托颈部及下颌部位，不勒脖子。主体采用瑜伽布，有弹性、透气更舒适。高弹棉能更好地支撑颈部，使用更加舒适健康。梯形分布按摩头增大按摩面积，优化使用体验。绑带卡扣设计，解放双手，随时随地可用。

按摩枕采用皮革包裹内里布料，易于清洁。产品正反可用，结合多种按摩模式，一机多用，可按摩全身多个部位。

舍弃了繁琐的拉带式转而采用更方便的卡扣，使整个产品更加轻盈。少量应用皮革既保证了产品的易清洁性，同时也增加了产品层次，提升了产品的品质感。

The massage pillow is gradually reduced from the back of the neck to the front, which can better support the neck and jaw without strangling the neck. Its body is made of yoga cloth, which is elastic, breathable and more comfortable. Highly elastic cotton can better support the neck and is more comfortable. Trapezoidal massage heads can increase the massage area and optimize user experience. The strap and buckle design can free your hands and you can use it anytime anywhere.

The massage pillow uses leather-wrapped lining fabric, which easy to clean. and reduce the energy consumption during cleaning. Both its front and back can be used. With several massage modes, it fits many scenes and can massage several parts of the body.

It gets rid of the cumbersome pull-belt design and adopts a more convenient buckle design, making the whole product more lightweight. The application of some leather ensures that the product is easy to clean and increases the product's texture and quality.

伊人灯取名自《诗经》中的“所谓伊人，在水一方”，是一款复古与时尚结合的休闲产品。采用我司独有的外观专利，伊人俟水，翩然而至，精工匠心的郁金香型玻璃灯罩，犹如伊人婀娜曼妙的身材，透光度高，耐热性好，能产生柔和华美光影，更具时尚感。伊人灯的光源是我司独有的专利光源设计，独特的三片式导光柱设计，可以产生三种不同的光源模式效果，分别是呼吸光、闪烁光、调光，创造了光与色的灵魂艺术。

伊人灯的材料主要由玻璃、ABS和竹子构成，完全符合相关环保要求。自带嵌入式锂电池，可以循环使用，符合绿色发展的原则。镀金音响旋钮式开关，完美与照明开关区分开来。底座采用纯手工雕琢的深山老竹底座，抗压抗弯，稳定性强。竹子是可再生性很强的植物，选用竹子底座体现了我司本着绿色发展、环保可持续的产品开发理念。

伊人灯不仅是一款独具特色的创新型休闲照明产品，也是一款音质卓越的便携式蓝牙音响。使用可覆盖范围广泛，不仅可以用于家居便携式照明，作为小夜灯、餐桌灯、庭院灯使用，同时它独特的照明模式，尤其是呼吸光模式和火焰闪烁模式，让它可以完美地用于家庭装饰。另外，带有360度立体环绕的无线蓝牙音响，相较于市场中音响同品质的产品更具性价比，使伊人灯具有更高的商业价值。

Evelyn lantern is a beautiful tulip shape retro lantern designed according to the ancient kerosene lamp. It has adopted our patented LED lighting source, which can provide real flame effect. Besides, it can provide amazing 360°surround music sound. It's portable, perfect for entertaining family and friends during indoor or outdoor gatherings.

Evelyn lantern is made of bamboo, glass and ABS which fully meets the environmental protection requirements. It has built-in rechargeable lithium batteries which are recycle. Explosion-proof glass to avoid injury. Portable ring buckle design makes the lantern easy to be taken out which can improve people's living experience. In addition, the base is made of 100% handmade bamboo which is very eco-friendly.

Evelyn lantern is not only a unique and innovative leisure lighting, but also a portable Bluetooth speaker with excellent sound performance. It can be used widely. At the same time, its unique lighting mode, especially breathing light mode and flame flicking mode, makes it perfect for home decoration. And the Bluetooth Speaker funtion makes it with high commercial value.

## N-25键MIDI键盘 N-25 KEYMIDI KEYBOARD

### 设计师 Designer:

邹般般 Banban Zou  
蒋密 James Jiang

对于25键MIDI键盘产品，初学者越来越注重使用体验感、美观和体积大小。这款MIDI键盘化繁为简，仅保留主要的功能按键，同时高频按键采用几何拼接、撞色的设计手法，凸显功能操作界面的主次之分，让用户一目了然，理解按键的排布逻辑，大大改善了初学者易出现的操作MIDI键盘的问题。

采用创新式的按键排布设计，符合人机大小、触感的摇杆按键设计。符合用户左右手操作方式，错落实排布设计，减少误操作率，给用户带来更直观，便捷的体验。

迷你尺寸大小，长宽高分别为34cm\*9.8cm\*3.14cm。小尺寸单手可握，不占据空间，方便携带，无论是室内外都可以使用。

For 25-key MIDI keyboard products, beginners pay more and more attention to user experience, appearance and size. This MIDI keyboard adopts simple design and only retains main function keys. At the same time, frequently-used keys are designed with geometric splicing and contrasting colors to distinguish primary and secondary keys on the functional operation interface. Users can understand the logic of key arrangement at a glance. It solves the problem of difficult MIDI keyboard operation for beginners.

The innovative key layout design conforms to ergonomic and tactile rocker button design. It fits the user's left- and right-hand operation. The reasonable layout design reduces the wrong operation rate and brings users a more intuitive and convenient experience.

It has a mini size (34cm\*9.8cm\*3.14cm). With a small size, it can be held with one hand. It won't take up too much space, and is easy to carry. It can be used indoors or outdoors.

Description

该产品的创新点就是单膝按摩和双膝按摩相结合使用。市面上类似产品要么是双膝，要么是单膝，而我们合二为一，既可以双膝也可以单膝。功能健全，具有气囊、震动、加热的功能，缓解膝盖疼痛和疲劳。

该产品所有材质都符合进出口标准，健康环保，电池证书齐全。

该产品轻巧便携，不笨重，价格适中。

The innovation of this product is the combination of single-knee massage and double-knee massage. Available products in the market is either double-knee or single-knee, but we combine these two into one. Our product can support both double knee and single-knee modes. It has rich functions, such as airbag, vibration, heating, etc. to relieve knee pain and fatigue.

All materials of this product are in line with import and export standards. They are healthy and environmentally friendly. The battery has gained necessary certificates.

This product is light and portable and has two functions in one at an affordable price.

这是一款符合多场景使用的无烟便携坐灸仪，具有艾灸及加热功能，进行暖宫、舒络的同时进行臀部塑性和背部加热理疗、红光护理的产品。

#### 设计特点：

折叠使用：可折叠打开使用，针对暖宫和腰部护理，契合腰部和臀部曲线，矫正坐姿。

无烟艾灸：使用电子加热，解决明火艾灸产生的艾烟及安全隐患。

多功能使用：集合艾灸、振动、磁疗、热敷、红光等功能。

传统的艾灸产品在使用时艾烟大，异味大，同时明火带来的不安全因素，极大地影响用户日常使用的安全和舒适性。我们希望给用户一款可以解决现有产品问题，在使用时无烟无异味的安全产品。智能屏幕操作显示，实现无烟艾灸，同时加以艾灸为主，振动、热敷、红光、磁疗为辅的女性暖宫和舒缓经络功能，同时提供背部磁石发热穴位按摩，针对腰部护理。用户可以在不同场景进行护理，可随身携带便于收纳。

This is a smoke-free portable sitting moxibustion device suitable for multiple scenarios. It offers moxibustion and heating to warm the uterus, soothes the meridians and collaterals, shapes the hip and heats the back via physiotherapy and red light care.

#### Features:

Foldable: It can be folded. It offers uterus warming and waist care. It can fit waist and hip curves and correct sitting posture.

Smoke-free moxibustion: It generates heat by electronic way to avoid the moxa smoke and safety hazards caused by open-fire moxibustion.

Rich functions: It combines moxibustion, vibration, magnetic therapy, hot compress, red light etc.

Traditional moxibustion products have big moxa smoke and peculiar smell when used. Besides, safety hazards brought by open fire greatly affect users' safety and comfort in daily use. We hope to provide users with a safe product without smoke or peculiar smell.

It is equipped with intelligent screen. Besides smoke-free moxibustion, it also offers vibration, hot compress, red light, and magnetic therapy to warm uterus and soothe meridians. In addition, it offers back magnet heating acupoint massage for the waist. Users can use it in different scenarios. It is portable and easy to store.

勇武高流明灯是一款户内外两用的创新灯具。外观设计上整灯采用战士造型元素，尤其是灯帽部位选用战士头盔造型，象征着对战士的敬意，更寄寓着对和平安定生活的向往。白光满足了户外对照明的亮度需求，户外雨天也无需担心，IP44可以防尘防溅水，自带充电宝功能可以应急为手机平板等移动设备充电；暖光模式带来温馨舒适的氛围，适合室内休闲时，如亲友聚会时用作氛围灯。

底座是采用纯手工深山老竹，不易变形，在淳朴中散发着清新透亮的气质。相对于难降解的塑料，竹子是可再生性很强的植物，选用竹子底座体现了我司本着绿色发展、环保可持续的产品开发理念。

质量和工艺上精益求精，勇武高流明灯在细微处传递给人以工匠精神，是完美的态度，是向上的力量，是追求品质的生活。作为照明/装饰/充电宝三位一体的多功能便携式灯，勇武高流明灯受众广泛，产品应用场景多，人们在露营，钓鱼，爬山时需要它，在酒店里，咖啡厅，家庭餐桌等场合都可以将它当作很好的照明灯具及精美摆饰。

High Lumen Knight SE Lamp is suitable for both indoor and outdoor space. Its design applies the knight style. The lampshade looks like the knight's helmet. It represents our respect for soldiers and yearning for peace and happiness. The cool lighting mode under 450lm can light up the surrounding during outdoor activities. It can also be used in rainy days because of it is IP44 anti-rust and waterproof. What's more, it can be used as a power bank, which allows you to charge your mobile phone and iPad. In an indoor space, the warm lighting mode diffuses a cozy atmosphere. It is perfect for your gathering with family or friends.

It has the bamboo base made of handmade bamboo. Comparing with plastic, bamboo is very eco-friendly since plastic is difficult to biodegrade. The choice of bamboo base reflects our company's philosophy: Green development, environmental protection and sustainable product development.

With high-quality details, High Lumen Knight SE Lamp presents our craftsmanship. It shows perfect attitude, optimism and yearning for high-quality life. It combines lighting, decoration and power bank. People can use it while camping, fishing, hiking and so on. In the hotels, cafes, and at home, it can be used as a lamp and a decoration.
