# 广交会设计创新奖

CANTON FAIR DESIGN AWARD

广交会每年评选一次设计创新奖，以“树立品质标杆，引导设计创新”为宗旨，甄选兼具设计和商业价值的前沿精品，通过广交会平台充分展现创新价值，提升品牌传播，助力贸易高质量发展。

Canton Fair Design Award (CF Award for short) is held once a year for setting benchmarks and promoting innovation. The cutting-edge products are selected and presented at Canton Fair to global buyers demonstrating the value of combining design and business. CF Award is proud of being a boost to the high-quality development of international trade.

邮箱：PR@BRAINCO.CN  
联系地址：浙江省杭州市余杭区人工智能小镇1幢2楼

BrainCo智能仿生手，是一款脑机接口技术与人工智能算法高度整合的智能产品，采用航空级铝合金+食品级塑胶材料制作，更轻、更安全。这款仿生手可通过检测佩戴者的神经电和肌肉电信号，识别佩戴者的运动意图，并将运动意图转化为智能仿生手的动作，从而做到灵巧智能，手随心动。

The BrainCo Intelligent Bionic Hand is an intelligent product that seamlessly integrates brain-machine interface technology and artificial intelligence algorithms. It is made of aviation-grade aluminum alloy and food-grade plastic materials, making it lighter and safer. This bionic hand can detect the neural and muscle signals of the wearer, accurately identify the wearer's motion intentions, and translate these intentions into actions of the intelligent bionic hand, achieving agility and intelligence, where the hand follows the user's commands.

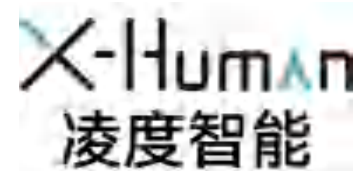

BrainCo智能仿生手无需预设，能够解析复杂神经信号，精准“猜”出大脑所想，让每根手指都能实现精细运动。它可以根据用户意图做出各种各样的手势；不仅能够满足截肢患者的日常生活需求，同时也帮助用户拓展更多工作和生活技能，培养更丰富的兴趣爱好，更好地掌控未来生活。

The BrainCo Intelligent Bionic Hand, without the need for presetting, interprets complex neural signals, accurately "guessing" the wearer's intentions, enabling each finger to achieve precise movements. And it can generate a variety of gestures based on user intent. It not only meets the daily life needs of amputees but also assists users in acquiring additional work and life skills, fostering a broader range of interests, and gaining better control over future life.

BrainCo强脑科技在极大降低了智能仿生手价格的同时，为了进一步实现科技助残、商业向善，通过各类公益项目让来自困难家庭的残疾朋友也成功用上了仿生手。此举巧妙地将社会力量与自身业务相结合，为众多出身贫困的残疾朋友们提供靠双手改变命运的机会。

While greatly reducing the price of intelligent bionic hands, BrainCo, in order to further realize the goal of assisting the disabled with technology and doing business with kindness, has enabled people with disabilities from poor families to successfully use BrainCo Intelligent bionic hand through various public welfare projects. This move cleverly combines social forces with its own business, providing many disabled people from poor families with the opportunity to change their fates with their own hands.

## 高空幕墙清洗机器人凌空K3 HIGH ALTITUDE CURTAIN WALL CLEANING ROBOT LINGKONG K3

八项吸附装置: 机器牢固吸附高墙, 可抗12级风力, 自吸附推进动力系统, 气压自动补偿, 遇意外智能增压吸附; 四向高精度传感器: 防撞防撞防楼沿, 侦测障碍智能减速避让; 高清动态影像回传系统: 智能 &人工模式一键切换, 灵活应对; 专业自锁控制系统: 即使断电也能保证机器牢牢挂在安全绳上。

更环保: 水路循环设计, 自来水清洗, 避免化学添加对玻璃墙面和绿化带的二次污染。更节能: 低功耗设计, 2 块电池可清洗一面百米大楼; 污水过滤回收系统, 8升水即可工作半天。

更安全: 抗风防坠设计+紧急安全系统, 突发状况也能保证机器牢牢挂在安全绳上, 双重保障, 安全性高; 更干净: 采用刷-洗-刮多重清洁设计, 每一块玻璃都经过多次清洗多次刮洗的清洗标准; 更高效: 融合人工智能技术, 单机日均清洗量达1200-2000m, 3倍于人工的清洗效率。

Eight adsorption devices: the machine firmly adsorbs high walls, can withstand 12 levels of wind force, self adsorption propulsion power system, automatic pressure compensation, and intelligent pressure boosting adsorption in case of accidents; Four way high-precision sensor: anti-collision, anti-collision, and anti building edge, intelligent deceleration and avoidance for obstacle detection; High definition dynamic image feedback system: intelligent and manual mode one click switching, flexible response; Professional self-locking control system: Even if power is cut off, it can ensure that the machine is securely attached to the safety rope.

More environmentally friendly: Water circulation design, tap water cleaning, to avoid secondary pollution of glass walls and green belts caused by chemical additives. More energy-efficient: low-power design, 2 batteries can clean one hundred meter building; The sewage filtration and recovery system can work for half a day with 8 liters of water.

Safer: With wind resistant and anti fall design and emergency safety system, the machine can be securely hung on the safety rope even in emergency situations, providing dual protection and high safety; Cleaner: Adopting a multiple cleaning design of brushing, washing, and scraping, each piece of glass undergoes multiple cleaning and scraping to meet the cleaning standards; More efficient: With the integration of artificial intelligence technology, the daily cleaning volume of a single machine reaches 1200-2000m, which is three times the efficiency of manual cleaning.

地址: 浙江省武义县邵阳北街73号弩牌电器

采用三角金属木纹支架的设计, 能够突出产品设计的独特性, 既可以稳固机身, 又可以同家居有效融合。

同时将内置净化器悬浮设计, 区别于普通净化器, 也具有更好的设计冲击感和实用性。

上下30度摆头, 左右30-60-90-120度自动摆头可实现全方位无死角净化 内置激光感应器, 大屏显示空气质量水平一览无余。

本设计集成风扇/净化器/智能控制于一体, 既可以做风扇, 也可以做净化器, 采用无刷直流电机以及创新风道设计, 最高功耗低于35W, 远低于普通风扇/净化器正常功耗。

采用无刷直流电机, 内置激光感应器和H13高性能滤芯, 超大屏显, 高端设计和实用性一览无遗, 荣获IF设计奖, 符合中高端客户追求独特设计感的定位, 突破了传统无叶风扇的设计思路, 获得了市场的好评与欢迎。

The tripod wood grain pillar design can popping out the uniqueness of the product design, which can not only stabilize the body, but also effectively integrate with the home deco. At the same time, the built-in purifier is designed to be suspended, which is different from normal purifiers and has better design impact and practicality. The head swings 30 degrees up and down, and automatically swings 30-60-90-120 degrees left and right to achieve 360° purification. Built-in laser sensor and large screen displays for easier visible and control.

This design integrates fan/purifier/intelligent control . It can be used as either a fan or a purifier. It uses a brushless DC motor and an innovative air duct design. The maximum power consumption is less than 35W, which is much lower than the power of ordinary fans/purifiers.

It uses a brushless DC motor, a built-in laser sensor and H13 high-performance filter element, a large screen display and with high-end design, also won the IF Design Award. It is in line with the positioning of mid-to-high-end customers pursuing a unique design, and breaks through the desing of traditional bladeless fan. The design ideas have won praise and welcome from the market.

## EMEET 360° Pro 智能会议一体机套件 EMEET MEETING CAPSULE PRO ROOM KIT

本产品是一款集摄像头、麦克风、扬声器于一体的4K高清会议设备，通过圆形和胶囊形这两种的基础形态组合成了该产品的设计形态，简约且纯粹；采用双目摄像头产生全景图像可以给用户带来更好的会议体验；同时配备有物理隐私盖，保证用户的个人隐私安全。镜头处设计金属CD纹装饰圈增加产品质感与细节，机身右侧配备三个机械按键，同时预先配对的无线便携式副摄像头，聚焦主讲人或白板，提供更加身临其境的混合会议体验。

This product is a 4K high-definition conference equipment that integrates cameras, microphones, and speakers. The design form of the product is combined into two basic shapes: circular and capsule. It is simple and pure; it uses binocular cameras to produce panoramic views. The image can bring users a better meeting experience; it is also equipped with a physical privacy cover to ensure the user's personal privacy security. A metal CD pattern decorative ring is designed around the lens to add product texture and details. The right side of the fuselage is equipped with three mechanical buttons. At the same time, a pre-paired wireless portable sub-camera can focus on the speaker or whiteboard, providing a more immersive hybrid meeting experience.

两颗超广角镜头实时360°画面采集，参会者无需挤在一个网络摄像头前，人人平等入画。10个全向麦克风阵列拾音，可清晰听到每位与会者的声音，让每个人都能平等地参与会议；AIFocus算法实现自动精准对焦，进行精准的人脸识别和语音定位追踪，并自动框选突出当前发言人，令发言人始终位于画面C位可让发言人实现更自由畅快的表达；定制高保真扬声器可输出10瓦清晰音质，让参会者说得自在，听得自如，确保会议信息的清晰传达。G1Pro kit体现在提高远程协作效率、降低会议成本、使视频会议，交流更平等。

Two ultra-wide-angle lenses capture 360° images in real time. Participants do not need to crowd in front of a webcam, and everyone is equally included in the picture. 10 omnidirectional microphone arrays pick up sound, and each participant's voice can be heard clearly, allowing everyone to participate in the meeting equally; the AIFocus algorithm achieves automatic and precise focusing, accurate face recognition and voice positioning tracking, and automatically The frame selection highlights the current speaker, so that the speaker is always at the C position of the screen, allowing the speaker to express more freely; the customized high-fidelity speaker can output 10 watts of clear sound quality, allowing participants to speak and listen freely, ensuring Clear communication of meeting information. G1Pro kit improves remote collaboration efficiency, reduces meeting costs, and makes video conferencing and communication more equal.

搭配有便携式多功能副摄像头内置5200mAh大电池，摆脱线的束缚，可以在不同场景中进行无线连接，方便快捷；同时提供聚焦主讲人模式，让主角永远保持在屏幕上C位，同时屏幕上也会放大其他当前发言者；白板增强模式通过技术手段提高白板的互动性、内容丰富性、智能性、扩展性，使用户能够更加高效、灵活地进行沟通和信息交流，更加身临其境的混合会议体验，重新定义智能视频会议。

Equipped with a portable multi-functional secondary camera with a built-in 5200mAh large battery, it can get rid of the shackles of wires and can be connected wirelessly in different scenes, which is convenient and fast; it also provides a focus on the speaker mode, allowing the protagonist to always stay in the C position on the screen, while the screen is also will amplify other current speakers; the whiteboard enhancement mode improves the interactivity, content richness, intelligence, and scalability of the whiteboard through technical means, allowing users to communicate and exchange information more efficiently and flexibly, and for a more immersive mixing Meeting experience, redefining intelligent video conferencing.

# GMERIT

## 电暖器 PORTABLE HEATER

### 设计师 Designer:

张波 Bo Zhang 18675872063 zhangbo@gmerit.com	何振斌 Zhenbin He 13570226078 hezhenbin@gmerit.com	屈炯亮 Jiongliang Qu 15876012924 qujiongliang@gmerit.com

邮箱: DENGXIAOYU@GMERIT.COM

区别于传统取暖器, 本设计采用MOSH半导体涂覆的透明玻璃, 取暖面积更大更广。MOSH半导体制热不仅快捷高效, 而且大量热量来源于产生的红外光波, 与人体自身的红外波长高度重合, 所以如同阳光下的感觉一样, 舒适而自然。

Unlike traditional heaters, this design uses MOSH semiconductor coated transparent glass for a larger and wider heating area. MOSH semiconductor heating is not only fast and efficient, but also a large amount of heat comes from the generation of infrared light waves, which is highly overlapped with the human body's own infrared wavelengths, so that it is as comfortable and natural as the feeling of being in the sunshine.

该产品超薄、时尚、高效、方便移动, 完全区别于传统的取暖器, 使取暖产品不再厚重, 变得更轻松, 温馨。

The product is ultra-thin, stylish, efficient, easy to move, completely different from the traditional heater, making the heating products are no longer cumbersome but rather offer a more relaxed and cozy experience.

双层玻璃结构, 两层玻璃间形成气流通道, 气体自下而上通过自然对流被加热。加上玻璃表面以辐射形式加热环境空气。整个产品以对流和辐射双重加热方式对室内空气进行升温。

With a double-glass structure, an airflow channel is formed between the two layers of glass, and the gas is heated by natural convection from the bottom up. In addition, the glass surface heats the ambient air by radiation. The whole product warms up the indoor air by both convection and radiation.

这款空调采用全新上下出风平台, 结合双吸双向离心式风机系统, 打造淋浴式制冷、地毯式制热和环绕式新风设计。实现送风更舒适, 外观更纤细。也有助于节约客厅的空间。正面岩板采用定制化设计, 可以基于一款柜实现不同风格的演变, 与家居环境更加融合, 也减少了模具新开和资源消耗, 利于可持续发展, 实现低碳、环保的设计理念。

This air conditioner adopts a new upper and lower air outlet platform, combined with a double-suction bidirectional centrifugal fan system, to create a shower cooling, carpet heating and surround fresh air design. Achieve more comfortable air supply and a slimmer appearance. It also helps to save space in the living room. The front rock slab adopts a customized design, which can realize the evolution of different styles based on a cabinet, which is more integrated with the home environment, and also reduces the new opening of molds and resource consumption, which is conducive to sustainable development and realizes the design concept of low carbon and environmental protection.

国际领先的上下出风技术升级, 实现送风更舒适, 外观更纤细。也有助于节约客厅的空间。打造小壳体, 大风量, 优化了家居空间。上下风口可以智能控制, 当室温较高时, 上下风口同时启动快速降温; 当温度适宜时, 下风口自动关闭。既节约用电, 又防止用户感冒, 真正实现风不吹人。

The world's leading upper and lower air outlet technology has been upgraded to achieve more comfortable air supply and slimmer appearance. It also helps to save space in the living room. Create a small shell, large air volume, optimize the home space. When the room temperature is high, the upper and lower air outlets will start to cool down quickly, and when the temperature is suitable, the lower air outlets will automatically close. It not only saves electricity, but also prevents users from catching colds, and truly realizes that the wind does not blow people.

创新百变风格, 用户可以根据家庭装修风格自由选择。正面岩板采用定制化设计, 可以基于一款柜实现不同风格的演变, 与家居环境更加融合, 也减少了模具新开和资源消耗, 利于可持续发展, 实现低碳、环保的设计理念。

Innovative and changeable style, users can choose freely according to the home decoration style. The front rock slab adopts a customized design, which can realize the evolution of different styles based on a cabinet, which is more integrated with the home environment, and also reduces the new opening of molds and resource consumption, which is conducive to sustainable development and realizes the design concept of low carbon and environmental protection.

## BrainCo轻凌M3智能仿生腿 BRAINCO M3 INTELLIGENT BIONIC LEG

BrainCo轻凌M3智能仿生腿是一款在脑机接口领域开发的具有智能算法技术与控制的新型智能膝关节假肢，周身采用T700碳纤，高密度和高强度铺层堆叠结构，保证轻凌M3智能仿生腿外壳坚固性和可靠性，耐磕碰耐磨耐刮。它能够满足下肢截肢患者在日常生活活动场景中所需要的动作自由度，用户可以像控制自己的腿一样控制假肢，舒适、安全、自由地行走。

BrainCo自研的算法课提供智能步态跟踪、下坡辅助、跌倒检测、骑行等功能，同时拥有瑜伽、椭圆机、高尔夫、乒乓球、跑步和睡眠等可选模式。轻凌M3智能仿生腿不仅能提供无与伦比的防水性能，还可以完全防止灰尘入侵，避免内部零部件损伤。无论是在水下一米，还是在潮湿的环境中，无畏山川，自由行走，享受阳光、沙滩和戏水的快乐。

通过自研技术与国产化替代方案，BrainCo轻凌M3智能仿生腿的价格压缩到了进口同类产品的五分之一到七分之一，让仿生手走进百万残疾朋友的家中成为可能。同时，强脑科技也在通过公益活动让更多人拥有免费获得仿生腿的机会。

BrainCo M3 is a new intelligent prosthetic knee with advanced control algorithm based on the research in the field of brain computer interface. The entire body is build with T700 carbon fiber, a high-density and high-strength layered stacking structure to ensure the sturdiness and reliability of the BrainCo M3, making it resistant to impacts, wear, and scratches. BrainCo M3 providing dynamic real time adaptations for the real time movement conditions.

BrainCo's algorithms provide smart gait tracking, downhill assistance, fall detection, cycling, and optional modes such as yoga, elliptical, golf, table tennis, running, and sleep. BrainCo M3 not only provides excellent water proof performance, but also completely prevents dust intrusion to prevent damage to internal components. The user can Walk freely through mountains and rivers, enjoy the sun, sand and water.

Through self-developed technology and domestic substitution solutions, the price of BrainCo M3 intelligent bionic leg is only one-fifth to one-seventh of similar imported products, making it possible for bionic legs to enter the homes of millions of disabled friends. Meanwhile, BrainCo is also working on public welfare projects to provide more disabled friends with the opportunity to obtain bionic legs for free.

Morus 木卫C2 的设计灵感来自于充满想象力的外太空,采用圆润流线型的独特设计和磨砂雾面的外壳,让它的外观极具质感。产品处处是设计的小巧思,让用户仅需“点、抽、弹”就可以简洁操作。区别于方方正正的家电设计, Morus木卫C2适配于多种风格的家居,能为更多小户型的家庭带去革新的烘衣体验。它也是一台兼顾极速烘干与精致烘衣的家用小型干衣机。我们洞察到用户有快速烘干和种种衣物护理的需求,通过创新的真空负压闪烘专利技术,它不到15分钟就能烘干一件衣物。身材小巧,功能全面。不仅能为衣物打造低温柔烘的体温级专业衣护,衣物的除味、除菌、除毛、除皱等护理都能在C2小型烘干机上完成。

节能 Morus木卫C2通过将烘衣效率提升达到节能效果,整体烘干效率比木卫C1提升20%,单件烘干不到0.3度电。环保 Morus木卫C2的外壳采用环保喷涂技术,环保、绿色、无害,让消费者使用更加放心。-提升生活品质 定位为小型烘干机新标杆的木卫C2烘干机,不仅保持了木卫产品一贯15分钟闪烘的优势,还能够满足除毛、除皱、低温护衣、除味、除菌等精致需求。真正做到了「岂止闪烘,一机搞定精致烘」,让更多家庭能够在衣物护理领域解放双手。

Morus木卫C2烘干机不仅保持了木卫产品一贯15分钟闪烘的优势,继承了品牌一直以来的创新基因,以产品为核心,在领先的行业技术上进行再突破,真正做到了「有用的创新」,在除毛、除皱、矜贵衣物的护理上等功能效果上都突破了瓶颈。可以说,木卫C2烘干机的「一机搞定精致烘」,填补了市场缺口,满足了精致用户多样化的烘衣需求。Morus木卫C2在2023年一经推出,就在双十一大促中荣获天猫趋势赛道新品牌TOP1的殊荣,同时也是天猫、京东小型烘干机热卖榜的TOP1。在行业大盘环境低迷的情况下做到逆势增长,全网销售额比去年同期提升37%。

The design inspiration of Morus C2 comes from the imaginative outer space, with its unique rounded streamline design and frosted matte shell, making its appearance highly textured. The product is filled with thoughtful design, allowing users to operate it simply with just "press, pull, and pop". Unlike the square-shaped design of traditional home appliances, Morus C2 is compatible with various styles of homes and brings innovative drying experience to more small households. It is also a small household dryer that combines fast drying and delicate clothes care. We have observed the demand for quick drying and various clothing care needs from users. With our innovative vacuum negative pressure flash drying patented technology, it can dry a piece of clothing in less than 15 minutes. Compact in size, comprehensive in functionality. It not only provides professional garment care with low-temp gentle drying, but also completes odor removal, sterilization, hair removal, wrinkle removal.

- Energy-saving The Morus C2 achieves energy-saving effects by improving the drying efficiency. The overall drying efficiency is 20% higher than that of MorusC1, and the energy consumption for drying a single item is less than 0.3 kWh.  
- Environmental-friendly The shell of Morus C2 adopts environmentally-friendly spraying technology, which is eco-friendly, green, and harmless, providing consumers with peace of mind.  
- Improved quality of life As the new benchmark for compact dryers, the Morus C2 dryer not only maintains the advantage of 15-minute quick drying that Morus products have always had but also meets the delicate needs of hair removal, wrinkle removal, low-temperature garment care, odor removal, and sterilization. It truly achieves "more than just quick drying, all-in-one delicate drying," allowing more households to free their hands in the field of garment care.

The Morus C2 dryer not only maintains the advantage of Morus products, which is the 15-minute quick-drying, but also inherits the brand's long-standing innovative genes. With the product as the core, it has made breakthroughs in leading industry technologies, truly achieving "useful innovation" and surpassing bottlenecks in functions such as hair removal, wrinkle removal, and care for delicate clothing. It can be said that the Morus C2 dryer's "one machine for delicate drying" fills a market gap and meets the diverse drying needs of sophisticated users. Since its launch in 2023, the Morus C2 has been honored as the TOP1 new brand in the Tmall Trend Track during the Double 11 promotion. It is also the TOP1 best-selling small dryer on Tmall and JD.com. Despite the downturn in the industry, it has achieved growth against the trend, with a 37% increase in total online sales compared to the same period last year.

这是一款专业录音麦克风, 设计灵感来源于荷花, 麦克风就像被荷花托住一样, 紧紧的抱在手心, 设计一体性很强。这是一款电容麦克风, 大振膜咪芯设计, 灵敏度高, 能捕捉很多细微的声音; 全金属机身打造, 手感十足; 此外, 它还搭配了防喷网和防震架的配套设计, 在捕捉声音的同时, 我们也做了一系列过滤杂音的设计, 尽可能的衰减外界因为震动产生的杂音。

This is a type of professional recording microphone. Design is inspired by lotuses. Just like being held by lotus, microphone is held tightly in the palm of hand. The integrity of design is perfectly presented. This is a condenser microphone. With a large-diaphragm microphone chip and featuring high sensitivity, it can capture lots of subtle sounds. This microphone is made of all-metal build, giving a full handfeel. In addition, it equips with pop filter and shock mount. We set a series of noise filtering designs. While the microphone captures the sounds, it can as much as possibly decrease the noise caused by vibration from outside.

为了实现高音质需求, 该产品采用了25mm大振膜拾音器, 能更清晰捕捉声音; 设计来源来自于荷花, 把防震架比喻成荷花, 把麦克风捧在手心, 外观设计一体性很强。

For achieving high sound quality requirement, this product is adopted a 25mm large-diaphragm pickup, which can capture clearer sound. The design is inspired by lotuses. Shock mount is compared to a lotus, and the microphone is held in palm, making a strongly integrated appearance design.

即插即用, 功能简单, type C接口通用性强; 全金属设计, 屏蔽外界电磁干扰能力强; 双接口设计, 通用性更强; 麦克风咪芯拾音灵敏度高, 底噪小, 频率响应宽。

Plug and play, with easy uses of functions. Type-C interface preforms strong versatility. All-metal design, this microphone owns strong ability to shield external electromagnet interference. This series of mic, providing two different interfaces (xlr/type c) for option, are more versatile for different devices. The microphone chip features high sensitivity, low noise level and wide frequency response.

冷萃咖啡机  
COLD BREW COFFEE MAKER

此冷萃咖啡机是通过全新过滤专利设计, 由普通冷泡萃取需12-24小时提高到95%以上, 最快只需9分钟可萃取出咖啡。在提升产品性能表现同时, 还赋予产品独特的外观和质量感, 而最重要的是仍能保持冷萃咖啡的原本风味。

Thanks to its innovative and patented pumping & filtration process, this Cold Brew Coffee Maker can greatly shorten the preparation time by 95% or above, consumers can enjoy a nice cold brew coffee in just 9 minutes. Its unique and stylish outlook design offers a contemporary vibe to consumer's home.

可拆式过滤粉杯, 通过反复循环过滤系统, 干净易清洁又环保! 再加上反抽式设计, 将顶部过滤完的咖啡完全回抽至咖啡壶, 做到不浪费一滴咖啡!

Through the repeat pumping & filtration processes instead of spinning, it genuinely extracts the coffee aroma to achieve the best cold brew coffee ever without powder residue. The last step of inverted extraction from top powder container to glass carafe ensure no waste of brewed coffee which is a way to conserve water.

首先, 通过严格的质量控制和精益求精的工艺流程, 我们的产品在市场上享有良好的声誉。高品质的产品不仅能够提升用户体验, 还能够树立客人品牌形象, 吸引更多忠实客户的青睐。这种高品质标准, 不仅是对产品自身的要求, 更是对整个产业链的规范和引领, 推动了产业规模的发展和工艺的改进。其次, 我们不断优化商业运营模式。通过引入先进的管理理念和技术手段, 我们提升了生产效率和产品质量, 降低了成本, 增加了利润空间。同时, 我们注重与供应商及客户等的合作, 建立起良好的合作关系, 实现了产业链的优化和整合。这种优化的商业运营模式, 不仅可以提升企业的竞争力, 还能够促进整个产业的发展, 推动行业的健康发展。通过不断提升产品品质和优化商业运营模式, 我们将为客户带来更好的产品体验, 为企业创造更大的商业价值。

By continuously improving product quality and optimizing business operation models, our target is to create greater value for customers, businesses and community to create greater economic benefits.

**EASY-CLEAN**  
Carafe, hopper, and filter can be removed for a quick cleanup.

**REUSABLE FILTER**  
Easy to clean and cuts down on waste.

640mm超薄机身轻松融入一体化客厨, 更开阔为厨房流出更多空间, 第四代微孔发泡技术。泡孔细密, 发泡层比传统环戊烷发泡层薄10%, 箱体更薄内部空间更宽敞更保温。

1.冷藏区食物的陈列感, 干净规整, 冷冻区精细化分储, 多分区设计。2.90L宽幅变温区, -20°C-5°C共26档温度自由调节。3.冷藏室多点离子杀菌净味。冷藏风道内置离子发生器, 多维度触点释放亿万级正负离子群, 24小时全域主动式杀菌, 净味。

1.产品质量和设计更加符合消费者需求的功能来增加产品竞争力和销售额, 随着人们对智能家居的需求增加, 智能冰箱成为发展趋势。制造商可以加强研发, 不断改进智能化技术, 提高产品附加值, 增强产品竞争力。2.加强品牌营销提高品牌知名度和塑造品牌形象来吸引更多消费者, 提高销售额。

With a width of 640mm, the slim body seamlessly integrates into the integrated kitchen, creating more space and making it more spacious. The fourth generation of microcellular foaming technology. The bubble cells are fine, the foam layer is 10% thinner than the traditional cyclopentane foam layer, the box is thinner, and the internal space is more spacious and insulated.

The display of food in the refrigeration zone is clean and tidy, while the freezing zone has a finely divided storage and multi-zone design." "90L wide variable temperature zone, -20°C-5°C, a total of 26 temperature levels can be adjusted freely." "Multi-point ion sterilization and deodorization in the refrigerator. Built-in ionizer in the refrigerated air duct, multi-dimensional contacts release hundreds of millions of positive and negative ion clusters, 24-hour global active sterilization, and deodorization.

To increase product competitiveness and sales, manufacturers can enhance their research and development efforts to continuously improve the intelligence technology of smart refrigerators, and increase product value-added features that better meet consumer demands for product quality and design. With the increasing demand for smart homes, smart refrigerators have become a development trend." "Strengthening brand marketing to improve brand awareness and shape brand image can attract more consumers and increase sales.

Organic Pro是一款新型智能充电站,具备智能化充电场景切换、智能算法、IP65级防水、超低功耗等技术特点,完美适应了新时代充电需求。充电站主机配置了一个手电筒,用户可在需要时按压弹开取出,具备极高的便携性,解决户外照明、充电、汽车打火的需求。本款产品还可以搭配手机APP个性化使用,达成一站式管理模式,实现智能化管理,安全保障与科技便民共行。

Organic Pro配置了先进的智能算法,可以搭配各种家庭电器产品,以及兼顾各种不同车型的充电需求,解决户外野炊露营用电和新能源汽车充电的问题。它能够自动感知并调节充电速度与功率,优化充电曲线,可适应各种不同

充电需求,真正实现智能化充电,避免损害电池寿命。

Organic Pro致力于打造户外生活能源体验的系列产品,分析用户的吃、住、行等需求,以智能充电站为切入点,配套设计便携太阳能板、手电筒、电锅炉、电烤炉等产品,让用户充分体验能源时代带来便利、舒适的生活体验。Organic Pro+副电池可以成为住宅发电站,为家庭日常提供电能使用。

Organic Pro is a new type of intelligent charging station, with intelligent charging scene switching, intelligent algorithm, IP65 waterproof, ultra-low power consumption and other technical features, which perfectly meet the charging needs of the new era. The station is equipped with a flashlight, and the user can press and pop out to take it out when needing. This product can also be used with a mobile phone APP to achieve a one-stop management mode, realize intelligent management, safety assurance and technology convenience.

The build-in advanced intelligent algorithms of Organic Pro is able to be matched with various home appliances and meet the charging needs of various models, solving the power questions of outdoor camping and charging questions of new energy vehicles. It can automatically sense and adjust the charging speed and power, optimize the charging curve, adapt to various charging needs, truly realize intelligent charging, and avoid damaging battery life.

Organic Pro is committed to creating a series of products for outdoor living energy experience, analyzing the user's demanding for food, housing and transportation, and taking the smart charging station as the entry point, matching portable solar panels, flashlights, electric boilers, electric barbecue ovens and other products, in order to allow users to fully experience the convenient and comfortable living experience brought about by the energy age. The Organic Pro+ extra battery can become a residential power station to provide electricity for daily home use.

该产品整体造型为圆为基础形态，主体面四分之三区域网孔排列，整齐统一又富有韵律节奏，网孔渐变的形式与按键布局相互呼应；边缘设计有DOA环形灯，进行声源定位，提升用户使用时的体验感，材质上使用铝合金进行阳极氧化加工工艺、增加了产品的细腻与品质感，给予用户高端且商务之感。

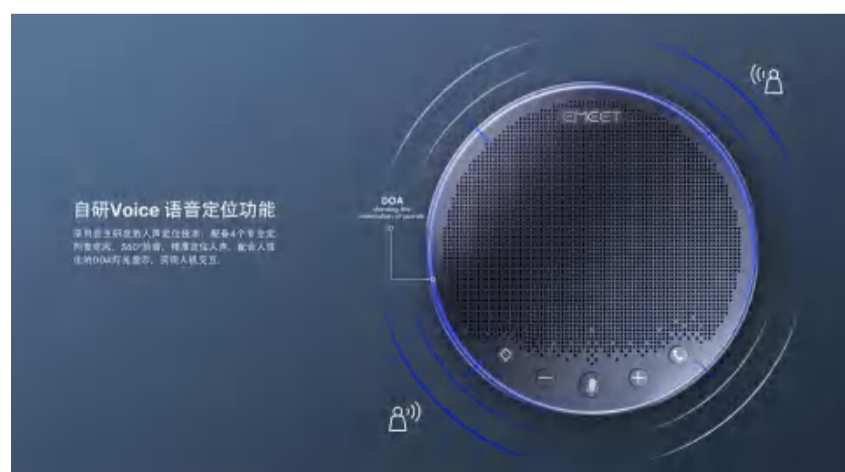

采用自主研发的人声定位技术，配备4个专业级麦克风，360度拾音，精准定位人声，配合人性化的DOA灯光显示，且支持360度通话和全双工通话，达到人机交互的效果。M3为混合式工作的实行提供了无限可能，让企业随时随地的展开会议，聆听清晰的会议语音；提高了通话的质量与外部团队的交流和协作。

该产品内置5200mAh电池，可支持18小时通话时长，近30小时的续航时间，提升其便携性，满足各种场景使用；而且支持扩展双台级联，拓展更大空间让会议室内每个人的声音可以清晰；突出了通信的便利性和人性化设计，使得用户在各种情况下都能自由、舒适地使用电话进行通信，为人们的生活和工作带来了极大的便利和舒适，这是对 society 的一种重要贡献。

The overall shape of the product is based on a circle, and the main surface of the three-quarters area mesh arrangement looks neat, uniform, and rhythmic, and the mesh gradient form and key layout echo each other. The edge of the product is also designed with DOA ring light, which can locate the sound source and enhance the user's experience. At the same time, the anodic oxidation process of aluminum alloy used to increase the product's delicacy and quality gives users a sense of high-end and business.

It adopts self-developed vocal positioning technology, equipped with 4 professional-grade microphones, 360-degree sound pickup, accurate positioning of human voices, and humanized DOA lighting display. It also supports 360-degree calls and full-duplex calls, achieving the ultimate in human-computer interaction. Effect. M3 provides unlimited possibilities for the implementation of hybrid work, allowing enterprises to conduct meetings anytime and anywhere, listening to clear conference voices; improving the quality of calls and communication and collaboration with external teams.

This product has a built-in 5200mAh battery, which can support 18 hours of talk time and nearly 30 hours of battery life, improving its portability and meeting use in various scenarios; it also supports expansion of dual-station cascade, expanding a larger space to let everyone's voice in the conference room Can be clear; highlights the convenience of communication and humanized design, allowing users to communicate freely and comfortably using the phone in various situations, bringing great convenience and comfort to people's lives and work, which is An important contribution to society.

A5-A厨师机采用一体式铸铁工艺, 设计独具特色的等腰三角形元素, 彰显产品的力量和稳定性。镂空悬浮式设计带来创新的视觉效果, 增强了使用体验的独特性。机器内部创新的机械抬头结构设计巧妙隐藏, 简化了整体清洁, 保证了稳定静音的性能, 满足广大用户的需求。

The A5-A kitchen mixer is crafted using integrated cast iron technology, featuring distinctive isosceles triangle elements that highlight its strength and stability. Its hollow suspended design introduces innovative visual effects, enhancing the unique user experience. The cleverly concealed mechanical lift-head structure inside the machine simplifies overall cleaning, ensuring stable and quiet performance that meets the needs of a wide range of users.

A5-A厨师机采用冷热对流散热系统, 长时间使用不易发烫, 确保安全性。搅拌头经过倾斜优化, 提供比同类产品更广泛的搅拌范围, 效率提升20%, 节能高效。设计适合家庭烹饪初学者和年轻消费者, 操作简便省力。机身内部旋转机构隐藏, 易于日常清洁。镂空悬浮式设计减轻机器重量, 方便移动和收纳。

The A5-A kitchen mixer features a cold and hot convection heat dissipation system, ensuring it remains cool and safe during extended use. Its mixing head is optimized with a tilt for a wider range of mixing compared to similar products, achieving a 20% efficiency improvement and high energy efficiency. Designed for novice home cooks and young consumers, it offers easy operation and convenience. The internal rotating mechanism is hidden for effortless daily cleaning. Its hollow suspended design reduces the weight of the machine, making it easy to move and store.

A5-A厨师机采用铝合金材质, 具备优秀的可回收性。设计针对家庭烹饪初学者和年轻消费者, 与市场上大多数产品有所区别, 提供较高的溢价空间, 为企业在产品开发中带来更高的经济效益, 支持可持续发展。

The A5-A kitchen mixer is made from aluminum alloy, known for its excellent recyclability. Designed for novice home cooks and young consumers, it distinguishes itself from many products on the market by offering a premium positioning, which enhances economic returns for businesses investing in product development and supports sustainable development.

星火智慧黑板从知识讲解、人机交互、师生问答和教学反思4个场景出发,让课堂教学更直观、更高效、更有启发、更易回顾。教师在课中应用智能板书、移动授课、AI语音指令等功能高效开展教学,课后通过板书分享、星火智录高效回顾课堂重点。例如:在传统的课堂上,每节课老师需要往返讲台操作设备,现在老师只要通过智能笔“动动嘴巴”,就能远程语音操控教学屏幕,帮老师减少80%的往返讲台时间,提高移动授课效率;科学课堂上,孔子、诸葛亮等历史名人跨越古今回答同学们的“十万个为什么”,问题解决率已经从23%提升到了95%、学生的举手提问率已经从16%提升到了73%;长春宽城全区31所中小学、1900余名教师应用星火智慧黑板,整体备课效率提升28.7%,人均备课时长仅需0.53小时。

在新技术革命的背景下,黑板这一传统教学工具实现了智能化、数字化升级,成为提升课堂教学效率和学生知识理解的重要工具。利用人工智能等先进技术,提高教学效率,发展学生核心素养,是当前课程改革的核心任务。讯飞星火认知大模型赋能的“讯飞星火智慧黑板”便是在这样的大背景下诞生的,它代表了信息技术与教育教学深度融合的新趋势。讯飞星火智慧黑板,搭载讯飞星火认知大模型V3.5,集多模态理解与推荐、全自然交互、虚拟人辅教、智慧化录课与分享等核心特性于一体,旨在让黑板从传统板书工具,跃迁为教师AI助手。

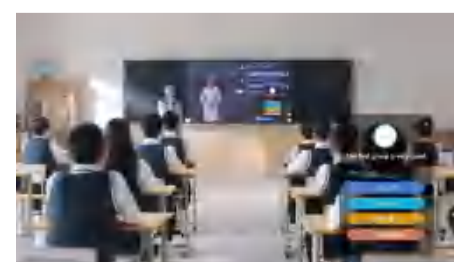

1.2024年3月,中国人民大学附属中学陆续开展星火智慧黑板应用,覆盖12间教室、130余名教师常态化应用,日均使用7.2小时,教师在课中应用智能板书、移动授课、AI语音指令等功能高效开展教学,课后通过板书分享、星火智录高效回顾课堂重点。2.河南、山东、吉林等地全面推进应用星火智慧黑板。其中,长春市宽城区全区31所中小学、1900余名教师使用星火智慧黑板,人均备课时长仅需0.53小时,整体备课效率提升28.7%。星火智慧黑板产品规划与设计由科大讯飞硬件中心负责,工业和信息化部将科大讯飞硬件中心认定为“2023国家级工业设计中心”。3.2024年3月7日,国务院关于印发《推动大规模设备更新和消费品以旧换新行动方案》的通知,强调严格落实学科教学装备配置标准,保质保量配置并及时更新教学仪器设备。讯飞星火智慧黑板,代表着课堂教学场景下的“新质生产力”,旨在推动教育高质量发展。

iFLYTEK Spark Smart Blackboard enhances classroom teaching by making it more visual, efficient, enlightening, and reviewable through four scenarios: knowledge explanation, human-computer interaction, teacher-student Q&A, and teaching reflection. Teachers can efficiently conduct lessons using smart blackboard writing, mobile teaching, and AI voice commands during class, and efficiently review key points of the lesson after class through blackboard sharing and iFlySpark intelligent recording.

The iFLYTEK Spark Smart Blackboard, equipped with the iFlySpark cognitive big model V3.5, integrates core features such as multimodal understanding and recommendation, fully natural interaction, virtual human-assisted teaching, and intelligent recording and sharing of lessons. Its aim is to transform the blackboard from a traditional writing tool into an AI assistant for teachers.

In March 2024, the High School Affiliated to Renmin University of China successively implemented the application of iFLYTEK Spark Smart Blackboard, covering 12 classrooms and over 130 teachers for regular use, with an average daily usage of 7.2 hours. Teachers efficiently conduct lessons using functions like smart blackboard writing, mobile teaching, and AI voice commands during class, and efficiently review key points of the lesson after class through blackboard sharing and iFlySpark intelligent recording.

CGE01尺寸58\*58\*183mm,重量轻至500克,展现了极致的便携、紧凑的外观设计,融合专业级别的磨豆配置,不仅能够满足从土耳其咖啡、意式、摩卡壶到手冲咖啡等不同咖啡粉所需的粗细度,其90档的研磨精度,赋予小巧机身强大的研磨动力,使女性用户的研磨过程也能轻松愉悦。此外,我们还配备了智能化设定,当机器卡机时会自动倒转,有效防止因卡死而导致的机器破损,确保了使用的安全性和耐用性。在外观上,机身采用全铝合金制造,手持部位采用贴皮工艺设计,舒适的握持体验的同时增加了防滑特性。此外,这种工艺还为用户带来了一种独特的触感对比,冰冷的金属与温暖的皮质相互交织,营造出一种既对比鲜明又和谐统一的感官体验。在外观上,机身采用全铝合金制造,手持部位采用贴皮工艺设计,舒适的握持体验的同时增加了防滑特性。此外,这种工艺还为用户带来了一种独特的触感对比,冰冷的金属与温暖的皮质相互交织,营造出一种既对比鲜明又和谐统一的感官体验。

CGE01具备卓越的电池性能和能耗管理系统,使其在满电状态下可研磨20次20g粉量,极大地提升了户外爱好者和咖啡专业人士的便捷使用体验。采用特殊材料制作减速箱,显著提升了整机的耐用性和使用寿命。此外,它的长续航能力减少了对频繁充电的依赖,降低能源消耗和碳排放,体现了品牌对可持续发展理念的积极响应。

CGE01电动咖啡豆研磨机精准迎合了咖啡爱好者对现磨咖啡的热爱以及对咖啡多样性的追求。内置不锈钢刀盘,精密的结构设计在结合强劲动力使得咖啡豆的研磨更加均匀,能充分释放出咖啡豆的香气和味道。刀盘设置90档研磨精度,满足从土耳其咖啡,意式,摩卡壶到手冲咖啡等所有咖啡粉粗细度。此外,一键式启动设计使得操作变得直观易用,用户只需简单地将咖啡豆放入研磨机,选择合适的研磨粗细度,然后按下启动按钮,CGE01便会自动完成剩余工作,符合便携的设计理念。

Measuring just 58\*58\*183mm and weighing only 500g, the CGE01 exhibits exceptional portability and compactness. Armed with a professional-level configuration, it can adapt to different use environments and satisfy the varying bean density requirements of Turkish coffee, espresso, mocha, and pour-over coffee. It boasts 90 grinding levels, providing powerful grinding capabilities within its compact design, offering an effortless and enjoyable experience to female users. Moreover, with intelligent settings, it automatically reverses in the event of a jam, effectively preventing machine damage and ensuring safety and durability. It is made of aluminum alloy. Its grip area is treated with a veneer process that provides a comfortable holding experience and an enhanced anti-slip property. This process also gives users a unique tactile contrast. Icy-cold metal and warm leather intertwine to create a contrasting yet harmonious sensory experience.

Equipped with an outstanding battery performance and energy consumption management system, the CGE01 can grind coffee beans up to 20 times (20g each time) on a full charge, significantly improving the use experience of outdoor enthusiasts and coffee professionals. It enjoys a gearbox made from special materials, dramatically improving durability and the product's life. In addition, its long-standing battery life reduces dependence on frequent recharging, which can reduce energy consumption and carbon emissions, demonstrating the brand's active response to the concept of sustainable development.

The CGE01 electric coffee grinder precisely caters to coffee lovers' passion for freshly ground coffee and their quest for coffee varieties. The stainless steel cutter head features a precision structural design, which, combined with robust power, can grind coffee beans more evenly and release the full aroma and flavor of the coffee beans. The cutter head has 90 grinding levels to meet the varying bean density requirements of Turkish coffee, espresso, mocha, and pour-over coffee. Additionally, the one-button power-on design makes operation intuitive and easy. Users simply need to pour coffee beans into the coffee grinder, select the proper grinding levels, and press the power-on button, and the CGE01 can automatically complete the following steps, in line with the design concept of portability.

Openbuds 气传导耳机  
OPENBUDS AIR CONDUCTION EARPHONES

它的设计延续了该品牌的“美丽生活”系列，拥抱了东方现代性的审美语言。运用清晰的线条和几何形状，再加上混合和负空间等传统的中国绘画手法，创造出一种半透明的彩虹色，抽象地体现了东方现代极简主义的精髓。

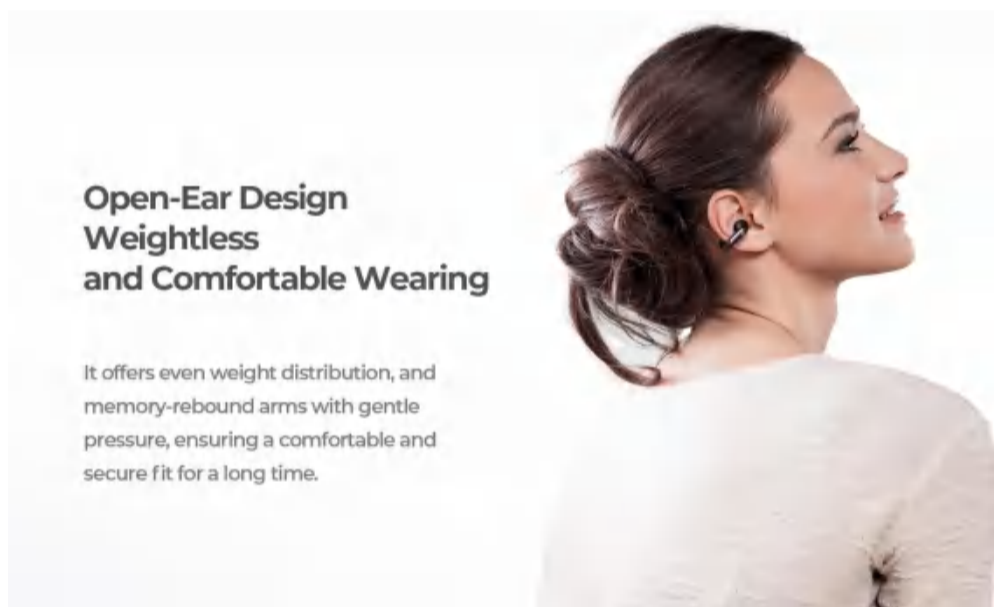

其部件主要材料为环保材料：化学成分良好的ABS和PC，抗性，无毒、无臭、可回收利用，符合环保要求，符合可持续发展、绿色、环保的理念。

全新的耳夹形态开放式蓝牙耳机，在造型上别具一格，在佩戴体验上带来全新升级，同时也带动了蓝牙耳机行业快速增长。

Its design continues the brand's "Beautiful Life" series, embracing the aesthetic language of Eastern modernity. Employing clean lines and geometric shapes, along with traditional Chinese painting techniques such as blending and negative space, it creates a translucent iridescence and abstractly embodies the essence of Eastern modern minimalism.

The main materials used in its parts are environmentally friendly ones: ABS and PC with good chemical resistance, which are nontoxic, odorless and recyclable, meeting environmental protection requirements, and conform to the concept of sustainable development, green and environmentally friendly.

The new ear clip-style open Bluetooth headset has a unique design and brings a new upgrade in wearing experience, which also drives the rapid growth of the Bluetooth headset industry.

A5/A6是一款网红麦克风，最为出彩的是它内置两组不一样动态灯效，相互照射形成一种全新的RGB灯效。

A5/A6 is a network celebrity microphone. The most outstanding feature is two different groups of built-in dynamic lighting effects, which illuminate each other to form a brand-new RGB lighting effect.

它是一款轻量化麦克风产品，塑料机身搭配金属网能塑造更多的造型，我们是以容易组装、生产为出发点，简化防震架的设计，减少配件数量，使得安装更加便捷，提高麦克风产能。在功能上配置了静音和麦克风增益调节，夜深的时候说话声音可以适当调小哦。

It is a lightweight microphone product. Plastic body with metal mesh can create more shapes. Picking the starting point on easy assembly and production, we simplify shock mount design and reduce the number of accessories, to facilitate microphone installation and promote microphone productivity. Equipped with mute function and gain adjustment, speaking voice can be appropriately turned down at the mid-night.

动态的灯效吸引眼球；简化防震架设计，尽可能减少开模件数；功能单一明确，即插即用，type C接口通用性强；两组动态的灯效的应用，颜色比一组更丰富多彩；RGB灯效酷炫，容易生产，小巧玲珑。

Dynamic lighting effects are attractive and attention-grabbing. Simplify the design of shock mount to reduce the number of molds as much as possible. The function is brief and clear. Plug and play. Type C interface is highly versatile. The application on two groups of dynamic lighting effects is more colorful than one group. RGB lighting effect is cool. The microphone is easy to produce, with small but exquisite body.

## 莱克天狼星三合一洗地机S9 LAKE SIRIUS 3-IN-1 FLOOR SCRUBBER S9

LEXY 莱克

### 设计师 Designer:

天狼星通过三合一的设计独创性的将地毯吸尘、地板洗地以及床铺除螨需求整合成一款产品。为减少用户因为清洁的多种需求而增加的工作量和成本。通过独有的技术滚刷上的螺旋皮条可以拍打地毯，清洁深处的灰尘。另外可视化喷嘴帮助用户准确清理特定区域。另外独立手持吸尘器以及滚刷的自动清洁让用户清洁工作化繁为简。

为响应国家绿色发展该产品采用高效尘杯过滤系统，无尘袋，减少浪费；高效无刷电机，减少碳排放。定点清洗地面和识别灰尘程度自我调整吸力强弱减少资源浪费减少用水时间和水量，同时在该产品中使用了20%的回收材料，产品能耗也低于同类产品，通过以上技术为中国双碳做出努力。

此产品形式跟随功能，每个功能都直观易用。将功能和实用性巧妙的集合，塑造出从消费者角度出发设计的产品，为消费者家庭的多种环境使用需求而设计。硬朗的线条和金属的CMF处理更符合现代风格的家居环境，更倾向于中高收入消费者的审美偏好。

Sirius has innovatively combined the carpet vacuuming, floor mopping, and mites removal needs into one product through its unique three-in-one design. This is to reduce the workload and costs for users due to various cleaning needs. The spiral bristles on the unique roller brush can beat the carpet to clean deep dust. Meanwhile, the visual water spray nozzle helps users clean specific areas accurately. Additionally, the independent handheld vacuum cleaner and automatic cleaning of the roller brush make the cleaning process more easier.

In response to the national green development, the product uses a high-efficiency dust cup filtration system, dust-free bag to reduce waste; Efficient brushless motor to reduce carbon emissions. Fixed-point cleaning of the ground and identification of dust degree self-adjusting suction strength to reduce waste of resources to reduce water use time and water amount, while the use of 20% recycled materials in the product, the product energy consumption is also lower than similar products, through the above technology for China's double carbon efforts.

This product form follows the function, each of function is intuitive and easy to use. The clever combination of function and practicality creates products designed from the consumer's point of view and is designed for a variety of environmental use needs of consumer families. The hard lines and metal CMF treatment are more in line with the modern style of the home environment, which is more inclined to the aesthetic preferences of middle and high income consumers.

## 海尔朗境X11洗烘套装

### HAIER LANGJING X11 WASHING AND DRYING SET

#### 设计师 Designer:

 邮箱: HUGL@HAIER.COM  
 地址: 山东省青岛市海尔路1号 (具体需要单据沟通确认)

X11洗烘套装采用全新外观设计, 机身超薄平嵌设计, 半隐式拉手, 使家电家居完美融合。全景大视窗, 采用半透式钢化黑玻, 硬度高, 耐磨性好。X11不仅外观优异, 功能配置也是最强。获IFA组委会推荐, 海外支持23国语言, 广受国内外追捧。在今年公布的德国iF设计奖获奖名单中, X11套系凭借引领行业的能效表现和创新设计, 从一万多件参赛产品中脱颖而出, 斩获这一权威奖项。

X11洗衣机独创新风功能, 可实现2分钟全面置换筒内空气, 最长可持续进行12小时的换风, 有效防止因忘记取衣而产生霉味, 满足用户对洁净洗护体验的需求。在洗涤结束后, X11洗衣机还会定时旋转抖散衣物, 防止衣物因长时间未取而产生褶皱。

X11干衣机采用海尔首创的专利双擎热泵技术, 创新采用两个电机, 独立电机+独立风机。做到1:1全时正反转, 正转反转都有风, 且风速可调, 解决了衣物缠绕、烘不干烘不透的问题, 保证了烘干效果。

X series 11 adopts a new appearance design, the body is ultra-thin flat embedded design, semi-hidden handle, so that it can perfectly fit in any home. Panoramic large window, using semi-transparent tempered black glass which has high hardness and good wear resistance. The X series 11 not only looks good, but also has the most attractive features. Recommended by the IFA committee, this series support 23 languages. The X series 11 was selected from more than 10,000 entries for its industry-leading energy efficiency performance and innovative design and won the winner of this year's iF Design Award in Germany.

The original fresh air function of the X11 washing machine can fully replace the air in the drum in every 2 minutes, and the air can be changed for up to 12 hours continuously, effectively preventing the musty smell caused by forgetting to take clothes, and meeting the needs of users for clean washing and care experience. At the end of the washing, the X11 washing machine will also rotate regularly to shake the clothes to prevent the clothes from wrinkles.

The X11 dryer adopts the patented twin turbo heat pump technology pioneered by Haier and innovates with two motors, independent motor and independent fan. With Twin Turbo technology, it has resolved the issue of clothes tangling during the cycle. It can achieve 1:1 full time reverse. The drum will rotate in clockwise direction and anti-clockwise direction for the same time. And during rotation, wind will always blow into the drum to boost drying. Additionally, it has variable-speed air circulation, which brings strong airflow for large items and gentle airflow for small items. Even without rotation, there's still airflow. That helps to ensure thorough and wrinkle-free drying for large items and delicate drying for small items, without sticking on the drum walls.

一种用于立面清洁的智能机器人,帮助人们更好地清洁窗户,解放双手,减少擦拭窗户时的攀爬危险。圆润的形态,优雅流畅的机身线条,使外观设计极具功能性和美观性。搭配120ml超大容量可视水箱设计,实时观察水量变化,同时打破行业常规,首创76MM超薄机身,扩展多种应用场景,防盗窗玻璃也能轻松灵活擦洗。双喷嘴交叉喷水,采用行业独创智能水泵喷水方式,强力喷水,解决喷水量小效率低的问题,在户外多变的环境下,也能做到防风吹散,喷水不受影响。3800PA超强吸力,根据不同玻璃表面智能变频调整吸力大小,UPS断电保持30min不掉落,手机APP远程智控搭配FMT-SLAM4.0智能规划,10国语言灵活切换,AI智能规划路径,一键操作。高效擦窗,提升整体清洁效率,体现产品智能化。

对于高层住户,人工擦窗存在巨大的安全隐患,T10有效避免高空作业带来的危险,从以人为本的角度出发,致力于解决高层擦窗难,擦窗危险的核心痛点。玻璃窗面积较大,需要长时间抬臂擦拭,费时费力。且雇佣高额的家庭保洁,成本让很多家庭望而却步,T10作为解决玻璃窗等立面清洁场景的单品,可有效节省时间和劳力成本,通过吸力稳定的吸附于立面上,利用算法规划擦窗路径,完整覆盖全窗清洁,并通过边框探测、断电续航、安全绳等防护措施,防止机身跌落,从而实现机器对人工擦窗的完全替代。除常见家庭主妇外,T10擦窗机器人为行动不便的老人及残障人士,提供了生活的便捷性。满足特殊人群需求,有效提高居住环境,体现社会的包容性。

城市化进程加速和高层建筑增多,人们对安全高效的擦窗解决方案的需求日益增长。以及在人口老龄化和劳动力成本上升的前提下,T10擦窗机器人可代替人工进行重复,危险且耗时的擦窗工作,有效的解决劳力和时间成本,具有较大的市场潜力。T10擦窗机器人所属企业产研销一体,内置零件和材料规模化生产,最大化降本增效,提高其产品在整個行业的核心竞争力,多个平台多种销售渠道,同时产品研发和制造涉及高端制造,人工智能,传感器等多个领域,有助于提上整个行业的附加值。T10擦窗机器人的研发和应用,推动了智能家居和人工智能技术的发展,促进了家用擦窗机器人技术领域的创新。

A smart robot for facade cleaning, featuring sleek body lines that enhance both functionality and aesthetics. It includes a 120ml large-capacity visible water tank, allowing real-time monitoring of water levels, and boasts a pioneering 76mm ultra-thin design that expands its application to various scenarios, including easy and flexible cleaning of burglar-proof windows. The robot is equipped with dual nozzles for cross-spraying and employs an industry-innovative intelligent water pump system for powerful spraying. This addresses the issue of low spray volume and inefficiency, ensuring that the spray is not affected by wind in changing outdoor environments. With 3800PA ultra-strong suction power, it intelligently adjusts suction levels based on different glass surfaces. It can be remotely controlled via a smartphone app and features FMT-SLAM4.0 intelligent planning, flexible switching between 10 languages, and AI-powered intelligent path planning.

For residents of high-rise buildings, manual window cleaning poses significant safety hazards. The T10 effectively mitigates the dangers associated with high-altitude operations, addressing the core issues of difficulty and danger in high-rise window cleaning. As a solution for cleaning glass windows and other vertical surfaces, the T10 can significantly save time and labor costs. It adheres stably to surfaces using strong suction power and utilizes algorithms to plan the cleaning path, ensuring complete window coverage. With features such as edge detection, power outage endurance, and safety ropes, it prevents the device from falling, thus fully replacing manual window cleaning. In addition to typical housewives, the T10 also provides convenience for elderly and disabled individuals with limited mobility.

With the acceleration of urbanization and the increase in high-rise buildings, there is a growing demand for safe and efficient window cleaning solutions. Given the aging population and rising labor costs, the T10 window cleaning robot can replace humans in performing repetitive, hazardous, and time-consuming window cleaning tasks, effectively addressing labor and time costs and possessing significant market potential. The company behind the T10 window cleaning robot integrates production, research, and sales. By scaling the production of internal parts and materials, they maximize cost reduction and efficiency, enhancing the product's core competitiveness within the industry. Utilizing multiple platforms and sales channels, their product development and manufacturing span high-end manufacturing, artificial intelligence, and sensor technology, adding value to the entire industry.

Europa空气净化器采用V型出风口设计,有效降低噪音20%,噪音水平仅为53分贝。其洁净空气输送率(CADR)达到300,兼具高效节能特点。产品重量仅3.2公斤,设计紧凑,便于移动。它不仅具备强大性能,还能适应多种复杂使用环境。30度倾斜显示面板,可实时监测房间各个角落的空气质量。优化的进风设计,能够有效捕捉角落和周边区域的尘螨和宠物毛发。该净化器易于清洁且安全,长期使用可保持产品正面洁净如新。

The Europa air purifier features a V-shaped air outlet design that effectively reduces noise by 20%, bringing the noise level down to just 53 decibels. It boasts a Clean Air Delivery Rate (CADR) of 300, combining high efficiency with energy savings. Weighing only 3.2 kilograms, it has a compact design for easy mobility. This purifier not only delivers powerful performance but also adapts to various complex environments. The 30-degree tilted display panel allows real-time monitoring of air quality in every corner of the room. The optimized air inlet design effectively captures dust mites and pet hair from corners and surrounding areas. Additionally, the purifier is easy to clean and safe to use, maintaining a clean, new appearance on the front for long-term use.

Europa空气净化器专为小户型家居、儿童房和宠物空间等细分市场开发,满足用户需求。该产品采用H13 HEPA与高效活性炭二合一滤网,能隔绝99.9%的空气颗粒物并去除异味,同时配备UV灯杀菌杀病毒。内置微动开关,拆卸后自动断电,使用更安全。其高效节能,符合能源之星标准。体积小巧,减少塑料材料的使用,降低运输成本,有效减少能源消耗。

The Europa air purifier is specifically designed to meet the needs of niche markets such as small households, children's rooms, and pet spaces. It features a dual-purpose H13 HEPA and high-efficiency activated carbon filter, which can block 99.9% of airborne particles and eliminate odors. Additionally, it is equipped with a UV lamp for killing bacteria and viruses. The built-in micro switch ensures that the unit automatically powers off when disassembled, enhancing safety. It is highly efficient and energy-saving, meeting Energy Star standards. Its compact size reduces the use of plastic materials and lowers transportation costs, effectively reducing energy consumption.

随着养宠人群的快速增长,针对宠物的各类产品呈现爆发式增长。在养宠环境中,宠物毛发、异味和尘螨过敏原等因素影响人们的健康。因此,我们本次设计的产品目标是针对小户型家居、儿童房和宠物空间等细分市场,满足用户需求。开发满足细分市场需求的的产品,不仅能提升产品的溢价空间,还能通过用户反馈不断迭代升级,添加更多实用功能,支持可持续发展。

With the rapid growth of the pet-owning population, there has been an explosive increase in various pet-related products. In pet-friendly environments, factors such as pet hair, odors, and dust mite allergens can affect people's health. Therefore, our product design aims to target niche markets such as small households, children's rooms, and pet spaces to meet user needs. Developing products that cater to these specific market segments can not only enhance the product's premium value but also allow for continuous iteration and upgrades based on user feedback, adding more practical features and supporting sustainable development.

AM8是一款全能型麦克风，配备USB插口与XLR插口，可兼容声卡、PC、PS，满足多种场景的应用。外置植绒防风棉加金属底座，减少噪声的输入，提供更纯粹的声。AM8功能齐全，配置了一键静音、实时监听、麦克风音量调节、耳机音量调节、灯效调节等功能。静音、灯光按键，采用无声物理开关，只为追求最极致的声音。

AM8 is a versatile microphone equipped with USB jack and XLR jack. The microphone is compatible with sound cards, PCs, PSs and other devices to meet a wide variety of scenarios. The microphone is equipped with an external flocked windproof foam and a metal base, which helps to reduce noise input and provide a purer sound. AM8 is full-featured with one-click mute, real-time monitoring, microphone volume adjustment, headphone volume adjustment, light effect adjustment and other functions. The mute button and RGB light button have silent physical switches for only the most extreme sound possible.

造型创新，应用了双臂设计、可360度旋转、矩形设计更新颖。在底部配置灯效，营造游戏氛围。功能上，可搭配调音台，不需要搭配话放，声卡就能达到专业品质。

The appearance of AM8 is innovative, with a double arm design that can be rotated 360 degrees, and a rectangular design for more novelty. RGB light effect is configured at the bottom of the microphone to create a sense of gaming atmosphere. Functionally, it can be used with a mixing console, and does not need to be paired with a microphone amplifier for the sound card to be of professional quality.

提升用户体验、产品竞争力，使得消费者有更好、更多的选择。在亚马逊上获得“气候承诺友好”标志，为地球环保贡献一份力。产品使用回收占比：80~90% 4、遵循国际劳工组织建议的社会标准。

Enhance the user experience and the competitiveness of products, so that consumers have better and more choices. Get the Climate Pledge Friendly on Amazon, contributing to the environmental protection of the earth. Percentage of products used for recycling: 80~90%. Follow the social standards recommended by the International Labour Organization.

未来侍酒师智能电动开瓶器套装 (蓝牙版)

PCM04重新定义了咖啡制作的专业度与便捷性。采用紧凑轻便的设计打造的专业级便携式电动意式浓缩咖啡机。自带加热功能，注入冷/热水均能操作，提高户外不同条件下使用的灵活性。加热及制作完成后配有LED灯显示以及蜂鸣器提醒，提升用户对设备状态的实时感知。搭载专业的浓缩技术，最大可提供20Bar的压力，结合20克超细研磨咖啡粉的金属滤篮，使得咖啡粉中的油脂充分释放。一键操作结合配套的专业配件，无论是咖啡新手还是资深爱好者，都能轻松制作出专业水准的咖啡。在外观设计上，外壳采用优质金属材料，内置配件的旋钮处采用了纹理设计，增强视觉层次和审美细节。整机可水洗，让户外使用后的清洁提供了便利。

PCM04是目前世界上体积最小、且能容纳18-20g咖啡粉的自加热咖啡机。具备卓越的电池性能和能耗管理系统，使其在满电状态下，每用70ml冷水加热可连续制作2-3杯，直接加入热水可连续制作多达200杯，极大提升了产品在资源利用上的高效性和经济性。此外，它的长续航能力减少了对频繁充电的依赖，降低能源消耗和碳排放，体现了品牌对可持续发展理念的积极响应。

PCM04为咖啡爱好者带来了一种全新的、自由度极高的专业级咖啡享受。其轻巧的外观下承载了专业级的咖啡制作配置。专业的浓缩技术，最大可提供20Bar的压力，结合20克超细研磨咖啡粉的金属滤篮，使得咖啡粉中的油脂充分释放，油脂和味道更加浓郁。一键式操作的直观性大大降低了用户制作咖啡的门槛，旨在为用户提供快速、简便且愉悦的咖啡制作体验。

PCM04 redefines the professionalism and portability of coffee making. It is a professional portable electric espresso coffee machine featuring a compact and lightweight design. It enables heating, so it is available with cold or hot water for extraction, hugely enhancing the operation flexibility outdoors. It incorporates a smart LED indicator and an alarm buzzer, which will inform users of its heating status in real time. This coffee machine with professional concentration technology secures pressure of 20 Bar (max.), coupled with a dual-layer metal filter basket that can contain ultra-fine ground coffee of 20 g. It comes with supporting professional accessories and allows one-button operation, meeting personalized needs for both novices and veterans and providing a professional coffee-making experience. PCM04 boasts a high-quality metal shell, with a textured knob to enhance visual beauty while ensuring comfortable grip. The whole machine is washable, making it easy to clean.

PCM04 is the world's smallest electric espresso coffee machine that can contain 18-20g coffee grounds. It has a super large-capacity battery and an excellent energy management system. Once fully charged, it can make 2 to 3 cups of coffee with 70ml cold water each time and up to 200 cups consecutively with hot water, greatly improving efficiency and cost-effectiveness. Thanks to its long-lasting battery life, it reduces energy consumption and carbon emissions, echoing the brand's sustainable concept.

PCM04 provides a brand-new portable professional coffee machine solution for coffee enthusiasts. It boasts a professional configuration in a tiny body. Equipped with professional concentration technology, it secures pressure of 20 Bar (max.). Coupled with a dual-layer metal filter basket that can contain ultra-fine ground coffee of 20 g, it makes the oils fully released for a strong flavor of coffee. PCM04 allows one-button operation, so it is easy to use for both novices and veterans, delivering an efficient, convenient, and enjoyable coffee-making experience.

## 组合新风空调

### MODULAR FRESH AIR CONDITIONING

#### 设计师 Designer:

黄成业 Chengye Huang  
设计师 designer

企业名称: 珠海格力电器股份有限公司  
GREE ELECTRIC APPLIANCES, INC. OF ZHUHAI  
联系人: 胡海云 ZOE 联系人: 胡小姐 TOBY  
手机: 16675699235 手机: 0756-68974772

地址: 广东省珠海市香洲区前山金鸡西路格力电器工业设计中心

本产品创新性的采用了新风组件和空调的分离设计, 拓展了产品的使用场景。它们既可以安装在一起连接使用, 也可以分开安装在不同墙面, 实现对不同区域的空气处理。此外, 用户也可以根据室内面积大小选择安装多个新风组件, 满足不同新风性能需求。

新风组件能够匹配不同款式的空调, 使普通空调具备新风功能, 实现功能迭代, 焕发产品新的生命力。

新风组件的分离设计, 在选购上能够给予消费者更多的选择空间; 同时, 也能够实现不同材质的搭配, 适应不同的室内环境。

This product innovatively adopts the separation design of fresh air components and air conditioners to expand the use scenario of the product. They can be installed together and connected for use, or they can be installed separately on different walls to achieve air treatment in different areas. In addition, users can also choose to install multiple fresh air components according to the size of the indoor area to meet different fresh air performance requirements.

Fresh air components can match different styles of air conditioners, so that ordinary air conditioners have fresh air function, which realizes function iteration and radiates new vitality of products.

The separation design of fresh air components can give consumers more choice space in the purchase; At the same time, it can also achieve the combination of different materials and adapt to different indoor environments.

Profile3是一款全金属USB电容录音麦克风, 拥有低切开关, 能把180Hz 以下的信号衰减, 如衰减麦克风附近的风扇, 空调声。配置“monitor”现场监听混音调节, 使用者可自由调节监听到麦克风的声与电脑的声音的大小比例。还配置了一键静音、实时监听、麦克风音量调节、耳机音量调节、低切开关等功能。

Profile3 is an all-metal USB condenser recording microphone with a low-cut switch that attenuates signals below 180Hz, such as fan and air conditioner sounds in the vicinity of the microphone. Configure the function of live monitoring mix adjustment, users can freely adjust the ratio of the size of the monitored microphone sound to the computer sound. It is also equipped with one-click mute, real-time monitoring, microphone volume adjustment, headphone volume adjustment, low-cut switch and other functions.

在外观和功能都有巨大的差异, 造型独特, 管体一体化的设计, 融入了长方形的设计元素, 以及夸张的旋钮设计。功能上设计“monitor”现场监听混音调节, 让使用者根据自身需求调节监听麦克风和电脑声音的大小比例。功能上设计“低切开关”, 可衰减麦克风附近的空调、风扇声。

There is a huge difference in appearance and functionality. Profile3 is uniquely styled, using a tube-integrated design that incorporates rectangular design elements and exaggerated knob design. The function of live monitor mixing allows users to adjust the proportion of monitoring microphone sound and computer sound according to their needs. Low-cut switch attenuates air conditioning and fan sounds near the microphone.

根据市场需求, 对产品进行更新迭代, 满足消费者的需求。产品主要使用锌合金材料, 它有良好的耐腐蚀性和耐久性, 在使用过程中不会释放污染物, 也不易退化, 并且具有可回收再利用的功能, 大大减少能源的消耗。遵循国际劳工组织建议的社会标准, 获得2024年红点奖。

Updating and iterating products according to market demand to meet consumer needs. The products are mainly made of zinc alloy, which has good corrosion resistance and durability, does not release pollutants or degrade easily during use, and has recyclable features that greatly reduce energy consumption. Follow the social standards recommended by the International Labour Organization. Gain the 2024 Red dot design award.

手机: 18128270415  
邮箱: RD01@ZSTIANMEI.CN  
地址: 中山市黄圃镇大雁工业区魁中路8号

这是一款非传统的欧式侧吸油烟机，其特点在于颠覆了传统侧吸机“方形”外观，把“圆形”理念引入到产品中，从正面的外观，箱体，乃至开关都采用了圆形设计，整体外观迷你而精致。产品正面采用大、小圆搭配的环形设计，环形内部设有七彩氛围灯。进风面由传统的单斜面进风升级为多维度吸风系统设计，使产品的拢烟效果和吸力得到充分的发挥。其功能上配有9档无刷电机，触摸手势开关等技术，科技感十足。

此产品配备了DC直流无刷电机，其工作能效达到欧标A+++，更加节能静音。内置5层空气铝网，净化空气环保，减少污染排放。

随着社会的发展，现代的公寓、单间的流行，厨房的位置已经相对缩小，一款小而精的吸油烟机可以满足到空间的同时也兼顾了性能的要求。

This is a non-traditional European-style hood, which distinct from the traditional feature “square” of vertical hood, it introduces the concept “round” into the product. From the front appearance, the body, and even the switch are all using a circular design, the overall appearance is mini and exquisite. The front of the product adopts a ring design with large and small circles, and the ring interior is equipped with colorful atmosphere lights. The air inlet surface is upgraded from the traditional single-inclined air inlet to the multi-dimensional suction system design, so that the suction effect and airflow of the product can be fully exerted. Equipped with 9-speed BLDC motor, touch control with gesture sensor and all other technologies, full of sense of science and technology.

Equipped with BLDC motor, EEC can reach up to EU standard A+++ class, ECO and noise free. Built-in 5-layer air purification filter, purifying air to reduce pollution emissions, environmentally friendly.

As society develops, modern apartments and single rooms becomes more and more popular. The space of the kitchen has been relatively reduced, and a small and refined range hood can meet the requirements of space while also taking into account the requirements of performance.

储能更有着“为生活充能的”填满生命力的内蕴”。我们率先采用了“自然机能”的设计理念，与同类产品不同，产品造型把自然的野性，时尚的律动有机融合，流云白与苔藓绿的色彩，给诗和远方都涂上自然的外衣。“目之所及，皆是自然。”整套系列的设计的产品成为隆鑫集团储能部门由TOB转向TOC的开始。该系列产品在4月中旬的广交会首次亮相，得到了李强总理的点赞，同时也得到了广大消费者的认可。创新性、功能性、新技术、优化使用体验、文化性。

**创新性:** 1.采用“自然机能”设计理念，产品造型野性、户外，突出产品的独特性和辨识度。2.模块化设计，底部可更换储物盒，实现多功能应用。这些储物盒可以搭载音响、工具箱、医疗包等，满足不同用户的多样需求。3.在同类产品中首创使用贯流风扇散热系统，提高散热效率，保证在高负荷使用情况下的稳定性和可靠性。

**功能性:** 1.强调耐用性和可靠性，设计风格偏硬核风，符合户外极端环境使用需求。2.多种接口设计，满足不同设备的充电需求，同时具备直观的电量显示屏，用户操作简单便捷。3.轻量化设计，便于携带和运输，适合各种户外活动。4.顶部无线充设计，即使不带手机充电器也能保障电能的供应。

**新技术或特殊工艺:** 1.采用贯流风扇技术，具有高效、低噪音的特点 2.模块化设计使得产品可以灵活适应不同的使用场景和需求。

**优化使用体验:** 1.符合人体工学的提手设计，用户携带更方便。2.直观的操作界面和清晰的电量显示，用户可以随时掌握电源状态，提高使用的便捷性和安全性。  
**地域文化创新:** 我们率先采用了“自然机能”的设计理念，与同类产品不同，产品造型把自然的野性，时尚的律动有机融合，流云白与苔藓绿的色彩，给诗和远方都涂上自然的外衣。“目之所及，皆是自然。”融合了现代工业设计美学和户外探索精神，契合户外爱好者的文化需求。

**环保性:** 1.采用可再生能源充电方案，支持太阳能板连接，符合绿色环保理念，减少碳排放。2.高效节能的贯流风扇设计，不仅提高散热效率，还减少了能量浪费，提升了电源的整体能效。3.使用环保材料制造，减少对环境的污染和影响，符合双碳标准。

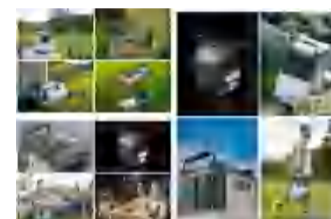

**社会包容:** 1.多功能模块化设计，满足不同用户群体的需求，从露营爱好者到户外工作者，都能找到适合的模块，提高社会使用的广泛性和包容性。2.通过“自然机能”的设计理念，引发消费者情感共鸣，增加产品的社会认同感和用户粘性。

**品质标准:** 1.产品在设计和制造过程中严格遵循高品质标准，确保每一个细节都经过精心打磨，包括产品B级面的设计。2.严格的质量控制和高标准的生产工艺，确保每一台产品的可靠性和耐用性。3.通过模块化设计，提高了产品的可扩展性和适应性，用户可以根据需求选择不同模块，增加了产品的附加值。  
**促进产业规模:** 1.模块化设计为产业链上下游企业带来了新的合作机遇，通过标准化接口和模块，推动相关配件和扩展产品的研发和生产。2.模块化设计提高了生产的灵活性和效率，降低了生产成本，促进了产业规模的扩大。3.通过贯流风扇的应用和推广，引领行业技术进步，提升了整个产业的技术水平。  
**商业运营模式优化:** 1.模块化设计为后续的配件销售和服务提供了新的商业模式，用户可以根据需要购买不同的模块，提升了市场竞争力和用户粘性。2.通过多元化产品线，企业能够更好地满足市场需求，优化商业运营模式。

Energy storage even more has the internal connotation filled with vitality of "energizing for life". We are the first to adopt the design concept of "natural mechanism". Be different from with similar products, the style of the product organically integrates the wild nature and the rhythm of fashion, and the color of floating cloud white and moss green, which both paints with the coat of nature to the poem and the distance. "Nature is as far as the eyes could see." The completed series of designed products became the beginning of the energy storage department of LONCIN Group transferred from TOB to TOC. The series of products made its debut at the Canton Fair in mid-April, while winning praises from Premier Li Qiang and recognition from mass consumers. Innovation, functionality, new technology, optimized using experience, culture Innovation: 1. It adopts the design concept of "natural mechanism", the product style is wild and outdoor, highlighting the uniqueness and recognition of.

**Environmental protection property:** 1. It adopts renewable energy charging scheme, supports solar panel connection, conforms to green environmental protection concept and reduces carbon emissions. 2. The energy-saving cross-flow fan design not only improves the heating dissipation efficiency, but also reduces energy waste and improves the overall energy efficiency of the power supply. 3. It is fabricated with environmental protection materials to reduce pollution and impact on the environment, conforms to double carbon standards. **Social inclusion:** 1. Multi-functional modular design, to meet the needs of different user groups, from camping enthusiasts to outdoor workers, all of whom can find appropriate modules, to improve the universality and inclusiveness of social usage. 2. Through the design concept of "natural mechanism", it triggers the emotional resonance of consumers and increases the social acceptance and user adhesiveness of products.

**Quality standard:** 1. The product is designed and manufactured in strict compliance with high quality standards, to ensure that each detail is carefully polished, including the design of the B-grade face of the product. 2. Strict quality control and high standard production process to ensure the reliability and durability of each product. 3. The scalability and adaptability of the product are improved through modular design, and users can choose different modules according to their needs to increase the added value of the product. **Promote industrial scale:** 1. Modular design brings new cooperation opportunities for upstream and downstream enterprises in the industrial chain, to promote the development and production of related accessories and expanded products through standardized interfaces and modules. 2. The modular design improves the flexibility and efficiency of production, reduces the production cost, and promotes the expansion of the industrial scale. 3. It leads the technologica.

这款AGV的设计灵感来源于汽车设计，一改传统AGV的笨重感，提高辨识度，从而提高企业的社会影响力；此款AGV体积小，适应性强，可运行场景多；拥有四重安全防护（激光安全防护、避障传感器、机械防撞装置、急停按钮）；自动化程度高；目前已广泛应用于物流、仓储、新能源等多个领域。

可快速部署，操作便捷；作业效率高，减少人员参与；大型货物搬运，支持1吨以上货物搬运、车引旋转等，运行灵活，支持前进、后退、旋转、横移等多种运动方式，便于各点位间流转；多机调度，对AGV进行统一调度，进行交通管制，防止碰撞或拥堵。

具备避障功能，可以精确检测障碍物，自动停车，满足客户吨位级承载能力和自动化运输大体积物料等需求；可多机调度，实现信息管理的自动化与智能化，减少了操作人员劳动强度并提高周转效率。自动化程度高，作业效率高，投入成本低等优势；目前已广泛应用于物流、仓储、新能源等多个领域。

The design inspiration of this AGV comes from automobile design, which changes the cumbersome sense of traditional AGV, improves the recognition, and thus enhances the social influence of enterprises. This AGV is small in size, strong in adaptability, and can work in many scenarios. With four safety protection (laser safety protection, obstacle avoidance sensor, mechanical anti-collision device, emergency stop button). High degree of automation; At present, it has been widely used in logistics, warehousing, new energy and other fields.

Rapid deployment and easy operation; High operating efficiency, reduce personnel participation; Large cargo handling, support more than 1 ton of cargo handling, truck rotation, etc., flexible operation, support forward, backward, rotation, transverse movement and other modes of movement, easy to transfer between points; Multi-machine scheduling, unified scheduling of AGVs, traffic control, prevent collisions or congestion.

With obstacle avoidance function, can accurately detect obstacles, automatic parking, to meet the customer's tonnage level load capacity and automatic transportation of large volume materials and other needs; Multi-machine scheduling can realize the automation and intelligence of information management, reduce the labor intensity of operators and improve turnover efficiency. High degree of automation, high operational efficiency, low input cost; Has been widely used in logistics, warehousing, new energy and other fields.

## 绿萌双通道展示机 DUAL CHANNEL DISPLAY MACHINE

全新打造的绿萌双通道展示机, 通过激光筛选, 对水果的质量进行筛选分级, 从甜度, 重量, 尺寸, 数量等数据进行数字化分类。双通道更好的提高了效率, 大大的增加了产品的竞争力。

The newly created dual channel display machine uses laser screening to screen and grade the quality of fruits, and digitizes data such as sweetness, weight, size, and quantity for classification. Dual channels have improved efficiency and greatly increased product competitiveness.

产品大大提高了生产效率, 进一步降低人工成本, 降低生产的能耗, 从而降低碳排放, 整体更符合绿色可持续发展。

The product greatly improves production efficiency, further reducing labor costs, reducing production capacity, and thus reducing carbon emissions, which is more in line with green and sustainable development as a whole.

树立行业标杆产品, 从造型, 功能分区, 到产品创新, 树立行业标杆。同时帮助全球的果蔬企业进一步提高生产效率, 创建全新的行业标准, 在各大展会上得到一致好评。

Establish industry benchmark products, from styling, functional zoning, to product innovation, and establish industry benchmarks. Simultaneously helping global fruit and vegetable enterprises further improve production efficiency, establish new industry standards, and receive unanimous praise at major exhibitions

高速高精机器人GR200系列外形结构紧凑, 发明了世界首创的一种“双驱分矩”式创新结构, 搭配高精度减速机, 高速伺服电机可以在狭小的工作空间内进行灵活作业, 过载性能强, 工作范围广, 可广泛用于工业领域的点焊、大型物料搬运及上下料等应用。

The high-speed and high-precision robot GR200 series has a compact appearance and a world-first "dual-drive torque split" innovative structure. With a high-precision reducer, the high-speed servo motor can perform flexible operations in a small work space and has strong overload performance. , has a wide working range and can be widely used in spot welding, large material handling, loading and unloading and other applications in the industrial field.

如今世界各国都在进行机器换人, 希望把人力劳动从低端工作岗位释放出来, 制造业自动化水平越来越高, 工厂利用工业机器人获得了更低的成本、更高的效率和更快的生产速度。机器人设计秉持遵循绿色设计原则, 在满足使用性能的前提下, 最大程度地对机器人的连杆进行轻量化设计, 降低机器人铸铁损耗量。该产品相对于其他厂家机器人重量更轻, 耗电量也更低, 工作效率也更高。

Nowadays, countries around the world are replacing people with machines, hoping to release human labor from low-end jobs. The level of automation in the manufacturing industry is getting higher and higher. Factories use industrial robots to achieve lower costs, higher efficiency and faster production. Production speed. The robot design adheres to the principles of green design. On the premise of meeting the performance requirements, the robot's connecting rod is designed to be lightweight to the greatest extent to reduce the loss of the robot's cast iron. Compared with robots from other manufacturers, this product is lighter in weight, consumes less power, and has higher work efficiency.

目前机器人已广泛应用于钣金冲压、机床上下料、零部件焊接等领域年出货量达1000台以上。机器人采用国内外首创的一种“双驱分矩”式创新结构, 发明了一种机器人在大吨位钣金冲压领域的最优轨迹优化方法。产品有效负载200KG~270Kg, 精度高, 双减速机协同驱动创新模式, 性能极致发挥, 高防护, 能够适应最严酷的工作环境。

At present, robots have been widely used in sheet metal stamping, machine tool loading and unloading, parts welding and other fields, with annual shipments of more than 1,000 units. The robot adopts an innovative structure of "dual-drive moment splitting" that is the first at home and abroad, and invented an optimal trajectory optimization method for robots in the field of large-tonnage sheet metal stamping. The product has a payload of 200KG~270Kg, high precision, dual reducer collaborative drive innovative mode, ultimate performance, high protection, and can adapt to the harshest working environment.

## 水下清淤机器人

水下清淤机器人以“智能环保，高效清洁”为核心设计理念，旨在通过先进的科技手段解决传统水下清淤作业中效率低、安全性差、环境影响大的问题。

其具备工作效率高，环境适应能力强，使用成本低，环保型好，维护方便以及科技感十足的时尚外观等特点，适用于涵洞，湖底等场景。外观整体采用金属结合塑胶工艺，在相同强度下进行减重。水下清淤机器人采用前后双叉臂结构解决了此类产品越障的问题。机器人可根据淤泥厚度、硬度等因素自动调整工作参数，实现动态优化清淤效果，采用模块化可更换清淤头设计，针对不同淤泥类型（如粘土、砂石、有机质混合淤泥）选择适宜的工作模式。创新的螺旋推进与强力吸力相结合的清淤方式，有效提高清理效率，减少重复作业。

综上所述，水下清淤机器人凭借其创新的设计理念、突出的技术优势和显著的应用价值，展现了对未来水下清淤作业方式的前瞻探索与实践，是一款极具市场竞争力的新一代水下清淤作业装备。

综上所述，水下清淤机器人凭借其创新的设计理念、突出的技术优势和显著的应用价值，展现了对未来水下清淤作业方式的前瞻探索与实践，是一款极具市场竞争力的新一代水下清淤作业装备。

The underwater dredging robot is designed with the core concept of "intelligent environmental protection, efficient cleaning", aiming to solve the problems of low efficiency, poor safety, and significant environmental impact in traditional underwater dredging operations through advanced technological means.

It has the characteristics of high work efficiency, strong adaptability to the environment, low usage cost, good environmental protection, easy maintenance, and a fashionable appearance with a strong sense of technology. It is suitable for scenes such as culverts and lake bottoms. The overall appearance adopts metal combined with plastic technology, reducing weight at the same strength. The underwater dredging robot adopts a front and rear double wishbone structure to solve the obstacle crossing problem of such products. The robot can automatically adjust its working parameters based on factors such as sludge thickness and hardness, achieving dynamic optimization of dredging effects. It adopts a modular and replaceable dredging head design, and selects suitable working modes for different types of sludge (such as clay, sand, and organic mixed sludge). The innovative spiral propulsion combined with strong suction for dredging effectively improves cleaning efficiency and reduces repetiti

In summary, the underwater dredging robot, with its innovative design concept, outstanding technical advantages, and significant application value, demonstrates a forward-looking exploration and practice of future underwater dredging operations. It is a highly competitive new generation of underwater dredging equipment in the market.

OPL25N低位拣选车  
OPL25N LOW-LIFT ORDER PICKER

设计师 Designer:

它结构紧凑，但却有着宽敞的驾驶舱。驾驶者能轻松上下、横穿驾驶舱，同时驾驶舱拥有升降功能，满足驾驶者对高层货架上的物品进行拣选的需求。驾驶舱配置有悬浮式减震机构和减震脚垫，可大大缓解驾驶者的疲劳；同时驾驶舱配置有仿生曲面靠背，让驾驶者有更好的依靠感；另外驾驶舱还配置有多功能操作手柄和智能仪表。这些功能和零部件大大提高了驾驶舒适性。

车辆配置有智能锂电池，具有BMS保护、自动休眠功能，保证车辆供电系统安全性和高效性。同时，整车各零部件满足RoHS2.0和REACH法规要求。

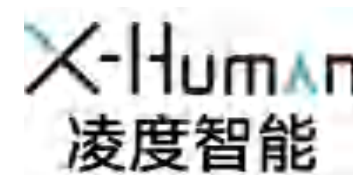

车辆配置有侧拉电池，便于快速更换电池；四USB供电口，可为更多外置设备提供电源；车辆两侧配置有步行拣选开关，操作者在车外也能控制车辆行走和货叉升降；扩展支架为WMS、扫码枪等外置设备安装提供空间。这些功能和零部件均大大提高了拣选效率。

It's compact, but it has a spacious cockpit. The driver can easily get up and down and cross the cockpit, and the cockpit has a lifting function to meet the needs of the driver to pick the items on the upper shelf. The cockpit is equipped with suspension damping mechanism and cushioning foot mat, which can greatly alleviate the fatigue of the driver; At the same time, the cockpit is equipped with bionic curved backrest, so that the driver has a better sense of dependence; In addition, the cockpit is equipped with multi-function operation handles and smart instruments. These features and components greatly improve driving comfort.

The vehicle is equipped with intelligent lithium battery, with BMS protection, automatic sleep function, to ensure the safety and efficiency of the vehicle power supply system. At the same time, all parts of the vehicle meet the requirements of RoHS2.0 and REACH regulations.

The vehicle is equipped with a side pull battery for quick battery replacement; Four USB power supply ports, can provide power for more external devices; Both sides of the vehicle are equipped with a walking pick switch, the operator can also control the vehicle walking and fork lifting outside the car; The expansion bracket provides space for the installation of external devices such as WMS and code scanner. These features and components greatly improve the efficiency of picking.

**智能视觉系统：**自主开发的猫头鹰智能视觉系统owl eyes，依托RGBD深度相机、AI识别算法、SLAM等前沿技术及算法，自动识别使用场景，实时建图并规划最优路径，实现智能化全自动清洗，节省了人力和时间，提高了清洗效率和质量；**高防护防腐：**防护等级IP65，防腐等级C4，防水防尘密封性好，适应恶劣场景，保障产品使用寿命，更耐用。

**品质卓越：**机器线路、配件均使用车规级产品，品质保证，性能优异；**电池续航：**电池容量 60AH，满电使用 8小时，每小时清洗 1000平方米充分利用光伏板的清洗时间和范围，最大化光伏板的发电力和效益。

光伏板定期的自动化清洗有效避免了光伏板的污染，提高了光伏发电系统的光电转换效率，增加了电站的发电量，清洗过后的光伏板发电量可以提升5%-30%。

**Intelligent Vision System:** The independently developed owl intelligent vision system owl eyes, By relying on cutting-edge technologies and algorithms such as RGBD depth cameras, AI recognition algorithms, SLAM, etc., the system automatically recognizes usage scenarios, creates real-time maps, and plans optimal paths, achieving intelligent and fully automatic cleaning, saving manpower and time, and improving cleaning efficiency and quality; **High protection and anti-corrosion:** protection level IP65, anti-corrosion level C4, good waterproof and dustproof sealing, suitable for harsh scenarios, ensuring product service life, and more durable.

**Excellent quality:** The machine wiring and accessories are all made of vehicle grade products, ensuring quality and excellent performance; **Battery life:** The battery has a capacity of 60AH and can be used at full charge for 8 hours. It cleans 1000 square meters per hour, fully utilizing the cleaning time and range of photovoltaic panels to maximize their power generation and efficiency.

Regular automated cleaning of photovoltaic panels effectively avoids pollution, improves the photovoltaic conversion efficiency of the photovoltaic power generation system, and increases the power generation of the power station. After cleaning, the power generation of photovoltaic panels can be increased by 5% -30%.

地址: 浙江省杭州市余杭区仓前街道绿汀路21号浙富控股大厦1号楼

OKAI LyteCycle整车设计以欧式极简风格为核心, 将现代审美与实用性结合。其弯曲车把头 and 车座距离的精准设计, 遵循人体工学原理, 有效减少骑行中的疲惫感, 提供更为舒适的骑行体验。该车采用智能化设计, 通过手机APP可轻松控制LED彩色仪表盘, 并支持多种仪表主题切换和氛围灯变色, 满足个性化需求。同时, 车辆支持手机APP和NFC卡片解锁。OKAI LyteCycle的模块化设计允许用户加装前篮、后货架和马蹄锁, 不仅扩展了车辆的功能性, 也满足了用户的多样化需求。这一设计创新, 展现了品牌对用户体验的深入洞察。

OKAI LyteCycle电动自行车搭载了扭矩传感器, 为用户带来更为丝滑的踏板骑行体验, 电助力骑行不仅提升了舒适度, 也减少了不必要的能源消耗。其可拆卸的嵌入式电池设计, 不仅方便用户安装与拆卸, 还鼓励用户进行电池的回收再利用, 减少了资源浪费。同时, 这款电动自行车的制造过程中, 我们也积极采用环保材料, 减少了对环境的污染。OKAI LyteCycle电动自行车也是践行绿色发展理念的重要载体。它鼓励人们选择低碳的电动出行方式, 减少碳排放, 为实现“双碳”目标贡献了一份力量。

行绿色发展理念的重要载体。它鼓励人们选择低碳的电动出行方式, 减少碳排放, 为实现“双碳”目标贡献了一份力量。

OKAI LyteCycle以其独特的贯穿式可变色氛围灯设计, 不仅为产品本身增添了时尚与科技感, 更在市场中塑造了差异化的品牌形象。该产品通过UL安全性认证, 保证了用户在使用过程中的安全性, 进一步提升了产品的市场认可度。LyteCycle作为自主研发、私模生产的产品, 其设计、制造过程中严格把控品质标准, 促进了产业的工艺改进。

OKAI LyteCycle adopts a European minimalist style, combining modern aesthetics with practicality. The precise design of the distance between its curved handlebar and seat follows ergonomic principles, which effectively reduces fatigue during riding and provides a more comfortable riding experience. The vehicle utilizes intelligent design, and the LED dashboard can be easily controlled through a smart phone app, supporting theme switching and light bar color customization to meet personalized needs. Meanwhile, the vehicle can be powered on by smart phone app and NFC card. OKAI LyteCycle's modular design allows users to add a front basket, rear rack and an ABUS U-lock, expanding not only the vehicle's functions but also meeting diverse user needs. This innovative design demonstrates the brand's deep insight into user experience.

OKAI LyteCycle is equipped with a torque sensor that provides users with a smoother pedaling experience. Electrically-assisted riding not only improves comfort but also reduces unnecessary energy consumption. The embedded, swappable battery design not only facilitates easy installation and removal, but also encourages users to recycle and reuse the battery, reducing waste of resources. At the same time, we have actively used environmentally friendly materials in the manufacturing process of this e-bike, which reduces pollution to the environment. OKAI LyteCycle e-bike also promotes the important concept of green development.

It encourages people to choose low-carbon electric transportation, reducing carbon emissions and contributing to the realization of carbon peaking and carbon neutrality goals.

OKAI LyteCycle's unique, customizable light bar design not only adds a sense of fashion and technology to the product itself but also creates a differentiated brand image in the market. The product has received UL safety certification, which ensures user safety during the product usage process and further enhances market recognition. OKAI LyteCycle, as a self-designed and privately-molded product, has strictly controlled quality standards during the design and manufacturing processes, promoting improvement across industry practices.

ZONTES

703RR定位于极致性能的仿赛车型。血脉贲张的外观设计,充满了浓烈的战斗气息。浑厚有力的车身线条,配合镂空设计的科幻造型给人带来强烈的视觉震撼力。

703RR装备有大量高科技配备: 1.703RR高性能三缸发动机拥有13:1的超高压压缩比,峰值马力102匹。极速240KM, 0-100仅3秒。2.前置冲压进气技术能在高速状态下进一步提升发动机性能。3.铝合金后平叉镂空设计,美观精致,强度性能高。4自主研发的铝合金双翼梁车架,重量轻,强度高,是艺术与工艺的完美融合。5.前后可调减震器配合锻造后悬挂多连杆,运动与舒适性能完美兼顾。6.设计感极强的后尾灯,镶嵌在镂空的车尾中,极致炫酷。

同时, 703RR还装备了: 1.科幻炫酷的前日行灯,宛如钻石而璀璨夺目。2.前辐射式对向四活塞卡钳配合大直径浮动碟刹盘,能提供更强大的制动力。3.标配专业赛车使用的快速换挡装置。4.3.0代智能控制系统搭配升仕智能APP,实现远程智能控制车辆等功能。

The 703RR is positioned as the ultimate performance replica racing model. The blood-curdling design is full of strong fighting flavor. The thick and powerful body lines, together with the sci-fi shape of the hollowed-out design bring a strong visual shock.

The 703RR is equipped with a lot of high-tech equipment: 1. The 703RR's high-performance three-cylinder engine has an ultra-high compression ratio of 13:1 and a peak horsepower of 102. Maximum speed is up to 240km/H, 0-100km acceleration takes only 3 seconds. 2. Front ram air intake technology can further improve engine performance at high speed. 3. The hollow design of aluminum alloy rear fork is beautiful, with high strength and performance. 4. The self-developed aluminum alloy double wing beam frame is light in weight and high in strength, which is the perfect integration of art and technology. 5. Front and rear adjustable shock absorbers and forged rear suspension multi-link make the perfect balance between sportiness and comfort. 6. The rear taillight with a strong design sense are embedded in the hollow rear of the motorcycle, which is extremely cool.

At the same time, the 703RR is also equipped with: 1 sci-fi cool running lights, like diamonds and dazzling. 2. The front radial four-piston caliper is matched with the large-diameter floating disc brake disc to provide more powerful braking force. 3. Standard equipped with the quick-shifting device used in professional racing vehicles. 4. 3.0 generation intelligent control system is matched with ZONTES intelligent APP to realize remote intelligent control of motorcycles and other functions.

## 欧凯越野电动滑板车

OKAI PANTHER

### 设计师 Designer:

卢江涛 Jiangtao Lu  
总经理 CEO

企业名称: 浙江欧凯智行车业股份有限公司  
ZHEJIANG OKAI VEHICLE CO.,LTD  
联系人: 沈家琪 JIAQI SHEN

OKAI Panther最高时速60km/h, 双电机提供高达3000W的功率, 赋予骑行者前所未有的速度体验。外观设计豪放大气, 荣获IF设计奖, 每一处细节都彰显OKAI的品质标准。前叉悬挂系统和后减震器的精密设计, 确保了在各种地形上都能带来平稳的骑行体验。铝制一体式框架, 不仅坚固耐用, 更拥有高达150KG的最大承重, 让骑行更加安心, 为越野发烧友带来了全新的体验。

随着OKAI Panther的上市, OKAI积极宣传越野活动, 鼓励人们拥抱自然, 减少对城市的污染。通过便携踏板换电技术, 用户可以循环使用电池, 让每一次出行都更加绿色、环保。这一创新技术不仅提高了能源利用效率, 更在无形中传递着绿色发展的理念。

OKAI Panther12英寸定制越野真空轮胎展现了卓越的抓地力与性能, 无论何种地形都能轻松应对。前后液压盘式制动器, 安全灵敏, 为用户提供全方位的保障, 进一步提升了产品的竞争力。而35%的最大坡度爬坡能力, 满足了高端市场越野发烧友的需求。特别是便携踏板换电技术, 不仅支持长途旅行, 更通过创新的能源解决方案, 促进了能源使用效率的提升。

OKAI Panther has a maximum speed of 60km/h, with dual motors providing up to 3000W of power, giving riders an unprecedented accelerating experience. Its stylish, athletic look earned it an IF Design Award, with every detail underscoring OKAI's high quality standards. Precisely designed front suspension and rear shock absorbers ensure a smooth ride across diverse terrains. The monocoque aluminum frame is not only sturdy and durable but has a maximum load capacity of 150kg, making the riding experience safer and brand new for off-road enthusiasts.

Following the OKAI Panther's launch, OKAI actively promotes off-road activities to encourage connecting with nature and reducing urban pollution. Its portable, quick-swap battery technology allows users to reuse batteries, making every trip greener and more environmentally considerate. This innovative solution not only improves energy efficiency but also promotes the philosophy of sustainable development.

The OKAI Panther's 12-inch custom off-road vacuum tires demonstrate excellent traction and performance across diverse terrains. Its front and rear hydraulic disc brakes offer safe, sensitive braking, providing users with all-around protection and further enhancing the product's competitiveness. A maximum 35% gradient climbing ability meets the needs of high-end off-road enthusiasts. Especially, the portable quick-swap battery technology supports long-distance travel while improving energy efficiency through innovative energy solutions.

## 便携式太阳能储能 PORTABLE SOLAR STORAGE

### 设计师 Designer:

叶春 Chun Ye  
总经理 General Manager

郭磊 Lei Guo  
首席设计师 Chief Designer

Alpha 800是一款创新无限的可拓展便携式电源。它采用了AI语音系统和灵活的输出模块设计理念,模块化设计可以像乐高积木一样组合,让用户自由DIY个性化的功能面板。Bluetooth网状网络和APP控制让操作更加智能便捷。其出众的创新性设计,拓展性强、兼容性高、可定制化程度高,为户外野营、应急备电等场景提供了极大便利,展现了便携式电源产品当代无限的可能和全新的使用体验。

The Alpha 800 is an innovative and infinitely expandable portable power station. It adopts an AI voice system and flexible output module design concept, with a modular design that can be combined like Lego bricks, allowing users to freely DIY personalized function panels. Bluetooth mesh networking and APP control make operation more intelligent and convenient. Its outstanding innovative design, strong expandability, high compatibility, and high degree of customization provide great convenience for scenarios such as outdoor camping and emergency power backup, presenting a brand-new user experience and showcasing the limitless possibilities of contemporary portable power stations.

Alpha 800采用低功耗、安全高效的LiFePO4电池,循环使用寿命可达3000+次,使用周期长达10年,大幅降低了电池浪费。其紧凑便携的设计,也减少了产品运输的碳排放。此外,Alpha 800支持太阳能充电,它与可再生清洁能源充分契合,倡导环保低碳的生活方式,顺应了社会的绿色低碳发展趋势,体现了较高的环保和社会价值。

The Alpha 800 adopts low-power, safe and efficient LiFePO4 batteries, with a cycle life of 3000+ times and a lifespan of up to 10 years, significantly reducing battery waste. Its compact and portable design also reduces carbon emissions from product transportation. Moreover, the Alpha 800 supports solar power generation, fully aligning with renewable and clean energy, promoting an environmentally friendly and low-carbon lifestyle, and aligning with the green and low-carbon development trend of society, demonstrating high environmental and social value.

Alpha 800致力于提升产品品质,采用BMS智能电池管理系统,MPPT最大功率点跟踪等先进技术,确保安全高效。高质量与创新设计相结合,满足了个性化和便携需求,拓展了便携式电源的产品形态,开创了新的商业运营模式。强大的拓展能力和兼容性,也有利于未来生态建设与产业规模化发展,可促进上下游产业链优化融合,为产品赋予更大的商业价值。

The Alpha 800 is dedicated to improving product quality, adopting advanced technologies such as the BMS intelligent battery management system and MPPT maximum power point tracking to ensure safety and efficiency. High quality combined with innovative design meets personalized and portable needs, expanding the product forms of portable power stations and pioneering new business operation models. Its powerful expandability and compatibility also facilitate future ecosystem construction and industrialized development, promoting upstream and downstream industrial chain optimization and integration, endowing the product with greater commercial value.

## LR60R智能屏显机械调光搜索手电 LR60R MECHANICAL ROTARY SEARCHING FLASHLIGHT

### 设计师 Designer:

刘富平 Fupin Liu  
高级产品经理 Senior Product Manager

企业名称: 深圳市朗恒照明技术股份有限公司  
FENIXLIGHT LIMITED  
联系人: 吴舒华 WU SHUHUA

邮箱: MARKETING5@FENIXLIGHT.COM  
地址: 广东省深圳市宝安区水库路111号星宏科技园A栋三楼

LR60R超高亮手电筒, 具有聚光和泛光双光源, 最高亮度输出可达21000流明, 1085米远射。并且尺寸紧凑, 可单手握。开关操作简单直观, 颈部具有各档位刻字, 旋转颈部即可往前或往后跳档, 除亮度档位外, 还具有SOS以及爆闪档位可供选择。手电头部设有OLED智能显示屏, 开机后实时显示当前档位亮度, 当前电量, 剩余续航时间, 时刻掌握情况。LR60R可用把手手提, 也可以是适配三脚架或者肩带, 解放双手。

LR60R使用由4节4000mAh动力电池芯组成的电池包, 电力强大, 续航持久。且机身设有Type-C快充充电口, 无需更换电池, 促进环保。除此之外, 还设有USB-A快充口, 可作为充电宝使用。

LR60R是全金属CNC加工机身, 表面进行HAIII硬质阳极氧化抗磨处理, 通过1米高度, 6个跌落角度的抗跌落测试, 并且达到IP68级防水防尘的防护等级, 达到行业顶尖标准。

The LR60R ultra-bright flashlight has dual light sources of spotlight and flood light, with a maximum brightness output of 21,000 lumens and a long-range beam of 1,085 meters. It is compact in size and can be carried with one hand. The switch operation is simple and intuitive. The neck is engraved with each gear. Rotate the neck to jump forward or backward. In addition to the brightness gear, there are also SOS and strobe gears to choose from. The head of the flashlight is equipped with an OLED smart display, which displays the current gear brightness, current battery level, and remaining battery life in real time after it is turned on, allowing you to keep track of the situation at all times. The LR60R can be carried by hand, or it can be equipped with a tripod or shoulder strap to free your hands.

LR60R uses a battery pack composed of four 4000mAh power battery cells, which has powerful power and long-lasting battery life. The body is equipped with a Type-C fast charging port, which eliminates the need to replace the battery and promotes environmental protection. In addition, it also has a USB-A fast charging port that can be used as a power bank.

The LR60R is an all-metal CNC machined body with HA III hard anodized anti-wear treatment on the surface. It has passed the anti-drop test at a height of 1 meter and 6 drop angles, and has reached IP68 waterproof and dustproof protection level, reaching the top industry standards.

智能无线插座  
SMART SOCKET

智能无线插座的外观设计为简约风纯白色产品, 用户希望一回家有温暖的灯光、适宜的温度、悦耳的音乐, 智能无线插座可满足顾客对高品质生活的追求; 为了方便用户的使用和携带, 插座设计小巧体型, 白色光面使产品更有质感, 采用ABS材质高效阻燃, 提高用户使用安全系数。

设计理念是用心为客户创造最大价值, 智能无线插座的设计可以提高用户的生活质量, 用户使用产品后能从细节体会到设计的用心; 定时功能使用户在回到家时打开空调、热水器感受到温暖, 及时控制电器开关也符合绿色生活、节约能源的生活理念; 体积小巧不仅可在家使用, 也方便旅行携带, 为用户考虑多个使用场景。

智能无线插座体积较小, 智能无线插座的外缘宽度4mm, 不会占用相邻插座的位置; 插座支持电量监控功能, 有效的控制电量的使用情况; 插座设计拔插过程流畅, 用户体验好; 品牌宗旨是用心为客户服务, 插座操作简单, 功能齐全, 外观简约, 安全系数高, 全方位为用户考虑。

The appearance design of the smart wireless socket is a simple and pure white product. The user hopes that there will be warm lighting, suitable temperature, and pleasant music at home. The smart wireless socket can meet the customer's pursuit of high-quality life; in order to facilitate the user's use and Carry, the socket design is small and exquisite, the white glossy surface makes the product more textured, and the ABS material is used for high efficiency and flame retardant, which improves the user's safety factor.

The design concept is to create maximum value for customers with heart. The design of smart wireless sockets can improve the quality of life of users. After using the product, users can experience from details to design attentiveness; timing function enables users to turn on air conditioners and water heaters to feel warm when they return home , Timely control of electrical switches is also in line with the life philosophy of green life and energy saving; small size not only can be used at home, but also convenient to travel and carry, considering multiple use scenarios for users.

The smart wireless socket is small in size, and the outer edge width of the smart wireless socket is 4mm, which will not occupy the position of the adjacent socket; the socket supports the power monitoring function, which effectively controls the power usage; the socket design is smooth and the user experience is good; The purpose of the brand is to serve customers attentively. The socket is easy to operate, complete in function, simple in appearance, high in safety, and considers all users.

1度电家用系统是家电用能源供应装置。是一款便携式、高品质的光伏充电户外电源产品。此产品使用太阳能充电，存储电能，自带逆变器，在停电时为用电器直接供电，集发储用为一体的全方位储能系统。与发电机不同，此产品无需保养、不耗油也不会产生噪音。

1 kwh solar power system is an energy supply device for household appliances. It is a portable and high-quality photovoltaic charging outdoor power supply product. The product uses solar energy to charge and store electricity, and comes with an inverter to directly power electrical appliances during power outages, making it a comprehensive energy storage system for generation, storage, and usage. Unlike generators, this product requires no maintenance, does not consume oil, and does not produce noise.

其外观设计简约大方，且易于安装、完美契合多种建筑风格，采用高质量材料制作，可在复杂的户外环境下使用。产品小巧轻便，携带方便，可以随身携带，满足用户随时随地的用电需求。适用于家庭备用电源、商业、工业、养殖业、种植业、野外作业、露营野营、徒步旅行、钓鱼、夜市地摊等各种场景。

The exterior design of this product is simple and elegant, and it is easy to install and perfectly matches various architectural styles. It is made of high-quality materials and can be used in complex outdoor environments. The product is small, light weight, and easy to carry, which can meet users' on-demand electricity needs anytime and anywhere. It is suitable for various scenarios, such as home standby power supply, commercial, industrial, farming, planting, outdoor operations, camping, hiking, fishing, night market stalls, and so on.

此产品采用高品质电池，具有超长的使用寿命，同时采用高效光伏电池板，可在户外阳光下快速充电。产品具有交流输出、直流输出、车充输出、USB输出等多种功能，可以满足不同用户的用电需求。产品质量可靠，经过了严格的测试和质量控制，可以满足用户对高品质、高性能的需求。

This product adopts high-quality batteries with an ultra-long lifespan, and high-efficiency photovoltaic panels that can quickly charge under outdoor sunlight. It has multiple functions such as AC output, DC output, car charger output, USB output, etc., which can meet the electricity needs of different users. The product is of reliable quality, and has undergone strict testing and quality control, which can meet the high-quality and high-performance needs of users.

悟空露营灯是一支创新性的形态可进行变形金刚式转换的灯具, 具有外观和实用新型双专利。出色的折叠收纳设计, 实现手电+双侧灯在 $\Phi 40\text{mm} \times 227\text{mm}$ 小体积内一体化集成。双侧灯可伸缩提拉至515mm, 支持展开并进行 $0^\circ \sim 270^\circ$ 多级角度调节; 结合可拆卸灯罩及顶部隐藏式的挂杆设计, 支持不少于7种形态的变换, 可作为营灯、氛围灯、手提吊灯、桌灯、手电筒使用, 实现一个灯具解决不同高度、角度、场景的用光需求。内置4500mAh大电池, 最长续航达110h。手电支持高亮1000lm、中亮200lm、低亮20lm, 双侧灯高亮则达220lm, 另外可通过爆闪、闪烁, 应急使用。手电采用3灯透镜设计, 远距离照明出众; 而侧光灯的双面柔光罩设计, 则提供了大面积且舒适的用光。

目前业内露营灯的更多集中于续航和调光的研究, 而多场景使用体验、便携性和极简性上设计都需再进一步提升。为满足用户最舒心的产品体验, 悟空露营灯在满足长续航, 多灯光调节模式的基础上, 针对上述痛点进行了内部伸缩结构、可展开旋转等多形态使用方式, 实现一个灯具可解决不同高度、角度、场景的用光需求, 并结合CMF的应用, 满足用户对户外产品的美学追求。

悟空露营灯创新内部结构设计, 保障了灯体顺畅的拉伸以及多角度调节, 不易损坏。主体采用主体ABS、尼龙+GF, 耐磨、韧性抗摔; 搭载4500mAh大电池, 支持Type-C直充, 解决户外续航焦虑。侧灯的双面柔光罩及手电的三透镜设计, 让远光及大面积泛光照明都很出色, 可覆盖全行业使用。单一控件按钮调节多模式用光, 搭配色显, 操作更直观便捷。

Wu Kong Camping Light enables multi-form conversion, just like the Transformers. With an outstanding foldable design, this camping light integrates a flashlight (1000lm, 4 modes) and dual-side lights (220lm, 4 modes) in a small size ( $\Phi 40\text{mm} \times 227\text{mm}$ ). The dual-side lights allow height adjustment (max. 515mm) and can be unfolded at multiple angles ( $0^\circ$  to  $270^\circ$ ). Together with a detachable lampshade and a top hidden hook design, this camping light enables over seven forms of shape conversion, serving as a camping light, atmosphere light, handheld light, pendent light, desk light, flashlight, etc., which meets users' needs for a versatile light that is suitable for multi-scenes and allows different height and angle adjustment. With a 4500mAh large-capacity battery, this camping light can last up to 110 hours once fully charged. The flashlight adopts a 3-light lens design and performs well in long-distance lighting, while dual-side lights with soft lampshades ensure large-area cozy lighting.

Now most camping lights in the industry are battery life and dimming-oriented, but few products are designed based on multi-scene application, portability, and simplicity. For this reason, the Wu Kong Camping Light newly adds an inner telescopic structure to enable multi-form usage modes to address the pain points mentioned above, being a versatile light that allows adjustment of height and angle to be suitable for diverse scenes. Combined with the application of CMF, it meets users' aesthetic pursuit of outdoor products.

Wu Kong Camping Light adopts an innovative inner structure. It ensures smooth stretching and multi angle adjustment of the lamp body, making it less prone to damage. Wu Kong Camping Light adopts ABS and nylon+GF to be wear-resistant, resilient, and resistant to falling. Packed with a 4500mAh large-capacity battery, it supports Type-C direct charging. The double-sided soft light cover of the side lights and the three lens design of the flashlight make high beam and large-area floodlighting excellent, covering the entire industry. A single control button adjusts multi-mode lighting, combined with color display, ensures visible and convenient operation.

整机以园林家族化设计语言“流动光影”为基础，同时融入流水的流淌感作为灵感起源。把水的润养万物与产品的草坪养护理念相结合，满足园林品类对亲和力的追求，让产品的造型更加的人性化。

本产品拥有智能规划切割路径的算法能力，切割效率是传统随机路径切割机器人的2倍。切割全面，边角无遗漏。搭配无线网络和手机APP互联，可以随时查看工作状态，管理路径，设置日程，设定切割参数等。切割草坪美观，实时掌握信息。

本产品采用激光雷达和碰撞检测双重保护系统。激光雷达拥有5000次/秒的激光扫描，持续保障360°的空间安全。提前识别障碍物，并以毫米级的精度避开障碍物。而碰撞检测作为后备手段，减少撞击带来的机器损伤，为安全加码。

The product is designed with the garden-inspired language of "flowing light and shadow", drawing inspiration from the fluidity of water. It merges the nourishing properties of water with the product's lawn maintenance philosophy, aligning with the affinity sought after in garden products, which enhances the product's humanized appeal.

This product boasts an algorithm that intelligently plans cutting paths, achieving twice the cutting efficiency of traditional robots with random paths. The cutting is complete, leaving no edges or corners uncovered. When paired with wireless networks and mobile apps, users can monitor work status, manage cutting paths, schedule tasks, and adjust cutting parameters anytime. The lawn is beautifully cut and information is always up to date.

This product features a dual protection system that includes LiDAR and collision detection. The LiDAR system operates at 5000 scans per second, providing continuous 360° spatial security. It identifies obstacles in advance and avoids them with millimeter-level precision. Collision detection serves as a backup measure, minimizing machine damage from impacts, which enhances safety.

**轻便趁手，一把抓：**采用330mm\*149mm的紧凑设计，结合高密度无刷电机和紧凑的传递结构设计，实现了轻便趁手的操控感。整机重量仅为1.6kg，设计轻巧，操作更加方便。

**切割效率高：**配备高效无刷电机，每分钟3000次的高频往复震动，确保畅切无阻，最大26mm的大往复行程，实现快速截断，提升切割效率。

**快换快调，多工况覆盖：**锯条和底板可快速更换和调整，适用于多种工况。

**稳固耐用：**采用铝合金齿轮箱和双重密封结构设计，具有良好的耐久性和稳固性，可靠性高。旁路开关设计，操作更加便捷，保证安全可靠。

**Lightweight and Handy:** Featuring a compact design of 330mm\*149mm, combined with a high-density brushless motor and a compact transmission structure, providing a lightweight and ergonomic grip. With a weight of only 1.6kg, it is designed to be lightweight for easier handling.

**High Cutting Efficiency:** Equipped with a high-efficiency brushless motor, capable of 3000bpm high-frequency reciprocating vibration, ensuring smooth cutting without obstacles. With a maximum stroke of 26mm, it enables quick and efficient cutting.

**Quick Change and Adjustment for Versatile Applications:** The saw blade and base plate can be quickly changed and adjusted, suitable for various applications. **Sturdy and Durable:** Constructed with an aluminum alloy gearbox and a double-sealed structure, providing durability and stability. The bypass switch design ensures convenient operation and reliability.

双子座电动多功能刀创新融合电动螺丝刀、全尺寸钳子和多功能EDC工具，多达13+功能。它很小巧紧凑，整体重量仅278g，便于用户随身携带，是一手可握的实用“工具箱”。强磁电机配合全金属齿轮机身，转速可达170r/min，有效提升精修效率；内置可充电230mAH的锂电池，满电可打400颗螺钉。铝合金机身结合特色纹理设计，有别于常规多功能刀的外观辨识度，舒适的握持感，防滑耐汗。极简的按键设计，便于用户清晰、即时交互。核心的功能部件，除了是大尺寸外，精心选材。设备包含10种型号的精密批头，5种功能及可换钳片的钳头及50Cr15MoV优质钢材的刀刃，贴合主流电子产品及小家电,例如电脑，手机，玩具，模型等拆装需求。

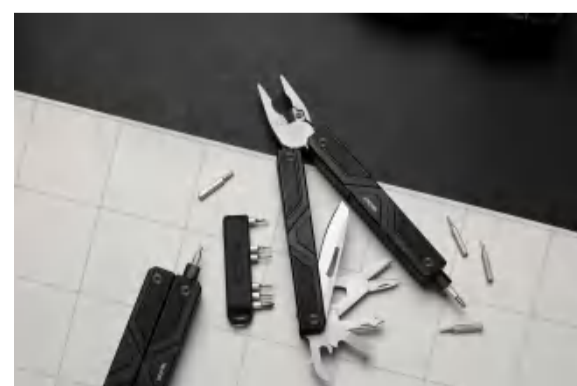

市面上很多工具使用功能单一，需要搭配购买多种不同功能的工具，不易收纳的同时，需要大量的成本，且手动操作易疲惫；而大部分电动工具笨重不便于携带。双子座电动多功能刀提出电动+手动全新概念多功能刀，在一把工具里实现双动力。它是一把基于钳子来设计的多功能工具，在一边手柄加入了电动螺丝批，另一个手柄有5个多功能部件，让用户便捷地使用13种高频需求的功能。用户能用更低的成本拥有多种工具且减少空间的占用，并且提升工作效率。

这是一款全新概念的双子座电动多功能刀，也是市面上难得的将电动螺丝批整合到多功能钳上的创新性产品。为了提升产品品质，纳拓专门邀请原国营小刀厂总工程师带领团队研发，并投入千万建设精益连续流生产线,对比普通五金加工业仅能达到0.1mm加工精度,这条产品线可以做到0.04mm精度控制,确保产品各功能部件组装后更精准耐用。

NexTool Gemini 13-in-1 Electric Multi Tool innovatively integrates electric screwdrivers, full-size pliers, and multifunctional EDC tools, with up to 13 functions, making this multi-tool a practical "toolbox" that can be held in one hand. Its all-metal gear structure with a strong magnetic motor secures an operation speed of 170r/min, improving precision-repairing efficiency. This electric multifunctional tool applies a 230mAh lithium battery, which can drive over 400 precision screws when fully charged. The aluminum alloy-made body is processed with anodizing treatment. Its distinctive texture ensures it is anti-slip, sweat resistant, easy to hold and highly recognizable. The minimalist button design facilitates easy and visible interaction. The core functional components, in addition to being large-sized, are carefully made of better materials. It consists of 10 models of precision screwdriver heads, 50HRC, 30Cr13 alloy steel-made pliers, 50Cr15MoV steel-made blades.

Now many tools on the market only have a single function, which cannot meet users' needs for multi-function integrated tools. Besides, those single-function tools are laborious to use or store. Otherwise, most electric tools are too heavy to carry. To this end, NexTool Gemini 13-in-1 Electric Multi Tool proposes a new concept of electric+manual multi-functional tools to achieve dual power with one tool. It is a pliers-based multitool with precision electric screwdriver in one handle and 5 sets of tools in the other. It enables users to easily utilize 13 frequently used functions, meeting multi-scene needs. Users can have a set of tools at a lower cost while avoiding multiple types of tools taking up space and improving work efficiency.

Based on a new concept, NexTool Gemini 13-in-1 Electric Multi Tool become an innovative product on the market that an electric screwdriver and multifunctional pliers have been combined. In order to improve product quality, NexTool specially invited the former Chief Engineer of government-owned knife factory in Yangjiang, to lead the team in research and development, and invested millions to build a lean continuous flow production line. Compared to ordinary hardware processing industries, which can only achieve a processing accuracy of 0.1mm, This product line can achieve a precision control of 0.04mm, ensuring that the functional components of the product are assembled more accurately and durable.

## 20伏移动照明灯WU029 20V TELESCOPING TRIPOD LED LIGHT WU029

双色温，高流明 4000K/7000K 双色温调节，冷白光更透亮，照亮全场，暖白光更柔和，灰尘环境更强穿透度。4500LM/2000LM两档亮度可调，优质进口品牌灯珠，清晰高亮，寿命持久。

广照明，长续航 360度可调双灯头，94-210mm高度可调，可精准调整照明区域，最大可支持长达70m的照明距离。20V KROSSPACK高能锂电平台，支持7小时无线续航\*，还可AC/DC双供电，连续工作无断档。

便携防护，铝合金轻量化设计+便携伸缩折叠，更有IP54高防水防尘，工作场景不限制。整机IP54防护等级，户外使用，不惧雨水灰尘。

Dual Color Temperature, High Lumen Output 4000K/7000K dual color temperature adjustment, cool white light for brighter illumination, warming white light for softer illumination with stronger penetration in dusty environments. 4500LM/2000LM two-level brightness adjustment, equipped with high-quality imported light beads, providing clear and bright illumination with long-lasting lifespan.

Wide Illumination Range, Long Service Life 360-degree adjustable dual lamp heads, adjustable height from 94 to 210mm, allowing precise adjustment of the illumination area, supporting a maximum illumination distance of up to 70 meters. Powered by the 20V KROSSPACK high-energy lithium battery platform, supporting up to 7 hours of wireless continuous operation\*, also compatible with AC/DC dual power supply, ensuring uninterrupted operation.

Portability and Protection Aluminum alloy lightweight design with portable retractable folding, IP54 high waterproof and dustproof rating, suitable for various working environments without restrictions. IP54 protection rating for the whole machine, suitable for outdoor use, unaffected by rainwater and dust.

20V 锂电喷枪  
20V CORDLESS SPRAY GUN

设计师 Designer:

本实用新型公开了一种使用舒适的电动喷枪的壳体, 包括用千安装电机、风扇的后机壳、后机壳的下端、固定设置或体设置有把手, 特点是后机壳的下端与把手的连接处设置有与外界相连通的进风通道, 将后机壳和把手相隔离, 进风通道通至风扇的进风侧; 优点是由于进风通道的温度始终保持在环境温度, 而进风通道将后机壳和把手相隔离, 这很好地阻挡了后机壳内的热呈的传导, 长时间使用后, 把手的温度可基本保持环境温度, 让使用者操作使用较舒适。

尾部储存多余喷嘴, 方便使用, 专利功能。

本实用新型公开了一种方便加液体的喷枪, 包括枪体、料壶、顶针、扳机以及出风机构等组成。喷枪在使用时, 需要在料壶中洲入涂料等用来喷涂的液体, 由于料壶的容积有限, 在对物体的喷涂过程中, 每次喷涂完液体都需要拧下料壶进行加液, 加液过程中吸管裸露在外, 吸管上的液体滴落既污染环境又浪费材料, 同时给喷枪的使用带来不便。为了解决上述问题, 目前也有在喷料料壶的壶盖上另外设置加液口, 但是由于加液口位于喷枪枪头的下方, 其可操作空间有限, 加液还是不够方便。

The utility model discloses a shell of an electric spray gun which is comfortable to use, comprising a rear shell for mounting a motor and a fan, a handle being fixedly arranged or physically arranged at the lower end of the rear shell, and a characteristic of the utility model is that an air inlet passage communicating with the outside is arranged at the connection between the lower end of the rear shell and the handle, the rear shell and the handle are isolated, and the air inlet passage leads to the air inlet side of the fan; the advantage is that the temperature of the air inlet passage is always maintained at the ambient temperature, and the air inlet passage isolates the rear shell and the handle, which effectively blocks the conduction of heat in the rear shell, and after long-term use, the temperature of the handle can basically maintain the ambient temperature, so that the user can operate and use it more comfortably.

It is patent function to store extra nozzle for convinient using

The utility model discloses a spray gun with convenient to adding liquid, which comprises a gun body, a material pot, a thimble, a trigger and an air outlet mechanism. When the spray gun is in use, it is necessary to put the liquid such as paint into the material pot for spraying. Since the capacity of the material pot is limited, during the spraying process of the material, the material pot needs to be unscrewed for liquid addition after each liquid spraying. During the liquid addition process, the straw is exposed to the outside, and the liquid dripping on the straw not only pollutes the environment but also wastes materials, and brings inconvenience to the use of the spray gun. In order to solve the above problems, there is also a liquid addition port on the pot cover of the spray pot, but since the liquid addition port is located below the spray gun head, its operable space is limited, and liquid addition is still not convenient enough.

此产品突破现有同质化和工程结构为主的野营车设计，实现了现代和运动美学的结合。前后大小轮的设计给整个产品带来了速度感，车身的线条更加现代，外露的管材和布料塑料的结合，使得产品更加有层次，同时给用户带来耐用的感觉。日益兴起的精致露营，在外型突破之外，此产品追求极致体验。T型把手符合人体工程学，高度调节适用于不同身高的人群。360度旋转的把手和前轮在野营车转弯时，即时响应，转弯半径比竞争对手小1倍。12寸的后轮具有优越的越障性能，橡胶EVA轮胎，轴承和轮轴的丝级配合提升了野营车的减震静音能力。底框的网状设计，可打开尾板，侧板打开变成板凳等功能都是在深度挖掘用户和使用场景后，集成在此野营车中。

此产品的塑料件部分使用GRS材料，总装线符合ESG的理念。我们60%的能源需求来自太阳能光伏发电，废水100%进行处理。我们对温室气体排放进行控制和监测，并通过了SGS ISO 14064认证。

质量标准的突破：车身管材从16改成25毫米，布料从600D提升到了1000D，轮毂从传统的PP或ABC改成了更加结实的工程塑料PC，产品承重提升到了400磅，解决了传统野营车容易损坏的问题，提升了这个品类的标准。

垂直一体化产线：自制金工，注塑，到缝纫与总装线体的拉通，实现了垂直一体化产线，正在策划的自动化线体，可以进一步提升效率和降低成本，MES和RFID的导入实现全流程的质量监控。商业模式：OEM到OBM的转型，实施差异化战略，通过KOL的引流到电商和KA，增加流量和转化率。

This product breaks through the existing homogenization and engineering structure-oriented utility cart design, and realizes the combination of modern and sports aesthetics. Small front and big rear size wheel design brings speed feeling, the cart body line is more modern, the combination of exposed pipe and fabric plastic, making the product more hierarchical, while giving the user a durable feeling. The glamping is rising, in addition to the appearance breakthrough, this product pursuit of the ultimate experience. The T-shaped handle is ergonomic, and the height adjustment is suitable for different height people. The 360-degree rotating handlebar and front wheels respond instantly when the utility cart turns, and the turning radius is half of the competitor. The 12-inch rear wheel has excellent obstacle performance, and the rubber EVA tires, accurate cooperation between bearings and axle enhances the shock absorption and silence of the utility cart.

The plastic parts of this product are made of GRS material, and the final assembly line is in line with the concept of ESG.60% of our energy demand is generated at our solar farm.100% of wastewater is treated.Our greenhouse emissions are controlled and monitored and was certified by SGS ISO 14064.

Quality standards breakthrough: the body pipe was changed from 16 to 25 mm, the fabric was increased from 600D to 1000D, the wheel hub was changed from the traditional PP or ABC to the more robust engineering plastic PC, and the load bearing of the product was increased to 400 pounds, which solved the problem of easy damage of the traditional utility cart and improved the standard of this category. Vertical integrated production line: self-made metal, plastic, sewing connected with final assembly which achieve vertical integrated production line, the planned automation line can further improve efficiency and reduce costs, MES and RFID can achieve the quality control of the whole process. Business model: change from OEM to OBM, and implement differentiation strategy, advertise by KOL to increase the traffic and conversion rate in e-commerce and KA.

## 双层分类垃圾桶 DOUBLE DECK TRASH CAN

双层立式分体设计, 整体高度更符合人体工程学, 免弯腰设计, 贴心实用。

上层身采用隐藏式按盖设计, 轻轻一碰就可以开盖方便省力 开盖轻静无声, 下层分体式可移动设计, 轻松移动, 可存放可回收垃圾。

多桶设计: 方便垃圾分类。贴合设计, 盖桶紧闭, 蚊虫拜拜。

环保设计: 耐用和可回收的材料制作, 回收环保塑胶制作内桶 上盖配有可更换的活性炭过滤系统, 轻松消除异味, 保障厨房卫生。

With a double-layer vertical split design, its overall height is more in line with ergonomics. It is bending-free and practical.

The upper compartment adopts a hidden cover design, which can be opened with a finger touch. It is convenient and user-friendly. The cover is light in weight and opens/closes quietly. The lower compartment makes it easy to move and store recyclable garbage.

Environment-friendly design: It is made of durable and recyclable plastics. The upper cover is equipped with a replaceable activated carbon filtration system to eliminate peculiar smell easily.

### 一触, 即发

上盖采用隐藏式按压开合设计, 轻轻一碰即可开盖, 方便省力, 轻静无声。

### 清新, 脱俗

上盖内配有先进的活性炭过滤系统, 可轻松消除异味。

### 随心, 所欲

隐藏式提把设计, 优美的曲线, 符合人工力学, 让移动变得更加轻松自在。

### 海纳, 百川

双层独立内桶设计, 大容量, 二体合一, 干湿分离, 环保易分类。

--	---	--

为了解决刀不具备更换配件的能力，坏了就丢弃换新问题。我们特意设计一款可拆卸，配件独立的厨房刀，可随时更换掉的部分，而不用整刀废弃，还能根据自己喜好定制配件以满足自己个性需求。外观用极简的几何线条配合镂空，让该产品更具现代设计感和简约，还能达到合理减重的目的；一刀多柄，随意变化颜色花纹，个性设计满足不同人对美的需求；我们通过CNC的全自动化精工生产，极大减少独立配件的误差，以达到普通消费者就能组装的目的。

这把刀的社会效益在于减少了金属材料的浪费，如果能大量推广，用户对刀具的追求就不是购买新的，而是对刀的维护更新和配件更换，全自动机械生产提升生产效率，减少了人工，降低工人在生产过程可能出现的职业病和工伤概率；该项目对传统刀具，无论生产方式，还是厨房刀的形式产生一定程度上的变革，对未来资源和人力紧缺的形势来说，是一种可持续发展的道路。

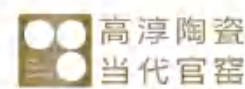

产品采用镂空的设计调节整个刀体的平衡度，参照人体工程学有效降低使用时手腕使用的力量，同时该厨房刀用了特殊的热处理和水磨工艺，让其表面硬度达到 $61 \pm 1 \text{HRC}$ 还能保持优越的韧性，耐磨性更好；整个刀身采用一体龙骨设计，无任何焊接点，提高整体质感同时杜绝焊点断刀的发生。它优越的性能决定了该厨房刀切削食物时候更轻松，也更耐用。DIY的方式让刀具更有个性，可更换配件的方式也减少金属资源浪费，部件坏了只需单独更换。

In order to solve the tool does not have the ability to replace parts, broken for a new problem. We specially designed a detachable kitchen knife with independent accessories, which can be replaced at any time without the whole knife being discarded. It can also be customized according to your preferences to meet your personal needs. The appearance of the minimalist geometric lines with hollow, so that the product more modern design sense and simple, but also to achieve the purpose of reasonable weight reduction; One knife multi handle, random change of color pattern, personality design to meet the needs of different people to the United States; We have greatly reduced the error of independent accessories through the fully automatic precision production of CNC, so as to achieve the purpose that ordinary consumers can assemble.

The replacement parts mode of this product can reduce the waste of knives and effectively save the consumption of metal raw materials in the industry. Automated mechanical production improves production efficiency, reduces labor, and reduces the probability of occupational diseases and injuries that may occur in the production process; This project has a certain degree of transformation of traditional knives, both in the production mode and the form of kitchen knives. For the situation of shortage of resources and manpower in the future, it is a sustainable development path.

The product adopts hollow design to adjust the balance of the whole knife body, referring to ergonomics, effectively reduce the power of the wrist when using, at the same time the kitchen knife with a special heat treatment and grinding process, make its surface hardness 61 HRC still can maintain superior toughness, better wear resistance. The whole knife body adopts an integrated design without any welding points, which can improve the overall texture and prevent the occurrence of broken welding points. Its superior performance determines that the kitchen knife is easier to cut food, but also more durable. The DIY method makes the knife more personalized, and the replaceable parts method also reduces the waste of metal resources.

在时光的荒芜中徜徉，在历史的尘埃中找寻，潜入平静而深邃的心湖中，默默地将回忆收藏。转身间，流畅的线条拨动心弦，涟漪渐起，水花荡漾，奏起一篇篇动感的乐章。

《游弋》系列骨质瓷茶餐具设计装饰以有序而轻快的线条为主，思绪的游弋，典雅、灵动。线条的变化带动的欧式浪漫风格，追求简练，明快、灵动、跳跃。采用最高档的骨瓷为设计胚体，用欧式器型进行配套，突出花面设计风格，彰显简约之美。

产品适合欧洲市场，采用浮雕、磨砂及亮银装饰，价位适中，是家庭、酒店宴会用瓷首选产品。

Wandering in the desolation of time, searching in the dust of history, diving into the calm and profound lake of the heart, silently collecting memories. As I turned around, the smooth lines stirred the strings of my heart, ripples gradually rose, and water rippled, playing a series of dynamic movements.

The design and decoration of the bone ceramic tea tableware in the "Roaming" series are mainly composed of orderly and light lines, with elegant and dynamic thoughts. The European romantic style driven by changes in lines pursues simplicity, liveliness, agility, and jumping. Using the highest grade bone porcelain as the design embryo, matched with European style vessels, highlighting the floral design style and showcasing the beauty of simplicity.

The product is suitable for the European market and features embossed, frosted, and glossy silver decorations. It is affordable and is the preferred product for home, hotel, and banquet porcelain.

快乐系列炊具组合套装, 是一款在功能与审美上均表现出色的厨房佳品。产品规格丰富全面, 无论是煎、蒸还是煮它都能轻松驾驭, 展现出多样化的烹饪功能, 满足您的各种烹饪需求。与此同时, 这款套装在设计上巧妙绝伦, 具备全收纳功能。收纳后, 它占用空间极小, 不仅便于存放, 更能有效释放厨房空间, 提高空间利用率, 让您的厨房更加整洁。更令人称赞的是, 手柄设计独具匠心, 不仅美观实用, 而且可拆卸, 并能适用于不同规格的锅具。这一人性化设计, 无疑为用户带来了前所未有的便捷与舒适的烹饪体验, 让每一次烹饪都成为一次愉悦而满足的享受。

快乐系列锅具, 深谙健康烹饪之道, 以绿色生态为核心理念, 倾力打造健康的烹饪体验。其精心选用的NO PFAS陶瓷涂层, 以卓越的性能确保食材在烹饪的每一个环节都免受有害物质的侵扰, 这一选择不仅彰显了品牌对消费者健康的深切关怀, 更是对人类健康事业的一份积极担当与贡献。此外, 快乐系列锅具的全收纳式设计独具匠心, 它不仅简化了包装, 减少了包装成本, 而且在运输过程中也大大节省了运输成本。这一设计不仅体现了品牌对资源节约的深刻认识, 更在无形中减少了生产制造与运输过程中的能源消耗, 为达成碳中和目标贡献了一份不容忽视的力量。

整套产品匠心独具, 所有规格均可实现紧密堆叠收纳, 极大节省了储存空间。其创新之处在于手柄的可拆卸设计, 这一设计不仅方便清洁, 更可以灵活适配不同规格的锅具, 实现一套手柄的多功能应用。如此一套产品, 功能多样, 性能卓越, 既有效优化了成本, 又满足了多层次消费者的多样化需求, 真正实现了高效与实用的完美结合。

The Happy collection cookware set is an exceptional kitchen essential that excels in both functionality and aesthetics. With a comprehensive range of specifications, it handles tasks like pan-frying, steaming, and boiling effortlessly, demonstrating diverse cooking capabilities to satisfy your various culinary needs. At the same time, this set boasts ingenious design, featuring a complete storage function. Once stored, it occupies minimal space, not only facilitating storage but also effectively freeing up kitchen space, enhancing its utilization, and keeping your kitchen tidy. What's even more commendable is the uniquely crafted handle design, which is not only visually appealing and practical but also detachable, compatible with various pot sizes. This user-friendly design undoubtedly brings unprecedented convenience and comfort to the cooking experience, making every cooking session a delightful and satisfying endeavor.

The Happy collection cookware, deeply understanding the art of healthy cooking, takes green ecology as its core concept and strives to create a healthy cooking experience. Its carefully selected NO PFAS non-stick coating ensures that ingredients are protected from harmful substances during every step of the cooking process. This choice not only demonstrates the brand's deep concern for consumers' health but also serves as a positive commitment and contribution to human health. Furthermore, the ingenious full-storage design of the Happy Series cookware not only simplifies packaging and reduces packaging costs, but also significantly saves on transportation costs. This design not only reflects the brand's profound understanding of resource conservation but also reduces energy consumption during manufacturing and transportation, contributing a significant force towards achieving carbon neutrality goals.

This entire set of products is uniquely crafted, with all specifications allowing for compact stacking and storage, greatly saving on storage space. Its innovation lies in the detachable design of the handles, which not only facilitates cleaning but also flexibly fits different sizes of pots and pans, enabling the multifunctional use of a single set of handles. This comprehensive set of products, with diverse functions and excellent performance, effectively optimizes costs while satisfying the diverse needs of consumers from various backgrounds, truly achieving a perfect combination of efficiency and practicality.

该款晾衣架具有免下支撑的新结构。该种打开方式优势在于: 1、取消底部的支撑杆, 晾晒衣服不遮挡; 2、采用插拔结构, 结构简单成本低; 3、两个高度挡位可调, 方便晾晒裤子等长衣服。

晾衣架为城市住宅中空间受限的家庭带来了便捷的晾晒选项, 这不仅有助于节省居住空间, 而且相较于使用烘干机, 晾晒衣物的方式更加环保, 有助于降低能源使用和减少碳足迹。

采用喷粉的表面处理工序, 防刮花防生锈; 免焊接, 减少加工难度易于大批量生产。

This clothes rack features a new structure that eliminates the need for lower support. The advantages of this design are as follows: 1. Removal of the bottom support rod, ensuring that drying clothes are not obstructed. 2. Utilization of a plug-in structure, which is simple and cost-effective. 3. Two adjustable height positions, convenient for drying longer garments such as trousers.

The drying rack offers a convenient drying solution for families in urban residences with limited space, which not only helps to save living space but also provides an eco-friendly alternative to using a dryer. This method of air-drying clothes significantly reduces energy consumption and carbon emissions, contributing to a more sustainable environment.

The clothes rack undergoes a powder coating surface treatment process, which is scratch-resistant and rust-proof. The design is weld-free, reducing manufacturing complexity and facilitating mass production.

为提升您的移动饮水便利性，本产品精心设计了按钮弹出式吸嘴功能。只需轻轻一按，吸嘴即刻弹开，无需手动拧开传统瓶盖，大大简化了饮水步骤。这一创新设计不仅加快了补水速度，更实现了单手轻松操作，尤其适合驾驶出行时使用，让您的驾驶饮水体验既便捷又充满格调。

该车载杯采用可持续材料，可回收材料，生产过程低碳环保，符合绿色消费理念和双碳目标。其生产创造就业机会，支持传统工艺，推动文化交流，体现了社会包容的理念。产品的创新设计、优质材料和精湛工艺，使其在市场上具备较强竞争力。同时，它也体现了高度的社会责任感，为绿色发展和社会进步贡献着自己的力量。通过使用可回收材料、提高生产效率、推广绿色生活方式、支持弱势群体等方式，服务板的社会价值将得到进一步提升，成为造福社会的优秀产品。

该车载杯采用优质材料和精湛工艺，具有坚固耐用、安全卫生的品质优势，并通过使用传统工艺和创新材料，促进产业升级和材料创新。同时，生产效率的提升和生产成本的降低进一步增强了其商业价值。通过独特设计和品牌优势，拓展线上线下销售渠道，并提供优质售前售后服务，优化商业运营模式。未来，通过加强产品研发、完善营销策略、优化服务体系和拓展海外市场，该车载杯将进一步提升其市场竞争力和商业价值。

To enhance your drinking convenience while on the move, this item has been meticulously crafted with a push-button feature that instantly opens the sipping nozzle. With a single gentle press, the nozzle springs open, eliminating the need to manually unscrew a traditional lid. This innovative design not only speeds up hydration but also facilitates effortless one-handed operation, making it especially ideal for drivers during travel. Elevate your driving hydration experience with ease and style.

The Travel Mug uses sustainable materials, recyclable materials, low carbon environmental protection production process, in line with the green consumption concept and double carbon goals. Its production creates jobs, supports traditional crafts, promotes cultural exchange and embodies the idea of social inclusion. The innovative design, high-quality materials and exquisite workmanship of the products make them more competitive in the market. At the same time, it also embodies a high sense of social responsibility and contributes its own strength to green development and social progress. By using recyclable materials, improving production efficiency, promoting a green lifestyle, and supporting vulnerable groups, the social value of the service

board will be further enhanced and become an excellent product for the benefit of society.

The Travel Mug uses high-quality materials and exquisite technology, has the advantages of durable, safe and hygienic quality, and promotes industrial upgrading and material innovation through the use of traditional processes and innovative materials. At the same time, the improvement of production efficiency and the reduction of production costs further enhance its commercial value. Through unique design and brand advantages, we expand online and offline sales channels, provide high-quality pre-sales and after-sales services, and optimize the business operation model. In the future, by strengthening product research and development, improving marketing strategy, optimizing service system and expanding overseas markets, the Travel Mug will further enhance its market competitiveness and commercial value.

采用硅胶和尼龙一体成型的生产工艺,很好解决了纯硅胶量杯太软了,液体容易溢出的弊端;正方形外形设计,握感好,软硬结合,就算是湿手抓握也不打滑。

V型可变嘴设计,倒水急缓可调控,倒水流畅不挂滴。高透液体硅胶印上清晰的刻度使得用量精准可控。产品耐高温220摄氏度和低温零下30度,食品级材质,性能稳定安全。

产品内部是抛光表面处理,容易清洗,同时也可以进入洗碗机清洗。小量杯在收纳时可以放入大量杯中,不额外占用厨房寸土寸金的空间。

The new measuring cup, using silicone and nylon one-piece moulding production process, can be a good solution to the pure silicone material is too soft resulting in the liquid easy to overflow the drawbacks; Square shape design, soft and hard combination of good grip, not easy to slip.

V-shaped variable spout design, pouring speed can be controlled, pouring water smoothly without hanging drip. Highly translucent liquid silicone with clear graduations for precise and controllable dosage. The product is high temperature resistant -30 °C to 220 °C, food grade material, stable and safe performance.

The internal surface of the product is polished for easy cleaning and is also dishwasher safe. Large measuring cup for small measuring cups, easy to store and save space.

## 户外收纳箱桌 OUTDOOR STORAGE BOX TABLE

这是一款为热爱户外活动的大众群体所设计的收纳箱桌。集收纳和高层置物为一体，巧妙地融合了箱子和桌子的功能，使产品拥有了更合理的分区使用方式。产品下部分为收纳物品区域，上部分为桌面置物区域，中间桌面高出的空间则是便于用户取物。功能的结合以及合理的使用分区给用户带来了更加愉悦舒适的使用体验。

产品还实现了可通过盖子的拉伸来自由转换箱与桌的功能，盖子合起是箱子，盖子拉开固定则可变成桌子。用户外出游玩，只需携带一个箱子，外出途中用来收纳物品，需要时则拉开盖子变成桌子，一物两用，实现用户的轻量化露营。

这款收纳箱桌采用PP加HIPS材质，力筋加强加固，厚实不软榻，满足用户用作桌子使用时的承重要求。在取物方面，箱子采用了双开门结构，正面可以开门取物，盖子和箱子中间的空间也可以轻松取物，顶盖置物，桌下收纳，便于用户使用，享受惬意出行。

This is a storage box table designed for the masses who love outdoor activities. It integrates storage and high-rise storage, and cleverly integrates the functions of boxes and tables, so that the product has a more reasonable way to use partitions. The lower part of the product is the storage area, the upper part is the desktop storage area, and the high space of the middle desktop is convenient for users to take things. The combination of functions and reasonable use partitions bring users a more pleasant and comfortable experience.

The product also realizes the function of freely changing the box and table by stretching the lid, which is a box when the lid is closed, and the lid can be opened and fixed to become a table. When users go out to play, they only need to carry a box, which is used to store items on the way out, and when needed, they can open the lid and turn it into a table, which is dual-purpose and realizes the user's lightweight camping.

This storage box table is made of PP and HIPS material, reinforced with tendons, thick and not soft, to meet the load-bearing requirements of users when used as a table. In terms of pick-up, the box adopts a double-door structure, the front can be opened to pick up things, the space between the lid and the box can also be easily retrieved, the top cover is placed, and the table is stored, which is convenient for users to use and enjoy a comfortable trip.

一款多功能锅，集蒸、煮、烤于一体的锅体。

一款多功能蒸煮锅能满足家庭厨房的烹饪需求，功能的多样化，不放蒸格的情况下，可以做为深型的汤锅使用。放蒸格后，可以同时涮和蒸。或者是同时煮和蒸。在一个锅内实现两种料理方式，节约时间，减少能耗。使得厨房中不需要备有大量锅具，为消费者带去实惠和便利。

相对于单一的锅体，此款一锅多用，做一种烹饪的时间，可以有不同的用餐体验，节约大量的时间和能源。

A multi-functional pot, steaming, boiling, roasting in one pot body.

A multi-functional pot with steaming box can meet the cooking needs of the kitchen, the diversification of functions, without the case of steaming, can be used as a deep pot. After put steaming, can rinse and steam at the same time. Or boil and steam at the same time. Achieve two cooking methods in one pot, saving time and reducing energy consumption. So that the kitchen does not need to have a large number of POTS and pans, to bring benefits and convenience to consumers.

Compared with a single pot body, this pot is multi-purpose, do a kind of cooking time, can have a different dining experience, save a lot of time and energy.

## 咖啡渣条纹咖啡杯 COFFEE GROUNDS STRIPED COFFEE CUP

通过利用咖啡渣的天然纹理和颜色，可以创造出独特的条纹图案，为咖啡杯带来全新的外观和视觉体验。这种创新性设计能够吸引消费者的注意力，提升产品的吸引力和市场竞争力。同时可以结合咖啡渣材料的特性，优化咖啡杯的功能性，增加防滑处理、优化握持感等。这种功能性优化能够提升使用体验，满足消费者对高品质、便利性的需求。

**资源利用与环保:** 从咖啡渣到条纹咖啡杯可以有效利用废弃资源，降低环境负担。这种创新的材料利用方式有助于减少咖啡渣的处理成本，提升可持续发展的形象，促进产业的生态友好型发展。

1. **工艺创新与技术改进:** 生产咖啡渣条纹咖啡杯需要开发新的生产工艺和技术，对咖啡渣进行加工处理、制作成杯子的工艺等。这种创新推动了产业的技术进步和工艺水平的提高，有助于推动整个行业朝着更加高效、智能化的方向发展。2. **行业合作与产业链整合:** 生产咖啡渣条纹咖啡杯可能需要跨行业合作，整合咖啡产业链的资源，包括咖啡生产商、咖啡店、咖啡渣处理企业等。这种合作模式有助于推动产业链的协同发展，实现资源共享和优势互补，推动整个行业向前发展。

By utilizing the natural texture and color of coffee grounds, a unique striped pattern can be created, giving the coffee cup a new look and visual experience. This innovative design can attract consumers' attention and enhance the product's appeal and market competitiveness. At the same time, the characteristics of the coffee grounds material can be combined to optimize the functionality of the coffee cup, add anti-slip treatment, optimize the grip, etc. This kind of functional optimization can improve the user experience and meet consumers' needs for high quality and convenience.

**Resource utilization and environmental protection:** From coffee grounds to striped coffee cups, waste resources can be effectively used to reduce the environmental burden. This innovative use of materials helps reduce the cost of coffee grounds disposal, enhances the image of sustainable development and promotes the eco-friendly development of the industry.

1. **Process innovation and technological improvement:** The production of coffee grounds striped coffee cups requires the development of new production methods Craftsmanship and technology, the process of processing coffee grounds and making them into cups, etc. This kind of innovation promotes the technological progress and improvement of process level in the industry, and helps promote the development of the entire industry in a more efficient and intelligent direction. 2. **Industry cooperation and industry chain integration:** The production of coffee grounds striped coffee cups may require cross-industry cooperation and integration of resources in the coffee industry chain, including coffee manufacturers, coffee shops, coffee grounds processing companies, etc. This cooperation model helps promote the coordinated development of the industrial chain, realize resource sharing and complementary advantages, and promote the development of the entire industry.

新型厨余堆肥器大小适中, 外形美观. 设计有腿, 避免使用时腰部和腿部可能出现的弯曲和拉伤。产品配有小桶, 便于收集蠕虫汁。多层堆叠设计可轻松处理更多厨余垃圾。

产品使用时不仅产生大量的蠕虫汁来供给土壤。同时还能处理城市有机垃圾, 化废为肥, 消除有机废物对环境的污染等。

“蚯蚓农场”是城市园林种植的绝佳伴侣, 使用简单方便, 不仅有助于处理厨房食物垃圾, 还能提供大量原始肥料, 节省种植成本。

The new kitchen composter is moderate in size and beautiful in appearance. Designed with legs and feet to avoid bending and straining potential of waist and legs during use. The product comes with a small bucket for easy collection of worm juice. Multi-layer stacking design can easily handle more kitchen food waste.

When the product is used, it not only produces a large amount of worm juice to feed the soil. At the same time, it can also process municipal organic waste, turn waste into fertiliser and eliminate the pollution of organic waste to the environment.

Worm farm is an excellent companion for urban garden planting, it is easy and convenient to use and not only helps to dispose of kitchen food waste, but also provides a large amount of original fertiliser to save on planting costs.

## 多功能喷雾水杯 MULTI FUNCTION SPRAY CUP

该产品不仅具备降温解渴的功能,还配备了喷雾功能。在运动过程中,只需轻轻一喷,细腻的水雾便能迅速增加周围环境的湿度,有效降低皮肤温度,带来即时的解暑效果。此外,同时通过饮水,迅速补充因运动而流失的水分,快速解渴,恢复活力。

整杯采用可降解的环保材质,婴儿级的Tritan瓶身,不含双酚A,耐90°C高温,健康无毒。800ML大容量,满足一天饮水量,外出自带水杯,拒绝使用一次性水杯,绿色环保。

一盖两饮设计,可吸管可直饮,随心切换喝水模式。编织拎绳,随拎即走,便携耐用,潇洒潮酷。

This product not only has the function of cooling and thirst quenching, but also is equipped with spray function. During exercise, with just a gentle spray, the delicate mist can quickly increase the humidity of the surrounding environment, effectively reduce skin temperature, and bring instant cooling effects. In addition, by drinking water, it can quickly replenish the water lost due to exercise, quench thirst quickly, and restore vitality.

The entire cup is crafted from biodegradable and eco-friendly materials, boasting a baby-grade Tritan body that's BPA-free and stands up to temperatures of up to 90°C. It's both healthy and non-toxic. With a generous 800ML capacity, it meets your daily water needs. Carrying your own cup while out and about avoids the use of disposable cups, promoting green and sustainable practices.

This product adopts a dual use design, which can serve as a straw and be consumed directly, meeting your diverse drinking needs. Equipped with woven lifting ropes, it is easy to carry and not only durable, but also showcases a fashionable and trendy style.

**创新外观与功能:** 镜身由轻质合金与高级玻璃材料制成, 轻巧且耐用, 非常适合随身携带。镜面下方装有智能触控面板, 轻轻一点, 亮度、色温等参数随心而变, 满足你在不同光线下的化妆需求。不仅如此, 镜面可0-303°随意翻转, 确保你可以从任何角度检视妆容。8英寸高清大镜面足够大, 轻松映照全脸, 无需频繁调整, 一切尽在掌握。值得一提的是, 它的支撑架设计得很巧妙, 既能保护镜面, 又能作为镜盖使用, 实用又美观, 非常适合旅行携带。每一次出行, 它都是你化妆包的贴心伴侣, 为你守护美丽, 陪伴你走过每一个精彩瞬间。

**有颜有实力, 更懂用户需求:** \* 专业美妆灯效, 模拟自然光 \* 触控可调, 自由切换 3 档亮度 \* 可折叠收纳, 出行方便携带 \* USB 便捷充电, 持久续航 \* 8 英寸高清大镜面 \* 镜面俯仰, 0~303°多角度调节。

**创新升级, 尽显匠心:** \* 灵巧支撑架与镜盖合二为一, 不仅简化了产品设计, 还提高了产品的实用性和便携性。在不需要使用时, 用户可以将支撑架折叠起来作为镜盖使用, 有效保护镜面免受刮擦和污染, 便于旅行携带。\* 创新镜面俯仰设计, 0~303°超大角度自由调节, 确保用户在任何姿势下都能清晰、无死角地观察妆容细节。搭配三档LED光源, 无论是室内还是户外, 都能模拟自然光源, 帮助用户在舒适的光线下专注于打造完美妆容, 极大地提高了化妆的舒适度和便捷性。

The mirror body is made of lightweight alloy and high-grade glass materials, making it both light and durable—perfect for carrying around. Below the mirror surface is a smart touch panel that allows you to easily adjust brightness, color temperature, and other settings, catering to your makeup needs in various lighting conditions. Additionally, the mirror can rotate freely between 0-303°, ensuring you can view your makeup from any angle. The 8-inch high-definition large mirror surface is ample enough to reflect your entire face, eliminating the need for frequent adjustments and giving you complete control. Notably, the cleverly designed support frame not only protects the mirror surface but also serves as a mirror cover, making it practical and aesthetically pleasing—ideal for travel. Every trip with it ensures that your makeup bag has a thoughtful companion, safeguarding your beauty and accompanying you through every wonderful moment.

**Stylish and Functional, Tailored to User Needs:** \* Professional makeup lighting that mimics natural light \* Touch controls with three adjustable brightness settings \* Foldable design for easy storage and travel \* Convenient USB charging with long battery life \* 8-inch high-definition large mirror \* Adjustable mirror tilt from 0 to 303 degrees for versatile angles.

**Innovative Upgrades, Showcasing Craftsmanship:** \* The clever support frame doubles as a mirror cover, simplifying product design while enhancing practicality and portability. When not in use, users can fold the support frame to act as a mirror cover, effectively protecting the mirror surface from scratches and dirt, making it convenient for travel. \* The innovative mirror tilt design allows for a 0 to 303-degree adjustment, ensuring users can clearly and comprehensively view makeup details from any angle. Equipped with three levels of LED lighting, it can simulate natural light both indoors and outdoors, helping users focus on creating a flawless look in comfortable lighting conditions, greatly enhancing the ease and convenience of makeup application.

## 柴火发电炉

火力发电柴火炉通过热电技术, 将火力转换为电能, 可为大多数USB充电设备充电, 不必为外出用电烦忧。

户外烧烤目前很受年轻人喜欢, 这款产品非常适合户外, 由于内置了鼓风机, 所以可以快速点燃干燥的木材或木材颗粒, 再给食品加热的同时, 又给内置电源充电, 充电电源又可以给附带的LED灯充电。

产品小巧便于携带, 内置的充电电池5000毫安, 超强储能, 能给手机等多种USB 接口设备充电。

Through thermo-electric technology, the thermal power wood stove converts the heat into electricity, which can charge most USB charging devices, and does not have to worry about electricity when going out.

Outdoor barbecue is currently very popular with young people, this product is very suitable for outdoor, because of the built-in blower, so you can quickly ignite dry wood or wood particles, then heat the food, at the same time, also to charge the built-in power supply, charging power can also charge the accompanying LED lights.

The product is small and easy to carry, built-in rechargeable battery 5000 mah, super energy storage, can charge a variety of USB interface devices such as mobile phones.

多功能洗菜篮、自旋转滤篮设计, 便捷完成清洗、倒水。一次快速旋转即可完成洗涤、冲洗、浸泡和排水。轻松倾斜碗体, 无需取下滤网篮即可排水。可分开使用的滤网篮和碗, 方便清洗和上菜。

可堆叠设计, 可节省运输资源和空间。

拥有外观专利。

Multifunctional vegetable washing basket and self-rotating filter design make cleaning and pouring water convenient. Wash, rinse, soak, and drain with one quick swivel. Easily tilt the bowl to drain water without removing the colander basket. Separate colander and bowl for easy cleaning and serving.

Stackable design, can save transportation resources and space.

Possess appearance design patent

### 2 PCS of Multi-functional Washing basket

- Wash, rinse, soak and drain with one quick swivel
- Easily tilt the bowl to drain water without removing the colander basket
- Separate colander and bowl for easy cleaning and serving

Divided into two, multiple uses

Can be used as a mixing bowl

The innovative design of the standable lid enriches the functions of this casserole. Users no longer need to worry about that have no space to place lid when cooking. They can directly stand it on the side of the casserole, saving kitchen space and ensuring stability.

By cleverly matching the protruding edges of the lid with the casserole side handle, the upright lid can be stably clamped. The protruding part on the lid extend to the edge of the casserole mouth, which can promote the vapor inside flow back into the casserole without wetting the countertop. The casserole aslo can be easily placed in the oven for use.

This casserole is made with an integrated die-casting process, and the 4mm thickness of the bottom ensures even heating. Raised dots on the inner side of the lid allowing vapor to reflux during the cooking, guaranteeing healthy cooking with perfect results every time.

创新型的可立盖设计极大丰富了这款汤锅的功能属性,用户在烹饪时再也无需担心盖子没地方放置,可以直接将其立在汤锅的侧耳上,节省厨房空间,且稳定不晃动。

通过侧耳处与盖子凸起的边缘进行巧妙的结构配合,稳定卡住立起的盖子,盖子上凸起的支脚延伸至锅口边缘,可以促使盖内水蒸汽回流到锅内,不会沾湿台面。盖子搭配金属顶珠,可以随意放进烤箱使用。

这款锅具以一体压铸成型工艺打造,4mm的锅底厚度确保受热均匀。在压铸铝盖内侧设计凸起的点状,食物加热过程可以让水汽回流,锁住鲜味,保留食物的原汁原味。

## 游牧系列厨房套刀 NOMAD SERIES KITCHEN KNIFE SET

游牧系列套刀，以白色与原木的巧妙搭配，打破传统厨刀的刻板印象，材质的碰撞展现出独特的魅力。采用 FSC 认证木材与环保皮革，更是对环保理念的践行。

五个刀型设计，包括厨师刀、切肉刀、面包刀、万用刀、果皮刀，满足多样化烹饪要求。手柄添加不粘涂层处理，提升握刀的舒适度，且易于清洁。圆滑的护手设计则增加了烹饪过程的安全性。

搭配布袋，户外便携，多场景应用，体现游牧主题。

The Nomadism series, an ingenious combination of white color and wood, breaks the stereotype of traditional kitchen knife set and shows unique charm from the impact of materials. Using FSC certified wood and environmentally friendly leather is also a practice of environmental protection.

Five knife designs, including chef knife, slicing knife, bread knife, utility knife and paring knife, suffice diverse cooking requirements. The handle is treated with non-stick coating for more comfortable holding and is easy to be cleaned. The smooth guard design also increases the safety in using.

It is matched with a cloth bag, portable and multi-functional, reflecting the theme of nomadism.

## 智能皂液器

### INTELLIGENT SOAP DISPENSER

#### 设计师 Designer:

智能感应皂液器采用了智能感应出液技术，无需接触产品本身即可自动感应出液，有效避免了交叉感染的风险。

机身采用了304不锈钢材质，有效防止使用过程中生锈，延长使用寿命；内置锂电池可以循环充电使用，满电后满足长达6个月正常使用，更加节能环保。

智能感应皂液器采用了透明槽设计，使用者可以随时清晰看到皂液余量，及时提醒使用者补充皂液，确保皂液器的持续使用。

The smart soap dispenser adopts auto dispensing technology, which automatically dispenses soap with automatic non-touch sensing, effectively reducing the risk of cross-contamination.

The body is made of 304 stainless steel, which effectively prevents rust while using and prolongs the service life. The built-in lithium battery can be recycled and recharged, and can be used up to 6 months after fully charged, which is eco-friendly and cost-effective.

The smart soap dispenser incorporates a visible window, allowing to check the remaining soap at any time, which makes it convenient for users to refill in time and ensure continuous use of the dispenser.

304不锈钢材质具有高度的腐蚀性不易生锈, 易于清洗和消毒。带切割器黄油储存盒提供了一种方便的方式来切割黄油, 只需要在盒子里放入黄油, 然后按下盖子轻轻按压即可切片。内置的切割器可以确保分量均匀, 1 slice=1tsp, 3 slices=1tbsp.

将容器倒扣作为黄油储存盒, 密封以保存黄油更长时间。盖子还带有测量线, 可以根据不同分量自行切割。PS和PP制成的储物盒经过合理的设计和生产过程, 能够符合可持续发展的要求。具有可负担性, 绝缘性能和耐化学性, 这些塑料材料可以通过回收再利用, 减少对于原生资源的依赖。

斜边可作为黄油勺子和刀刮, 使用起来更方便。多功能产品可以提升消费者的购买欲望。

304 stainless steel material has high corrosiveness and is not easy to rust, making it easy to clean and disinfect. The butter storage box with a cutter provides a convenient way to cut butter. Simply put butter in the box and press the lid lightly to slice. The built-in cutter ensures even distribution of components, with 1 slice=1 tsp and 3 slices=1 tbsp

Invert the container as a butter storage box and seal it to store butter for a longer period of time. The lid also comes with measuring lines, which can be cut according to different components. The storage boxes made of PS and PP have undergone a reasonable design and production process, which can meet the requirements of sustainable development. With affordability, insulation performance, and chemical resistance, these plastic materials can be recycled and reused to reduce dependence on native resources.

The slanted edge can be used as a butter spoon and knife scraper, making it more convenient to use. Multi functional products can enhance consumer purchasing desire.

小X型晾衣架  
CLOTHES DRYING RACK

地址: 广东省佛山市顺德区大良街道顺番公路五沙段11号

该款晒架适合在阳台使用，在结构上该款晾衣架采用两边晾衣管向上翻的打开方式，两侧挂衣杆更适合东亚与东南亚地区使用者的使用习惯。该种打开方式优势在于：1、两种晾晒形态自由切换：挂衣形态和铺晒形态，可挂晒衣服或铺晒被子，满足使用者多样的使用需求；2、免安装且收纳方便：与市面上的X型晒架不同，该款晒架无需安装，直接打开即可使用，收合占地面积小。

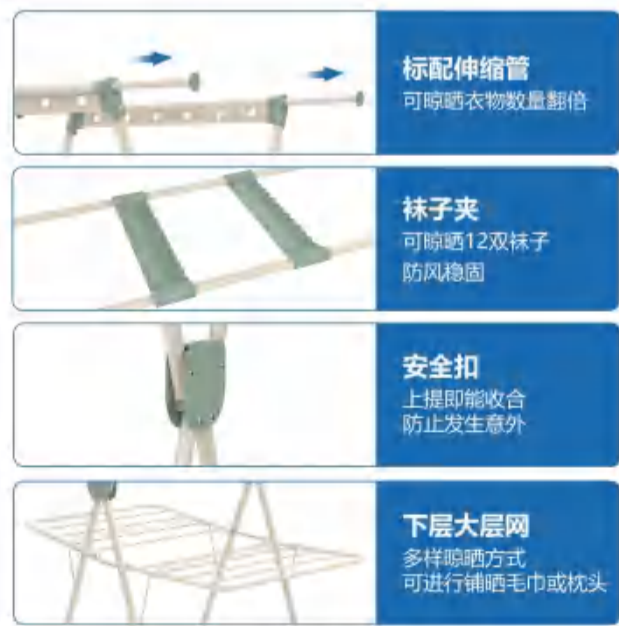

该款晾衣架适合商品房的阳台使用，为空间有限的城市住宅提供简单便利的晾晒方式，节省居住空间；与使用烘干机相比，晾衣架晾晒衣物更加环保，减少了能源消耗和碳排放。

该款晒架采用加厚椭圆管，结实耐用不变型；X型结构晒架更稳定；采用喷粉的表面处理工序，防刮花防生锈；采用激光切割处理管材，边缘无毛刺不刮手。

This drying rack is suitable for use on balconies. Structurally, this clothes rack adopts an upward flipping method for the drying tubes on both sides, with side hanging rods that are more suited to the usage habits of users in East Asia and Southeast Asia. The advantages of this opening method are as follows: 1. Two drying modes can be freely switched: the hanging mode and the spreading mode, allowing for the hanging of clothes or the spreading of quilts, meeting the diverse needs of users. 2. No installation and convenient storage: Unlike the X-shaped drying racks on the market, this drying rack requires no installation. It can be used immediately upon opening and occupies a small area when folded.

Ideal for balconies in commercial residential buildings, it provides a simple and convenient drying option for urban homes with limited space, saving living space. It is also more eco-friendly than using a dryer, reducing energy consumption and carbon emissions.

The rack features thickened oval tubes for durability and deformation resistance. Its X-shaped structure adds stability. The surface is powder-coated to prevent scratches and rust, and the materials are laser-cut for smooth, non-abrasive edges.

新黄河系列木纹餐具, 利用特有花纸技术打造逼真的实木质感与视觉效果。该系列木纹餐具将实木纹理的深浅色差、节疤、条痕等自然瑕疵, 作为主要亮点, 再以橙色、绿色、蓝色等明亮线条勾勒, 形成强烈色彩对比, 自然与艺术碰撞, 传统与创新融合, 呈现一种独特但不夸张的自然系美学。

希望通过该系列木纹餐具, 让大众更直观地认识到自然形成的木纹瑕疵其实也很美, 一种独特的艺术美感, 希望更多人能接受和喜欢这种美, 让瑕疵木材能够得到更充分的利用, 这将有利于人类的环保事业。

新黄河系列木纹餐具可以解决使用木质餐具所面临的发霉、变形开裂、难清洗等问题。另外, 我们也希望通过该系列餐具, 向复苏中的餐饮市场和餐具行业传达一种信心与活力。

The New Yellow River Series - Wood Grain Tableware Utilizing specialized decal techniques, this series creates a realistic solid wood effect that redefines melamine tableware. It highlights the natural imperfections in wood grain, such as color differences, knots, and streaks, as key design features and decorates them with bright lines in orange, green, blue, and other colors. This creates a striking color contrast, blending nature and art, tradition and innovation, to present a unique yet understated natural aesthetic.

Through this series of wood grain tableware, we hope to convey that the natural imperfections in wood grain are beautiful, embodying a unique artistic charm. We aim for more people to appreciate and embrace this beauty, enabling more comprehensive utilization of wood with natural imperfections, which benefits environmental conservation efforts.

The New Yellow River Series wood grain tableware effectively addresses issues faced by restaurants using wooden tableware, such as mold, deformation, cracking, and difficulty in cleaning. Additionally, we hope this series will convey a sense of confidence and vitality to the recovering restaurant market and tableware industry.

Superflow 优越的排水性能源于其全新、高性能的底背材料，这种材料完全透水。普通人造草上的水只能通过排水孔流走，而Superflow通过整个后部材料实现了全面积段的排水，这种超快的排水速度，避免积水问题，大大提升草坪的使用体验。

无排水孔设计，有效控制杂草生长，减少草坪维护。

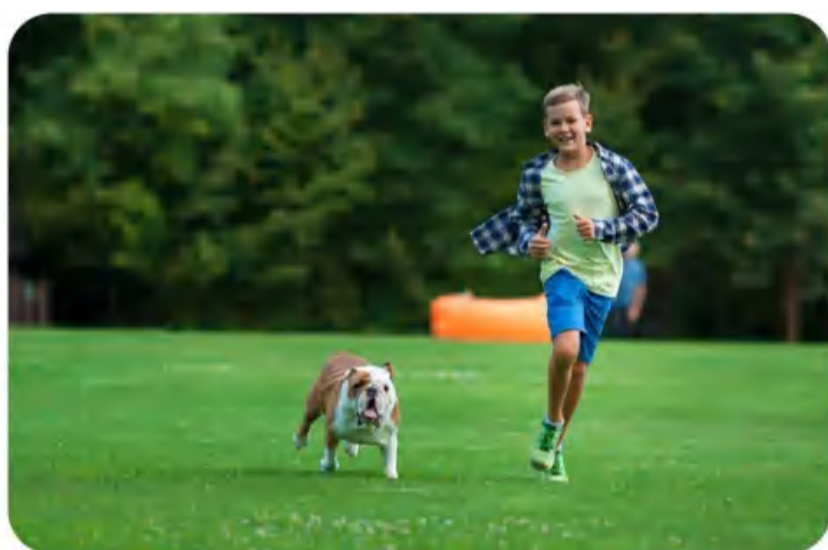

宠物友好型设计，无异味更放心。

The superior drainage of Superflow comes from its novel, high-performance backing material, which is completely permeable. Unlike normal artificial grass on which water can only run off via drain holes, Superflow achieves a full-area draining directly through the whole backing. This ultra-fast draining speed is sure to amaze you, keep off any ponding problems and greatly improve your lawn experience.

Fully permeable backing, no drainage, no weed, less maintenance.

No odor retention, best for pet-keeping families.

这款贝壳茶几源自越南，采用手工制作工艺，将精选的贝壳片装饰在桌面上。每片贝壳经过精心处理，其渐变纹理赋予材质更多细节和质感，创造出独特美观的效果。贝壳图案的排列经过精心考虑，营造出层次丰富的整体效果。

茶几采用手工制作的工艺，将贝壳片一颗颗装饰在桌面上，传递出对自然材料和手工艺术的尊重。贝壳作为装饰材料将海洋的自然元素带入室内空间，增强了人们对海洋保护的关注。这种工艺方法也体现了对贝壳资源的可持续和环保利用，避免了对环境的过度损害。通过融合自然材料、手工艺术和环保理念，为家居设计注入了独特的美感和意义。

品牌越来越注重手工制作和环保意识，积极开拓海外市场，支持类似贝壳等手工材料与家居饰品的结合，创造出贝壳茶几、贝壳托盘、贝壳镜子等系列产品。通过国际差异化采购，增加品牌的商业价值。

This shell table originates from Vietnam and is crafted using handmade techniques, adorning the tabletop with carefully selected shell pieces. Each shell undergoes meticulous treatment, with its gradient texture adding more detail and texture to the material, creating a unique and visually appealing effect. The arrangement of the shell patterns is thoughtfully considered, resulting in a visually layered and rich overall effect.

This handmade coffee table features meticulously placed shell pieces on the tabletop, showcasing a reverence for natural materials and craftsmanship. The incorporation of shells as decorative elements brings the essence of the ocean into indoor spaces, promoting awareness for marine conservation. This sustainable and eco-friendly approach to shell utilization avoids environmental harm. By fusing natural materials, craftsmanship, and environmental consciousness, it adds a unique aesthetic and significance to home design.

The brand is increasingly focusing on handmade craftsmanship and environmental consciousness while actively expanding into overseas markets. It supports the combination of handcrafted materials like shells with home decor items, creating a series of products such as shell coffee tables, shell trays, and shell mirrors. By engaging in international differentiated sourcing, the brand enhances its commercial value.

本品共十二幅, 各幅均绘有两种当季所盛开的花卉品种, 画法兼融没骨、钩勒与渲染, 于设色富丽当中, 犹能不失雅致的逸趣。花是天地灵秀之所钟, 美的化身, 赏花, 在于悦其姿色而知其神骨, 如此方能遨游在每一种花的独特韵味中, 而深得其中情趣。创作运用沉振麟作品再设计, 卷边色彩选用中国十二月传统色彩, 一年十二月, 一月一色彩, 月月画意浪漫情怀。

100%桑蚕丝, 带给你第二层肌肤般的触感。传承华夏千年桑蚕文化, 天然的动物蛋白纤维, 织就丝滑细腻的肌肤触感。真丝素绉缎, 表面珠光, 哑光为底在肌肤之间丝滑游弋垂坠感天然而成惬意自如。软而不垂、亲肤透气、环保安全天然植物染料, 环保印染新技术。更环保、更抗皱、更易打理。双面同花印染, 精致印花, 色彩丰富, 图案精美。搭配精致卷边, 做工精细、走线平整、一针一线、匠心缝制。悉心包装, 注重每一个精致细节。

丝巾材质甄选名贵丝绸 - 丝斜纹绸, 质地柔软丝滑, 采用国际最新生态双面印花技艺, 配以精致手工卷边缝制, 匠心工艺凸显丝巾奢华品质, 呈现雍容华贵与众不同的艺术魅力。丝巾材质甄选名贵丝绸 - 丝斜纹绸, 质地柔软丝滑, 采用国际最新生态双面印花技艺, 配以精致手工卷边缝制, 匠心工艺凸显丝巾奢华品质, 呈现雍容华贵与众不同的艺术魅力。

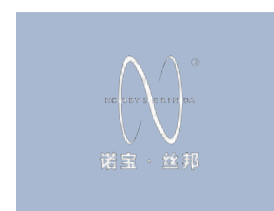

This product consists of twelve paintings, each depicting two types of flowers that bloom in the current season. The painting technique combines boneless, hooked, and light shading, creating a rich and elegant atmosphere in the color scheme. Flowers are the epitome of beauty in heaven and earth. Appreciating flowers is to appreciate their beauty and know their essence. Only in this way can one explore the unique charm of each flower and deeply appreciate its charm. The creative use of Chen Zhenlin's works for redesign, with the use of traditional Chinese December colors for the curled edges. The colors are unique to each month of the year, creating a romantic and romantic atmosphere.

100% mulberry silk gives you a second layer of skin like texture. Inheriting the millennium old silkworm culture of China, natural animal protein fibers are woven to create a silky and delicate skin texture. Pure silk crepe satin, with a pearl like surface and a matte base, flows smoothly between the skin, creating a natural and comfortable drape. Soft yet non sagging, skin friendly and breathable, environmentally friendly and safe natural plant dyes, a new technology for environmentally friendly printing and dyeing. More environmentally friendly, wrinkle resistant, and easier to maintain. Double sided same flower printing and dyeing, exquisite printing, rich colors, and exquisite patterns. Paired with exquisite curled edges, the workmanship is fine, the stitching is smooth, and every stitch is carefully sewn. Carefully package and pay attention to every exquisite detail.

Silk scarves are made of precious silk and twill silk, with a soft and smooth texture. Adopting the latest international ecological double-sided printing technology, paired with exquisite hand rolled edge sewing. The exquisite craftsmanship highlights the luxurious quality of the scarf, presenting a unique and elegant artistic charm. Good decorations can not only enhance a person's temperament, but also help you find the meaning of life in mediocre times, pay more attention to yourself, love yourself, make happiness more concrete, and add a touch of ceremony, delicacy, and attention.

2832559353@qq.com

丝巾与鲁锦纹样席纹、挂纱灯、芝麻花、猫蹄花、十样锦、水纹结合进行设计,纹样排布疏密有致,凸显出不同的层次感。鲁锦的纹样造型并不拘泥于客观事物的现实性,而是一种主观的、抽象化的创造,通过这种抽象图案的重复、平行、连续、间隔、虚实、对比等变化,形成特有的节奏和韵律。用吉祥的寓意形式来揭示或寄托对美的追求。用色彩斑斓,图案丰富,展现出诗一般的美好心境。不仅扩展了造型的思想内涵和艺术容量,还提供了广阔的想象天地,满足了求新、求美、求奇的特点。

真丝产品采用天然桑蚕丝精制而成,无污染,真正的绿色环保产品。真丝产品中的桑蚕丝由含人体所需的十八种氨基酸组成的天然蛋白纤维,其结构与人体皮肤相似,有着很好的相容性。采用甄选名贵丝绸-真丝斜纹绸,质地柔软丝滑,采用国际最新生态双面印花技艺花形精细,色彩丰富,轮廓清晰,渗透性好花纹生动不掉色,不含对人体有害物质,坚守真丝产品带来的品质内涵,是一种环保主义新时尚。配以精致手工卷边缝制,匠心工艺凸显丝巾奢华品质,呈现雍容华贵与众不同的艺术魅力。

丝巾采用100%桑蚕丝面料,创新高端印花工艺。整体构图大气,撞色厚重时尚。以现代的设计手段和审美原理对其造型元素进一步加以提炼、发挥、延伸,呈现出美学性、民族性和现代性融为一体的产品,产品独特的印染技术,使花色栩栩如生。视觉感官的强烈冲击更能体现出产品的艺术价值。精选礼盒搭配,以卓越的桑蚕丝织造,极富生活美感的真丝织物带给你时刻相伴的亲密肌肤享受,精致生活始于精致产品。

物带给你时刻相伴的亲密肌肤享受,精致生活始于精致产品。

Silk scarves are designed in combination with Lu brocade patterns, such as mat patterns, hanging gauze lamps, Fried Dough Twists patterns, cat hoof patterns, ten brocade patterns, and water patterns. The patterns are arranged in a dense way, highlighting different layers. The pattern design of Lu Jin is not limited to the reality of objective things, but is a subjective and abstract creation. Through the repetition, parallel, continuous, interval, virtual and real, contrast and other changes of this abstract pattern, a unique rhythm and rhythm are formed. Use auspicious symbolic forms to reveal or express the pursuit of beauty. Using colorful and rich patterns, it presents a poetic and beautiful mood. Not only does it expand the ideological connotation and artistic capacity of the form, but it also provides a vast imaginative world, satisfying the characteristics of seeking novelty, beauty, and novelty.

Silk products are refined from natural mulberry silk, which is pollution-free and truly green and environmentally friendly. The mulberry silk in real silk products is a natural protein fiber composed of eighteen amino acids required by the human body. Its structure is similar to that of human skin and has good compatibility. We use selected precious silk - real silk twill silk, with a soft and smooth texture. We use the latest international ecological double-sided printing technology, with fine patterns, rich colors, clear contours, good permeability, vivid and non fading patterns, and no harmful substances to the human body. We adhere to the quality connotation brought by real silk products, which is a new trend of environmentalism. Paired with exquisite hand rolled edge stitching, the exquisite craftsmanship highlights the luxurious quality of the scarf, presenting a unique and elegant artistic charm.

The scarf is made of 100% mulberry silk fabric and features an innovative high-end printing process. The overall composition is atmospheric, with thick and stylish contrasting colors. By using modern design methods and aesthetic principles, the design elements are further refined, developed, and extended to present a product that integrates aesthetics, nationality, and modernity. The unique printing and dyeing technology of the product makes the colors vivid. The strong impact of visual senses can better reflect the artistic value of the product. Selected gift boxes are paired with excellent mulberry silk weaving, and pure silk fabrics with a rich sense of life beauty bring you intimate skin enjoyment that accompanies you at all times. Exquisite life begins with exquisite products.

## 抗旱自吸水花盆 DROUGHT RESISTANT SELF ABSORBING FLOWERPOT

### 设计师 Designer:

刘自学 self-study Liu  
首席设计师 Chief Designer

企业名称: 河南绿之舟园艺品股份有限公司  
HENAN GREEN BOAT GARDEN ARTS AND CRAFTS CO., LTD  
联系人: 刘自学 LIU ZIXUE

地址: 河南省禹州市南五里绿之舟园艺品股份有限公司

抗旱自吸水花盆由相对独立的种植盆与储水池组成, 中间通过带有吸水棉的吸水柱连接, 吸水棉将储水池水分向上供应给种植盆花草, 较大的储水空间可实现一次注水长期免打理, 储水池侧面设置观水窗, 可直观了解储水情况以便及时补水。

抗旱自吸水花盆设置有相对独立的种植盆和储水池, 使用时向储水盆注水, 通过吸水柱实现向上供水, 避免了直接向花草浇水易将基质中的营养物质溶解冲走、造成的土壤板结, 及水质污染易滋生蚊虫等问题。是一种更加简便、环保的绿植养护方式。

抗旱自吸水花盆设置有独立的储水池, 一次注水可长期为绿植供水, 降低绿植的养护频次, 可实现绿植长期“放养”, 适合经常出差及快节奏生活人群的养花需求。产品的需求人群较大, 有较大地规模增长空间。

Drought Resistant Self Watering Flowerpots are composed of relatively independent plant pot and water storage tank, which are connected through absorbent column with absorbent cotton. The absorbent cotton supplies water of the storage tank upwards to the flowers and plants of plant pot. It requires no maintenance for a long time after one-time water replenishment because of The large water storage space. Water observation window is set on the side of the water storage tank and you can intuitively know the water storage situation and replenish water in time.

Drought Resistant Self Watering Flowerpots are composed of relatively independent plant pots and water storage tank. Water is poured into the water storage pot when it is used , and upward water supply is achieved through absorbent columns. This avoids the problems that watering flowers and plants directly easily dissolves and washes away the nutrients of the matrix, soil becomes hardened, and mosquitoes will be bred easily after water is polluted. It is a simpler and more environmentally friendly way to maintain green plants.

Drought Resistant Self Watering Flowerpot is equipped with an independent water storage tank. It can supply water to green plants for a long time after one-time water replenishment, reducing the frequency of maintenance of green plants. It can realize no maintenance of green plants for a long time and is suitable for the flower growing needs of people who often travel on business and live a fast-paced life. The demand for the product is large, and there is room for large-scale growth.

这款产品不仅以独特的设计和环保理念闻名,还体现了我们的卓越商业价值。我们企业拥有一套独有的质量控制方法,确保每一款产品都达到最高标准。我们对质量的承诺是无与伦比的,每一盏风灯都经过严格检测,保证长期使用中的可靠性和耐用性。我们不仅仅是卖产品,更是为客人提供一站式解决方案。无论是现代家居还是传统欧洲风格,我们的风灯都能完美融入,为您的家居增添一份别致的魅力。同时,我们的服务团队始终致力于解决您的问题和烦恼,让您的购买体验更加轻松愉快。选择我们的风灯,您将获得的不仅仅是一件装饰品,更是我们对品质和服务的承诺。让我们携手,共同打造一个优雅、环保和安心的生活空间。

我们的新款风灯不仅是优雅设计的象征,更体现了我们对社会责任的承诺。我们的生产线严格控制碳排放,致力于减少环境影响,确保每一步都符合环保标准。我们采用全新环保材料,取代传统表面处理材料,从源头上降低污染,更加环保且安全。我们的风灯使用高质量原材料制造,确保其能够长期反复使用,经久耐用,不仅为您提供持续的美观和实用性,还减少了对地球资源的浪费。选择我们的风灯,您不仅是在为家居增添一份别致的装饰,更是在支持环保事业。让我们的风灯点亮您的生活空间,同时为可持续发展贡献一份力量。每一次点亮,都是对环保的一次支持。让我们一起携手,共同保护我们的地球。

完美融合现代与传统欧洲家居装饰。我们的独特设计理念使其与传统风灯截然不同,提供了焕然一新的美感,能够完美融入任何环境。无论您的家是现代风格还是经典风格,这款风灯都能无缝融入,增添一丝优雅与高贵。体验古典魅力与现代创新的完美结合,尽在我们的新款风灯。

This products renowned not only for its unique design and eco-friendly concept but also for its exceptional commercial value. Our company employs an exclusive quality control method to ensure that every product meets the highest standards. Our commitment to quality is unparalleled, with each lantern undergoing rigorous testing to guarantee reliability and durability for long-term use. We don't just sell products; we provide a comprehensive one-stop solution for our customers. Whether it's for modern homes or traditional European styles, our lanterns seamlessly integrate to add a touch of elegance to your decor. Additionally, our dedicated service team is always here to address your problems and concerns, making your purchasing experience as smooth and enjoyable as possible. By choosing our lantern, you are acquiring not just a decorative item but also our pledge to quality and service. Let's work together to create a living space that is elegant, eco-friendly, and worry-free.

Our new lantern – not only a symbol of elegant design but also a testament to our commitment to social responsibility. Our production line strictly controls carbon emissions, aiming to reduce environmental impact and ensure that every step meets eco-friendly standards. We use new environmentally-friendly materials to replace traditional surface treatment materials, reducing pollution from the source and ensuring greater safety. Our lanterns are crafted from high-quality materials, ensuring they can be used repeatedly over a long period, providing lasting beauty and utility while minimizing waste of Earth's resources. By choosing our lantern, you are not only adding a unique piece of decor to your home but also supporting the cause of environmental protection. Let our lantern illuminate your living space while contributing to sustainable development. Every time it lights up, it stands as a testament to your support for the environment. Let's join hands and work together to protect our.

A perfect blend of modern and traditional European home decor. Our unique design concept sets it apart from traditional lanterns, offering a fresh aesthetic that complements any setting. Whether your home is contemporary or classic, this lantern seamlessly integrates, adding a touch of elegance and sophistication. Experience the perfect harmony of old-world charm and modern innovation with our new lantern.

该艺术作品通过简练明快的线条、低调高雅的色彩搭配,再加上头戴蝴蝶结、手举托盘和单手托腮等元素,成功塑造了一个微闭眼的半身女孩形象。

首创女孩托盘造型,通过与金属托盘结合,丰富了国内玄关收纳市场,为消费者提供更多选择空间。

累计销售超过20万件,在电商销售的家居装饰类目中添上浓墨重彩的一笔。

Through simple and crisp lines, low-key and elegant color matching, coupled with elements such as wearing a bow on the head, holding a tray in the hand and holding the chin in one hand, the artwork successfully creates the image of a half-length girl with slightly closed eyes.

The first girl tray model, by combining with metal trays, enriches the domestic entrance storage market and provides consumers with more choice space.

Cumulative sales of more than 200,000 pieces, in the e-commerce sales of home decoration category added a strong ink.

Karma Essence 是一款行业原创的智能电动升降桌产品, 前沿科技融合北欧极简设计, 让居家办公、学习等人群拥有更舒适、健康的办公和学习体验。可接入捷昌驱动云平台或者接入华为、涂鸦、小米、天猫等公共平台, 实现智能物联; 搭载行业领先的遇阻回退安全技术; 独创倾斜桌腿结构设计; 采用可持续的碳化竹新材料; 简约时尚的北欧设计风格。

Karma Essence 作为电动升降桌, 可根据使用者需求, 随意升降桌面, 方便切换, 实现站坐交替办公, 缓解身体疲劳, 减缓和避免脊椎类职业病。同时 Karma Essence 的材质主要为可回收钢铁和碳化竹, 符合可持续发展理念。

Karma Essence 是一款面向居家办公市场的智能电动升降桌, 在全球拥有广泛的销售市场和需求人群。该产品由行业知名设计师设计, 北欧极简设计风格和行业独创的斜腿结构, 具有出色的用户体验; 同时搭载捷昌升降桌驱动系统, 品质可靠稳定; 此外, 该产品采用可持续的碳化竹新材料, 是这类环保材料在智能电动升降桌上的一次全新尝试。

Karma Essence is an industry-original smart standing desk product that seamlessly combines cutting-edge technology with Nordic minimalist design. It offers a more comfortable and healthier office and learning experience for individuals engaged in home-based work or study. It can be integrated with the JIECANG Drive Cloud platform or connected to public platforms such as Huawei, Tuya, Xiaomi, Tmall, etc., enabling smart IoT capabilities. The desk is equipped with industry-leading obstacle detection and retreat safety technology. Featuring an innovative inclined table leg structure design, it utilizes sustainable carbonized bamboo as a new material. The design embodies a minimalist and stylish Nordic aesthetic.

As an electric height-adjustable desk, Karma Essence allows users to effortlessly raise or lower the desktop according to their needs, facilitating easy transitions and enabling a sit-stand alternating work style. This helps alleviate physical fatigue, mitigate and prevent spine-related occupational ailments. Additionally, Karma Essence is constructed primarily from recyclable steel and carbonized bamboo, aligning with the principles of sustainable development.

Karma Essence is an intelligent electric standing desk designed for the home office market, enjoying a wide sales presence and demand globally. This product, crafted by renowned industry designers, features a Nordic minimalist design and a uniquely innovative inclined leg structure, delivering an outstanding user experience. It is equipped with the Jiechang height-adjustable desk drive system, ensuring reliable and stable performance. Furthermore, the desk incorporates sustainable carbonized bamboo as a new material, representing a fresh attempt to introduce environmentally friendly materials into the realm of smart electric height-adjustable desks.

天翼系列遮阳伞  
WING COLLECTION PARASOL

邮箱: XIA.XIAO@HIGOLD.COM.CN

天翼遮阳伞是悍高集团联合意大利宾尼法利纳设计团队联合研发的极具视觉冲击的全新遮阳伞产品。它以天使羽翼为设计灵感,遵循几何、流线的设计语言,结合多元化的材质融合,创造出力量与轻盈并存的户外生活美学。独特的伞柱折叠铝结构是天翼遮阳伞的标志性DNA,同时也是对比市场同类产品的重大差异化造型设计。成功申请了2项外观设计专利、两项实用新型专利,还通过6级抗风测试。兼顾美感和安全。

天翼系列遮阳伞产品通过本身的遮阳挡风防雨的全天候户外使用功能,大大提升人们在户外空间休憩体验的满足感,更可提升用户的生活幸福感,长远具有帮助社会安定发展的意义。产品整体可拆装,压缩运输空间,减少因产品运输而产生的碳排放。产品生产全过程严格遵照国家环保要求及标准,切割、焊接、喷涂设备标配尾料回收及处理装置,从而推动环境保护的可持续发展。

悍高天翼系列遮阳伞伞架整体采用航空级铝材及采用铝合金一体压铸,并使用TIGER粉末涂层,整体牢固可靠,长期户外使用无惧损伤。正常使用情况下伞架可质保5年。同时伞身嵌入缅甸柚木,多种臻选材质结合,别具质感。伞蓬由8根可拆装铝合金伞骨组合而成,日常可根据使用需要更换伞布颜式或拆换清洗,保养简便。伞布标配5年不变色的进口Sunbrella亚克力面料,具有防泼水、耐污、耐晒的功能。底座选用铝合金框架结合可拆装纯天然大理石,外观平整简约优雅,底座整体重达130公斤,可抵抗13.8m/s的强风。

Wing Collection Parasol is a brand new sunshade product with great visual impact designed by Higold Group and Pininfarina which is based in Italy. Inspired by the lightness of wing, through the design language of geometry and streamline, it combines with the fusion of diversified materials, creating the coexistence of strength and lightness, building a unique outdoor life aesthetic. The folded aluminum structure shape is one of the signature features of Wing collection, and it is also the significant differentiation design, comparing with similar products in the market. It successfully applied for 2 design patents, 2 utility model patents, and passed a level 6 wind resistance test. Balancing aesthetics and safety.

Through its all-weather outdoor use function of shading, it can greatly improve people's satisfaction of experience in outdoor space, and improve users' happiness of life. It has the significance of helping social stability and development in the long run. Its knock down type design can compress transportation space and reduce carbon emissions caused by product transportation. Its production process strictly complies with the national environmental protection requirements and standards. Cutting, welding and spraying equipment are standard equipped with tailings recycling and processing devices, so as to promote the sustainable development of environmental protection.

Wing Collection Parasol is made of aerospace-grade aluminum and utilizes aluminum alloy integral die-casting, coated with TIGER powder for overall durability and reliability, ensuring long-term outdoor use. Under normal usage conditions, the frame is guaranteed for 5 years. Additionally, the parasol pole is embedded with Burmese teak, combining multiple premium materials for a unique texture. The canopy is composed of 8 detachable aluminum alloy ribs, allowing for easy replacement of fabric colors or disassembly for cleaning according to daily usage needs, making maintenance simple. The canopy fabric comes standard with imported Sunbrella acrylic fabric, guaranteed not to fade for 5 years. It features water repellency, stain resistance, and UV protection. The base is crafted with an aluminum alloy frame combined with detachable, natural marble, presenting a sleek, minimalist, and elegant appearance. The base weighs a total of 130 kilograms and can withstand winds of up to 13.8(m/s).

HIGOLD®

企业名称：悍高集团股份有限公司

天翼系列沙发套装  
WING COLLECTION SOFA SET

设计师 Designer:

宾尼法利纳 Pininfarina  
13924888376

天翼系列设计灵感来源于天使羽翼，设计师融入天使羽翼的轻盈和力量，赋予其飘逸的造型和轻盈的灵魂。折叠铝结构造型是天翼系列产品的标志性特征之一，通过实心航天铝材激光切割匠心打造出动感流线的造型。主架采用折叠的铝框架造型，配合几何造型的线条，与建筑灵动的元素完美结合。沙发座椅侧板的百叶窗柚木框设计，新颖独特，同时方便空气对流。成功申请了一项外观设计专利。

采用可拆装设计，这种设计让其能够以高效的方式运输，通过标准化部件，降低产品成本的同时更可以减少包装和运输过程中的浪费，减少碳排放。从而推动环境保护的可持续发展。产品生产全过程严格遵照国家环保要求及标准，切割、焊接、喷涂设备标配尾料回收及处理装置。

金属材质部分选用了8mm厚度的实心航天铝材，通过激光切割工艺实现优雅的曲线造型，整体结实轻便，长时间户外使用不惧风雨、生锈。布艺材质选用亚克力布，具有防泼水耐晒的功能，搭配防水防霉里布，经久耐用。搭配12cm超厚的高密度座垫，和高密度零压感仿羽绒棉，有强大的承托力，为用户带来更舒适的挨靠体验。茶几桌面、扶手表面及侧板内嵌选用了进口A级缅甸柚木材质，经久耐用不变形。其中桌面使用进口西卡胶，结合豪华游艇夹板的工艺，填充柚木缝隙形成无缝链接。

Inspired by the lightness of wing, the archetype excellence that combines lightness and strength in the WING collection, the designers were guided by the concept of physical and perceived lightness. The folded aluminum structure shape is one of the signature features of Higold collection. Solid aluminum for space shuttle creates a dynamic, pure and elegant lines. The frame adopts a folding aluminum frame design, complemented by geometric lines, seamlessly integrating with dynamic architectural elements. The louvered teak frame design of the sofa seat side panels is innovative and unique, while also facilitating air circulation. A design patent has been successfully applied for this.

Its knock down type design allows it to be transported in an efficient manner, reducing the cost of the product by standardizing the components while also reducing waste during packaging and transportation and reducing carbon emissions. Its production process strictly complies with the national environmental protection requirements and standards. Cutting, welding and spraying equipment are standard equipped with tailings recycling and processing devices, so as to promote the sustainable development of environmental protection.

The metal components utilize 8mm thick solid aerospace-grade aluminum, achieving elegant curved shapes through laser cutting technology. The overall structure is sturdy yet lightweight, ensuring resistance to wind and rain as well as rust-free durability for prolonged outdoor use. The fabric material chosen is acrylic fabric, renowned for its water-repellent and UV-resistant properties, complemented by a waterproof and mold-resistant inner lining fabric, ensuring long-lasting durability. Paired with a 12cm ultra-thick high-density seat cushion and high-density zero-pressure feeling cotton, providing powerful support and offering users a more comfortable leaning experience. The countertop, armrest surfaces, and embedded side panels are crafted from imported Grade A Burmese teak wood, ensuring long-lasting durability and resistance to deformation. Specifically, the countertop utilizes imported Sikaflex adhesive, combined with the craftsmanship of luxury yacht planking, to fill the gaps.

P系列由镀锌钢结构框架体系、氟碳喷涂铝合金外壳模块、保温防水防潮构造体系、夹胶钢化玻璃天窗、中空钢化玻璃窗、烤漆不锈钢平开入户门设计而成,从而拥有能抗12级风力,抗7级地震的外围防护体系,达到有效隔离外界噪音,保护内部隐私。全景阳台,可360°全景视野观赏风景,赏心悦目。多种情景模式,结合智能语音和墙面开关,轻松控制灯光及窗帘,简单方便用户。有集成模块化天花板和墙壁、大理石地板的浴室等精致的室内装饰,该产品的软装可根据用户的喜好,个性化定制,随心搭配。

这款移动预制房屋使用方便,不限地形,不打地基,不破坏自然环境,无建筑废料,保护生态,符合可持续发展的环保理念。

这款产品属于移动预制房屋,可应用于景点和酒店民宿,弥补旅游基础设施的落后与供应不足,能够满足游客对于不同地理位置都能住上舒适、便利的名宿需求,促进旅游业的进一步发展。

P series by galvanized steel structure frame system, fluorocarbon spraying aluminum alloy shell module, thermal insulation waterproof moistureproof structure system, laminated toughened glass skylight, hollow toughened glass window, paint stainless steel flat open door design, which can resist 12 wind, magnitude 7 earthquake peripheral protection system, achieve effective isolation outside noise, protect internal privacy. Panoramic balcony, 360 panoramic view view, pleasing to the eye. A variety of scene modes, combined with intelligent voice and wall switch, easy to control the lights and curtains, simple and convenient for users. There are exquisite interior decoration such as integrated modular ceiling, wall and marble floor bathroom. The soft decoration of this product can be customized according to the user's preferences and matched at will.

This mobile prefabricated house is easy to use, no terrain, no foundation, no damage to the natural environment, no construction waste, ecological protection, in line with the environmental concept of sustainable development.

This product is a mobile prefabricated house, which can be used in scenic spots and hotels and homestay, to make up for the backwardness and shortage of tourism infrastructure, to meet the needs of tourists for comfortable and convenient accommodation in different geographical locations, and to promote the further development of tourism.

福美生态BIPV  
FUMEI ECOLOGICAL BIPV

设计师 Designer:

石磊 Rocky  
13922159474  
268@phomi.com

企业名称: 广西福美新材料有限公司  
PHOMI MCM CO.,LTD.  
联系人: 伍倩君 WALLIS  
手机: 13922159474  
邮箱: 2738519912@QQ.COM

生态BIPV提供了包括常见建筑外墙石材、木、砖等天然纹理和图案，兼具太阳能发电，真正实现光伏建筑一体化。相对市面上蓝黑的玻璃基BIPV，这一新技术新材料将极大降低对建筑艺术美感带来不利影响。

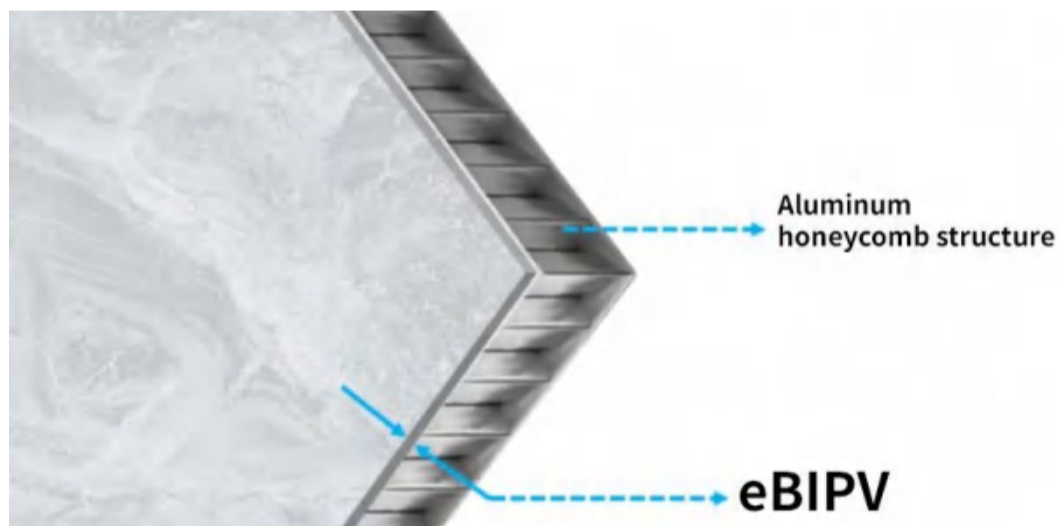

Bureau Veritas必维集团为福美控股零碳面材、生态BIPV产品颁发了《产品碳足迹核查声明书》：1Wp生态 BIPV产品的生命周期内(从摇篮到坟墓)的温室气体的排放量为:0.26 kgCO<sub>2</sub>e相较于传统BIPV表面采用玻璃或塑料薄膜，福美生态BIPV采用了固废材料作为基板。这些固废材料不仅降低了对自然资源的依赖，还减少了环境负担。

外墙阳面和屋顶采用生态BIPV，零碳面材+显示面材则被用于内装墙、地、天花。相比现有玻璃基BIPV，这将大大降低用户成本，并助推更多零碳建筑的建成落地。

We've used a cross-disciplinary innovation approach to integrated photovoltaic technology into zero-carbon coverings, preserving its attractive appearance with natural textures like stone, wood, and brick. This allows every building to function as a solar power station while maintaining its original beauty. Our approach breaks free from traditional BIPV limitations on rooftops and glass facades, opening new avenues for energy self-sufficiency in various building types.

Product Carbon Footprint Verification Statement is awarded to PHOMI HOLDING CO.,LTD.GHG emission in life cycle of 1Wp Econiclay BIPV product (from cradle to grave): 0.26 kgCO<sub>2</sub>e.Econiclay BIPV is derived from econiclay. Compared to traditional BIPV using glass or plastic film, econiclay BIPV not only reduces the dependence on natural resources, but also reduces the environmental burden.

EconiclayBIPV is used in the exterior wall and the roof, and the econiclay coverings and econiclay display are used in the interior wall, floor and ceiling. Compared with the existing glass-based BIPV, this will greatly reduce user costs and facilitate the completion of more zero-carbon buildings.

1.岛台的平移升降系统和侧推移动系统,摒弃国内、国外传统用弹簧线收缩的移动端移动取电模式(缺陷是弹簧线打折或是压断电线),我们的创新点是采用机械原理的传动结构进行固定端取电,实现平移升降、侧推移动的自由无障碍移动,开创国内开创国内、国内固定端取电先河,岛台移动智能灵动,稳定性佳 2.采用技术驱动式创新,炫彩的智能LED移动氛围灯光,厨房岛台更温馨,生活更多彩! 3.厨房岛台集水槽、升降龙头,电磁炉,升降内循环抽油烟机,升降调味篮,升降酒柜等等,智能联动功能之齐全,属国内国外首家。实现厨房的智能灵动有序的高端生活方式,同时智能科技带给用户愉悦体验 4.岛台平移端和侧推端的U性镂空设计,极简超薄,涵盖岛台行业的多类别工艺,全岩板的U型加工,拼接固定,在加上内部须固定移动的机构系统,同时还要在U型槽内加环形氛围灯带,精工制作,极致工艺 5.此岛台产品既有西方厨房岛台的特点及风土习惯,又具有自2019年岛台引入中国后,中式岛台的新中风风格和新增需求,中西合璧。

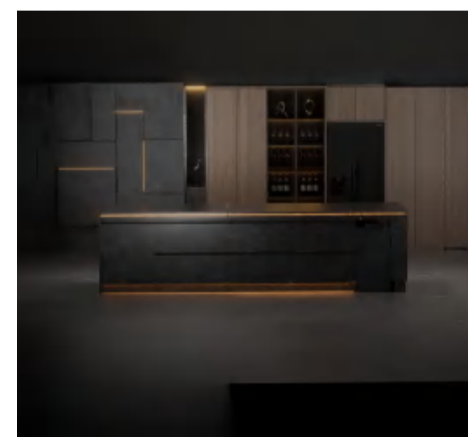

此岛台产品设计采用技术驱动式创新,兼顾绿色发展,节能减排,和我们企业的社会责任,突出的社会价值如下: 1.抽油烟机采用内循环无外排放烟管道,吸附的油烟滤芯可用洗洁精清洗后,放置到抽油烟机吸附口,可循环重复使用(原理类似净化水滤芯),使用方便且绿色环保 2.智能LED移动氛围灯光,既满足生活中的用户情绪感官需求,同时节能环保 3.岛台产品强收纳,能闭合成一体,亦能展开,集厨房、餐厅、酒吧等多场景空间,满足酒店、豪宅、大户型等各类社会阶层的需求。

1.此岛台产品,解决了国内、国外岛台移动取电(目前行业因技术问题采用移动端取电,电线易打折,易压断或是漏电的安全隐患)的痛点,我们的岛台可安全可靠的平移、侧推、升降,用户体验感好。在家博会、广交会获取国内国外客户的一致好评! 2.岛台产品从工业设计的极简设计,唯美的视觉效果,全岩板的极致工艺,多功能集成的智能体验,打造极致的产品核心功能,解决产品的核心消费效用。

1. The island platform's translational lifting system and side push mobile system abandon the traditional domestic and foreign mobile terminal mobile power-taking mode that uses spring wires to retract (the disadvantage is that the spring wires break or the wires are crushed). Our innovation is to use a mechanical transmission structure to take power from the fixed end to achieve free and barrier-free movement of translational lifting and side push movement. This is the first of its kind in the country for fixed-terminal power collection. The island platform is mobile, smart and stable. 2. Adopt technology-driven innovation, colorful smart LED mobile ambient lighting, and kitchen islands to make the kitchen atmosphere more warm. 3. Kitchen island sink, lifting faucet, induction cooker, lifting internal circulation range hood, lifting seasoning basket, lifting wine cabinet, etc. It is the first at home and abroad to have complete intelligent linkage functions. It not only realizes a dynamism.

This island product design adopts technology-driven innovation, taking into account green development, energy conservation and emission reduction, and our corporate social responsibility. The outstanding social values are as follows: 1. The range hood adopts an internal circulation pipe without external exhaust smoke. The adsorbed oil fume filter element can be cleaned with detergent and placed in the adsorption port of the range hood. It can be recycled and reused (the principle is similar to the water purification filter element). It is easy to use and green and environmentally friendly. 2. Intelligent LED mobile ambient lighting not only meets the emotional and sensory needs of users in life, but is also energy-saving and environmentally friendly. Island products provide strong storage, can be closed into one body, and can also be unfolded. It integrates multi-scenario spaces such as kitchens, restaurants, and bars, and meets the needs of various social classes such as hotels, luxury.

2. This kitchen island solves the pain points of mobile power collection on domestic and foreign islands (currently, the industry uses mobile terminals for power collection due to technical problems, and the wires are easy to be discounted, easily crushed or have safety hazards such as leakage). Our island platform can be safely and reliably moved, pushed sideways, and lifted, providing a good user experience. Obtained unanimous praise from domestic and foreign customers at China International Furniture Fair and Canton Fair! The kitchen island combines industrial minimalist design, beautiful visual effects, ultimate craftsmanship of sintered stone, and multi-functional integrated intelligent experience to create the ultimate product core functions and solve the product's core consumer utility.

## 移动升降桌

### EGROMOVE DESK

#### 设计师 Designer:

郑兴中 Benny Zheng

bennyzheng@goodluckfurniture.cn

企业名称: 东莞市冠瑞家具有限公司  
DONG GUAN GOOD LUCK FURNITURE INDUSTRIAL CO.,LTD  
联系人: 杨岚 ANNIEYANG  
手机: 13554892710  
邮箱: ANNIEYANG@GOODLUCKFURNITURE.CN

本产品采用电池驱动,不依赖人力,实现了真正的独立使用。相较于气动升降桌,无需依赖用户的体力来完成升降操作,提高了使用的便捷性和时尚性。用户可轻松操控升降桌,随时随地实现桌面高度的调整,无论在何处都能够享受到灵活的工作或休息体验。本产品无需电源插座,可在户外、阳台、玄关等多种场所独立使用,突破了传统升降桌的使用局限性。用户不再受到电源插座位置的限制,拓展了升降桌在不同场景中的应用,使其更加适用于现代多样化的生活方式。

设计了智能断电功能,当用户停止操作10秒后,电池会自动断电,以节省电池,延长使用时间。这一智能断电设计不仅考虑了用户使用的方便性,还有效地提高了电池的使用寿命,为用户提供了更加智能和节能的升降体验。采用充电电池供电,不仅实现了独立使用,还兼顾了环保的考量。用户可以通过充电电池实现高度调整,同时无需频繁更换电池,减少了对环境的影响,符合现代消费者对环保和可持续性的关注。

产品的便携性和适用性使其在不同场景中都能发挥作用,这为企业提供了多样化的商业运营模式选择,可以根据不同市场需求和用户群体进行定制化销售和服务,从而优化商业运营模式,提高市场竞争力。

This product is powered by batteries, eliminating the need for manual effort and enabling truly independent usage. In comparison to pneumatic lifting desks, it doesn't rely on user strength for height adjustments, enhancing convenience and style. Users can effortlessly control the lifting desk, adjusting the desktop height anytime, anywhere, for a flexible working or resting experience. With no requirement for

power sockets, this product can be used independently in various locations such as outdoors, balconies, or entrance halls, breaking free from the limitations of traditional lifting desks. Users are no longer constrained by the availability of power outlets, expanding the applications of lifting desks across different scenarios and catering to modern, diverse lifestyles.

The intelligent power-off feature has been incorporated into the design. After 10 seconds of inactivity, the battery automatically shuts off, conserving power and prolonging usage time. This intelligent power-off design not only enhances user convenience but also effectively extends the battery lifespan, providing a smarter and more energy-efficient lifting experience. Powered by rechargeable batteries, the product not only enables independent usage but also considers environmental concerns. Users can adjust the height using the rechargeable battery, eliminating the need for frequent battery replacements and reducing environmental impact, aligning with the modern consumer's focus on environmental sustainability.

The portability and versatility of the product enable its functionality across various scenarios, providing businesses with diverse options for commercial operation models. Tailored sales and services can be offered based on distinct market demands and user demographics, thereby optimizing business operation models and enhancing market competitiveness.

## 乐歌EPD105多功能隔音办公舱

### LEGE EPD105 MULTIFUNCTIONAL SOUNDPROOF OFFICE CABIN

#### 设计师 Designer:

邮箱: 772729074@QQ.COM

乐歌EPD105多功能隔音办公舱,采用新颖的外观设计,简约美观,更贴近年轻化办公与现代家居场景的使用需求,升降式结构大幅降低安装时间,便捷高效,外饰表面采用碳塑板贴膜工艺,清晰配色,雅致且更耐脏。内部采用铝蜂窝板+隔音棉的组合形式,有效降低噪音,为用户提供一个静谧、舒适的"私人空间",完美解决无法专注办公的困扰。此外,舱体内外根据不同客户的需求,还搭配了多种内外饰配件供用户进行选配,不仅可以满足用户常规的办公需求,同时丰富了舱体的收纳与装饰元素。舱体顶部还设有指示灯,可以提醒客户舱体是否被占用。

乐歌多功能隔音办公舱采用独有的线性驱动技术应用在产品框架结构上,大幅节省用户的安装时间。舱体的外饰面基材选用碳塑板,防火防潮高硬度,同时无异味,可循环利用,内饰层选用防火环保的隔音棉材质,内附铝蜂窝板,轻质更隔音。此外,舱内的桌板选用了符合FSC认证及国际环保认证的桦木材质,为用户提供更优质的安全保障。此外,红外人感检测与电源系统关联,做到了闲时省电,忙时即用的高效模式,令用户在使用过程中更舒心。

在外观造型上,乐歌EPD105多功能隔音办公舱采用尖顶式的设计,靓丽的外饰面配色更贴近现代办公人群的审美,场景更百搭,在结构方面,应用线性驱动的立柱结构取缔了常规的模块拼装,安装操作便捷高效,而且内外饰均结合用户的需求增加了一些辅件供客户选配,既能营造优质的私人空间,促进用户的办公效率,同时还能点缀外观,丰富产品的属性。此外桌板上方的电源模块集合了开关、调节旋钮、插座、USB接口等各种配置,根据用户所在区域的差异可按需选配各标准的元器件,实现了产品使用自由的最大化。

The Loctek EPD105 Multi-functional Noise-isolating Office Pod features a novel and sleek design that caters to the needs of younger office workers and modern home office environments. Its lifting structure significantly reduces installation time, making it convenient and efficient. The exterior surface adopts a carbon plastic board film process with clear color schemes, elegant yet resistant to dirt. Internally, the combination of aluminum honeycomb board and soundproof cotton effectively reduces noise, providing users with a quiet and comfortable "private space". This perfectly addresses the problem of difficulty in focusing on work. Furthermore, the pod offers a variety of interior and exterior accessories based on different customer needs, not only satisfying regular office demands but also enriching the

storage and decorative elements of the pod. There is also an indicator light on the top of the pod, which can remind customers whether the pod is occupied or not.

The Loctek multi-functional noise-isolating office pod employs a unique linear drive technology in its product frame structure, significantly reducing installation time for users. The exterior of the pod is constructed using carbon plastic panels, which are fireproof, moisture-resistant, highly durable, odorless, and recyclable. The interior lining is crafted from fireproof and environmentally friendly soundproof cotton material, enhanced by aluminum honeycomb panels, resulting in a lightweight yet superior soundproofing effect. Additionally, the desk inside the pod is made of birch wood that meets FSC certification and international environmental protection standards, providing users with superior safety assurance. Moreover, the infrared human detection system is integrated with the power system, enabling an efficient mode that conserves energy during idle times and is ready for immediate use when needed, enhancing users' comfort during their work sessions.

In terms of exterior styling, the Loctek EPD105 multifunctional noise-isolating office pod adopts a pointed-roof design with vibrant exterior color schemes that align more closely with the aesthetic preferences of modern office workers, making it highly versatile for various scenarios. Structurally, it employs a linear-drive pillar design, replacing the conventional modular assembly, resulting in convenient and efficient installation. Both the interior and exterior designs incorporate optional accessories tailored to users' needs, not only creating an optimal private workspace that enhances office efficiency but also enhancing the visual appeal and enriching the product's attributes. Additionally, the power module located above the desk integrates various configurations such as switches, adjustment knobs, sockets, and USB ports. Depending on the region, users can select components that meet different standards, maximizing the flexibility and usability of the product.

塔影椅灵感源自中国传统建筑中的观塔，将古老的建筑艺术与现代办公椅相融合，以一层层高耸入云的塔楼为设计灵感，为办公环境增添了一抹文化底蕴和艺术气息。椅背分为腰背头三部分采用段式设计，减少包装体积，具备快装功能，为用户带来方便快捷的使用体验。

1.三段式设计:塔影椅采用腰背头分开的三段式设计，具备快装功能，用户可轻松进行组装和拆卸，节省时间和精力，同时拆装减少了包装体积，节约资源，体现了环保理念。2.现代科技与古文明结合:设计风格融合了现代科技的创新与古老文明的智慧，展现了塔楼的崇高与古老建筑的神秘魅力。3.舒适人体工学设计:三段式设计不仅美观，更符合人体工学原理，提供了良好的支撑和舒适度,为用户带来全新的坐姿体验。

塔影椅旨在为现代办公环境带来创新、环保和高品质的坐椅选择，为现代办公环境带来一份独特的文化氛围和艺术品味，为用户提供时尚和舒适的办公体验，让生活充满活力和灵感。

Tower Chair is inspired by the towers in traditional Chinese architecture. They combine ancient architectural art with modern office chairs and are designed with the inspiration of towering towers, for the office environment added a touch of cultural heritage and artistic flavor. The back of the chair is divided into three parts: waist, back and head. It adopts segment design to reduce the packing volume.

1. Three-segment design: three-segment design with separate waist, back and head, with fast-loading function, users can easily assemble and disassemble, save time and energy, and reduce packaging volume, save resources, reflects the concept of environmental protection. 2. Combination of modern technology and ancient civilization: the design style combines the innovation of modern technology and the wisdom of ancient civilization, showing the lofty tower and the mysterious charm of ancient buildings. 3. Comfortable ergonomic design: three-stage design not only beautiful, more in line with the principles of Ergonomics, provides a good support and comfort, for users to bring a new sitting experience.

Tower Chair aims to bring innovation, environmental protection and high-quality seat selection for the modern office environment, bring a unique cultural atmosphere and artistic taste for the modern office environment, and provide users with fashionable and comfortable office experience, let your work life be full of energy and inspiration.

## 奥尔温系列 OLWEN COLLECTION

### 设计师 Designer:

Claudio Bellini  
13924888376

# HIGOLD®

企业名称：悍高集团股份有限公司  
HIGOLD GROUP CO., LTD  
联系人：肖霞 XIAO XIA  
手机：13924888376  
邮箱：XIA.XIAO@HIGOLD.COM.CN

奥尔温系列沙发是悍高集团和意大利Claudio Bellini设计团队联合研发一款极具创新意义的全软包户外沙发套装。设计灵感来源于马尔代夫ATOLLO群岛，碧蓝海洋中相邻的礁岛，表面分离，但深处相连。自然柔和的曲线是Olwen迷人的轮廓，与自然和现代生活互相融合，打造出一处舒适的生活绿洲。灵活移动的座垫颠覆了行业中沙发靠垫一贯的固定设计。自由组合的靠垫能为人们提供随心所欲的调节方位，同时使用含有90%Olefin的面料给予肌理般的触感，极大提升舒适的依靠体验。

悍高集团一直致力于推动可持续的行业发展，关注环保材料和绿色生产，承担相应的社会责任。奥尔温系列沙发的采用全新引进的490克重的环保混纺面料，这是一种可回收和自然降解的面料，同时覆盖了TPU高性能环保薄膜，兼具舒环保和防水。产品生产全过程严格遵照全球多个地区环保要求及标准，减少生产过程的污染排放，从而推动环境保护的可持续发展。

奥尔温系列一款为户外而生的全软包沙发套装。充满质感的设计和工艺细节体现了悍高在户外家具行业中的不懈追求。采用全扞布的设计，这对于户外家具来说是在设计和工艺上的革新。使用含90%Olefin，10%poly面料，保持柔软的同时保持耐用。产品全覆盖TPU高性能环保薄膜，全方位增强布料的防水抗污性能。同时面料连接处增加加筋包边工艺，让产品更加立体多彩。自由组合的靠垫能为人们提供不同的依靠方式，背垫、头枕和扶手靠，还可以置于中间做背对背的依靠。靠垫底部额外使用防滑布料，内部底部配有石板，加强靠垫在依靠时的稳定性。座垫使用高密度高回弹海绵，配合蛇形弹簧，大大增强回弹效果，保持耐用和不轻易变形。茶几具备收纳功能，在节约运输空间的同时可以收纳户外常用的小物件，具备实用性。奥尔温系列在销售组合上突破了以往的限制，整个系列的每个沙发模块可以随意组合，灵活匹配空间需求和个性化需求。

Olwen Collection is a highly innovative fully upholstered outdoor sofa set jointly developed by the Higold and Claudio Bellini design team in Italy. The design is inspired by the ATOLLO islands of the Maldives, where the island in the blue ocean appears separate on the surface but are connected in depth. The natural, gentle curves form the enchanting silhouette of Olwen, blending nature with modern living to create a comfortable living oasis. A standout feature of this series is its flexible and movable cushions, which overturn the industry's conventional fixed cushion design. The freely combinable cushions allow users to adjust the positioning as they wish, providing a personalized comfort experience. The sofas use fabric containing 90% Olefin, offering a textured feel that greatly enhances the comfort of leaning back.

Higold has always been committed to promoting sustainable industry development, focusing on eco-friendly materials and green production, and undertaking corresponding social responsibilities. Olwen collection uses newly introduced 490-gram eco-friendly blended fabric, which is a recyclable and naturally degradable material. This fabric is also covered with a high-performance TPU eco-friendly film, combining comfort, eco-friendliness, and waterproofing. The entire production process strictly adheres to environmental requirements and standards from multiple regions worldwide, reducing pollution emissions during production, thereby promoting the sustainable development of environmental protection.

The series features a fully upholstered design, which is an innovation in design and craftsmanship for outdoor furniture. It uses a fabric blend of 90% Olefin and 10% polyester, maintaining softness while ensuring durability. The entire product is covered with a high-performance TPU eco-friendly film, which significantly enhances the fabric's waterproof and stain-resistant properties. Additionally, the fabric's seams are reinforced with piping, making the product more three-dimensional and vibrant. The combinable cushions provide various support options, including back cushions, headrests, and armrests. They can also be placed in the middle for back-to-back support. The bottom of the cushions features anti-slip fabric, and there are slate reinforcements at the base, enhancing stability when leaning against them. The seat cushions use high-density, high-resilience foam combined with serpentine springs, greatly improving the rebound effect, ensuring durability, and preventing deformation.

可调节支撑器  
MB-X ADJUSTABLE PEDESTAL

设计师 Designer:

1.高度调节范围广，X系列有MB-X1和MB-X2两款，MB-X1，可调节高度范围是29-49mm，MB-X2，可调节高度范围是49-138mm，其他竞争对手支撑器通常需要4-5 skus来匹配这个高度范围。2.所有部件与锁紧系统完全组装，节省人工，所有部件无需拧开。3.通过调节键从顶部调整高度，无需重复吊装和铺设瓷砖。4.头部注射软胶，无需额外的头部橡胶，节省人力和库存。5.垫片标签包装在盒子与基座，而不是一个额外的，易于管理您的库存和交付。6.超过的订单可以用于下一个项目，没有死库存。7.扩展垫可以很容易地安装在底座的头部，每个垫给45mm的额外高度。可堆叠，如MB-X2加2个扩展垫，最高可达228mm高度。

1.回收材料制成，保护我们的地球。2.兼容Moonbay所有其他配件。

可调节的支撑器底座是您的高架地板系统的最佳解决方案，无论是装饰和铺装瓷砖。在所有其他底座中，我们的MB-X型具有许多优点，使您的工作更轻松，更安全，非常高效。适用于各种材料的户外露台支撑:木材、木塑、石材、陶瓷、复合材料、金属、玻璃纤维、砂砾等。可以放置在任何稳定的基材上，也可以放置在绝缘板上。

1.Wide Adjustment height range, MB-X1: 29-49mm; MB-X2: 49-138mm; other competitors pedestals normally need 4-5 skus to match this height range. 2. All part fully assembled with lock system, save labor and never unscrew for all part. 3. Adjust height from the top by adjustment key, no need repeat lifting and laying the tiles. 4. Soft rubber injected on head, no need extra head rubber, save labor and stock SKU. 5. Spacer tabs packed in box with pedestal, not a extra, easy to manage your stock and delivery. 6. Over orders can be used on next project, no dead stock. 7. Extension pad can be easily installed on head of pedestal, each pad give 45mm extra height,and they are stackable,

e.g. MB-X2 add 2 pcs extension pads can reach maximum 228mm height.

1.Made of Recycled material, protect our earth. 2.Compliant with Moonbay all other accessories.

Adjustable pedestal is the best solution for your raised floor system, both for decking and paving tiles. Among all other pedestals, our MB-X type have many advantages to make your job easier and efficient. Support for outdoor terrace with any kind of material: timber decking, wpc decking,stone,ceramic,composite material,metal, fiberglass,grit, etc.Can be placed on any stable substrate, also over insulation panels.

## 瀑布式置物水龙头 WATERFALL STYLE STORAGE FAUCET

### 设计师 Designer:

余晖繁 HuiFan Yu      黄亦炫 Yi Xuan Huang  
18767710435              15858755182

邮箱: 623325080@QQ.COM

Lin是由简洁线条构成的水龙头。从上方看，整体都是52cm的宽度，中间挖的两个方孔让厚实的产品变得透气、轻巧。

Lin上方厚度16cm底部20cm，使整个产品看起来沉稳。恰到好处的倾斜12°角，增加了出水中心距，更符合人机工程学，适于人们使用。采用瀑布式出水嘴，形成了一个完美的弧形水幕，会有更柔和舒适的清洗体验。

在侧面看如同一个“7”的形状，转折尖角变成了圆柱，使之更顺滑、整体感更强。手柄与主体形态相似，活动部分厚度变薄、长度变短，适当分开，奠定了主辅关系而又不失简洁。

Lin is a faucet made of clean lines. Viewed from above, the overall width is 52cm. The two square holes dug in the middle make the thick product breathable and lightweight.

The thickness above Lin is 16cm and the bottom is 20cm, which makes the whole product look stable. The proper tilt angle of 12° increases the center distance of the water outlet, which is more in line with ergonomics and is suitable for people to use. The waterfall spout forms a perfect arc-shaped water curtain with a softer and more comfortable cleaning experience.

Viewed from the side, it looks like a "7" shape, with the sharp corners turning into a cylinder, making it smoother and stronger overall. The shape of the handle is similar to that of the main body. The movable part has a thinner thickness and a shorter length.

花瓣椅  
PETAL CHAIR

设计师 Designer:

花瓣椅独特的外形设计, 仿佛一朵盛开的鲜花, 充满了优美与灵动; 设计师将功能主义和传统手工艺两方面的影响融入之中, 对木纹的强调也反映了中国传统对自然材料的偏爱。

花瓣椅作为一种设计艺术品, 不仅仅是家具, 更是一种生活态度的体现。实木框架和棉麻等柔软材料的结合赋予了椅子舒适性和现代感, 使其在室内和室外的多种环境中都具备广泛适用性。

这款椅子的设计被认为是经典之一, 是对椅子设计的材料创新和轻便化趋势的引领。蝴蝶椅的成功还体现在其多功能性上, 成为家庭、办公室和公共场所中的热门选择。

The unique appearance design of the petal chair resembles a blooming flower, full of beauty and agility; The designer integrates the influence of functionalism and traditional handicrafts, and the emphasis on wood grain also reflects China's traditional preference for natural materials.

As a design artwork, petal chairs are not only furniture, but also a reflection of a lifestyle attitude. The combination of solid wood frame and soft materials such as cotton and linen gives the chair comfort and modernity, making it widely applicable in various indoor and outdoor environments.

The design of this chair is considered one of the classics, leading the trend of material innovation and lightness in chair design. The success of butterfly chairs is also reflected in their versatility, becoming a popular choice in homes, offices, and public places.

浴室台盆柜 (横格栅)  
BATHROOM BASIN CABINET (HORIZONTAL GRILLE)

设计师 Designer:

邱琦 Qi Qiu  
设计总监 Design Director

产品整体以“天圆地方”的设计理念，复古波点圆镜搭配方形浴室柜；使用一触即发海蒂斯同步轨道，开合抽屉解放双手；柜体采用横向波浪纹，德国Wemhoner智能温控膜压，厚度45丝，全自动一次成型，5面全包裹；100%还原自然纹理，纹路清晰，20年不褪色。

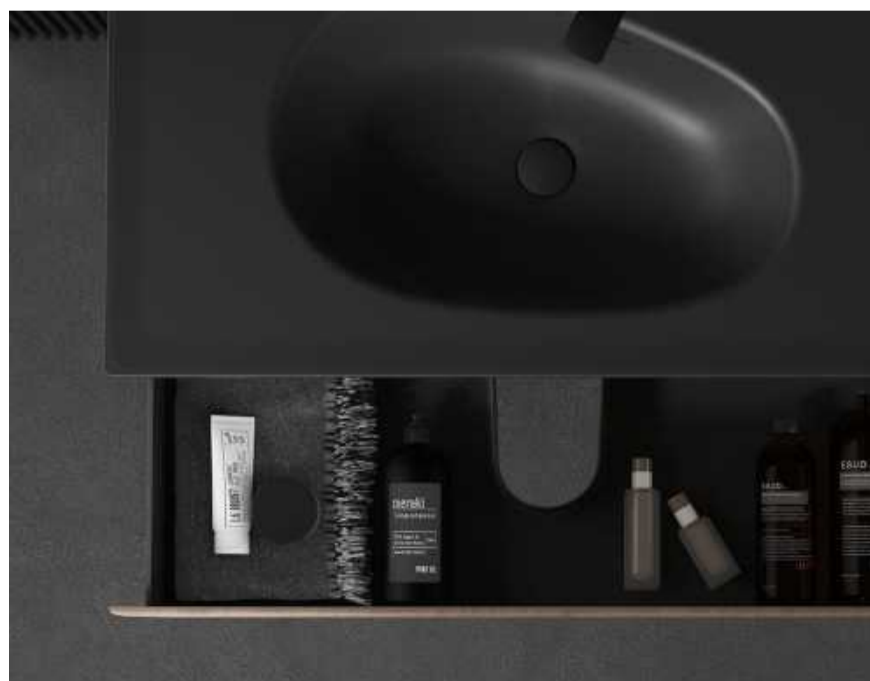

使用E1等级环保板材，德国Wemhoner智能温控膜压，纹路清晰，20年不褪色；5面包裹，防潮性能佳；无拉手设计，老人小孩无惧碰伤。

TONA品牌质保5年，自动化生产线，生产精度和效率高，有效减少材料浪费。

The overall design concept of the product is "round with square", with retro polka dot circular mirrors paired with square bathroom cabinets; Using the touch opening drawers, freeing hands; The cabinet body adopts horizontal wave patterns, German Wemhoner intelligent temperature control film pressure, with a thickness of 45 wires, fully automatic one-time molding, and fully wrapped on 5 sides; 100% restoration of natural texture, clear texture, no fading for 20 years.

Using E1 grade environmentally friendly board, German Wemhoner intelligent temperature control film pressure, with clear patterns and no fading for 20 years; Wrapped in bread, with excellent moisture resistance; No handle design, elderly and children are not afraid of injury.

TONA brand has a 5-year warranty, automated production lines with high production accuracy and efficiency, effectively reducing material waste.

## 星辰岩板带灯置物架

### STARRY SHELF

#### 设计师 Designer:

邮箱: PIPER@OPPEIN.COM

传统的置物架通常采用材质固定且单一的层板,难以兼顾装饰性与功能性,限制了室内设计的整体性和个性化表达。该产品便旨在解决这一问题,帮助用户拓展更多设计可能。基于极简的设计语言,该产品既能独立作为装饰元素,又能无缝融入不同家居环境中。石纹岩板带来自然气息与独特的视觉效果,搭配铝型材,实现了传统材料与现代工艺的结合。得益于模块化设计与全新的安装结构,用户可根据实际装修风格或个人审美偏好,灵活更换不同尺寸或材质的层板。

实用性也使该产品脱颖而出。设计团队充分考量工程力学,使产品在保持轻薄的同时拥有15kg的最大承重。该产品还能搭载运动感应照明设计,当用户靠近/远离时,自动控制照明,不仅提供便利,也节省能源。且它可通过智能驱动器与手机APP实现联动,令用户远程即可调整灯光。

该产品也注重可持续健康设计,在生命周期结束后,能实现回收利用,最大限度降低对环境的负担。且铝型材表面经银离子涂层抗菌处理,具有良好的抗菌性能,降低接触感染的风险。

Traditional shelves are typically constructed from monotonous materials, which can hinder the balance between functionality and decor, limiting the expression of personal style within interior design. To address this issue, this product has been developed to offer a wider range of design possibilities and to help users achieve a more personalized and expressive look. Based on minimalist design principles, this product can function as an independent decorative element or be seamlessly integrated into a variety of home environments. Textured stone slabs provide a natural and unique visual effect, while the aluminium profiles blend traditional materials with modern craftsmanship. The modular design and innovative installation structure allow users to easily replace the board with different sizes or materials, providing flexibility to match the decoration style or personal aesthetic preference.

In addition to its aesthetic appeal, this product is highly practical. The engineering mechanics have been carefully considered to ensure a maximum load capacity of 15kg while maintaining a slim and lightweight design. The product can also be equipped with motion-sensitive lighting, which automatically adjusts the illumination when the user is nearby or away, promoting energy efficiency and convenience. It can be linked to a mobile application through a smart driver, enabling users to control the lighting remotely.

Sustainability and health are also key considerations in the design of this product. At the end of its service life, it can be easily recycled to minimize its environmental impact. The aluminium profile's surface has been coated with silver ions, providing excellent antibacterial properties that reduce the risk of contact infection.

建筑和工艺设计的相互碰撞，诞生了一把椅界标杆，海洋环保塑料椅子脚与弯曲木靠背座板的碰撞，让椅子充满支撑力，不同的色调，高级又复古设计感满满。

3D弯曲木技术框架，木质细腻紧密，纹理自然扩张，可选择，海洋环保塑料椅子脚或者全实木脚，承重力强，增强了椅子的自然美并为设计增添了温暖质感适应各种空间。

优雅的设计风格 and 精湛的工艺让您的餐厅或餐馆瞬间提升品牌形象，吸引更多顾客驻足品尝美食。在这个竞争激烈的商业世界中，选择我们的实木餐椅，是您提升品牌价值的明智之选。

The collision between architecture and craft design has given birth to a benchmark in the chair industry. The collision between the legs of marine environmentally friendly plastic chairs and the curved wooden backrest seat plate gives the chairs full of support, with different color tones and a sense of high-end and retro design.

The 3D curved wood technology framework features delicate and compact wood with naturally expanding textures, making it a choice. The ocean friendly plastic chair legs or all solid wood legs have strong load-bearing capacity, enhancing the natural beauty of the chair and adding a warm texture to the design to adapt to various spaces.

The elegant design style and exquisite craftsmanship instantly enhance the brand image of your restaurant or eatery, attracting more customers to stop and taste the delicious food. In this fiercely competitive business world, choosing our solid wood dining chairs is a wise choice for you to enhance your brand value.

外观设计理念来源于引擎旋转时提供强大能源动能, 移植到产品上, 从视觉感官上更聚焦在核心操作部件上, 同时也象征着产品能够聚集强大能量在墙上。主体采用磨砂白百搭家装环境, 核心操作及抓握部件用显眼高调蓝做区分, 便于老年人群视觉识别。产品可以拼接创建不同的形状, 用户可以根据自身场景购买进行拼接打造使用。具有很强的装配灵活性, 可共用同一单元模具, 大大降低了开发成本。

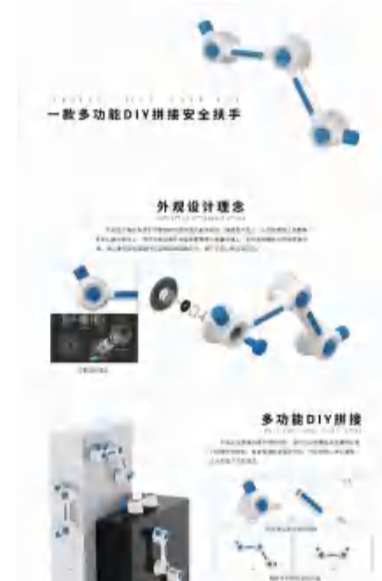

在看似温馨的家庭环境中, 其实也有很多潜在的危机, 比如在潮湿的浴室地板上容易滑倒, 站起来不方便。区分了常规的扶手有一堆安装麻烦的问题, 产品很好地解决了这个问题, 陪伴老人、孕妇、病人等群体, 为所有人创造一个安全的生活环境。产品上市后, 得到广大消费者青睐与认可, 温暖了千家万户的生活。产品也发挥积极的社会价值, 在社会公益活动中, 为社区空巢老人带来真挚的关怀; 同时还助力2022年冬季残奥会, 为残奥运动员在休息期间保驾护航。

产品材料具有特殊的胶体分子, 能穿透墙面接缝, 不仅有效阻隔了浴室等潮湿环境中水的冲刷作用, 还能增强黏度性能, 随着时间的推移变得更紧实, 更有利于方便产品使用。产品通过权威可靠的CTT认证, 可达到160kg的极限承载能力。此外, 该产品经过数万次的实验性性能测试, 只为消费者打造出承重性能优越、安全系数高的产品。

The concept of appearance design comes from the engine rotating to provide powerful energy kinetic energy, applying this concept to the product, visual sensory focus on the core operating components, also symbolizes the product can gather powerful energy on the wall. The main body adopts frosted white to match the home decoration environment of most families, while the core operating and gripping parts are distinguished by a conspicuous bright blue color, which is easy for the elderly to recognize visually. The product can be spliced to create different shapes, users can buy according to their needs. With strong assembly flexibility, and can share the same unit mold, reducing the development cost greatly.

There are many potential crises in the cozy home, such as it is easy to slip on the wet bathroom floor and inconvenient to stand up. General grab bars are difficult to install, but our products are a good solution to this problem, accompanied by the elderly, pregnant women, patients, and other groups, to create a safe living environment for all. After the product was launched, it was favored and recognized by the majority of consumers, warming the lives of thousands of families. The products also play a positive social value, in the social welfare activities, for the community empty-nesting elderly to bring sincere care; also play a role in the 2022 Winter Paralympics, helping the Paralympic athletes in the break.

The product material has a special colloidal molecule, which not only effectively blocks the water in wet environments such as bathrooms, but also enhances the viscosity properties and becomes tighter over time. The product has passed the authoritative and reliable CTT certification and can reach the ultimate load capacity of 160kg. In addition, the product has gone through tens of thousands of performance tests, only to create products with superior load-bearing performance and high safety coefficient for consumers.

目前市场上的发泡瓷砖通体为灰色, 易掉粉, 需要喷透明保护漆。我们在此基础上改良实现通体多个颜色, 并实现精雕刻成艺术性的装饰微风块, 美观实用, 防水防潮。

原仿石从生产上建构了“资源—产品—废弃物—再生资源”的闭环体系, 实现了资源循环利用, 加速绿色低碳城市的发展。可广泛消纳建筑渣土、矿山尾料和建筑砂石加工废料, 产品资源利用率100%。

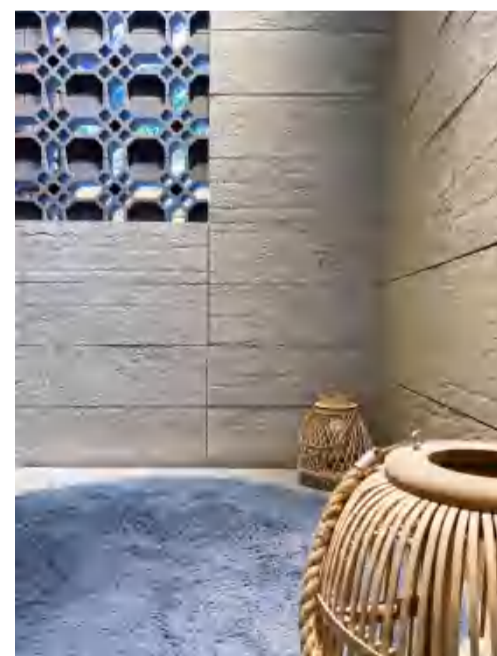

该产品可广泛替代传统石材、文化石、砂岩、GRC、EPS, 体轻、可塑性更强、耐腐蚀, 装饰效果与传统装饰材料明显差异, 装饰性更加独特, 无需另外喷色, 环保并节省人工。可广泛用于室内外装饰、建筑外墙、空间隔断等场景。

The foam ceramic tiles currently on the market are gray in color and easy to fall off, so they need to be sprayed with transparent protective paint. On this basis, we improved to achieve multiple colors throughout the body, and realized fine carving into artistic decorative breeze blocks, which are beautiful, practical, waterproof and moisture-proof.

Our breeze block has constructed a closed-loop system of "resources-products-waste-renewable resources" from the production point of view, realizing resource recycling and accelerating the development of green and low-carbon cities. It can widely consume construction slag, mine tailings and construction sand and gravel processing waste, and the product resource utilization rate is 100%.

This product can widely replace traditional stone, cultured stone, sandstone, GRC, and EPS. It is light, more plasticity, and corrosion-resistant. The decorative effect is significantly different from traditional decorative materials. It is more unique in decoration and does not require additional color spraying. It is environmentally friendly and saves labor. It can be widely used in indoor and outdoor decoration, building exterior walls, space partitions, etc.

元萝卜结合领先的AI视觉技术和决策智能,可达到毫米级操控精度,自如完成拾取棋子、与人对弈、记谱复盘等功能,不仅实现了有效的成本控制,而且更简约、酷萌、科技感十足。围棋版独创了“画面引导+语音激励+手臂演示”三位一体陪练模式,可带来视觉、听觉、触觉多种感官融合的立体化围棋学习体验。围棋版设有9路、13路、19路多种棋力闯关模式,更有超越人类职业九段水平的巅峰对决模式,从初学者到高水平职业棋手,都能找到适合自己的对弈等级,还能通过App查看对弈结果并进行复盘分析,找出攻守漏洞。结合6个级别、2500道以上的精选专项习题,可覆盖0基础到入段的各阶段学员,元萝卜可摆棋、提示、讲错题,巩固所学知识,让学棋练棋更有效果。“星球联盟”可以让孩子和线上真人开展人人对弈,通过实战提升棋艺,持续激发挑战兴趣,随时借助元萝卜和志同道合的真实棋友切磋交流,不断提高自己的棋艺水平。还配备五子棋模式,老少咸宜,全家都可玩。

围棋版自2023年6月上市以来,走过800多家棋院和公立校,覆盖百万学棋小学生,让围棋学习普及到千家万户,让更多孩子了解围棋、爱上围棋,为国学文化的推广尽了一份力。同时,元萝卜开创了围棋智能教室,在棋院架设多台元萝卜机器人,打造一站式高效智能围棋教学平台,帮助棋院打造差异化,目前进入近百家棋院,也让传统棋院教学进化到智能时代。

元萝卜作为下棋机器人品类开创者,改变了小朋友以往下棋只能在pad下棋和做作业的现状,让小朋友脱离屏幕,和真实的棋盘棋子下棋,保留原有的下棋氛围的同时,也能不伤眼睛,让爸妈更放心。它让围棋AI真正走出冰冷的机器,成为拟人化的机器人,进入家庭,为家长带来便利,激发小朋友学习围棋的乐趣。陪练、做题、不伤眼。我们用元萝卜作为进入家庭生活交流情感的纽带,连接一个个家庭的故事,描绘更便捷、更温馨的美好生活图景。

SenseRobot combines leading AI vision technology and decision-making intelligence, which can achieve millimeter-level control accuracy, and freely complete functions such as picking up chess pieces, playing against people, and notation review. SenseRobot Go has created a three-in-one sparring mode of "screen guidance, voice stimulation and arm demonstration", which can bring a three-dimensional Go learning experience with visual, auditory, and tactile multi-sensory integration. SenseRobot Go has a variety of 9, 13, and 19-way chess power modes, users from beginners to high-level professional chess players can find a game level that suits them, and they can also view the game results through the App and conduct review and analysis. Special exercises can cover students at all stages from 0 foundation to entry stage. The "Star Alliance" section allows children to play against real people online. The robot also comes with a Gobang mode, which suit family.

Since SenseRobot Go was launched in June 2023, it has gone through more than 800 chess academies and public schools, covering millions of primary school students learning chess, popularizing Go learning to thousands of households, allowing more children to understand and fall in love with Go, and contribute to the Chinese culture did their part in the promotion. At the same time, SenseRobot has created a smart Go classroom and set up multiple SenseRobot robots in chess academies to create a one-stop, efficient and intelligent Go teaching platform to help chess academies create differentiation. Currently, it has entered nearly a hundred chess academies, and has also evolved the traditional chess academies' teaching to intelligent era.

As the pioneer of the chess-playing robot category, SenseRobot has changed the current situation where children can only play chess and do homework on the pad. It allows children to get away from the screen and play chess with real chess board pieces, while retaining the original chess-playing atmosphere. , and it will not hurt your eyes, so parents can feel more at ease. It allows the Go AI to truly step out of the cold machine and become an anthropomorphic robot, entering the home, bringing convenience to parents and stimulating children's fun in learning Go. Practicing, solving problems, not hurting the eyes. We use SenseRobot as a link to communicate emotions in family life, connect the stories of each family, and depict a more convenient and warm picture of a better life.

## V16婴儿手推车

### V16 BABY STROLLER

V16靠背仿生蛋壳设计, 一体成型, 透气舒适, 靠背镂空图案以雁飞高山理念, 结合中国风元素, 车台前后脚踏的造型设计呼应主题。

V16真正做到了可平躺无阶梯设计, 宝宝初生即用, 坐兜两侧加高设计, 不怕宝宝侧翻。对应宝宝长得快的特点, 设计了隐藏式脚踏板。座椅可双向转换, 前后都有小脚踏, 宝宝不踩空。前大脚踏板加宽设计, 出行游玩累了, 可作为爸妈的临时座椅。

V16二道锁收车系统, 安全有保障, 有效防止车子突然收合。车子折叠小巧不占地。

V16 backrest bionic eggshell design, one molding, breathable and comfortable, backrest hollow pattern to fly wild mountains concept, combined with Chinese wind elements, platform front and rear pedals shape design echo the theme.

V16 can be really flat without ladder design, baby born to use, sit on both sides of the pocket high design, not afraid of baby side turn. Corresponding to the characteristics of the baby grow fast, the design of a hidden pedal. The seat is a two-way seat with little pedals in front and back, and Darling doesn't miss. The front big foot pedal broadens the design, travels to play tired, may serve as the parents' temporary seat.

V16 two-lock car closing system, safe and secure, effectively prevent the car suddenly closing. The car is compact and doesn't take up much space.

创新充气式气囊坐凳+护腰气囊垫 实用新型专利: 一种充气式便携婴儿背带 气囊式凳芯, 方便携带可收纳, 无硌肚感 创新充气式气囊坐凳+护腰气囊垫给消费者带来的好处是: “无硌肚感, 减压护腰”。

“Flyknit”面料是一种飞织工艺轻盈透气的无缝面料, 在所穿着身体部位能达到良好的弹性、支撑力和透气效果, 而不增加额外负担轻量出行。背部采用磁力扣, 一秒锁定一键快速拆解, 可滑动调节桥带, 适合各种体型父母。TPU充气凳芯软弹坐凳给予宝宝舒适的坐姿及过滤大人行走中的震力, 更好的保护宝宝的脊柱。饱满的气囊, 贴腹部分整面全弹设计, 让剖腹产妈妈无硌肚困扰, 缓解腹部受压, 舒适度UP升级。TPU充气护腰气囊充气时气柱纵向膨胀, 气囊拓展舒张曲度, 实现紧密贴合腰部, 支撑减压缓解新生妈妈的腰痛问题。让宝妈健康轻松育儿 “不硌肚, 更护腰”。

创新材料: 使用环保TPU材质, 耐用且弹性佳, 支持婴儿健康成长。人体工程学: 设计考虑人体工学, 通过充气调节适应不同体型, 提升舒适度。便捷实用: 便于携带和收纳, 快速充气放气, 适应各种使用需求。安全性: 细节设计确保使用安全, 减少婴儿受伤风险。工艺创新: 推动产业技术水平提升, 促进工艺改进。环保理念: 产品设计与材料选择体现环保, 符合可持续发展。

Innovative Inflatable Air Cushion Seat + Lumbar Air Cushion Pad Practical New Type Patent: A Portable Baby Carrier with an Inflatable Design The air cushion seat core is convenient to carry and can be stored, providing a non-irritating belly feeling. The benefits that the innovative inflatable air cushion seat + lumbar air cushion pad bring to consumers are: 'no belly irritation, decompression and lumbar protection'.

Flyknit fabric is a seamless, lightweight, breathable material that offers great elasticity and support without adding weight, perfect for travel. It features a quick-release magnetic buckle and an adjustable strap for a universal fit. The TPU inflatable seat core is soft, ensuring a comfortable seat for the baby and better spinal protection. The full air cushion with elastic design alleviates belly discomfort for cesarean mothers and increases comfort. The TPU lumbar air cushion provides waist support and decompression, reducing back pain for new mothers, making parenting more comfortable and healthy with 'no belly irritation, more lumbar protection'.

Innovative Material: Innovative Inflatable Air Cushion Seat + Lumbar Air Cushion Pad. Ergonomic Design: The design takes ergonomic principles into account, with adjustable inflation to fit various body types, enhancing comfort. Convenience and Practicality: Easy to carry and store, with quick inflation and deflation, adaptable to various usage scenarios. Safety: Every detail is designed to ensure safety and reduce the risk of injury to infants. Innovative Technology: Drives technological advancement in the industry, promoting process improvement. Eco-friendly Concept: The product design and material selection reflect environmental sustainability.

手推车采用铝合金车框架, 携带轻便可折叠, 可同时容纳2-4个儿童, 为家庭解决多个儿童出行难得问题; 为家庭旅行、节假日露营提供了方便, 且增加了儿童在一起玩耍的趣味性。

产品全部采用环保材质及五点式安全带座椅, 双重安全保护。车轮独立减震, 超大空间、超大承重, 儿童乘坐出行更加舒适。

公司经过多年的历练与发展, 根据自身发展状况, 结合社会发展需求, 以现代企业管理制度为契机, 不断探索企业的优化组合构架, 寻求可持续发展战略。并建立健全了从方案设计、产品落实、质量监督到售后服务等一整套细致合理的服务流程体系, 从而为客户创造了优质的产品并提升了客户的使用感受。

IMAMI Toys Hebei Co., Ltd. mainly produces kids camping outdoor wagon stroller. Wagon using aluminum alloy frame, portable and foldable, can accommodate 2-4 childrens at the same time, for the family to solve the difficult problem of multiple children's travel; for family travel, holiday camping provides a convenient, and increase the fun of children playing together.

All products are made of environmentally friendly materials and five-point safety belt seats, double safety protection. Wheel independent shock absorption, large space, large load bearing, children ride travel more comfortable.

After years of experience and development, according to its own development status, combined with the needs of social development, the company takes modern enterprise management system as an opportunity to continuously explore the optimal combination of enterprise structure, and seek sustainable development strategy. We have also established a complete set of meticulous and reasonable service process system from scheme design, product implementation, quality supervision to after-sales service, thus creating high quality products for customers and enhancing their experience of using them.

硅胶沙滩玩具用硅胶生产，硅胶是一种相对较新的材质。硅胶材质柔软，手感触感更好，优化小孩的使用体验，更受家长的青睐。

硅胶具有安全环保、抗菌防霉、耐高温、耐寒性能。在生产过程中，工厂采取了严格的环保措施，通过对废气、废水、废固体等的处理，有效减少了对环境的污染，达到了对环境无害化排放的标准。坚持人与自然和谐共生，推动经济社会发展绿色化、低碳化，推动构建人与自然生命共同体。

硅胶沙滩桶玩具通过美国ASTM、CPC、欧洲EN71、CE、澳大利亚ISO8124的检测。产品多次通过客户安排的第三方检验公司的检验。通过不断的改进产业规模工艺，优化质量管理体系，我们通过BSCI和ISO9001的认证。

Silicone beach toys are made of silicone, which is a relatively new material. Silicone material is soft, feel better, optimize the use of children's experience, more favored by parents.

Silica gel has safety and environmental protection, antibacterial and mildew proof, high temperature and cold resistance. In the production process, the factory has adopted strict environmental protection measures, through the treatment of waste gas, waste water, waste solid and so on, effectively reducing the pollution of the environment, and reaching the standard of harmless discharge to the environment. Adhere to the harmonious coexistence between man and nature, and promote green and low carbon economic and social development, promote to build the human and the nature of life community.

Silicone beach bucket toys through the United States ASTM, CPC, European EN71, CE, Australia ISO8124 testing. The products have passed the inspection of the third-party inspection company arranged by the customer for many times. Through continuous improvement of industry technology, optimize the quality management system, we through the BSCI and ISO9001 certification.

## 充气两栖救助三合一夹克

### INFLATABLE 3-IN-1 JACKET WITH AMPHIBIOUS RESCUE FUNCTION

#### 设计师 Designer:

黄颖 Ying Huang  
13850110660  
331031491@qq.com

企业名称: 福建省尚飞制衣有限公司  
FUJIAN FASHION FLYING GARMENTS CO.,LTD.  
联系人: 龚晓燕 FLORA  
手机: 13514065556  
邮箱: 494319287@QQ.COM

这件充气三合一夹克不仅可以舒适控温、保暖防护,在受伤时还可以提供局部固定和减震以及简易担架辅助功能,更难得的是在落水时可以最大程度地避免主躯干失温,延长救援等待时长,争取更多生存机会,成为人们参加徒步、野跑、骑行和海钓等温差大、环境复杂的户外活动的不二之选。

外套的再生纱面料防雨、防风、透气,肩、肘和后臀等受力点的面料含有芳纶,耐磨、防刺;帽周和肘部设有橘色反光,方便野外识别和救援。脱卸袖延长了穿着季节;门襟和袖子设有快脱拉链,方便单手快速穿脱;拉链上悬挂着的带指南针功能的口哨;左右肩带可固定手电、步话机、警示灯等。意外受伤时,后肩胛骨和腰部的固定袢,穿入两根树枝即可变成简易担架;单个同伴可直接拉拽肩部套环,较便利地带上伤者。

内胆运用了胶囊结构,充入不同气量就可以调节保暖的温度。它以空气作为保温介质,不受制于天气和能源,性能稳定。手动充气实现了极致低碳;也可配置自动充气瓶,可在落水瞬间充气。多胶囊独立充气则确保当个别胶囊漏气时仍可保温和浮起。充足气的内胆完全贴合人体,几乎隔绝身周流水,避免热量流失;充气U型枕托举颈部,利于长时间等待救援。

This inflatable 3-in-1 jacket is one of the best apparel for outdoor activities such as hiking, running, cycling, and fishing, which may undergo obvious temperature differences or other complex environments. It provides not only adjustable insulation, but also partly fastened, in case of injury, to reduce quakes and to form a simple stretcher. What makes more sense is that it can minimize the loss of the human body's heat when falling into the water, so as to survive longer to wait for rescue.

The main panels of the outer jacket are made of the recycled rainproof, windproof, and breathable fabric, while the stress areas, including the shoulders, elbows, and back hem, are made of the wear-resistant and puncture-resistant fabric containing aramid. The orange reflective tapes at the hood and elbows are highly invisible in the wild. The detachable sleeves make it suitable for multi-seasons. The placket and sleeves are equipped with quick-release zippers for quickly putting on and taking off by one hand when necessary. A whistle with a compass function hanging on the zipper is easy to access in an emergency. And the tapes on the shoulders can be fixed with flashlights, walkie-talkies, warning lights, etc. When accidentally injured, the fixation loop at the back scapula and waist will assist in transforming a simple stretcher by inserting two branches. A single companion can manage to transport the injured person by dragging the shoulder loop.

The inner liner, adopting a capsule inflation structure, can achieve different levels of insulation effect by manually filling different amounts of air. Using natural air as the insulation medium, it performs stably since it isn't restricted by weather or energy. Inflated by manual it achieves extreme low-carbon, while equipped with an automatic inflation bottle it'll inflate instantly when falling into the water. Independent inflation of multiple capsules ensures the whole jacket maintains the function of insulation and float that if individual capsules leak. Inflated with sufficient air, the inner jacket completely fits the human body, almost isolating the flowing water around the body and avoiding the body's heat loss. An inflatable U-shaped pillow helps lifting the neck, which is beneficial for the wearer during waiting for rescue.

#### 充气两栖救助三合一夹克 Inflatable 3-in-1 Jacket with Amphibious Rescue Function

##### 可充气内夹克 Inner jacket, adopting capsule inflation structure

采用了多通道充气,最大保障整个衣程的保温功能和浮起功能  
multi-channel inflation system ensures overall insulation and buoyancy

采用了高科技防雨、防风、透气性能纤维再生纱面料  
made of technology recycled yarn fabric with high waterproofness, windproofness and breathability

腰口袋和袖口袋4个独立充气点,让身形变救生圈  
4x independent airways at the waist and sleeve pockets can instantly turn the jacket into a life jacket.

## 山丘 HILLS

### 设计师 Designer:

刘佳琦 Jiaqi  
13601456990  
liujiaqi@saintycorp.com

**设计创新性：**该款式采用雪山印花面料，让户外冲锋衣更加时尚，同时，采用对款式版型进行了调整，**功能性标准：**采用更细更棉柔的Flexi非氨弹纱线，细密棉柔、持久舒弹。100%超细Flexi纱线迭代弹力，让你运动无束，自在出行。强调结构和耐久织造工艺，提升面料耐磨性能，持久耐穿。全天候运用功能，高性能膜材加持，有效防止雨水渗透，不惧风雨。在运动的时候，能快速将汗液导出，始终保持干爽。不同功能性膜材加持，赋予面料无限场景，带来运动舒适体验。此款面料采用无氟防水工艺，数码印花，采用TPU高透膜，达到15K/15K功能标准。

此款服装持久耐穿，耐磨指数达到30000转。采用不含氟化物的C0无氟防水剂这类更为环保安全在无氟防水剂的应用上，以不含氟化物的C0耐久防水剂对人体或环境无害，并且耐久防水性能突出、适用面料范围广。

**工艺改进&品质标准：**该产品在设计之初就充分考虑款式的耐穿性，对面料耐撕裂、防护性能做了充分的检测，同时注重产品的舒适性，**市场运用性：**这款产品具有广泛的市场应用特性，登山、徒步、滑雪等多场景运用，数码印花时尚值增加，在日常通勤场景中也可以运用。

**Design innovation:** the style adopts the snow mountain printing fabric, make the outdoor punching jacket more fashionable, at the same time, adopts the adjustment of the style layout, the **Functionality standard:** the use of finer and softer Flexi non-ammonia elastic yarn, fine cotton, long-lasting stretch. 100% ultra-fine Flexi yarn iteration elasticity, allowing you to exercise without constraints, free travel. 100% ultra-fine Flexi yarn iterative elasticity, so that you can move freely and travel freely. Emphasizing the structure and durable weaving process, to enhance the wear-resistant performance of the fabric, long-lasting and durable. all-weather use function, high-performance membrane material, effectively prevent rainwater infiltration, fearless of wind and rain. When exercising, the sweat can be quickly exported, always keep dry. Different functional membrane material support, give the fabric unlimited scenes, bring sports comfort experience. this fabric adopts non.

This clothing durable wear, wear index reaches 30,000 turns the use of fluoride-free C0 fluorine-free waterproofing agent such more environmentally friendly and safe in the application of fluorine-free waterproofing agent to fluoride-free C0 durable waterproofing agent is harmless to the human body or the environment, and durable waterproofing performance is outstanding, applicable to a wide range of fabrics.

**Improvement of process & quality standard:** This product is designed at the beginning of the full consideration of the wearability of the style, the fabric tear resistance, protective performance to do a full test, while focusing on the comfort of the product, the **Market application:** This product has a wide range of market application characteristics, mountaineering, hiking, skiing and other multi-scenario use, digital printing fashion value increases, in the daily commuting scene can also be used.

KUBIKO是一个系列，包含CUBE和Cabin,两个尺寸中间设计卡孔叠放，稳定安全，叠放后的高度与桌子高度一致，这样在出差旅行中，如果有紧急事情需要处理的话，可以当作桌子来办公使用。

将小箱子放在立方体的箱子上面，叠放后的高度与桌子高度一致，可以立刻将您的行李箱变成移动的办公桌。行李箱和刹车轮的设计为您提供一个稳定的工作台。

立方体形状的拉杆箱被设计为最佳坐姿高度，高度与正常座椅高度一致，其坚固的框架可容纳120公斤，在您旅行期间需要坐下来休息的时候，给您提供急需的舒适和休息地。

the unique complementary design of our Cube and Cabin suitcases allows travelers to stack them on top of one another securely. This stack-and-lock feature is perfect for on-the-go travelers as they can push both suitcases smoothly with just on hand.

Stacking the Cabin case onto cube suitcase instantly transforms your luggage into a mobile work desk. The thoughtful designs of the suitcases and brake casters provide you with a stable work station.

The cube-shaped suitcase is designed to be of optimal sitting height.Its sturdy frame holds up to 120kg,providing you with much needed comfort and rest during your travel.

邮箱: SALES@VERAGE.COM.CN

维丽杰的自由地行李箱拥有实用新型专利（专利号：CN 215992999 U），行李箱独特的大小轮结构可以让消费者在四轮平推和双轮拉行两种状态下都有更佳舒适轻松的用户体验；箱体前后壳3：7比例结构能够更合理的分配箱内前后壳物品存放比例，开合箱体更方便；独特的挂钩侧手把，可以将购物袋，雨伞等物品挂于上方，解放双手，手把的位置相比五五分箱体结构，能更靠近箱体中间位置，提箱过程更加舒服，合理化的人机交互，使用更加轻松便捷。

自由地行李箱的里布采用GRS认证的环保再生料，里布面料均是用PET塑料瓶回收制作而成，PET塑料瓶的回收利用既可以解决环保问题，还可以实现资源循环利用，缓解我国PET原料不足的矛盾。同时产品的吊牌，贴纸，透明包装袋，纸箱等包装物料都采用全环保可回收材料制作而成，极大程度上减少塑料使用，减少碳排放，全方面遵循可持续环保理念。

所有产品均严格经过国家质量检验，包括轮子的耐久性测试，轮子的跌落，滚动测试，手提结构的冲击测试，面料织物的缝合强度试验，拉链的强度疲劳试验等，全方面保证产品的质量品质。

The VERAGE-FREELAND luggage obtained a utility model patent (Patent No. CN 215992999 U), Its distinctive large and small wheel structure grants consumers a more comfortable and relaxed experience, whether in four-wheel push or two-wheel pull mode. New packing design with 37 compartment for more intelligent storage and easy for packing; Retractable carry handle and side stands with hook can attach the shopping bags, umbrellas, and other items, freeing your hands. Compare to the 55 regular compartment, the position of 37 compartment handle is closer to the middle of the luggage, making the lifting process more comfortable and convenient to use.

The lining of the Freedland luggage is made of GRS-certified eco-friendly recycled materials, all of which are derived from recycled PET plastic bottles. The recycling of PET plastic bottles not only solve environmental concerns but also achieve resource recycling, alleviating the contradiction of insufficient PET raw materials in China. At the same time, the packaging components of the product, such as tags, stickers, transparent packaging bags, and CTN boxes, are all made of fully eco-friendly and recyclable materials, significantly curtailing plastic consumption, carbon emissions, and unwaveringly adhering to the philosophy of sustainable environmental conservation.

All products passed the QBT test, including wheel durability tests, wheel drop and rolling tests, impact tests on the carrying structure, seam strength tests on fabric materials, zipper strength fatigue tests, etc. These comprehensive test ensure the product's quality and performance in all aspects.

本产品具有超轻量化，无碳，弹力，抗撕裂，耐磨，防风，防雨，透气，安全防护作用。科技感线条形反光条，不仅酷炫，更起到安全防护作用。衣服面料表面使用防泼水处理。整件产品使用不含PTFE的薄膜贴合而成，在生产中实现无碳氟化合物，从而改善现有的性能和可持续性。衣服面料是尼龙66，具有抗撕裂，耐磨，超轻量化等功能。腋下设有透气拉链设计，后背设有独特切割透气设计。胸袋防水拉链袋设计，设有下袋袖袋可方便存放小物件，袖口帽子可调节设计。整件衣服使用无缝热封工艺，更有效的起到防风防雨的效果，保护您的身体，让你的旅程更加无畏。

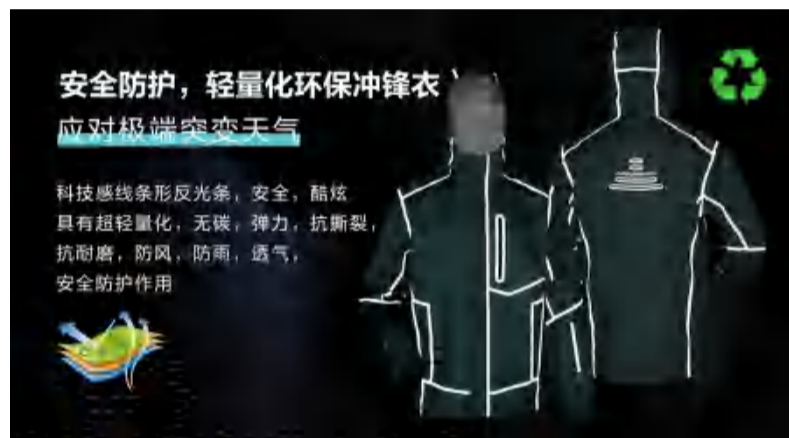

衣服用的是尼龙N66面料，具有抗撕裂，抗耐磨，超轻量化等功能。面料由三层组合，内部采用聚酯纤维，中间用防水聚酯薄膜，外部采用100%再生聚酯纤(RP)，将三层织物层压在一起形成单一织物。整件产品使用不含PTFE的薄膜贴合而成，在生产中实现无碳氟化合物，从而改善现有的性能和可持续性。穿着轻便柔软舒适富有弹性同时具有很好拉伸性，使用场景广泛。

衣服面料纤维表面使用防泼水处理，即使表面看起来好像面料被水浸湿，实际上则是正常现象且不会渗透。科技感线条形反光条，不仅酷炫，更起到安全防护作用。科技感线条形反光条，不仅酷炫，更起到安全防护作用。夜晚在深林处，以及夜晚出行都是很容易被发现，具有很高的安全防护性能。

This product has ultra-lightweight, no carbon, elastic, tear resistance, wear resistance, wind, rain, breathable, safety protection. Technology sense strip reflective strip, not only cool, but also play a role in security protection. The surface of the fabric should be treated with waterproof treatment. The entire product is laminated using a PTFE-free film to achieve fluorocarbon-free production, thereby improving existing performance and sustainability. The fabric is nylon 66, with tear resistance, wear resistance, ultra-lightweight and other functions. The underarm has a breathable zipper design and the back has a unique cut breathable design. Chest bag waterproof zipper bag design, with a lower pocket sleeve bag for convenient storage of small objects, cuff cap adjustable design. The whole garment uses a seamless heat sealing process, which more effectively plays the effect of wind and rain, protecting your body and making your journey more fearless.

The clothes are made of nylon N66 fabric, which has the functions of tear resistance, wear resistance, ultra-lightweight and so on. The fabric is composed of three layers, with polyester fiber inside, waterproof polyester film in the middle, and 100% recycled polyester fiber (RP) outside, and the three layers of fabric are laminated together to form a single fabric. The entire product is laminated using a PTFE-free film to achieve fluorocarbon-free production, thereby improving existing performance and sustainability. Wear light, soft, comfortable, elastic and has a good stretch, a wide range of scenarios.

The surface of the fabric fiber is treated with waterproof treatment, even if the surface looks as if the fabric is soaked with water, it is actually a normal phenomenon and will not penetrate. Technology sense strip reflective strip, not only cool, but also play a role in security protection. Technology sense strip reflective strip, not only cool, but also play a role in security protection. At night in the deep forest, as well as night travel is easy to be found, with high safety protection performance.

## 柔性防刺“保命”冲锋衣 FLEXIBLE STAB-PROOF "LIFE SAVING" WATER-PROOF JACKET

### 设计师 Designer:

缪建斌 Jianbin Miao

邮箱: KYRA@DAVID-GARMENTS.COM

这款产品的核心材料-柔性防刺芯片荣获2022年国家科技进步二等奖并获得中国纺织工业部“柔性防刺产业化技术”国际领先认证,同时还通过美国NIJ,德国VPAM,中国公安部GA68防刺检测。核心材料的设计灵感主要来自于犰狳盔甲的背壳,在原始古代人们发现犰狳的鳞甲坚固而柔韧,古代战士使用它设计了战袍,到古罗马演变成了金属盔甲,但这些战袍的缺点是重且不耐用。目前研发的这款碳纤维的柔性防刺模块芯片,它在相同的防护面积下是最薄、最轻、最柔软且韧性好。超高性能碳纤维复合材料鳞片,涂覆于阻燃超性能短纤芳纶机织布上,表层防尖刀侧滑,避免二次伤害。

全新柔性防刺技术,经纬方向,可根据体型自动调节形态贴合人体,穿着柔软,舒适,可以轻松防尖锥,尖刀,注射器等尖锐物品刺入。这些技术创新给佩戴者提供全方位的保护,让穿着者能够更加安全地面对险境。面料采用了100%来自废弃轮胎的再生尼龙66,这是一款经过8年研发的电纺膜,完全不含PFA--不仅是产品,而且整个制造过程都避免了对环境的有害影响。超过10000mm的防水性能和30000g/m2/24h的透气性,为穿着者提供防风、防水的同时还保持舒适的穿着体验。

如果你是从事特种行业,如消防、救援、军警、安保等危险工作的人员,这款柔性防刺冲锋衣将为你保驾护航,提供额外的安全保障。据不完全统计,全球每年有十分之六的凶杀案受害者死于刺伤或殴打,其中38%因刺伤而身亡,我们这款高甲柔性防刺技术冲锋衣应运而生,能有效保护人身安全。在设计上,这款功能防刺冲锋衣采用简约经典的外观,立体3D剪裁,展现出大气舒适的特点。衣服上设计了多功能胸袋跟腰袋供使用者存储物品,腋下使用了隐形透气链,在运动过热时可以快速驱走身上的热气,保持体内干爽。当外套被刺破或者脏污时,内里及后背的隐形拉链袋可以快速的更换破损的外件,同时内里还设计挂载执法记录仪等配件的功能。

The core material of this product, the flexible stab-resistant chip, won the second prize of the National Science and Technology Progress Award in 2022 and obtained the international leading certification of "Flexible Stab-Resistant Industrialization Technology" from the Ministry of Textile Industry of China. It also passed the American NIJ, German VPAM, and the Chinese Ministry of Public Security. GA68 stab resistance test. The design inspiration of the core material mainly comes from the back shell of the armadillo armor. In primitive antiquity, people found that the scales of armadillos were strong and flexible. Ancient warriors used it to design war robes. By ancient Rome, it evolved into metal armor, but the disadvantages of robes are that they are heavy and not durable. The currently-developed carbon fiber flexible stab-proof module chip is the thinnest, lightest, softest and has the best toughness under the same protection area. Ultra-high-performance carbon fiber composite mate.

The new flexible stab-proof technology can automatically adjust the shape to fit the human body in the longitude and latitude directions. It is soft and comfortable to wear and can easily prevent the puncture of sharp objects such as pointed stabber, sharp knives, and syringes. These technological innovations provide the wearer with comprehensive protection, allowing the wearer to face dangers more safely. The fabric is made from 100% recycled nylon 66 from discarded tires, an electrospun membrane that was developed over eight years and is completely PFA-free – not just the product, but the entire manufacturing process avoids harmful impacts on the environment. The waterproof performance of over 10,000mm and the breathability of 30,000g/m2/24h provide the wearer with windproof and waterproof while maintaining a comfortable wearing experience.

If you are engaged in dangerous jobs in special industries, such as firefighting, rescue, military police, security and etc., this flexible stab-proof jacket will protect you and provide additional safety. According to incomplete statistics, six out of ten homicide victims around the world die from stabbings or beatings every year, and 38% of them die from stabbings. Our high-armor flexible anti-stab technology jacket came into being and can effectively protect personal safety. In terms of design, this functional anti-stab jacket adopts a simple and classic appearance with three-dimensional 3D tailoring, showing great comfort. The clothes are designed with multi-functional chest pockets and waist pockets for users to store items, and concealed airvent zippers are used under the armpits to quickly evaporate heat from the body and keep the body dry when overheating during exercise. When the jacket is punctured or stained, the pockets with concealed zippers on the inside and inner back can.

**设计价值:** 1.功能性设计: 采用“马萨膜”复合面料, 具有出色的防水和透气性能, 配合全压胶工艺, 有效防风防雨, 适应恶劣天气条件下的户外活动。2.环保材料选择: 面布采用可回收涤纶制成的小牛津, 无氟防水工艺, 符合绿色环保理念, 体现可持续发展的设计理念。3.色彩设计: 湖蓝与橙色的配色不仅提升了产品的视觉吸引力, 同时也提高了在户外环境下的可见性, 增强了安全性。4.舒适度与耐久性: 设计考虑了穿着者的舒适感和耐用性, 同时具备了较高的色牢度和耐摩擦性, 能够在户外多种场景下长时间穿着。

**社会价值:** 1.安全保障与救援效率提升: 该款冲锋衣设计考虑了户外工作环境的安全性要求, 提供了可靠的保护, 对于户外工作者、救援人员等具有重要意义。而采用数字化3D建模手段进行设计, 使得产品更加贴合人体工程学, 提高了穿着舒适度和活动灵活性, 从而提升了救援效率, 为紧急救援工作提供了有力支持。2.环保意识与可持续发展: 产品在设计环节使用了数字化3D建模手段, 不仅提高了设计效率和精度, 还减少了传统设计过程中对于原材料的消耗, 体现了对资源的有效利用和对环境的保护。同时, 采用绿色环保材料和工艺, 减少了对环境的负面影响, 促进了社会的可持续发展。这种环保意识的传播和实践对于整个社会都具有积极的示范和影响力, 有助于推动整个产业向更加环保、可持续的方向发展。3.科技创新与产业升级: 数字化3D建模手段的运用不仅提高了产品的设计质量和生产效率, 还代表了科技创新在户外服装行业的应用和推广。这种技术的采用促进了行业的产业升级和技术进步, 推动了整个产业链的发展, 为行业的可持续发展奠定了坚实的基础。同时, 这也为更多的科技创新和技术应用提供了范例和启示, 有助于推动社会经济的发展和进步。

**商业价值:** 1.市场竞争优势: 价格优势是该产品的一大亮点。独特的技术降低了20%的面料成本使得其价格更具竞争力, 吸引了更多消费者的目光。在追求高性能和品质的同时, 消费者也更加注重性价比, 这使得价格成为影响购买决策的重要因素。2.销售增长潜力: 价格优势有助于吸引更多的消费者, 促进销售增长。特别是在国内户外运动品牌的量产化优势下, 产品的生产成本得到了有效控制, 进一步提升了其在市场上的竞争力和销售潜力。随着销量的增长, 产品在市场上的知名度和影响力也将逐步提升。3.品牌溢价空间: 尽管价格有所降低, 但产品的品质和性能并未受到影响。采用先进技术和环保材料, 依然体现了企业对品质的追求和对环保的关注, 这为产品赋予了一定的品牌溢价空间。消费者愿意为品质和环保付出更高的价格, 因此产品在保持价格优势的同时, 也有望实现更高的利润率。4.市场份额扩大: 价格优势使得产品更容易进入市场, 并吸引更多消费者的选择。通过不断提升产品的品质和服务, 积极开拓市场, 逐步扩大市场份额, 成为行业中的领先品牌, 进一步提升了企业的商业价值和市场地位。

**Design Value:** 1. Functional Design: Using "Massa membrane" composite fabric, it possesses outstanding waterproof and breathable performance, coupled with full-pressure adhesive technology, effectively preventing wind and rain, suitable for outdoor activities under harsh weather conditions. 2. Environmental Material Selection: The fabric adopts recyclable polyester Oxford cloth with fluorine-free waterproofing technology, conforming to the green environmental concept, embodying the design concept of sustainable development. 3. Color Design: The combination of lake blue and orange not only enhances the visual appeal of the product but also improves visibility in outdoor environments, enhancing safety. 4. Comfort and Durability: The design considers the wearer's comfort and durability, while also possessing high color fastness and abrasion resistance, suitable for prolonged outdoor wear in various scenarios.

**Social Value:** 1. Safety Assurance and Rescue Efficiency Improvement: This assault jacket design considers the safety requirements of outdoor work environments, providing reliable protection, which is significant for outdoor workers, rescuers, etc. Using digital 3D modeling methods for design makes the product more ergonomic, enhancing wearing comfort and mobility, thus improving rescue efficiency, providing strong support for emergency rescue work. 2. Environmental Awareness and Sustainable Development: The product uses digital 3D modeling methods in the design phase, not only improving design efficiency and accuracy but also reducing the consumption of raw materials in traditional design processes, reflecting effective resource utilization and environmental protection. At the same time, the use of green environmental materials and processes reduces negative environmental impacts, promoting social sustainable development. The dissemination and practice of this environmental awareness.

**Business Value:** 1. Market Competitive Advantage: Price advantage is a major highlight of this product. Unique technology reduces fabric costs by 20%, making its price more competitive and attracting more consumers' attention. While pursuing high performance and quality, consumers also pay more attention to cost-effectiveness, making price an important factor affecting purchasing decisions. 2. Sales Growth Potential: Price advantage helps attract more consumers and promote sales growth. Especially under the mass production advantage of domestic outdoor sports brands, the production cost of the product has been effectively controlled, further enhancing its competitiveness and sales potential in the market. With the growth of sales, the product's visibility and influence in the market will also gradually increase. 3. Brand Premium Space: Despite the price reduction, the quality and performance of the product remain unaffected. The use of advanced technology and environmentally friendly.

## 铝镁合金商旅箱 ALUMINUM MAGNESIUM ALLOY BUSINESS SUITCASE

设计师 Designer:

李建锋 Lee

企业名称: 贵州铭恒新材料有限公司  
GUIZHOU MINGHENG NEW MATERIALS CO., LTD  
联系人: 李建锋 LEE  
手机: 13826483713  
邮箱: GZGM@MINGHENG-GROUP.COM

产品外观采用极简主义设计风格,独创的平顶结构和内置固定工艺最大化保留了产品外观的整洁自信,自主研发设计中框的E型非对称结构有效解决了产品承重力学问题,通过材料选择和工程参数调整有效解决了前盖板非连续冲压条纹的内应力不平衡问题。PUKI产品采用铝镁合金材质和一体成型技术,最大限度提升产品质感和设计空间。采用侧面开启结构和阻尼转轴设计,最大限度提升收纳空间和物品取放的便捷性。采用储物功能分区设计,致力于商旅活动过程中的隐私保护。

产品采用水性漆旋杯静电吸附表面处理技术工艺设计,在确保表面处理质量的同时,有效解决了阳极氧化等常规表面处理技术工艺所带来的环境影响问题,树立绿色工业智造的环境友好形象。

PUKI产品追求优质的产品和极致的体验,无论是配件还是成品,PUKI产品都严格根据质量标准和环境标准进行检测。PUKI商旅箱通过了中华人民共和国国家皮革制品质量检测中心全系列严苛检测(QB/T 2155-2018),生产使用的水性漆通过了中华人民共和国国家标准 GB 6675.4-2014、国际通标 SGS US EPA 5021A:2003 和必维检验 BUREAU VERITA US EPA 3050B/3051/3052等多项国内外权威环保安全检测。运营方面国内采取直销和定制的方式,国外主要是经销和自营的模式。

The appearance of the product adopts a minimalist design style, and the original flat-top structure and built-in fixed process maximize the neatness of the product appearance. The E-type asymmetric structure of the frame independently developed and designed effectively solves the problem of load-bearing mechanics of the product, and the internal stress imbalance of the non-continuous stamping stripes of the front cover plate is effectively solved through material selection and engineering parameter adjustment. PUKI uses aluminum-magnesium alloy material and integrated molding technology to maximize product texture and design space. The Hovering switch structure and damping rotating shaft design are adopted to maximize the storage space and the convenience of picking and placing items. It adopts storage function partition design and is committed to privacy protection in the process of business travel activities.

The use of water-based paint spin cup electrostatic adsorption surface treatment technology process design, while ensuring the quality of surface treatment, effectively solves the environmental impact caused by conventional surface treatment technologies such as anodizing, and establishes an environmentally friendly image of green industrial products.

PUKI pursues high-quality products and ultimate experience. Whether it is accessories or finished products, PUKI brand products are strictly tested in accordance with quality standards and environmental standards. PUKI Business Travel Box has passed the rigorous testing (QB/T 2155-2018) of the National Leather Products Quality Inspection Center of PRC, and the water-based paint used in the production has passed the national standard of PRC GB 6675.4-2014, SGS US EPA 5021A:2003 and BUREAU VERITA US EPA 3050B/3051/3052. In terms of operation, domestic direct sales and customization are adopted, and foreign countries are mainly distribution and self-operated models.

面料方面, 我们选择了日本东丽公司的防水透湿TORAY DERMIZAX ECOSPEC再生面料, 它不仅具有优异的防雨排水能力, 还能有效透气排湿, 即使在湿冷复杂的天气中也能保持舒适。此外, 面料还具备了防风保暖的特性, 绗缝采用压胶设计, 进一步提升了防风防水能力, 满足消费者在不同场景下的穿着需求。

填充方面, 我们使用了SAMSUNG REWARDOWN, 这种高质量的羽绒, 结合可再生尼龙纤维胆料, 为穿着者提供了既轻盈又保暖的体验。而所有的缝纫线则采用了COATS公司的环保纱线, 从面料到填充, 从拉链到缝纫线, 每一个部件, 我们都坚持使用环保再生材料, 旨在促进低碳节能, 对可持续发展作出贡献。

最具创新性的设计在于, 与YKK联合开发的双向闪脱拉链, 不仅优化了日常穿着的便利性, 更在紧急情况下能达到极快速度的脱离, 为穿着者提供了额外的安全保障。这一点对于经常户外活动、探险的朋友们尤其重要, 无论是衣物被夹住还是拉链卡在脖子上, 都可以快速应对, 确保安全。

In terms of fabric, we chose the waterproof and breathable TORAY DERMIZAX ECOSPEC recycled fabric from Toray, Japan, which not only has excellent rainproof and drainage ability, but also effectively breathes and drains moisture, so that even in wet and cold and complicated weather, it can also remain comfortable. In addition, the fabric also has the characteristics of windproof and warmth, the quilting adopts the design of compression glue to further enhance the windproof and waterproof ability, to meet the needs of consumers in different scenarios of wearing.

For filling, we use SAMSUNG REWARDOWN, a high-quality down that, combined with renewable nylon fiber guts, provides the wearer with an experience that is both lightweight and warm. All sewing threads, on the other hand, are made of eco-friendly yarns from COATS. From fabrics to fillings, from zippers to sewing threads, we insist on using eco-friendly and recycled materials for every component, aiming to promote low-carbon and energy-saving, and contributing to sustainable development.

The most innovative design lies in the two-way flash-off zipper jointly developed with YKK, which not only optimizes the convenience of daily wear, but also achieves extremely fast detachment in emergencies, providing extra security for the wearer. This is especially important for those who are often outdoors and exploring, whether the clothing is caught or the zipper is stuck on the neck, you can quickly respond to ensure safety.

这款拉杆箱创新和改进折叠和存储功能, 解决普通行李箱不宜收纳和折叠繁琐的问题。它可以由一个人单手完成折叠, 折叠后只有一本书的厚度。当行李箱不使用时, 它可以快速折叠并且在存储时不会占用太多的空间。不同于市面上别的折叠行李箱, 这款行李箱采用了双拉链的设计, 将主拉隐藏在外侧伸缩拉链下面, 在箱子不实用折叠起来时更方便收纳。

这款行李箱折叠后的包装尺寸厚度比普通的行李箱减少了一半, 在海运装柜时一个柜子能装更多的箱子, 帮客户节省了运费的同时也减少了碳排放更绿色环保。

这款行李箱为客户配置有一套完整的销售物料, 其中包含特制的瓦楞纸盒包装、彩色手提捆带、彩色车缝肩卡、防尘袋等等, 方便客人在销售时展示和宣传。

This suitcase represents innovation and improvement of the folding and storage function, solving the problems of insufficient rigidity, easy deformation, and cumbersome folding that afflict most foldable suitcases on the market. It can be folded by one person or with one hand to the thickness of a book, making it convenient for both storage and carrying. When the suitcase is not in use, it can be quickly folded and stored without occupying much space.

The packaging thickness of this luggage is reduced by half compared to the ordinary luggage, allowing for more luggages to be loaded into one container during sea transportation, saving customers's shipping costs while also reducing carbon emissions and being more environmentally friendly.

This suitcase is equipped with a complete set of sales materials for customers, including special corrugated box packaging, colored hand-held straps, sewing shoulder cards, dust bags, etc., making it convenient for customers to display and promote during sales.

独特的造型设计, 启发于摇篮的外形, 让每一个使用者都能感受到像婴儿般被包围住和被保护的幸福感, 专为舒适度而设计, 这款V形摇篮守护枕用作孕妇和护理枕, 将枕头放在腹部和两腿之间, 为身体提供额外的支撑和舒适度。

这款V形摇篮守护枕同时具备提供矫形支撑和全方位舒适度覆盖, 助力每一位使用者能获得最佳睡眠体验。多种用途, 适用于多种睡姿和场景, 术后恢复时、用作靠背时或是阅读时给与胳膊支撑。

1. 采用纯天然天丝面料和全棉面料制成, 一面让睡眠者在夏天感受清凉, 一面可以在冬季感受温暖。2. 填充物采用了精选再生纤维, 给与足够支撑度的同时也符合绿色产品的发展理念。

Unique design inspired by the shape of the cradle, allowing every user to feel the happiness of being surrounded and protected like a baby. Designed for comfort. This V-Shaped Orthopedic Support Pillow can be used as a pregnancy and care pillow, placing the pillow between the abdomen and legs to provide additional support and comfort for the body.

This V-Shape Cradlecare Pillow provides both orthopedic support and all-round comfort coverage, helping every user achieve the best sleep experience. Used in many different ways. Recovery after surgery and for orthopedic use. Suitable for back support, sleeping in multiple positions. To place it on the back or put it on legs while reading to get support.

1. Made of natural Tencel fabric and cotton fabric, it allows sleepers to feel cool in summer and warm in winter.

2. Selected recycled fibers, providing sufficient support while also adhering to the development concept of green home products.

## 换芯睡眠枕

### CHANGE CORE SLEEP PILLOW

#### 设计师 Designer:

徐思成 Sicheng Xu  
13867188374  
1023610741@qq.com

企业名称: 杭州科晟纺织有限公司  
HANGZHOU KESHENG TEXTILES CO.,LTD.

手机: 13867188374  
邮箱: 1023610741@QQ.COM

本产品是在做了社会调查、市场分析之后而进行升级改造的产品。经过调查发现, 80%以上的人群会有睡眠障碍, 有85%以上的工作人群有颈椎不适。换芯睡眠枕结合了这两大人群, 综合了睡觉时头部和颈椎的高度, 设计出了在颈椎位置可以自行调节睡眠高度的且可以调节硬度的换芯枕。换芯睡眠枕的配套设计有两根换芯棒, 因为每个人颈椎弧度的不同, 消费者可以根据自己颈椎的舒适度去选择不同高度、不同硬度的芯棒, 这能缓解有些人是因为颈椎不适而造成的睡眠质量不高。在市场上大多数枕头是羽绒枕, 也有低反弹枕头, 但这些枕头是受众于大众群体的, 没有考虑到每个人颈椎和睡眠习惯的不同。对比市场上的枕头, 换芯睡眠枕有效的做到升级改进, 既提高睡眠质量, 也能缓解颈椎, 是一款符合人体工学的设计。

换芯睡眠枕的社会价值在于, 真正站在用户的角度上去解决问题, 帮助了睡眠质量不高, 睡眠有障碍的群众, 使得使用群众在睡眠时没有障碍, 从而增多了产品的使用频率, 对环境发展有积极的意义。

换芯睡眠枕的设计是站在用户的角度上去解决问题, 好的产品具有一定的商业价值, 贴合人体工程学的设计会受到群众的喜爱, 可以促进商品的购买力, 从而促进销售。消费者在进入不同的年龄阶段, 颈椎也会发生改变, 而两种不同的芯棒可以随时替换, 这也极大地增加了换芯枕的使用率, 提高产品的使用价值。

This product is to do social research, market analysis and upgrade the product. After the survey found that more than 80% of the population will have sleep disorders, there are more than 85% of the working population have cervical discomfort. The core-changing pillow combines the height of the head and the cervical spine during sleep, and designs a core-changing pillow that can adjust the height of the head and the hardness of the body at the cervical spine position. The matching design of the core-changing pillow has two core-changing rods, because each person's cervical curvature is different, the consumer can choose the core rod of different height and different hardness according to the comfort of their cervical vertebrae, this relieves some people of poor sleep caused by cervical discomfort. Most pillows on the market are down pillows and there are also low-bounce pillows, but these pillows are for the general public and do not take into account everyone's different cervical spine.

The social value of a core-changing sleep pillow lies in the fact that it can truly solve problems from the perspective of the user, helping people who have poor sleep quality and sleep disorders, and making it possible for people who use it to have no obstacles during sleep, thus increasing the frequency of product use, the development of the environment has a positive significance.

The design of the core-changing sleeping pillow is to solve problems from the perspective of the user. Good products have certain commercial value. Ergonomic designs will be loved by the masses and can promote the purchasing power of goods, to promote sales. The cervical spine will change at different ages, and two kinds of core rods can be replaced at any time, which greatly increases the use rate of the core-changing pillow and improves the use value of the product.

## 勃拉姆斯深度睡眠护颈枕 J BRAHMS CRADLECARE PILLOW

### 设计师 Designer:

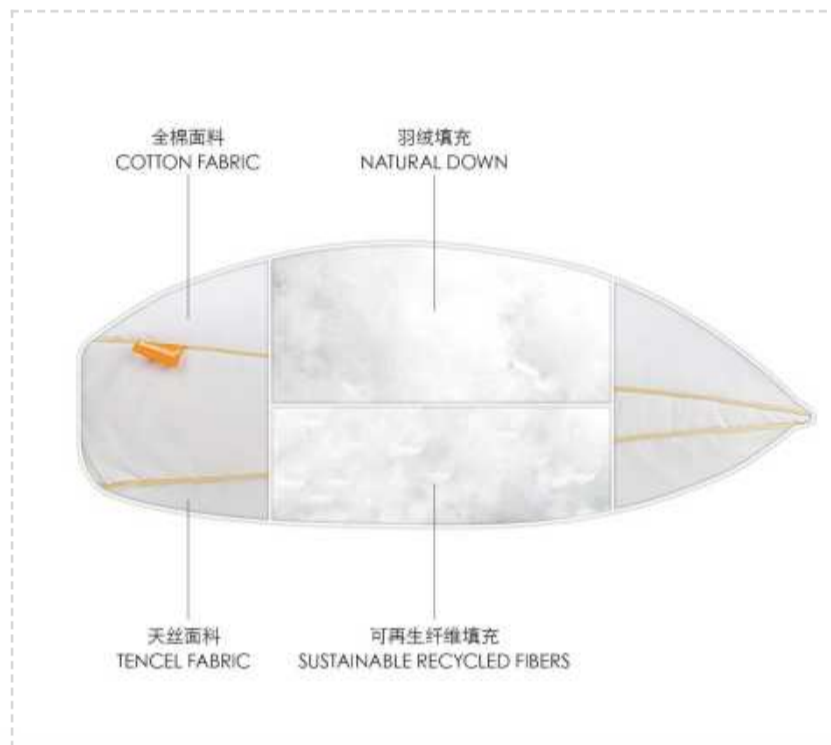

蒋晓杰 XiaoJie Jiang

企业名称: 南京康越进出口有限公司

灵感来源 受到著名作曲家约翰内斯·勃拉姆斯的音乐启发，这款枕头旨在将睡眠提升至艺术境界。正如勃拉姆斯的摇篮曲旋律一百多年以来给人心的抚慰一样，勃拉姆斯深度睡眠护颈枕在保护您颈椎的同时，也为您的夜晚带来无与伦比的舒适与宁静。每个细节都经过精心设计，旨在模仿婴儿摇篮的温柔呵护，为您的睡眠质量和颈椎健康奏响和谐乐章，让使用者享受每晚的深沉睡眠。

产品天然、节能、环保：1.采用优质的全棉和天丝面料制成，亲肤、舒适、透气，四季皆宜 2.填充物采用了精选的羽绒和再生纤维，注重天然的触感，同时秉持对环境的关怀 3.可降解环保包装袋，坚守可持续发展的理念，用心制造健康家居产品。

遵循年轻、中年和老年不同年龄层都适用的原则，这款枕头均可以为颈部提供最佳的支持度。

Inspired by the music of the renowned composer Johannes Brahms, this pillow aims to elevate sleep to an artistic realm. Just like the comforting melodies of Brahms' lullabies have provided solace for over a century, the J Brahms CradleCare Pillow not only protects your cervical spine but also brings unparalleled comfort and tranquility to your nights. Every detail is meticulously designed to mimic the gentle care of a baby's cradle, creating a harmonious symphony for your sleep experience and neck health, allowing everyone to enjoy the deep sleep.

1. Made from premium cotton and Tencel, J Brahms CradleCare Pillow combines the features of fabric skin-friendly, comfortable and breathable all in one, suitable for all seasons. 2. The filling consists of carefully selected down and recycled fibers, emphasizing a natural feel while adhering to environmental considerations. 3. Biodegradable eco-friendly packaging upholds the commitment to sustainable development. Working to create a better healthy home product for you.

Follow the principle of being suitable for different age groups including young, middle-aged, and elderly, this neck pillow can provide the best support for the neck.

这款舒棉绒镂空地毯是以紧密的线条排列组成，通过线条的精巧排列和图案演绎，使得产品呈现出独特的艺术魅力，为居住者带来舒适与美感的体验。

设计的灵感来源于自然的山，本意是想让人们更多的亲近自然，从而与自然和谐相处。

此产品所选面料舒适柔软，结合镂空工艺使其紧密而又透气，触感柔软，保温效果好，铺设在茶几下不仅能够起到美观的作用，同时还能够保护我们的双脚，给人以舒适感。此外，这款地毯经久耐用，锁边精致，兼顾实用与美观。

This hollow carpet is composed of close lines. Through the exquisite arrangement of lines and pattern interpretation, the product presents a unique artistic charm, bringing comfortable and aesthetic experience to the residents.

The inspiration of the design comes from the natural mountains, and the original intention is to make people more close to nature, so as to live in harmony with nature.

The selected fabric of this product is comfortable and soft, combined with the hollow technology to make it close and breathable, soft touch, good insulation effect. Lay under the tea table can not only play a beautiful role, but also protect our feet, giving people a sense of comfort. In addition, this carpet is durable, exquisite edge, both practical and beautiful.

在人类消耗自然资源、制造大量产品使得全球经济高速发展的同时,生态环境也随之日益恶化。为了保护生态环境、充分利用资源、保护人类健康、实现人与自然和谐发展的目标,人们正在推行“循环经济”,而与之相适应而产生的循环设计也受到了人们的普遍关注。人们在生活的方方面面都时刻注意这种绿色环保意识,图案亦是如此。通过图案的循环以此来加深人们对于环境问题的认识,要保持加强生态环境保护建设的定力,不动摇、不松劲、不开口子。

在工艺上采用了镂空的设计,透气感更强,材料上选择了可循环使用可清洗的材料,达到经久耐用的目的。

地毯边缘采用锁边工艺,干净整洁,底背则是灰白格底背,经久耐用。

While human beings consume natural resources and manufacture a large number of products due to the rapid development of the global economy, the ecological environment is also deteriorating day by day. In order to protect the ecological environment and make full use of resources, protect human health, and achieve the goal of harmonious development of man and nature, people are carrying out the "circular economy", and the circular design adapted to it has also been people's general attention. People always pay attention to this green environmental awareness in all aspects of life, so is the pattern. Through the circulation of patterns to deepen people's understanding of environmental problems, to strengthen the ecological environment protection construction, do not waver, do not relax, do not open.

In the process of the hollow out of the design, breathable sense is stronger, the material selection of recyclable and washable materials to achieve the purpose of durability.

Carpet edge is locked, it is clean and tidy. The backing is canvas and very durable.

手机: 13465709837  
邮箱: SCB@HL0806.COM

生物可降解胶带采用山东恒联新材料股份有限公司领创的胶带专用纤维素膜作为基材,涂覆环保型水性压敏胶制作而成,具有100%生物全降解的特性,是石油基类胶带制品理想的替代升级产品,有效缓解石油基类胶带制品带来的“白色污染”问题以及包装纸箱回收时封箱胶带分拣难题。

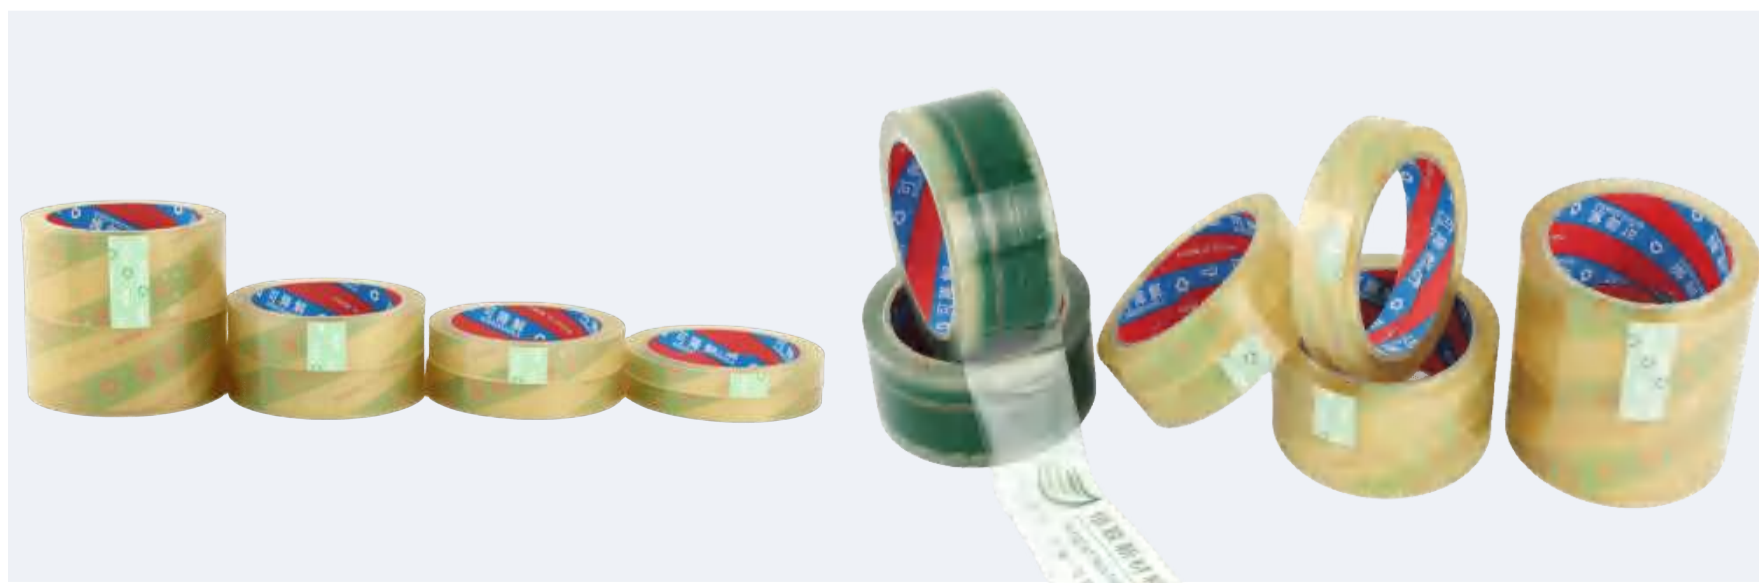

获得德国DIN可降解堆肥认证,具有卓越的生物降解性能,可在土壤、海洋等自然环境中100%完全降解,不会对环境造成任何污染,是化石基材料理想的替代升级产品,有效遏制“白色污染”问题。

具有全降解、真环保、更低碳、高透明、易撕裂、无静电、低噪音、耐高温、粘性强、强拉力、透气性、可书写、长保质、可彩印等特性。广泛应用于快递物流包装、封箱包装、特种粘接、办公用品、家居生活、手工制作、物品包装等众多领域。

The biodegradable tape is made of the cellulose film of the tape led by Shandong Henglian New Materials Co., Ltd. as the base material, coated with environmentally friendly water-based pressure-sensitive adhesive, which has the characteristics of 100% biodegradability, and is an ideal alternative and upgraded product for petroleum-based tape products, effectively alleviating the "white pollution" problem caused by petroleum-based tape products and the problem of sealing tape sorting when packaging carton recycling.

It has obtained the German DIN degradable compost certification, has excellent biodegradable performance, can be 100% completely degradable in the natural environment such as soil and ocean, and will not cause any pollution to the environment.

It has the characteristics of full degradation, true environmental protection, lower carbon, high transparency, easy tearing, no static electricity, low noise, high temperature resistance, strong viscosity, strong tensile force, air permeability, writable, long shelf life, color printing and so on. It is widely used in express logistics packaging, sealing packaging, special bonding, office supplies, home life, handicraft, item packaging and many other fields.

按动钢笔  
PRESS THE PEN

设计师 Designer:  
王元程 Philip

企业名称：青岛点石文具用品有限公司

联系人：季翠华 CINDY  
手机：18661856987  
邮箱：CINDY.JI@BETTERHONESTY.COM

点石自主创新研发的新型按动结构，颠覆传统钢笔拔帽结构，通过按动式设计实现露出笔尖进行书写，单手操作，使用方便。无论是普通用户还是手部不便的特殊人群都可轻松使用。钢笔整体多达20个部件配合联动，保证即使在整笔长度14 cm、直径1.2 cm的狭小空间内按动，也可以顺畅自如伸缩笔尖。点石自主研发了独特的防漏气、防干墨的开合式气密封系统。既可通过上下按动来驱动密封机构的阀门顺畅开合，避免笔尖干墨漏墨；又能够容纳较粗部件，使钢笔直径在1.2cm以内，粗细适中，更加符合人体工学，适合初学者使用。

全新的具有可调节出墨的新型笔舌系统，具有优良的引墨功能和可靠的抗漏性，通过精密出墨调节器，精准控制墨量输出，提高墨水利用率，出墨均匀。即使在日常携带中受到强力颠簸，也能保证钢笔不漏墨、不溅墨。点石一直倡导低噪声笔，文明书写的理念，因此我们研发了按动静音结构，按动时笔内的转轮按照预设角度进行旋转来实现笔芯的伸缩，确保不会撞击其他部件，可以在按动时保持静音状态，即使在图书馆、考场等安静环境中也可以随意不打扰别人。

点石按动钢笔是第一款专为小学生和初学者设计的机械式、细长的钢笔，它融合了多项先进技术，采用高技术标准，从多维度提升用户体验，同时推动钢笔品类升级。

This newly designed mechanical fountain pen exposes the nib for writing through the push-button structure, changing the traditional pen pulling-cap structure and enabling one-handed operation, which is convenient for regular users or those with a hand defect. The pen has up to 20 parts working together inside the 14 cm-long and 1.2 cm-in-diameter slim body to push or retract the push button to expose the nib smoothly. Best Point has self-developed a unique open and close airtight sealing system that can prevent air leakage and dry ink. This system enables users to push the top button to open and close the valve of the pen's airtight structure to avoid dry ink or ink leakage at the nib. Besides, the pen body can also accommodate thicker parts to ensure the pen diameter is within 1.2cm, a moderate thickness, which is more ergonomic to make the pen suitable for beginners.

The new ink feed channel system that can regulate ink discharge ensures good ink discharge and reliable leakage resistance. With a precise ink discharge regulator, the pen can precisely control even ink discharge volume to improve ink utilization. Besides, it ensures no ink splash/leakage even after being tossed about in daily carrying. Best Point has always advocated the idea of low-noise pens & no disturbing. Therefore, we have developed a push-button mute structure to make the wheel in the pen body rotate according to the preset angle to stretch or retract the cartridge and ensure it will not hit other parts, achieving a silent effect when pressing. Even in quiet environments such as libraries and examination halls, users can freely use without disturbing others.

Best Point retractable fountain pen is the first mechanical and slimmest one that designed for primary school students and beginners. It integrates multiple advanced technologies, embracing high technical standards. It improves the user experience from various dimensions while promoting the upgrading of pen categories.

## 欧铂纳

### OMBRA

#### 设计师 Designer:

叶问超 Simon

Ombra是一款帮助人们全年365×24h享受户外生活的智能遮阳棚。它采用了集成电控系统，智能控制内置的空调、百叶、遮阳帘、水雾、灯光系统，使用便捷。它还搭载了太阳能和储能系统，能使用太阳能供电，为用户解决户外生活所要面临的能源供给不足问题以及各种气温变化问题。正面以流星为设计灵感的灯光幕墙，使Ombra成为环境中最引人注目的焦点。

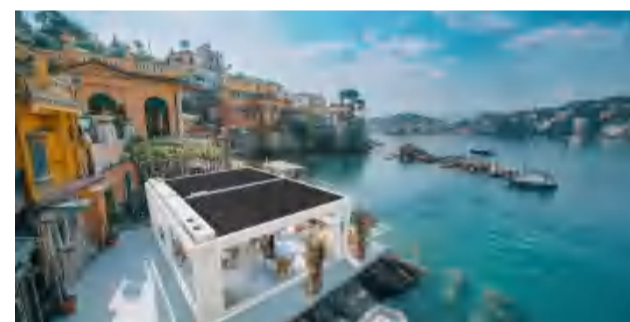

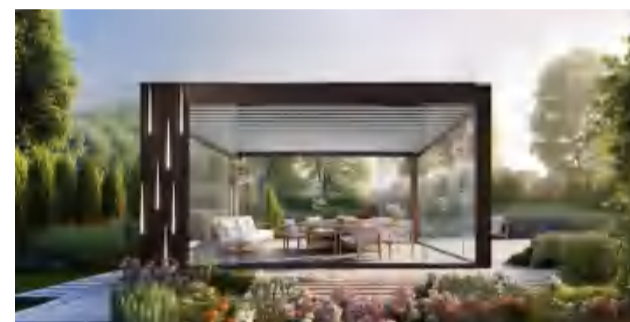

Ombra能在个人花园或公共场所为用户提供一个舒适的生活办公、休闲娱乐的模块化独立空间。顶部太阳能百叶结合高效储能中心，日发电量约15度，有效解决了户外生活所要面临的能源供给不足问题。120°自动化翻转百叶屋顶和恒温调湿系统等技术，解决了户外生活所面临的各种气温变化问题。在无边界的视野环境中，用户可以不受气候变更影响，在任何时间内身处其中，享受与大自然共处，在带来舒适体验的同时也扩大了人们的生活空间。

在设计上，Ombra遵循几何比例，将所有功能部件模块化，通过金属与玻璃的自由组合，搭建出一个具有简约时尚的外观。满足家用和商用等不同使用场景。作为一款高端产品，Ombra专注于每一处细节，希望为用户带来最舒适高端的户外生活体验。Ombra的模块化设计使它能按每个客户的需求单独定制尺寸和功能，从而满足不同的使用场所。而框架由铝制型材和金属零件连接构成，框架部分能抵抗12级风力。表面覆盖优质的粉末涂层，拥有极高的材料强度和耐候性能，在户外使用年限达到10年以上。

Ombra is a smart awning that helps people enjoy outdoor life 24 hours a day, 365 days a year. It adopts an integrated electronic control system to control the built-in air conditioning, blinds, sun blinds, water mist, and lighting system, which is convenient to use. It is also equipped with solar energy and energy storage systems, which can be powered by solar energy, it solves the problem of insufficient energy supply and various temperature changes faced by users in outdoor life. The light curtain wall on the front is inspired by shooting stars, making Ombra the most eye-catching focus in the environment.

Ombra can provide users with a comfortable modular independent space for living, working, leisure and entertainment. The top louvers equipped with solar panels, that combined with a high-efficiency energy storage center. They can generate about 15 kilowatt hours of electricity per day, effectively solving the problem of insufficient energy supply faced of outdoor living. Technologies such as the 120° automatic flipping louver roof and constant temperature and humidity control system solve various temperature change problems faced by outdoor life. It not only brings comfortable experience, but also expands people's living space.

In terms of design, Ombra follows geometric proportions, modularizes all functional components, and builds a simple and stylish appearance through the free combination of metal and glass, so as to meet different usage scenarios such as home and commercial use. As a high-end product, Ombra focuses on every detail and hopes to bring users the most comfortable and high-end outdoor life experience. Ombra's modular design allows it to be individually customized in size and function according to each customer's needs to meet different usage locations. The frame is composed of aluminum profiles and metal parts, and the frame part can withstand wind force of level 12. The surface is covered with high-quality powder coating, which has extremely high material strength and weather resistance, and has an outdoor use life of more than 10 years.

两侧PVC气筒, 搭配8厘米厚的拉丝衬板更好的还原皮划艇的形状。底板上的EVA表面做压纹, 有较好的防滑效果, 增加使用的安全性。多把手设计, 多人提取的选择更多向, 且省力。头尾双弹力绳的设计, 增加板面的储物空间。

一物多用, 赋予更多元的玩乐体验。一个产品, 多种使用方式, 将产品性价比发挥到极致。三个独立气室: 两侧双气室+底板小气室; 增加水上使用的安全性, 当两侧气室被意外刺穿时, 底板仍然能为玩者提供续航支撑。三种滑行方式: 皮划艇、桨板、趴板。总有一种能让你体验到水上运动的乐趣。

两个可拆卸中心尾鳍, 使滑行更稳, 对新手玩家更为友好。综合桨板的尺寸和KAYAK的客载量, 将两者优点巧妙结合。

2 side PVC TUB chambers which is paired with an 8cm drop-stitch floor mat pad, better restore the shape of the kayak. The surface of EVA that on the floor mat pad is embossed, which has a good anti-slip effect and increases the safety of use. Multi-handle designed, multi-person extraction options are more directional and labor-saving. The design of double bungee ropes at the head and tail increases the storage space of the board.

Multiple use of one thing, giving more diverse play experience. One product, a variety of ways to use, the product cost-effective play to the extreme. Three independent air chambers: double air chambers on both sides + bottom floor cheap room; Increase the safety of water use, when the two sides of the air chamber is accidentally punctured, the bottom plate can still provide endurance support for the player. Three ways to glide: Kayaking, paddle boarding, and planking. There is always a way to experience the fun of water sports.

Two detachable center fins for a more stable glide and friendliness for novice players. The combination of the size of the SUP and the passenger capacity of the KAYAK combines the best of both worlds.

## VITA Pro 多功能健发梳

### VITA PRO MULTI-FUNCTION HAIR CARE COMB

多功能健发梳代表着发际线健康的突破性理念,它不仅仅是一把梳子,而是一件创新科技的杰作。这一理念源自对头发和头皮护理的深度思考,旨在为用户提供极佳的头发生长体验。它以精妙的设计和高科技元素的完美融合而闻名。其不锈钢梳针呈矩阵排列,增加梳理的阻尼感。圆润无缝的梳尖温柔呵护头发和头皮,宽梳齿设计增加头皮接触面积,梳齿面弧度设计更贴合头皮,确保最佳护理效果。拥有多种功能,包括EMS+震动功能,可减轻头部疲劳。它还搭载了4颗激光和12颗LED,穿插分布式排列,确保灯光更加均匀。负离子养护使秀发更加顺滑亮泽,而IPX6防水设计保证了产品的易清洁性。磁吸式梳齿盘,易拆卸清洁。

多功能健发梳梳身采用环保ABS材质,梳针采用不锈钢材质,环保,对人体无害。按键电镀金雕防滑纹理,确保您能轻松掌握操作。梳齿垫可轻松分离,便于经常用水清洁残留断发,让梳齿始终洁净如新。同时,硅胶梳皮随力度变换自然跟随头部轮廓,确保了舒适的梳发体验。

多功能健发梳在市场上独树一帜。其创新的梳头设计以及负离子和激光的组合,为用户提供了前所未有的护发体验。不仅如此,硅胶梳皮随力度变换自然跟随头部轮廓,让您在梳发过程中获得舒适的享受。

The Multi-function Hair Care Brush represents a breakthrough concept for hairline health. It is not just a comb, but a masterpiece of innovative technology. This concept comes from deep thinking about hair and scalp care, aiming to provide users with an excellent hair growth experience. It is known for its exquisite design and perfect fusion of high-tech elements. Its stainless steel comb pins are arranged in a matrix to increase the damping feeling of combing. The rounded and seamless comb tip gently cares for the hair and scalp, the wide comb tooth design increases the contact area of the scalp, and the curved design of the comb tooth surface fits the scalp better to ensure the best care effect. It has multiple functions, including EMS+ vibration function, which can reduce head fatigue. It is also equipped with 4 lasers and 12 LEDs, which are interspersed and distributed to ensure more uniform lighting. Negative ion care makes hair smoother and shinier, and the IPX6 waterproof.

The multifunctional hair care comb body is made of environmentally friendly ABS material, and the comb needles are made of stainless steel, which is environmentally friendly and harmless to the human body. The gold-plated textured buttons make operating simple. The comb teeth pad is simply detachable, making it simple to keep the comb teeth clean and fresh on a frequent basis. Furthermore, the silicone comb skin conforms to the shapes of the head for a comfortable grooming experience.

The Multifunctional hair care comb stands out uniquely in the market. Its innovative comb head design, combined with negative ions and lasers, provides users with an unprecedented hair care experience. Furthermore, the silicone comb skin adapts naturally to the contours of the head, offering a comfortable grooming experience.

## 石墨烯通体加热睡袋 GRAPHENE BODY HEATING SLEEPING BAG

设计师 Designer:

全球首款通体式石墨烯加热睡袋。通体式概念: 睡袋内部从肩膀到脚底整体发热, 睡袋内部形成360°空间整体升温加热。采用12V3A-4A安全电压直流电供电。

温度控制开关, 高中低三档温度可调, 65°C、55°C、45°C可控。三种供电方式满足不同应用场景。1、12V移动电源(充电宝)户外露营场景; 2、汽车点烟器供电, 自驾旅行场景; 3、12V适配器插头供电, 居家保暖。

重量轻便, 将羽绒睡袋和低压电热毯合二为一。加热系统采用非金属材料, 石墨烯柔性加热布, 其物理性能优势: 电导率超高, 同等加热面积节能80%。每个加热毯耗电量为0.036-0.048度/小时。重量轻薄、抗揉搓、可堆积、可挤压、可水洗、可车缝、加热均匀、受热面积大。因为石墨烯柔性加热布本身轻薄柔软, 所以同比电阻丝、碳纤维类产品, 石墨烯柔性加热布接触身体时不会产生异物感觉, 没有满身电线的感觉, 让使用者感觉一种很神奇很自然的加热温度。同时由于石墨烯是二维分子结构, 形成面性发热, 所以安全性更高, 使用寿命更长。

The world's first all body graphene heated sleeping bag. Whole body concept: The interior of the sleeping bag heats up from the shoulders to the soles of the feet, forming a 360 ° space for overall heating. Using 12V3A-4A safe voltage DC power supply.

Temperature control switch, adjustable for high, medium, and low temperatures, adjustable for 65 °C, 55 °C, and 45 °C. Three power supply methods meet different application scenarios. 1. 12V mobile power supply (power bank) for outdoor camping scenes; 2. Car cigarette lighter power supply, self driving travel scenarios; 3. 12V adapter plug power supply, keep warm at home.

Lightweight, combining a down sleeping bag with a low-voltage electric blanket. The heating system adopts non-metallic materials and graphene flexible heating cloth, which has physical performance advantages such as ultra-high conductivity and energy saving of 80% for the same heating area. Each heating blanket consumes 0.036-0.048 kWh of electricity. Lightweight, anti rubbing, stackable, compressible, washable, sewable, evenly heated, with a large heating area.

极具海滩休闲风格的户外家具，S型扶手设计来源于海浪；模块化设计，可以随意拼接的座位单元，同时可加载遮阳档和边几；加厚铝合金框架抗冲击、抗腐蚀，更加耐用；美观的彩条座垫可以烘托氛围，采用回收面料，具有抗紫外线耐脏等性能，方便保养清洁；

外套腈纶面料由回收边角料制成，减少资源浪费且具有极佳的耐候性能与抗紫外线性能；框架由回收金属制成；

加厚铝材框架，让产品更耐久。模块化设计，可便捷组合，适用于各种场景和空间；

Outdoor furniture with a beach casual style, the S-shaped armrest design comes from the waves; Modular design, seat units can be assembled at will, and sunshades and side tables can be loaded at the same time; The thickened aluminum alloy frame is impact-resistant, corrosion-resistant and more durable; The beautiful color-stripped seat cushion can enhance the atmosphere, and it is made of UV-resistant and stain-resistant fabric for easy maintenance and cleaning.

Its outer cover is made from recycled nylon fabric, which minimizes resource wastage while offering excellent weather resistance and UV protection. The frame is constructed from recycled metal.

Thickened aluminum frame makes the product more durable; Modular design, easy to combine, suitable for various scenes and spaces.

## 毛毡瓦楞纸组合猫窝

### FELT CORRUGATED PAPER COMBINATION CAT NEST

设计师 Designer:

李玉婷 Lydia

灵感来源于天幕帐篷，天幕是一种人类露营是用的遮阳用具，方便组装和收纳；这个产品也是运用了毛毡部分来模仿天目的结构和用途，方便组装，形成一个可遮挡的顶棚，给猫形成了一个比较封闭的猫窝，而大多数猫咪正是很喜欢躲在封闭的空间里，同时还可以观察外面和主人有一定的眼神交流和简单互动。

通过材料特性的运用，呈现出想要的效果，并且满足猫的使用需求的产品；1.运用毛毡来实现天幕拱起的结构。2.用瓦楞纸做为产品的主体。3.运用螺丝固定、形成一个天幕的结构。4.包装省体积、组装简易。

材料的选择满足猫的喜好；1.猫咪喜欢用瓦楞纸品磨爪，也喜欢原生纸浆的自然气味。2.毛毡的软硬适中很受猫喜欢，并且耐磨耐咬。产品主材料均为环保材料。1.瓦楞纸是用植物纤维和植物胶为原料制作而成，对宠物无害。2.毛毡是一种由废弃物或废旧纤维制成的再生材料其制造过程通常不涉及化学物质或有害物质的因此，毛毡具有一定的环保特性。此外，在生产过程中，毛毡可以通过循环利用回收废料来进一步降低对环境的影响。

组装图

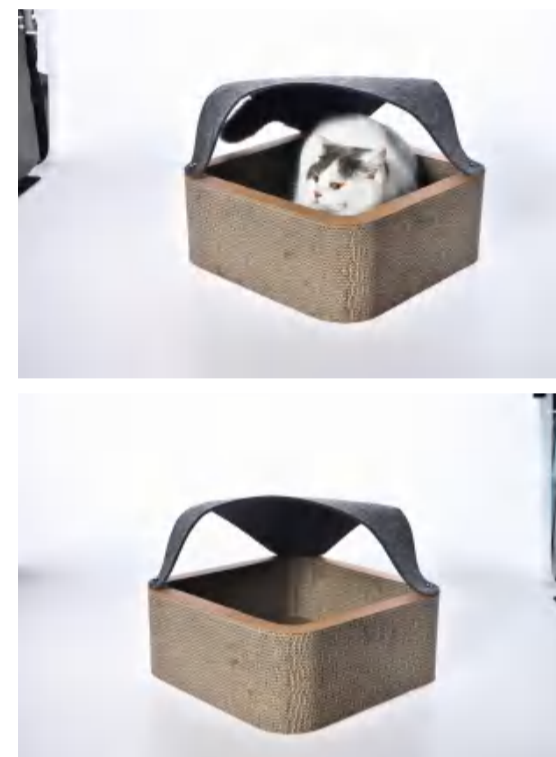

Inspired by the canopy tent, the canopy is a kind of human camping is used to shade the sun, easy to assemble and store; This product also uses the felt part to imitate the structure and use of the natural purpose, which is convenient to assemble and form a sheltered ceiling, forming a relatively closed cat nest for the cat, while most cats like to hide in the closed space, and at the same time, they can observe the outside and have some eye contact and simple interaction with the owner.

Products that show the desired effect and meet the needs of cats through the use of material characteristics; 1.Using felt to achieve the arch structure of the canopy. 2.Use corrugated as the main body of the product. 3. Use screws to fix and form a canopy structure. 4. Can Packaging saves volume and easy assembly.

The choice of material satisfies the cat's pleasure. 1. Cats love sharpening their claws with corrugated paper and the natural smell of raw pulp. 2. The moderate hardness of felt is very popular with cats, and wear resistance and bite resistance. The main materials of the products are environmentally friendly materials. 1. Corrugated paper is made of plant fiber and plant glue as raw materials, which is harmless to pets. Felt is a kind of recycled material made from waste or waste fiber, and its manufacturing process usually does not involve chemicals or harmful substances. Therefore, felt has certain environmental protection characteristics. In addition, during the production process, felt can further reduce its environmental impact by recycling recycled waste materials.
